TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A–1698]

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 11 for the establishment of price classifications and minimum prices for certain mines.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 11; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 331.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the attached Schedule marked Supplement T are based upon the price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and reflect the changes, if any, made in minimum prices by the Acting Director's order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21.

Dated: November 10, 1942.

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 11 for the establishment of price classifications and minimum prices for coals of the Panhandle No. 2 Mine of the Bicknell Coal Company.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Panhandle No. 2 Mine, Mine Index No. 1355, of the Bicknell Coal Company, in Price Group 7 in District No. 11; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 331.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 331.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Chapter VI—Selective Service System

[Amendment 84, 2d Ed.]

Part 611—Duty and Responsibility to Register

MEMBERS OF COAST GUARD RESERVE

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend paragraph (c) of § 611.1[2] to read as follows:

§ 611.1 *Duty to be registered.* * * *

(c) The Coast Guard Auxiliary and Reserve Act of 1941, as amended, added a group of men to those not required to be registered so long as they have a certain status. The applicable portions of that act read:

> 208. Members of the (Coast Guard) Reserve, other than temporary members as provided for in section 207 hereof, shall receive the same exemption from registration and liability for training and service as members of the Naval Reserve * * *.
>
> 207. The Commandant, with the approval of the Secretary of the Treasury or of the Secretary of the Navy, while the Coast Guard is operating as a part of the Navy, is hereby authorized to enroll as temporary members of the Reserve, for duty under such conditions as he may prescribe, including but not limited to part-time and intermittent active duty with or without pay, and without regard to age, members of the Auxiliary, such officers and members of the crew of any motorboat or yacht placed at the disposal of the Coast Guard, and such men who by reason of their special training and experience are deemed by the Commandant to be qualified for such duty, as are citizens of the United States or of its Territories or possessions, except the Philippine Islands * * *.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

CERTAIN CLASSES OF DEFERMENT

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by deleting § 622.16[1] in its entirety.

2. Amend the regulations by adding a new section to be known as § 622.25 to read as follows:

§ 622.25 *Class II-C: Man deferred by reason of his agricultural occupation or endeavor.* (a) In Class II-C shall be placed any registrant who is found to be necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort.

(b) A registrant placed in Class II-C shall be retained in that class so long as he is necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort and until a satisfactory replacement in such agricultural occupation or agricultural endeavor can be obtained.

(c) When a registrant in Class II-C leaves an agricultural occupation or an agricultural endeavor essential to the war effort he shall be reclassified in Class I-A, Class I-A-O, or Class IV-E unless before leaving such agricultural occupation or agricultural endeavor he requests a determination and a determination is made that it is in the best interest of the war effort for him to leave such agricultural occupation or agricultural endeavor for other work.

(d) Any registrant in Class II-C may file with his local board a written request for a determination required under paragraph (c) of this section. When the registrant's board has made a determination upon such request, it shall advise him thereof in writing.

3. Amend the regulations by adding a new section to be known as § 622.31-2 to read as follows:

§ 622.31-2 *Class III-C: Man deferred both by reason of dependency and agricultural occupation or endeavor.* (a) In Class III-C shall be placed any registrant who is deferred by reason of dependency and who is found to be necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort.

(b) A registrant placed in Class III-C shall be retained in that class so long as he is necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort and until a satisfactory replacement in such agricultural occupation or agricultural endeavor can be obtained: *Provided,* That he continues to be entitled to deferment by reason of dependency.

(c) When a registrant in Class III-C leaves an agricultural occupation or an agricultural endeavor essential to the war effort he shall be reclassified in Class I-A, Class I-A-O, or Class IV-E unless before leaving such agricultural occupation or agricultural endeavor he requests a determination and a determination is made that it is in the best interest of the war effort for him to leave such agricultural occupation or agricultural endeavor for other work.

(d) Any registrant in Class III-C may file with his local board a written request for a determination required under paragraph (c) of this section. When his local board has made a determination upon such request, it shall advise the registrant thereof in writing.

4. Amend § 622.41 to read as follows:

§ 622.41 *Class IV-A: Man deferred by reason of age.* In Class IV-A shall be placed every registrant liable for training and service who has attained the 45th anniversary of the day of his birth without having been inducted into the armed forces for training and service under the provisions of the Selective Training and Service Act of 1940, as amended; provided that any such registrant may file with his local board a written request that he be inducted, and if he does so, but not otherwise, he may be inducted.

5. Amend the regulations by deleting § 622.53 in its entirety.

6 The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

1. Amend paragraphs (a) and (d) of § 623.61[1] to read as follows:

§ 623.61 *Classification and change of classification.* (a) As soon as practicable after the local board has classified or changed the classification of a registrant, it shall mail a notice thereof on a Notice of Classification (Form 57) to the registrant. (The date on which the deferment of the registrant terminates will be shown if he is classified in Class II-A or Class II-B). At the same time, it shall mail a Classification Advice (Form 59) to the following:

(1) Every person whose signed Affidavit-Occupational Classification (General) (Form 42) or Affidavit-Occupational Classification (Industrial) (Form 42A) is on file in the registrant's Cover Sheet (Form 53);

(2) Every person whose signed Affidavit of Dependent Over 18 Years of Age (Form 40A) is on file in the registrant's Cover Sheet (Form 53); and

(3) Any other person authorized to request the reopening of the registrant's classification under the provisions of § 626.2 and whose request that the registrant's classification be reopened is on file in the registrant's Cover Sheet (Form 53).

* * * * *

(d) When the Notice of Classification (Form 57) or Classification Advice (Form 59) is mailed, the date of mailing such notice shall be entered on the Classification Record (Form 100), and, in addition, the date of mailing such notice or advice and the persons to whom they are mailed shall be entered on the Selective Service Questionnaire (Form 40).

2. The foregoing amendment to Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 627—APPEAL TO BOARD OF APPEAL

LOCAL BOARD ACTION IN RECLASSIFICATIONS BY BOARD OF APPEAL

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 627.31 to read as follows:

§ 627.31 *Action of local board if board of appeal does not change classification.* If the board of appeal affirms the local board's classification, the local board, upon receiving the file from the board of appeal, shall proceed as follows:

(a) Mail a Notice of Continuance of Classification (Form 58) to the registrant and a Classification Advice (Form 59) to the person who made the appeal, if other than the registrant.

(b) If one or more members of the board of appeal dissented from the determination of that board, the local board shall indicate on such notice and advice the numerical division of the board of appeal.

2. Amend § 627.32 to read as follows:

§ 627.32 *Action of local board if board of appeal changes classification.* If the board of appeal does not affirm the local board's classification, the local board, upon receiving the file from the board of appeal, shall proceed as follows:

(a) Mail a Notice of Classification (Form 57) to the registrant and a Classification Advice (Form 59) to the person who made the appeal, if other than the registrant.

(b) Enter on the Classification Record (Form 100) the date of mailing such notice and advice.

(3) Enter on the Classification Record (Form 100) the board of appeal classification and, with red ink, draw a line through the local board classification.

3. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 627—APPEAL FROM DETERMINATION IN AGRICULTURAL CASES

APPEAL BY REGISTRANT

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C. Sup. 301–318, inclusive: E.O. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by adding a new section to be known as § 627.51 to read as follows:

§ 627.51 *Appeal may be made by registrant from local board's determination in agricultural cases.* (a) When, under the provisions of §§ 622.25 and 622.31–2, a registrant has requested his local board to determine that it is in the best interest of the war effort for him to leave his agricultural occupation or agricultural endeavor essential to the war effort for other work, he may file a written notice of appeal from his local board's determination thereon within ten days from the date the local board mailed notice of such determination.

(b) Immediately upon such an appeal being filed, the local board shall transmit the registrant's file directly to the board of appeal.

(c) When the board of appeal receives the registrant's file, it shall give preference to such appeal, shall make a determination, and shall immediately return the file directly to the local board.

(d) When the local board receives the registrant's file from the board of appeal, it shall notify the registrant of the board of appeal's determination.

2. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 628—APPEAL TO THE PRESIDENT

RETURN OF APPEAL

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 628.6 to read as follows:

§ 628.6 *Procedure of local board when appeal to the President is returned.* When the file of the registrant is received by the local board, it shall:

(a) If the classification of the registrant by the board of appeal has been affirmed, mail a Notice of Continuance of Classification (Form 58) to the registrant and a Classification Advice (Form 59) to the person making the appeal, if other than the registrant;

(b) If the classification of the registrant by the board of appeal has been changed and the registrant has been placed in a different class, mail a Notice of Classification (Form 57) to the registrant and a Classification Advice (Form 59) to the person making the appeal, if other than the registrant;

(c) Enter in the Classification Record (Form 100) the date of the mailing of such notice and advice; and

(d) If the classification of the registrant by the board of appeal has been changed, enter the new clasisfication in the Classification Record (Form 100) and, with red ink, draw a line through the board of appeal classification.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 965—IRON AND STEEL SCRAP

[General Preference Order M–24, as Amended Nov. 19, 1942]

Whereas the national defense requirements have created a shortage of iron and steel scrap for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States to conserve the supply and direct the distribution thereof.

Now, therefore, it is hereby ordered:

§ 965.1 *General Preference Order M–24*—(a) *Definitions.* For the purposes of this order:

(1) "Scrap" means all ferrous materials, either alloyed or unalloyed, of which iron or steel is a principal component, which are the waste of industrial fabrication, or objects that have been discarded on account of obsolescence, failure or other reason.

(2) "Producer" means any person who produces scrap in the conduct of a business or other enterprise.

(3) "Dealer" and/or "broker" means any person who, as principal or as agent, buys and sells scrap in the regular course of his business.

(4) "Consumer" means any person who uses scrap in the production of iron, steel, or ferroalloy material or products.

(b) *Special instructions.* The Director General for Operations may from time to time issue specific directions to any person as to the source, destination, or amount of scrap to be delivered or acquired by such person.

(c) *Inventory restrictions suspended.* Subject to the provisions of paragraph (b), delivery of scrap to, or acceptance of such delivery by a consumer is specifically authorized until further order of the Director General for Operations, without regard to the restrictions set forth in § 944.14 of Priorities Regulation No. 1, as amended.

(d) *Reports.* Producers, dealers, brokers, and consumers, shall file such reports as may be prescribed by the Director General for Operations. Until further notice such reports shall be filed on or before the 10th day of each month, by producers on form PD–149, by brokers and dealers on form PD–151, and by consumers on form PD–150.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 19th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

[Limitation Order L–1–g as Amended Nov. 19, 1942]

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of rubber, steel, chromium, nickel and other critical materials required for the production of truck-trailers for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 976.17 *Supplementary Limitation Order L–1–g*—(a) *Definitions.* For the purposes of this order:

(1) "Truck trailer" means a complete semi-trailer or full trailer designed for the transportation of property or persons, or the chassis therefor, but does not include attachment third-axles, whether dead or power-driven. This paragraph (a) (1) shall take effect December 1, 1942.

(2) "Passenger carrier" means a complete motor or electrical coach for passenger transportation, having a seating capacity of eleven (11) or more persons, or the chassis or body therefor.

(3) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of truck-trailers.

(b) *Prohibition of production of truck-trailers after June 30, 1942.* Except to the extent that production is permitted under paragraph (c) below, effective July 1, 1942, producers of truck-trailers shall not manufacture any such vehicles, irrespective of the provisions of any order heretofore issued by the War Production Board or of the terms of any contract heretofore or hereafter entered into by any such producers.

(c) *Exceptions in favor of War Agencies.* Nothing in this order shall prevent any producer from manufacturing and delivering truck-trailers pursuant to contracts or orders for delivery to or for the account of the following:

(1) The Army or Navy of the United States or the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(2) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and protectorates, and Yugoslavia;

(3) Any agency of the United States Government, for delivery to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act)

(d) *Passenger carrier production under Limitation Order L–101.* As of the date of issue of this order the production of passenger carriers shall in no way be regulated by this order, but shall in all respects be regulated and controlled by General Limitation Order L–101, issued May 21, 1942.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(f) *Reports.* All persons affected by this order, shall execute and file with the War Production Board such report and questionnaires as the Board shall from time to time request. No reports or questionnaires are to be filed by any person until forms therefor are prescribed by the War Production Board.

(g) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal for relief by addressing a letter to the Director General for Operations, Ref.: L–1–g, Washington, D. C., setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(j) *Communications.* All communications concerning this order shall unless otherwise directed, be addressed to: War Production Board, Automotive Branch, Washington, D. C. Ref.: L–1–g.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

[Limitation Order L–1–h as Amended Nov. 19, 1942]

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of heavy motor trucks for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 976.18 *Supplementary Limitation Order L–1–h*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to the provisions of applicable priorities regulations, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern

(1) *Protection of production schedules.* Producers under the terms of this order may, notwithstanding the provisions of Priorities Regulation No. 1 (Part 944), schedule production of heavy trucks (including off-the-highway motor vehicles when produced under this order) without regard to purchase orders or contracts placed with them for other materials on ratings lower than AA–4.

(b) *Definitions.* For the purposes of this order:

(1) "Heavy truck" means a complete motor truck or truck-tractor with a gross vehicle weight rating of 16,000 pounds or more, as authorized by the manufacturer thereof, or the chassis therefor, including off-the-highway motor vehicles.

(2) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

(3) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of heavy trucks and off-the-highway motor vehicles.

(4) "G. V. W. group" means gross vehicle weight classification, as authorized by the producer.

(c) *Production of 4,000 heavy trucks authorized.* Irrespective of the terms of Supplementary General Limitation Order L–1–e, issued April 11, 1942, and in order to replace four thousand (4,000) heavy trucks heretofore or hereafter withdrawn for use by the Army, Navy and Lend-Lease Administration since June 1, 1942, from stocks intended for rationing to civilians under General Conservation Order M–100, the producers named below are hereby authorized to produce during the period from August 1, 1942, to March 31, 1943, an aggregate of four thousand (4,000) heavy trucks according to the following schedules:

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(f) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time require.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Violations.* Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order would disrupt or impair a program of conversion from nondefense work, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action, if any, as is deemed appropriate.

(j) *Communications.* All communications concerning this order shall be addressed to, War Production Board, Automotive Branch, Washington, D. C., Ref.: Order L–1–h. (P.D. PART 3062—CONSERVATION OF NEW AUTOMOTIVE VEHICLES SUBJECT TO RATIONING BY FEDERAL AGENCIES

[Conservation Order M–216 as Amended Nov. 19, 1942]

§ 3062.1 *Conservation Order M–216*—(a) *Findings of fact with respect to reserve vehicles.* Approximately 393,000 new passenger automobiles and 130,000 new commercial motor vehicles are in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies throughout the United States. These vehicles, hereinafter referred to as "reserve vehicles," are now held for ultimate use in the prosecution of the war through rationing procedures, established as to passenger automobiles by General Conservation Order M–130, effective June 8, 1942, and by Office of Price Administration New Passenger Automobile Rationing Regulations, Order No. 2A, effective March 2, 1942, and as to new commercial motor vehicles by General Conservation Order M–100, effective March 9, 1942. In view of the discontinuance of production, the stock of reserve vehicles herein referred to constitutes the total available supply of such vehicles in the United States. They are urgently needed for war purposes and for the maintenance of the industrial economy of the nation. The maintenance of these vehicles in prime mechanical condition is indispensable to their full utilization for the war purposes for which they are being reserved. These reserve vehicles can be maintained in prime mechanical condition provided conservation operations are performed upon them as set out in the Standards for Maintenance of New Automotive Vehicles, incorporated herein as Schedule 1.

(b) *Statement of policy with respect to requisitioning reserve vehicles.* The standards for maintenance of new automotive vehicles set out as Schedule 1 to this order and made part thereof, are hereby adopted for the maintenance of reserve vehicles in storage in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies. It is declared to be the policy of the War Production Board to require that all reserve vehicles be maintained in accordance with the said standards for maintenance. In order to effectuate this policy and to render all reserve vehicles available for war purposes and for the maintenance of the essential industrial economy, it is further declared to be the policy of the War Production Board to exercise its powers of requisition under existing law, and to seize reserve vehicles in the possession of producers, distributors, dealers, sales agencies and finance agencies, wherever it is found by the War Production Board or any federal agency acting in its behalf, that the mechanical condition of such vehicles has been impaired, or is threatened with impairment, due to failure on the part of the person in possession or control to comply with the Standards for Maintenance.

(c) *Reports on reserve vehicles required.* Every person in possession of reserve vehicles shall file with the Automotive Branch, War Production Board, Washington, D. C., Ref: Order M–216, a report of the condition of such vehicles on Form PD–641. The initial report shall be as of November 1, 1942, and shall be filed not later than November 10, 1942. Subsequent reports shall be filed thereafter at intervals of six months.

(d) *Definitions.* For the purposes of this order:

(1) "Reserve vehicle" means any of the following vehicles which have not been sold or otherwise disposed of under the rationing procedures of the War Production Board or the Office of Price Administration referred to in paragraph (a) above, and which are in storage in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies throughout the United States:

(i) Any 1942 model passenger automobile, built upon a standard or lengthened passenger car chassis, having a seating capacity of not more than ten (10) persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of an earlier model which has been driven less than 1,000 miles, including taxis, but not including ambulances, hearses and station wagons.

(ii) Any new commercial motor vehicle, including any light, medium or heavy motor truck, truck tractor or trailer, or the chassis therefor, or any chassis on which a bus body is to be mounted, and which was manufactured subsequently to July 31, 1941; was designed to be propelled or drawn by mechanical power for use on or off the highways for transportation of property, or persons; was manufactured otherwise than under specifications of the United States Army or Navy; has not been transferred to any person other than a sales agency for the purpose of resale; including vehicles of the following types: trucks, truck chassis, truck tractors, off-the-highway motor vehicles, full-trailers, semi-trailers, dollies, attachment third axles, ambulances, hearses, bus chassis, station wagons, carry-all suburbans, sedan deliveries, utility sedans, coupes fitted with pickup boxes, and cab pickups, but not including taxicabs and integral type buses.

(2) "Producer" means any person who manufactures, or has in the past manufactured, any reserve vehicles and now or hereafter has any such reserve vehicles in his possession or under his control.

(3) "Distributor" means any person other than the manufacturer regularly engaged in the business of selling reserve vehicles to dealers.

(4) "Dealer" means any person regularly engaged in the business of offering reserve vehicles for sale at retail to the public.

(5) "Sales agency" means any distributor or dealer and includes any agency or branch of a producer which sells reserve vehicles.

(6) "Finance agency" means any person regularly engaged in the business of financing or making loans, on the security of reserve vehicles, to producers, distributors, dealers or sales agencies, and who on August 29, 1942, or thereafter has any lien or any claim against any such reserve vehicle as security for a loan or other financing arrangement.

(7) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(e) *Records.* All records required to be kept and reports required to be made under this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Communications.* All reports required by this order and all communications concerning this order shall be addressed to: War Production Board, Automotive Branch, Washington, D. C., Ref: Order M–216.

Issued this 19th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

SCHEDULE I[1]

Standards for Maintenance of New Automotive Vehicles

The following standards for maintenance are established for the preservation and care of new passenger automobiles and new commercial motor vehicles while in storage in the possession of or under the control of producers, distributors, dealers, sales agencies, and finance agencies. These vehicles, as defined below, are termed for convenience "reserve vehicles." While set up primarily for the servicing of reserve vehicles, the standards for maintenance are equally appropriate for the preservation of similar vehicles whenever the same are to be kept in storage.

Vehicles to Which Standards Are Applicable

The reserve vehicles to which these standards for maintenance apply are those new passenger automobiles and new commercial motor vehicles held subject to rationing under orders of the War Production Board and the Office of Price Administration, as to passenger automobiles by General Conservation Order M–130, effective June 8, 1942, and by Office of Price Administration New Passenger Automobile Rationing Regulations, Order No. 2A, effective March 2, 1942, and as to new commercial motor vehicles by General Conservation Order M–100, effective March 9, 1942, while in storage, in the possession of or under the control of producers, distributors, dealers, sales agencies or finance agencies. They are defined as follows:

1. *Any 1942 model passenger automobile,* built upon a standard or lengthened passenger car chassis having a seating capacity of not more than ten (10) persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of earlier model which has been driven less than 1,000 miles, including taxis, but not including ambulances, hearses and station-wagons.

2. *Any new commercial motor vehicle,* including any light, medium or heavy motor truck, truck tractor or trailer, or the chassis therefor, or any chassis on which a bus body is to be mounted, and which was manufactured subsequently to July 31, 1941; was designed to be propelled or drawn by mechanical power for use on or off the highways for transportation of property, or persons; was manufactured otherwise than under specifications of the United States Army or Navy; has not been transferred to any person other than a sales agency for the purpose of resale; including vehicles of the following types:

Trucks, truck chassis, truck tractors, off-the-highway motor vehicles, full-trailers, semi-trailers, dollies, attachment third axles, ambulances, hearses, bus chassis, station wagons, carry-all suburbans, sedan deliveries, utility sedans, coupes fitted with pickup boxes, and cab pick-ups, but not including taxicabs and integral type buses.

Standards for Maintenance New Passenger Automobiles and Commercial Motor Vehicles

(These standards for maintenance correspond with those of the Revised Price Schedule #85 issued by the Office of Price Administration.)

General Instructions

1. All reserve vehicles, other than full-trailers and semi-trailers, must be stored indoors. Select a clean, dry building suitable for the storage of new passenger automobiles and commercial vehicles. Cover all openings through which animals and birds may enter storage space. Prevent water leakage. Remove loose dirt and whitewash lime.

2. Allow sufficient space between vehicles for accessibility to perform all specified maintenance operations.

3. The operations specified under the heading "Maintenance Operations" are of two categories: "Initial" operations, which if not already performed, are to be performed, and "Repeat" operations, which must be performed at intervals of six months, or when necessary, as indicated below.

No.	When to be done	Item	Maintenance operations
#*1	Initial and whenever necessary.	Vehicle	(a) Thoroughly wash vehicle; remove all foreign substances, mud, dirt, grease spots, oil, tar. (b) Check paint, touch up all exposed metal surfaces to prevent rust.
*2	Initial	Windshield wiper	Remove blades; store in glove compartment.
*3	Initial and every six months.	Upholstery and floor coverings.	(a) Clean and moth-proof all upholstery, including seat cushions, seat backs, side walls, headlinings, floor mats and carpets.
	Initial		(b) After moth-proofing upholstery, protect it from direct sunlight, except when on display in customary display room, by one of the following methods: (1) Cover all openings through which light may enter storage space. (2) Cover the inside of all car windows and windshields with paper, using masking tape. (3) Cover the car with a paper or cloth cover. (4) Completely cover all upholstery with paper, using masking tape.
	Initial		(c) Place floor mats in their normal position on floor, not rolled up.
#*4	Initial and whenever necessary.	Chrome plated surfaces	Thoroughly wash and clean all chrome plated surfaces with clear water; when dry, apply a coating of light oil, liquid wax, or special preparations; wipe off until no excess oil or wax appears on the surface of the chrome.
5	Initial	Convertible tops	With respect to convertibles, see that the tops are up and leave the shipping cover over the top, or cover it with paper, using masking tape.
*6	Initial	Engine	(a) Drain engine oil and refill crank case with at least ½ charge of rust-inhibiting oil. (b) Run engine for 5 minutes at idle speed or about 1,000 R. P. M. Leave this oil in engine.
*7	Initial	Fuel system and carburetor.	(a) Drain gasoline tank completely and replace filler cap to exclude dust. (b) Run engine until all gasoline is consumed.
*8	Initial	Spark plugs	Remove spark plugs. Inject 2 ounces of rust-inhibiting oil into each cylinder when piston is on the power stroke. Slowly turn engine over a few revolutions with starter. Replace spark plugs.
*9	Initial	Valve compartment (overhead valve engines).	Remove cover. Spray rust-preventive compound or S. A. E. 10–W on mechanism and inside cover, or pack with oil soaked rags. Replace cover.
*10	Initial	Seal engine	Seal the engine. This can be done in the following manner: Remove engine oil filler tube cover and crank case breather cover, if there is one, and seal the openings. Also seal the air cleaner, tail pipe, and any other openings into the engine. Tubes or pipes can be sealed satisfactorily by covering with a small piece of oiled or waxed paper, gathering the edges of the paper around the tube and tying them with a cord. The air cleaner can be sealed conveniently by covering with a paper bag and tying a cord around it at the solid part on the engine side of the air intake openings. Sealing the engine to a large extent prevents air moisture from entering the engine. NOTE.—Since no provision has been made for turning the engine over at regular intervals, it is absolutely essential that the recommended procedure for conserving the engine be followed carefully.
*11	Initial	Battery removal	(a) Remove the battery and store it in a cool place near recharging equipment, to facilitate servicing. Clean battery connections and wipe with light grease. (b) If dealer has portable battery charging equipment, he may elect to leave battery in car. In either case battery must be maintained as per Item 12 below.
*12	Initial and as specified under Maintenance operations.	Battery maintenance	(a) Check the specific gravity at regular intervals of six weeks, except in extremely hot weather when inspection periods should be cut to three weeks. (b) Check and correct water level at each inspection and recharge batteries as necessary to bring gravity reading to 1.280 or above. In no case should the specific gravity be allowed to fall below 1.220. These specific gravity readings are given for batteries at 60° F. air temperature.
*13	Initial	Cooling system	Completely drain cooling system including radiator, cylinder block, pump, heater, hose and all water connections. Leave system dry. NOTE: If coolant contains anti-freeze and rust-inhibiting solution, it may be left in the cooling system.
#*14	Initial	Brakes	Leave all brakes in released position.
*15	Initial	Clutch	Block the pedal of dry clutches in partially disengaged position. It is not necessary to disengage other type clutches.
#*16	Initial and as specified under maintenance operations.	Tires	(a) *Indoor storage.* Jack up vehicle in storage location taking weight off the tires. Maintain the air in tires between ⅓ and ⅔ operating pressure so that vehicles can be pushed or towed out quickly if necessary in an emergency. Tension in cords will be relieved by lowered pressure. (b) *Outdoor storage in the case of trailers.* Jack up vehicles in storage space. Remove tires from wheels. Leave wheels mounted on axle spindles. Lower weight of trailer to rest upon wheels. Store tires in a dark cool place protected from direct sunlight, in a horizontal position, with separators.
#*17	Initial and, if necessary, every six months where applicable.	Latches, hinges, brake connections, vertical supporting mechanisms, and fifth wheels.	Lubricate with light oil all latches, hinges, brake connections, vertical supporting mechanisms, and fifth wheels.
#*18	Initial where applicable	Doors, windows, and vents.	(a) Close all doors, windows, and vents tightly. (b) Close all venti-panes. (c) Leave cowl ventilator open (if screened).

NOTE: (1) All maintenance operations and storage requirements are applicable to new passenger automobiles. (2) Symbol (*) indicates maintenance operations applicable to new commercial motor vehicles except trailers, third axles and dollies. (3) Symbol (#) indicates maintenance operations applicable to trailers, third axles and dollies.

NOTE.—Materials called for in the performance of these maintenance operations such as oils, wax and rust inhibitor, should be of a grade recommended by the vehicle manufacturer.

PART 3093—GOLD MINING

[Limitation Order L–208 as Amended Nov. 19, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export which are used in the maintenance and operation of gold mines; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3093.1 *Limitation Order L–208*—(a) *Definitions.* For the purposes of this order

(1) "Nonessential mine" means any mining enterprise in which gold is produced, whether lode or placer, located in the United States, its territories or possessions, unless the operator of such mining enterprise is the holder of a serial number for such enterprise which has been issued under Preference Rating Order P–56.

(2) With respect to any nonessential mine, "effective date" means October 8, 1942, or the date of cancellation by the Director General for Operations of the serial number for such mining enterprise, whichever is the later.

(b) *Restrictions upon production.* (1) On and after the effective date, each operator of a nonessential mine shall immediately take all such steps as may be necessary to close down, and shall close down, in the shortest possible time, the operations of such mine.

(2) In no event on or after seven days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to break any new ore or to proceed with any development work or any new operations in or about such mine.

(3) In no event on or after sixty days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to remove any ore or waste from such mine, either above or below ground, or to conduct any other operations in or about such mine, except to the minimum amount necessary to maintain its buildings, machinery, and equipment in repair and its access and development workings safe and accessible.

(4) The provisions of this order shall not apply to any lode mine which produced 1200 tons or less of commercial ore in the year 1941, provided the rate of production of such mine, after the effective date, shall not exceed 100 tons per month, nor to any placer mine which treated less than 1000 cubic yards of material in the year 1941, provided that the rate of treatment of such placer mine, after the effective date, shall not exceed 100 cubic yards per month.

(5) Nothing contained in this order shall limit or prohibit the use or operation of the mill, machine shop, or other facilities of a nonessential mine in the manufacture of articles to be delivered pursuant to orders bearing a preference rating of A–1–k or higher, or in milling ores for the holder of a serial number under Preference Rating Order P–56.

(6) Nothing contained in this order shall prohibit any owner of a mining claim from performing not more than the minimum assessment work required by the provisions of section 2324 of the Revised Statutes of the United States and by Public No. 542, 77th Congress, 2d Session.

(c) *Restrictions on application of preference ratings.* No person shall apply any preference rating, whether heretofore or hereafter assigned, to acquire any material or equipment for consumption or use in the operation, maintenance, or repair of a nonessential mine, except with the express permission of the Director General for Operations issued after application made to the Mining Branch, War Production Board.

(d) *Assignment of preference ratings.* The Director General for Operations, upon receiving an application in accordance with paragraph (c) above, may assign such preference ratings as may be required to obtain the minimum amount of material necessary to maintain such nonessential mine on the basis set forth in paragraph (b) (3) above.

(e) *Restrictions on disposition of machinery and equipment.* No person shall sell or otherwise dispose of any machinery or equipment of the types listed in Schedule A to Preference Rating Order P–56, which has been used in a nonessential mine, and no person shall accept delivery thereof, except with specific permission of the Director General for Operations. On or before November 19, 1942, or within sixty days after the effective date, whichever is later, each operator of a nonessential mine shall file with the War Production Board, Washington, D. C., Reference: L–208, an itemized list of such machinery and equipment, signed by such operator or an authorized official, indicating each item available for sale or rental. Upon receipt of such itemized list, the War Production Board will furnish to the operator appropriate forms to be filled out for each item which the operator desires to dispose of.

(f) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventory, acquisition, consumption, and use of materials, and production of ore, and shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

---

[1] Items 4, 16, 17, and 18 of the table are amended.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications.* All reports to be filed, appeals, and other communications concerning this order should be addressed to: War Production Board, Mining Branch, Washington, D. C., Ref.: L–208.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by a fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, by letter, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

Chapter XI—Office of Price Administration

Part 1314—Raw Materials for Shoes and Leather Products

[RPS 61, As Amended,[1] Amendment 1]

LEATHER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1314.51 (d) and § 1314.52 are amended as set forth below:

§ 1314.51 *Maximum prices for leather.*
* * *

(d) The maximum price at which a person may export leather shall be determined in accordance with the provisions of the Maximum Export Price Regulation issued by the Office of Price Administration.

§ 1314.52 *Premiums to cover increase in war risk and marine insurance costs.* (a) The seller shall determine (1) the invoice cost of each class[2] of hides and skins, including rough tanned unfinished hides and skins, whether imported or domestic, received at his tanneries and warehouses during the three months ending on the 25th day of the month preceding the date the sale or contract of sale is made and (2) the percentage of such amount actually paid[3] for war risk and marine insurance on each such class. For each 2 percent of the total invoice cost so paid for war risk and marine insurance over 2 percent of the total invoice cost of such class of hides and skins received during said preceding three months, an amount equal to 1 percent of the maximum price may be added: *Provided,* That (i) in calculating such charges for all shipments made after November 23, 1942, the cost of war risk insurance shall not exceed the cost of war risk insurance, including extended transshipment coverage, written by the War Shipping Administration on an identical shipment, and (ii) where a seller's maximum price is so increased, the invoice or similar document delivered to the purchaser shall show separately the amount of such increases.

§ 1314.63 *Effective dates of amendments.* * * *

(c) Amendment No. 1 (§§ 1314.51 (d) and 1314.52) to Revised Price Schedule No. 61, as amended, shall become effective November 24, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 18th day of November 1942.

JOHN E. HAMM,
Acting Administrator.

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 1321, 1837, 2000, 2132, 2631, 8948.

[2] The term class includes any type of hides or skins which are separately identified in the finished leather sold.

[3] Subject to the limitation with respect to war risk insurance contained in this section: (a) If the hides or skins are already covered by war risk and marine insurance when purchased, the amount actually paid therefor by the insured may be used by the tanner in computing the maximum prices: *Provided,* That the tanner obtains from the insured and keeps in his permanent records a sworn statement of such amount actually paid on the hides or skins so purchased. (b) If the hides and skins are insured by the tanner, rather than by a licensed marine insurance company, the amount of cost attributed to such self insurance may be used.

Part 1372—Seasonal Commodities

[MPR 210,[1] Amendment 7]

RETAIL AND WHOLESALE PRICES FOR FALL AND WINTER SEASONAL COMMODITIES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1372.112 (i) is amended and a new paragraph (g) is added to § 1372.111a as set forth below:

§ 1372.112 *Appendix A: List of fall and winter seasonal commodities.* Any commodity which falls within any of the following classifications is designated as a fall and winter seasonal commodity.

* * * * *

(i) The following designated types of knitted fall and winter underwear and sleeping garments:

(1) Men's cotton knitted underwear including union suits, 9 pounds and over per dozen (weight calculated on size 42) and shirts and drawers, 7 pounds and over per dozen (weight calculated on size 42 shirts).

* * * * *

(4) Boys' cotton knitted union suits weighing 6 pounds and over per dozen (weight calculated on size 34).

(5) Women's knitted union suits, 6 pounds and over per dozen (weight calculated on size 38).

* * * * *

(9) Children's knitted union suits, waist suits and combination suits, 5 pounds and over per dozen (weight calculated on size 12).

(10) Men's, women's, children's and infants' heavyweight knitted sleeping garments, excluding men's, boys' and infants' brushed rayon sleeping garments.

* * * * *

Meaning of winter-weight and heavy-weight. "Winter-weight" and "heavy-weight" each means that type of knitted underwear garment or knitted sleeping garment which is regularly and customarily produced by manufacturers thereof for use during the fall and winter season, and of which type of garment the manufacturer delivered at least 65% of his 1941 production from June 1, 1941 to December 31, 1941.

§ 1372.111a *Effective dates of amendments* * * *

(g) Amendment No. 7 (§ 1372.112 (i)) to Maximum Price Regulation No. 210, shall become effective the 23d day of November 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 18th day of November 1942.

Part 1389—Apparel

[MPR 221,[1] Amendment 1]

MANUFACTURERS' PRICES FOR FALL AND WINTER KNITTED UNDERWEAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1389.302 (a) (1) and (2), (c), and (d) (2), that portion of § 1389.307 preceding subparagraph (2), § 1389.307 (b) and § 1389.314 are amended, and a new § 1389.313a, is added, as set forth below:

§ 1389.302 *Maximum prices for manufacturers of fall and winter knitted underwear—*(a) *How a manufacturer establishes his maximum price.* * * *

(1) The manufacturer's maximum price shall be the highest price at which the manufacturer sold by written order or contract for the fall and winter season of 1942, the same garment of fall and winter knitted underwear after November 30, 1941 and before February 10, 1942; or

(2) If the manufacturer did not sell by written order or contract for the fall and winter season of 1942, after November 30, 1941 and before February 10, 1942, the same garment of fall and winter knitted underwear, the maximum price for such garment shall be the price at which the same garment was first offered in the manufacturer's written or printed price list for the fall and winter season of 1942 which was distributed generally to the customers or prospective customers of the manufacturer on or before February 10, 1942; or * * *

(c) *Adjustment to nearest multiple of 2½ cents.* The maximum prices established by § 1389.302 (a) (3) of this Maximum Price Regulation No. 221 shall be adjusted to the nearest multiple of 2½ cents per dozen garments.

(d) *Meaning of terms.* * * *

(2) *Manufacturer.* A manufacturer of any garment means a person who sells, delivers or offers for sale otherwise than at retail, that garment in a form substantially changed from the form in which he bought it, or the materials from which it was made.

§ 1389.307 *Statements and reports required to be filed.* Every person engaged in the business of manufacturing or producing any garment of fall and winter knitted underwear for which maximum prices are established by this regulation shall file with the office of Price Administration, Washington, D. C., on or before December 15, 1942 (a) a statement which shall contain the following:

(1) The maximum price established under this Maximum Price Regulation No. 221 for each garment of fall and winter knitted underwear included in this regulation and a description of each garment.

* * * * *

(b) A report on forms 321.1 and 321.2 prescribed by the Office of Price Administration containing information with respect to all of the styles of knitted underwear, knitted sleeping garments, and knitted sweatshirts manufactured by such person, setting forth prices, garment description, method of construction, yarn content, assembly, finish, distribution and costs relating to the foregoing, in such detail as is required by the said forms.

§ 1389.314 *Appendix A: What is meant by fall and winter knitted underwear.* * * *

(a) Men's cotton knitted underwear including union suits, 9 pounds and over per dozen (weight calculated on size 42) and shirts and drawers, 7 pounds and over per dozen (weight calculated on size 42 shirts).

* * * * *

(d) Boys' cotton knitted union suits weighing 6 pounds and over per dozen (weight calculated on size 34).

(e) Women's knitted union suits, 6 pounds and over per dozen (weight calculated on size 38).

* * * * *

(i) Children's knitted union suits, waist suits and combination suits, 5 pounds and over per dozen (weight calculated on size 12).

(j) Men's, women's, children's and infants' heavy-weight knitted sleeping garments, excluding brushed rayon sleeping garments.

* * * * *

(l) * * * *Meaning of winter-weight and heavy-weight.* "Winter-weight" and "heavy-weight" each means that type of knitted underwear garment or knitted sleeping garment which is regularly and customarily produced by manufacturers thereof for use during the fall and winter season, and of which type of garment the manufacturer delivered at least 65% of his 1941 production from June 1, 1941 to December 31, 1941.

§ 1389.313a *Effective dates of amendments.* (a) Amendment No. 1 §§ 1389.302 (a) (1) and (2), (c), and (d) (2), 1389.307, 1389.314 and 1389.313 (a) shall become effective the 23d day of November 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Part 1499—Commodities and Services

[Amendment 35 to GMPR[1]]

MARKING OR POSTING OF PRICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1499.13 (a) (1) and (2) is amended to read as set forth below:

§ 1499.13 *Maximum prices of cost-of-living commodities; statement, marking or posting.* * * *

(a) * * *

(1) Every seller making retail sales on the basis of orders received by mail shall post or mark his maximum prices in all catalogs, flyers, leaflets, circulars, booklets, lists or other printed or similar matter issued and distributed by him after the effective date of this amendment for the purpose of obtaining mail orders. One of the following methods of posting or marking shall be used:

(i) State the maximum price for each cost-of-living commodity listed in each of the publications described above at the place in the publication where such commodity is listed. The maximum price shall be stated substantially as follows: "Ceiling price $______;" or "Our ceiling price $______;" or,

(ii) Print on the front cover of all catalogs, flyers, leaflets, circulars or booklets, or the front page of all lists or publications not having a cover, at the time they are issued, substantially the following statement signed with the name of the seller:

NOTICE TO CUSTOMERS

No price for any article listed or described herein exceeds the ceiling price for that article as determined under the applicable maximum price regulation issued by the Office of Price Administration. As required by that Office, we will, upon request, furnish you with a statement of our maximum prices on any of the commodities listed about which you inquire.

(Signed) ____________________________

Any seller using this method, shall upon request, furnish a statement of the maximum prices for any commodities listed or described in the publication and about which the customer inquires.

(2) Any seller making retail sales by mail may apply to the Office of Price Administration for permission to deviate from the requirements in subparagraph (1). The application shall state why such requirements are inequitable or inappropriate as applied to the applicant's business, and shall show that the requested method of posting is substantially in line with the requirements of posting for mail order sellers set forth in subparagraph (1).

§ 1499.23a *Effective date of amendment.*

(jj) Amendment No. 35 (§ 1499.13 (a) (1) and (2)) to the General Maximum Price Regulation shall become effective November 24, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 18th day of November 1942.

[Order 107 Under § 1499.18 (b) of GMPR]

KIEFER-STEWART COMPANY

For reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1008 *Adjustment of maximum price for sales of "Galatest" by Kiefer-Stewart Company, Indianapolis, Indiana.* (a) Kiefer-Stewart Company of Indianapolis, Indiana, may sell and deliver, and any person may buy and receive from that company, a drug known as "Galatest" manufactured by Denver Chemical Manufacturing Company, New York City, at a price no higher than $7.04 per dozen 3½ dram bottles.

(b) All discounts, allowances, and trade practices in effect during March 1942 with respect to sales of "Galatest" by Kiefer-Stewart Company, shall remain in effect under this Order No. 107.

(c) Kiefer-Stewart Company shall until November 30, 1942 send to each person purchasing "Galatest" a copy of the following notice:

> The Office of Price Administration has permitted us to raise our maximum price for the sale to you of "Galatest," manufactured by the Denver Chemical Manufacturing Company of New York City, from $4.00 to $7.04 per dozen 3½ dram bottles. This amount represents only that part of cost increases which we are unable to absorb and it was granted with the understanding that retail prices generally would not be raised. If, however, you feel that you are suffering substantial hardship and your maximum prices are abnormally low in relation to the maximum prices established for your most competitive sellers of "Galatest", you may apply to the Office of Price Administration in Washington, D. C. under the provisions of section 18 (a) of the General Maximum Price Regulation prior to November 30, 1942.

(d) All prayers of the applicant not granted herein are denied.

(e) This Order No. 107 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 107 (§ 1499.1008) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 107 (§ 1499.1008) shall become effective November 18, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 18th day of November 1942.

Order No. 115 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3-712.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1116 *Adjustment of maximum prices for sales of plain denatured alcohol by Beck & Gregg Hardware Company.* (a) The maximum prices for the sale of plain denatured alcohol by Beck & Gregg Hardware Company, of Atlanta, Georgia, shall be the prices set forth below:

	Per gallon
5 gallon cans	$ .97
1 gallon cans	1.04

(b) All discounts, trade practices, and practices relating to the payment of shipping charges in effect in March, 1942, on the sale by Beck & Gregg Hardware Company of plain denatured alcohol shall apply to the maximum prices set forth in paragraph (a).

(c) Beck & Gregg Hardware Company, of Atlanta, Georgia, shall until November 30, 1942, send to each retailer purchasing plain denatured alcohol in the quantities specified in paragraph (a) above a copy of the following notice:

> The Office of Price Administration has permitted us to raise our maximum price for the sale to you of plain denatured alcohol from $.90 to $1.04 per gallon in one gallon cans and from $.85 to $.97 per gallon in five gallon cans. You or any other sellers are not permitted by such order to raise your maximum prices for sale of such plain denatured alcohol. If, however, you feel that you are suffering substantial hardship and your maximum prices are abnormally low in relation to the maximum prices established for your most competitive sellers of such plain denatured alcohol, you may apply to the Office of Price Administration in Washington, D. C., under the provisions of Section 18 (a) of the General Maximum Price Regulation prior to November 30, 1942.

(d) All prayers of the applicant not granted herein are denied.

(e) This Order No. 115 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 115 (§ 1499.1116) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 115 (§ 1499.1116) shall become effective November 18, 1942.

Part 1305—Administration

[Supplementary Order 28]

APPLICATIONS FOR ADJUSTMENT AND PETITIONS FOR AMENDMENT BASED ON A WAGE OR SALARY INCREASE REQUIRING THE APPROVAL OF THE NATIONAL WAR LABOR BOARD

A statement of the reasons involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* *It is hereby ordered:*

§ 1305.33 *Applications for adjustment and petitions for amendment based on a wage or salary increase requiring the approval of the National War Labor Board*—(a) *Purpose of this supplementary order.* Executive Order No. 9250, issued by the President on October 3, 1942, provides that no wage increase requiring the approval of the National War Labor Board shall become effective without also being approved by the Economic Stabilization Director in any case in which the Price Administrator "shall have reason to believe that the proposed wage increase will require a change in the price ceiling of the commodity or service involved." To enable the Price Administrator to determine whether a proposed wage or salary increase will require a change in the price ceiling of any commodity or service, and in order to expedite proceedings before the National War Labor Board for wage or salary increases, this supplementary order makes provision for the filing of applications for adjustment or petitions for amendment before the wage or salary increase becomes effective.

(b) *Request for price increase may be filed before wage increase becomes effective.* Any employer may file an application for adjustment of his maximum prices or a petition for amendment of the price regulation establishing those prices based on a wage or salary increase requiring the approval of the National War Labor Board before any such increase becomes effective, in accordance with the provisions of this supplementary order.

(c) *Requirement for filing request for price increase before wage increase becomes effective.* The office of Price Administration will not consider any request for a change in the employer's prices which is based on a wage or salary increase requiring the approval of the National War Labor Board, unless, before the wage or salary increase becomes effective, the employer files with the Office of Price Administration an application for adjustment of his maximum prices or a petition for amendment of the regulation establishing those prices. The fact that an employer has not filed such an application or petition will not preclude recognition by the Office of Price Administration of the increased cost resulting from the wage or salary increase in considering any later application for adjustment or petition for amendment based on subsequent changes in circumstances.

(d) *Time within which request for price increase must be filed.* An application for adustment or petition for amendment which is filed by authority of this supplementary order should be filed within fifteen (15) days after an application for a wage or salary adustment has been filed with the National War Labor Board, or, in a disputed wage proceeding within fifteen (15) days after the employer receives notification that the National War Labor Board has taken jurisdiction of the dispute. Any request filed after that time will be considered by the Office of Price Administration only if good reasons are shown for the delay. If a request for a change in the employer's prices is based on an application for wage or salary adjustment filed with the Wage Adjustment Board for the Building Construction Industry, an application for adjustment or petition for amendment should be filed within fifteen (15) days after the application has been filed with the Wage Adjustment Board and if filed after that time will be considered by the Office of Price Administration only if good reasons are shown for the delay.

(e) *Procedure for filing request for price increases.* (1) An application for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1[1] except that in cases of Government contracts or sub-contracts for certain war commodities or services specified in Procedural Regulation No. 6[2] an application for adjustment shall be filed in accordance with that procedural regulation. An application for adjustment will be granted only if the regulation to which the employer is subject contains a specific provision for the granting of an adjustment and if the employer is eligible for an adjustment under that provision. In the absence of such an adjustment provision under which he can qualify for an adjustment, the employer's only recourse is to file a petition for amendment.

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 8961.

[2] 7 F.R. 5087, 5664.

(2) A petition for amendment shall be filed in accordance with Revised Procedural Regulation No. 1. A petition for amendment is required to propose a definite change of general applicability in the terms of the applicable price regulation. A petition for amendment should propose either a specific change in the maximum prices established for an entire industry or substantial portion of it, or the addition of an adjustment provision to the price regulation. The maximum prices established by a price regulation will generally not be changed unless such change is required for an entire industry or substantial portion of it. An adjustment provision will generally not be included in a price regulation unless such a provision will further the prosecution of the war or is essential to a standard of living consistent with the prosecution of the war.

(f) *Place of filing request for price increase.* (1) An application for adjustment may be filed with a District, State or Regional Office of the Office of Price Administration or with the Office of Price Administration, Washington, D. C. If the office with which the application is filed is not authorized to consider such an application it will forward it to the authorized office and notify the employer of such forwarding. If an adjustment provision in a price regulation indicates which office of the Office of Price Administration is authorized to consider applications for adjustment, action on an application will be expedited if it is filed with the nearest office authorized to consider it.

(2) A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C.

(g) *Additional information required in request for price increase.* An application for adjustment or petition, for amendment which is filed by authority of this supplementary order shall set forth the following information, in addition to such information as is required by the applicable price and procedural regulations issued by the Office of Price Administration: (1) Whether the proceeding before the National War Labor Board is a proceeding for a voluntary wage or salary increase or is a disputed wage or salary case (if the proceeding is before the Wage Adjustment Board for the Building Construction Industry, that fact should be indicated); (2) if it is a proceeding for a voluntary wage or salary increase when and where the application for approval of the wage or salary increase was filed; (3) if it is a disputed wage or salary case, when the National War Labor Board assumed jurisdiction of the dispute; (4) in the case of an application for adjustment, a clear and concise statement of the facts upon which the employer relies to qualify him for an adjustment under an applicable adjustment provision, including (i) a copy of the employer's latest balance sheet, (ii) a copy of his profit and loss statement for the last quarterly period, or the most recent period for which figures are available, (iii) a statement for the same period for which figures are submitted under (ii) limited to the commodities or services affected by the wage and salary increase, showing total sales and detailed costs, specifying particularly the wage and the salary costs, and (iv) a statement for the same period for which figures are submitted under (ii), showing the amount of the wages and the salaries paid by the employer to the employees to be affected by the wage or the salary increase and the amount of the increase in such wages and salaries on which the application for adjustment is based, and (5) in the case of a petition for amendment, a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate.

(h) *Protest of denial of request for price increase.* (1) If a wage increase is approved by the National War Labor Board and an order is issued denying in whole or in part an application for adjustment filed by authority of this supplementary order, the employer may, after the wage increase becomes effective, file a protest against such order in accordance with Revised Procedural Regulation No. 1. Such a protest may not be based upon grounds not raised in the application for adjustment. A protest will not be considered if the wage increase is not approved by the National War Labor Board.

(2) The denial of a petition for amendment is not subject to protest.

(i) *Definitions.* "Price regulation," as used in this supplementary order means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(j) *Effective dates.* This Supplementary Order No. 28 (§ 1305.33) shall become effective November 18, 1942.

Part 1420—Brewery and Distillery Products

[MPR 259,[1] Amendment 1]

DOMESTIC MALT BEVERAGES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1420.59 the term "§ 1420.66 (f)" is amended to read "§ 1420.66 (h)," in § 1420.66 (c) (1) the term "34 ounce bottles" is amended to read "32 ounce bottles", and in § 1420.66 (c) (2) the term "10 cents" in the last line is amended to read "9 cents", and paragraph (a), paragraph (b) (1) and paragraph (f) of § 1420.66 are amended and a new § 1420.65a is added, as set forth below:

§ 1420.66 *Appendix A*—(a) *For manufacturers and wholesalers.* The maximum price which a manufacturer may charge for a domestic malt beverage, except in 32 ounce containers (See § 1420.66 (f)) and the maximum price which a wholesaler may charge for a domestic malt beverage shall be the highest price charged by him for such domestic malt beverage during the period October 1 to 15, 1941 inclusive, plus the "permitted increase" set forth in the schedule of permitted increases in paragraph (c) (1) of this section, or the maximum price now established by such manufacturer or wholesaler under the pricing provisions of the General Maximum Price Regulation, plus the "permitted increase" for excise taxes only as specified in paragraph (c) (2) of this section.

(b) *For retailers.* (1) The maximum price which a retailer may charge for any domestic malt beverage, except "to be sold on draught", shall be the highest price charged by him for such domestic malt beverage during the period October 1 to 15, 1941 inclusive, plus the "permitted increase" set forth in the schedule of permitted increases in paragraph (c) (1) of this section, or the maximum price now established by such retailer under the pricing provisions of the General Maximum Price Regulation plus the "permitted increase" for excise taxes only as specified in paragraph (c) (2) of this section.

* * * * *

(f) *Method of determining manufacturer's maximum price for domestic malt beverages in 32 ounce containers.* The manufacturer's maximum price per case for domestic malt beverages in 32 ounce containers shall be

(1) The highest price per case charged by him for 12 ounce containers (after deducting any States taxes) during the period October 1 to 15, 1941, inclusive, multiplied by 1.22: *Provided,* That if, in accordance with (i) the pricing provisions of the General Maximum Price Regulation or (ii) any order heretofore issued by the Office of Price Administration, the percentage spread between the seller's maximum price per case for 32 ounce containers and the seller's maximum price per case for 12 ounce containers (determined by dividing the 32 ounce maximum price per case by the 12 ounce maximum price per case, after deducting any State taxes from both prices) is more or less than 1.22, the manufacturer's maximum price per case for 32 ounce containers shall be the maximum price per case for 12 ounce containers (after deducting any State taxes) during the period October 1 to October 15, 1941, inclusive, multiplied by such percentage spread instead of by 1.22. If the seller did not sell 12 ounce bottles, he shall use the nearest smaller size of container for the purposes of this subparagraph. The permitted increase specified in paragraph (c) (1) of this section and any State taxes may then be added to the result obtained; or

(2) The manufacturer's maximum price per case for 32 ounce containers established under the pricing provisions of the General Maximum Price Regulation plus the permitted increase specified in paragraph (c) (2) of this section.

* * * * *

§ 1420.65a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1420.59, § 1420.66 (a), (b), (c) and (f) and § 1420.65a) of Maximum Price Regulation No. 259 shall become effective November 25, 1942.

Chapter XV—Board of War Communications

[Order No. 25-A,[3] Rev. 1]

PART 1720—TELEGRAPH SERVICE

SPEED OF SERVICE FOR FULL-RATE MESSAGES, ETC.

Whereas, The Board of War Communications on July 3, 1942, requested the Federal Communications Commission to investigate the service being rendered in the telegraph field; and

Whereas, The Commission by its Order No. 103[4] dated July 7, 1942, undertook such an investigation into telegraph service and has forwarded its report together with its recommendations; and

Whereas, The Board of War Communications has determined that the national defense and security and the successful conduct of the war demand that immediate steps be taken to the end that the domestic telegraph industry shall be more closely geared to the war effort;

Now, therefore, by virtue of the authority vested in the Board by Executive Order No. 9089 of March 6, 1942, prescribing regulations governing the use, control, supervision and closing of stations and facilities for wire communications; *It is hereby ordered as follows:*

Sec.
1720.1 Speed of service for full-rate messages; office drag; routing time.
1720.2 Priorities for the handling of traffic.
1720.3 Standard for minimum use to control installation of teleprinter equipment.
1720.4 Leasing of telegraph circuits.
1720.5 Elimination of unnecessary circuits, facilities, and offices.
1720.6 Discontinuance of non-telegraphic services.
1720.7 Discontinuance of holiday greeting and congratulatory messages.
1720.8 Franks, deadhead and free service messages.
1720.9 Periodic reports of current state of telegraph service.

AUTHORITY: §§ 1720.1 to 1720.9, inclusive, issued under E.O. 9089, 7 F. R. 1777.

§ 1720.1 *Speed of service for full-rate messages; office drag; routing time.* The domestic telegraph carriers should strive to attain the following service objectives in the handling of full-rate messages:

(a) In each office the office drag (the interval between the time a message first reaches the operating room [digit time] and the completion of transmission at that operating room) shall average no more than seven minutes for at least 95 percent of the messages received in such office each hour and the office drag shall not exceed 15 minutes for any message in such 95 percent.

(b) Present routing times for business messages to be delivered by messenger shall be reduced 33⅓ percent.

§ 1720.2 *Priorities for the handling of traffic.* The Federal Communications Commission is requested and authorized to develop a plan for revising the present system of priorities for the handling of urgent essential traffic, both governmental and non-governmental, and to report its specific recommendations to the board.

§ 1720.3 *Standards for minimum use to control installation of teleprinter equipment.* The Federal Communications Commission is requested and authorized to prepare standards of minimum use to control present and future installations of teleprinter equipment for telegraph users including exemptions for equipment which serves a military necessity or a vital public need which cannot otherwise be met, and to report such standards to the board together with its specific recommendations for regulation of such installations.

§ 1720.4 *Leasing of telegraph circuits.* The Federal Communications Commission is requested and authorized to formulate basic principles for regulating the present and future leasing of telegraph circuits to the end that no needed facilities shall be used for non-essential purposes, and to report such principles to the board together with its specific recommendations for regulation of such leasing.

§ 1720.5 *Elimination of unnecessary circuits, facilities, and offices.* The Federal Communications Commission is requested to study the possibilities for the elimination of unnecessary circuits, facilities and offices and to report to the board its recommendations for closure of any such specific circuits, facilities or offices.

§ 1720.6 *Discontinuance of non-telegraphic services.* Effective December 15, 1942, domestic telegraph carriers shall discontinue all non-telegraphic services including but not limited to, messenger, errand, distribution, remittance, installment payments, and shopping service, sale of traveler's checks, sale of mail money orders, and acceptance of express packages: *Provided, however,* That at any time prior to November 25, 1942, the Board will receive objections to discontinuance of any such non-telegraphic service together with a statement of reasons and upon the filing of any such objections the board may give further consideration to the requirements of this paragraph.

§ 1720.7 *Discontinuance of holiday greeting and congratulatory messages.* Effective December 15, 1942, no domestic telegraph carrier shall accept for transmission any message both originating at and addressed to points within the continental United States of felicitation or congratulation, including but not limited to, greetings for Christmas, New Year, Easter, Father's Day, Jewish New Year, Mother's Day, Thanksgiving, Valentine's Day, congratulations on the birth of a child, graduations, weddings, anniversaries and birthdays: *Provided, however,* That at any time prior to November 25, 1942, the Board will receive objections to the provisions of this paragraph and upon the filing of any such objections the board may give further consideration to the requirements of this paragraph.

§ 1720.8 *Franks, deadhead and free service messages.* The Federal Communications Commission is requested and authorized to develop a plan for the curtailment of the use of franks and deadhead messages and the elimination of "free service" messages and to report its specific recommendations to the board.

§ 1720.9 *Periodic reports of current state of telegraph service.* Three months after the date of this Order and periodically each three months thereafter the Commission is requested to report to the Board the current state of service being rendered by the telegraph industry together with any recommendations for improvement of such service in the interest of the war effort.

Subject to such further order as the board may deem appropriate.

BOARD OF WAR COMMUNICATIONS,
JAMES LAWRENCE FLY, *Chairman.*

Attest: November 12, 1942.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter II—Office of Defense Transportation

[General Order ODT 17, Amendment 2]

PART 501—CONSERVATION OF MOTOR EQUIPMENT

SUBPART K—MOTOR CARRIERS OF PROPERTY

Pursuant to Executive Order No. 8989 and Executive Order No. 9156, subparagraph (1), paragraph (a), § 501.70, and § 501.72, General Order ODT 17, as amended,[1] are hereby amended to read as follows:

§ 501.70 *Exemptions.* (a) * * *

(1) Any motor truck while actually transporting exclusively any explosive listed in Part 2 of "Regulations for Transportation of Explosives and Other Dangerous Articles"[2] promulgated and published by the Interstate Commerce Commission by order of August 16, 1940, effective January 7, 1941, in Docket No. 3666, as amended, pursuant to the provisions of Title 18, section 383, U. S. Code, including explosives, materials and accessories, such as ammunition, black powder, low explosives, liquid nitroglycerine, fireworks, smokeless powder, cordeau detonant, fuzes, igniters or primers, and in addition blasting agents and blasting accessories necessary for the use of any of said explosives; *Provided, however,* That nothing contained in this subparagraph shall be so construed as to relieve any motor carrier from any rule, regulation or order of the Interstate Commerce Commission or other requirement of law pertaining to the transportation exempted hereby;

* * * * *

§ 501.72 *Submission of plans for joint action.* (a) All joint and collective action taken by motor carriers with respect to local delivery service, and all joint and collective action taken by private carriers by motor truck with respect to over-the-road service, in compliance with this subpart shall be in conformity with the terms and provisions of the joint statement issued by the Office of Defense Transportation and the Department of Justice, dated March 12, 1942, relative to local delivery service by motor vehicle. In accordance with such statement, proposed plans for pooled or cooperative deliveries, for curtailing services, or for entering into other arrangements involving joint action may, if desired, be submitted to the Office of Defense Transportation for consideration and approval, but action taken in furtherance of such plans shall not require the prior approval of the Office of Defense Transportation by order or otherwise. In order, however, that the Office of Defense Transportation may be informed concerning plans which have been or hereafter are placed in operation, a copy of each such plan shall be filed with the Office of Defense Transportation, Washington, D. C.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-339]

CALLAHAN MINING COMPANY

NOTICE OF AND ORDER FOR HEARING

In the matter of Homer W. Callahan and Elizabeth Sheen Callahan, individually and as co-partners, doing business under the name and style of Callahan Mining Company, Code Member.

A complaint dated October 12, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1942, by Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Homer W. Callahan and Elizabeth Sheen Callahan, individually and as co-partners doing business under the name and style of Callahan Mining Company, (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on January 14, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Stark County Court House, Canton, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Homer W. Callahan and Elizabeth Sheen Callahan, individually and as co-partners doing business under the name and style of Callahan Mining Company, Code Member, of R. F. D. No. 5, Salem, Ohio, operating the Callahan Mine, Mine Index No. 1368, located in Columbiana County, Ohio, District No. 4, has violated the Act, the Code and rules and regulations thereunder by failing and refusing to file with the Statistical Bureau for District No. 4 at Cleveland, Ohio, within five days after the end of each month, for each month commencing with January 1941 to, and including, October 12, 1942, either a copy of all truck tickets, sales slips or invoices for each sale of coal produced at the above-named mine and shipped therefrom to various purchasers giving the information required by section III (b) of Order No. 307 dated December 11, 1940, or a listing of each of such sales giving the information required by section III (b) of said Order No. 307, resulting in violations of Order No. 309, dated January 14, 1941, and section 4 II (a) of the Act and Part II (a) of the Code.

Dated: November 17, 1942.

HILTON AND SONS

NOTICE OF AND ORDER FOR HEARING

In the matter of Robert Hilton, Robert Hilton, Jr., Walter T. Hilton and Alfred Hilton, individually and as co-partners, doing business under the name and style of Hilton and Sons, Code Member.

A complaint dated October 12, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1942, by Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Robert Hilton, Robert Hilton, Jr., Walter T. Hilton and Alfred Hilton, doing business under the name of Hilton and Sons, (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on January 14, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Stark County Court House, Canton, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other

duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical Bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Robert Hilton, Robert Hilton, Jr., Walter T. Hilton and Alfred Hilton, individually and as co-partners doing business under the name and style of Hilton and Sons, a Code Member, whose address is Box 52, New Philadelphia, Ohio, operating the Hilton Mine, Mine Index No. 1813, located in Dover Township, Tuscarawas County, Ohio, in Subdistrict No. 4 of District No. 4, has violated section 4 II (e) of the Act and Part II (e) of the Code, promulgated thereunder, by selling and delivering coal produced at said mine to the City Coal Company of Akron, Ohio, f. o. b. the mine, for Truck Shipment, during the period of October 20, 1941 to February 21, 1942, both dates inclusive, as follows:

Approximately 35.525 net tons of 2'' nut and slack coal (Size Group 7) at $1.40 per net ton f. o. b. the mine; 24.05 net tons of 2'' nut and slack coal (Size Group 7) at $1.50 per net ton f. o. b. the mine; 51.84 net tons of 2'' lump coal (Size Group 3) at $2.35 per net ton f. o. b. the mine; 21.46 net tons of nut coal (Size Group 6) at $1.75 per net ton f. o. b. the mine; and 56.575 net tons of mine run coal (Size Group 6) at $1.90 per net ton f. o. b. the mine, whereas the effective minimum prices f. o. b. said mine were $1.90 per net ton for 2'' nut and slack coal (Size Group 7), $2.50 per net ton for 2'' lump coal (Size Group 3), and $2.20 per net ton for 2'' nut and mine run coal (Size Group 6), as set forth in the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipment.

F. N. MILLER

PROCEEDING FOR REVOCATION OF LICENSE

To: F. N. Miller, Greenville, Plumas County, California; order revoking license and directing its surrender.

Based upon the records in this matter, I, R. R. Sayers, Director of the Bureau of Mines, make the following findings of fact:

1. On October 16, 1942, a specification of charges against you, setting forth a violation of the regulations issued pursuant to the Federal Explosives Act (55 Stat. 863) of which you were accused, was mailed to you at the above named, your last known, address, giving you notice to mail an answer within 15 days if you wished to be heard on the charge against you.

2. More than 25 days have elapsed since the giving of said notice. The length of time required for mail to be delivered to the office of the Bureau of Mines, Washington, D. C., from Greenville, California, does not exceed 6 days. You have failed to answer the charge against you.

3. The charge against you is true.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act (55 Stat. 863) and § 301.22 of the regulations thereunder (7 F.R. 5901):

It is hereby ordered, That the vendor's license heretofore issued to you under the Federal Explosives Act (55 Stat. 863), be and it is hereby revoked;

And it is further ordered, That you shall immediately surrender said license and all certified or photostatic copies thereof, if any, by delivering or mailing the same to the Director of the Bureau of Mines, Interior Department, Washington, D. C.

This order is effective on and after its date, except that you will be allowed 10 days thereafter within which to sell or otherwise dispose of explosives or ingredients thereof now on hand to persons licensed under the Federal Explosives Act and in accordance with the provisions of the act and the regulations thereunder. This exception does not authorize you to use explosives or ingredients thereof on hand, nor does it authorize you to purchase or otherwise acquire explosives or ingredients thereof.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

Dated: November 13, 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–617]

MINNESOTA UTILITIES CO. AND AMERICAN UTILITIES SERVICE CORP.

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of November, A. D. 1942.

American Utilities Service Corporation, a registered holding company, and its subsidiary, Minnesota Utilities Company, having filed declarations pursuant to sections 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-44 and U-62 promulgated thereunder, regarding the following transactions:

Minnesota Utilities Company proposes to enter into an agreement for the sale of the electric properties comprising its Root River Division, located in the counties of Fillmore and Huston in the State of Minnesota, to Tri-County Electric Cooperative and Dairyland Power Cooperative for the sum of $386,000 in cash, subject to certain adjustments. It is contemplated that said sale and purchase will be consummated on or before December 1, 1942, but in no event later than December 31, 1942. The proceeds of said sale will be used by Minnesota Utilities Company in the partial payment of its note indebtedness to its parent, American Utilities Service Corporation. American Utilities Service Corporation will deposit the sum received from Minnesota Utilities Company, estimated to be approximately $386,000, with Continental Illinois National Bank and Trust Company of Chicago, Trustee under the Indenture securing its Collateral Trust 6% Bonds, Series A. American Utilities Service Corporation plans to use $36,000 of said $386,000 for investment in additional securities of operating companies remaining in the system and will request the Trustee to advertise for tenders of $350,000 of said Collateral Trust 6% Bonds, Series A, to be purchased at the option of American Utilities Service Corporation with the "release moneys" so held by the Trustee. It is contemplated that publication and mailing of notices will be completed prior to December 31, 1942, but in no event later than February 1, 1943.

Said declarations having been filed on October 24, 1942, and notice of said filing having been duly given in the form and manner prescribed in Rule U–23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said declarations within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declarations to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said Act, and subject to the terms and conditions prescribed in Rule U–24 that the aforesaid declarations be, and hereby are, permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulations, Serial No. 246]

ADMISSION OF ARMY PERSONNEL TO PILOT'S COMPARTMENT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 13th day of November 1942.

It appearing that:

(a) Certain pilot personnel of the United States Army have been assigned to the air carriers for training in multi-engine aircraft and operational procedures; and

(b) While such personnel were assigned for training in cargo operation, such operations are insufficient to permit the training of the personnel so assigned; the Board finds that:

Its action is desirable in the public interest and is necessary for the furtherance of the war effort;

Now therefore, the Civil Aeronautics Board acting pursuant to sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended, makes and promulgates the following special regulation, effective immediately:

Notwithstanding any provision of the Civil Air Regulations to the contrary, personnel of the Armed Forces holding a rating as pilot or naval aviator, assigned to an air carrier for training, may be admitted to the pilot's compartment of air carrier aircraft in scheduled or nonscheduled flight and may manipulate the controls: *Provided*, That a regularly assigned crew, holding the proper certificates and ratings, is aboard: *And provided further*, That such operations shall not interfere with the carriage of air carrier inspection personnel of the Administrator in the performance of their official duties.

By the Civil Aeronautics Board.

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T.D. 5182]

PART 190—RECTIFICATION OF SPIRITS AND WINES [1]

BOTTLING AND LABELING

Pursuant to sections 2801 (e) (1) and 3176 Internal Revenue Code, Regulations 15 (26 CFR, Part 190) is amended as follows:

Section 190.451 is amended to read as follows:

§ 190.451 *Marking, branding, and labeling.* Except as provided in Articles XVa and XLIVa the spirits will be marked, branded, and labeled under the individual or corporate name or trade name or style in which the rectifying plant is being operated.*

And by adding the following additional articles:

Article XVa—Requirements Governing the Bottling and Labeling of Spirits and Wines Under a Trade Name

§ 190.117a *General.* The proprietor of a rectifying plant must bottle and label spirits and wines under the real name or the trade name in which the rectifying plant is operated: *Provided*, That the proprietor may bottle and label spirits or wines under names other than the real or trade name in which the rectifying plant is operated, upon compliance with the following requirements:

(a) *Permit.* The rectifier must be in possession of a Federal Alcohol Administration Act basic permit or permits authorizing the bottling and labeling of spirits or wines under the name or names in which he desires to so label the bottled spirits or wines.

(b) *Notice Form 27-B.* Submit to the District Supervisor an amended notice on Form 27-B, in triplicate, reciting on a rider the name or names which will be used on labels for the bottled spirits or wines. The rider will be entitled "Names under which spirits or wines will be bottled and labeled" and will be attached to the bottom of page 3 of Form 27-B. Such amended notice must be submitted to the Commissioner before the spirits may be bottled and labeled under such name or names.*

Article XLIVa—Bottling and Labeling of Spirits and Wines Under an Approved Name or Names

§ 190.466a *Qualifications of rectifier.* Whenever the rectifier desires to bottle and label spirits or wines under a name or names other than the real name or trade name in which the rectifying plant is operated, he must procure approval of such names in the manner prescribed in Article XVa, prior to bottling and labeling spirits or wines under such name or names. The storekeeper-gauger will not authorize the bottling and labeling of spirits or wines under a name or names which are not listed on a notice, Form 27-B, the original of which has been received by the Commissioner.*

§ 190.466b *Notice, Form 27-B, to Commissioner.* Upon procurement of permit and filing of notice on Form 27-B and receipt thereof by the Commissioner showing the name or names under which spirits or wines will be bottled and labeled, such name or names may be used by the rectifier, and he may so bottle and label the particular lot of spirits or wines covered by Form 230 or Form 237, as the case may be, in accordance with § 190.466c, without filing an amended notice on Form 27-B or changing the name under which the rectifying plant is then qualified and operated.*

§ 190.466c *Bottling.* Before bottling spirits or wines under a name or names other than the real name or trade name in which the rectifying plant is operated, the rectifier shall state on Form 230 or Form 237, as the case may be, his desire to bottle and label the particular lot of spirits or wines covered by the form under such name or style, and upon approval of the form in the usual manner, he may so bottle and label the particular spirits covered by Form 230 or Form 237, as the case may be.*

---

[1] The asterisk at the end of sections refers to sections 2801 (e) (1) and 3176 of the Internal Revenue Code.

§ 190.466d *Marking, branding, and labeling.* The spirits or wines which are bottled and labeled under a name or names other than the real name or trade name in which the rectifying plant is operated will be marked, branded, and labeled, as otherwise prescribed by the provisions of these regulations: *Provided*, That if the rectifier is bottling and labeling spirits or wines under a name other than the one in which the plant is operated, he may not use such terms as "Blended by," "Produced by," etc., on the labels.*

§ 190.466e *Records.* Separate records on Forms 39, 45, and 182, and on Record 64 will not be required for the bottling and labeling of spirits or wines under a name other than the real name or trade name in which the rectifying plant is operated.

[Docket No. A-1712]

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT No. 10

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 10 for the establishment of price classifications and minimum prices for certain mines in District No. 10.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 10.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 330.25 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: November 10, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Order No. 68]

NORWICH STATE HOSPITAL PROJECT

ESTABLISHMENT FOR CONSCIENTIOUS OBJECTORS

I, Lewis B. Hershey, Director of Selective Service, in accordance with the provisions of section 5 (g) of the Selective Training and Service Act of 1940 (54 Stat. 885) and pursuant to authorization and direction contained in Executive Order No. 8675 dated February 6, 1941, hereby designate the Norwich State Hospital Project to be work of national importance, to be known as Civilian Public Service Camp No. 68. Said project, located at Norwich, New London County, Connecticut, will be the base of operations for work at the Norwich State Hospital, and registrants under the Selective Training and Service Act of 1940, who have been classified by their local boards as conscientious objectors to both combatant and noncombatant military service and have been placed in Class IV-E, may be assigned to said project in lieu of their induction for military service.

Men assigned to said Norwich State Hospital Project will be engaged in clerical work, as attendants, waiters, farm hands, etc., and shall be under the direction of the Superintendent, Norwich State Hospital, as well as will be the project management. Men shall be assigned to and retained in camp in accordance with the provisions of the Selective Training and Service Act of 1940 and regulations and orders promulgated thereunder, as well as the regulations of the Norwich State Hospital. Administrative and directive control shall be under the Selective Service System through the Camp Operations Division of National Selective Service Headquarters.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-148]

H. E. ADAMS

H. E. Adams of Hayward, California, operates a tourist camp and owns a tract of land in Hayward. After September 7, 1942, without the authorization of the Director General for Operations, H. E. Adams sold and caused to be delivered material which he knew would be used in order to begin construction of fourteen residential buildings in Hayward, California, having an estimated cost of more than $200.00 each. Such material was used by other persons in order to begin construction of such residential buildings. The sale and delivery of this material by H. E. Adams constituted violations of Conservation Order L-41.

These violations of Conservation Order L-41 have hampered and impeded the war effort of the United States by diverting scarce materials to uses prohibited by the War Porduction Board. In view of the foregoing facts; *It is hereby ordered*, That:

§ 1010.148 *Suspension Order No. S–148.* (a) Deliveries of material to H. E. Adams, his successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocations shall be made to H. E. Adams, his successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) No application for authorization to begin construction of any house, building, structure or project filed by H. E. Adams shall be granted by the War Production Board, except in connection with the fifteen houses located at Hayward, California, in the block bounded by Twelfth Street, Thirteenth Street, Niles Road and Tennyson Road, on which construction has heretofore been begun.

(d) This order shall take effect on November 24, 1942, and shall expire on May 24, 1943.

PART 921—ALUMINUM

[Supplementary Order M-1-i as Amended November 20, 1942]

Whereas, national defense requirements have created a shortage of aluminum; and

Whereas, the restrictions and requirements relating to the use of aluminum hereinafter set forth are necessary to conserve the supply and direct the distribution thereof in the interest of national defense;

Now, therefore, it is ordered, That:

§ 921.11 *Supplementary Order M–1–i*—(a) *Certain orders superseded.* This supplementary order supersedes § 921.7 *Supplementary Order M–1–e* and § 921.8 *Supplementary Order M–1–f* and all amendments to said orders.

(b) *Definitions.* For the purposes of this order:

(1) "Aluminum" means any material the principal individual ingredient of which by either weight or volume is metallic aluminum, in ingot or similar raw form or drosses or in the form of finished or semifinished parts, assemblies, or products of any kind; but not including aluminum scrap as defined in Supplementary Order M–1–d, or aluminum pigment or aluminum paint as defined in Supplementary Order M–1–g.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "Producer" means the Aluminum Company of America, the Reynolds Metal Company, the Olin Corporation, and any other person who may be so designated by the Director.

(4) "Fabricator" means any person who manufactures basic aluminum products, such as, but not limited to, sheet, plate, wire, rod, bar, rolled shapes, extruded shapes, tubing, tube blooms, redraw tubing, pipe, rivets, forgings, castings, impact extrusions, foil or powder.

(5) "Use aluminum in manufacture" means to melt, roll, forge, cast, extrude, draw, turn spin, fabricate, produce or process in any other way to assemble, to incorporate in assemblies, or to consume or otherwise use in the course of manufacture, any aluminum; but does not include the installation of a finished product or repair part for the ultimate consumer.

(6) "Low grade aluminum" means aluminum which contains copper in excess of 4% by weight, and either iron or zinc in excess of 1% by weight.

(7) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armanent and weapons, ships, tanks, and vehicles), and prescribed for field or combat use by the Army or Navy of the United States; also parts, assemblies, and materials to be physically incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items, nor does it include any other equipment required by the armed forces, whether or not used in combat and field operations, which is not declared to be essential to the successful prosecution of the war, by the Army and Navy Munitions Board.

(8) "Director" means Director General for Operations.

(c) *Allocation of aluminum.* Allocation of aluminum will be made by the Director in the interest of war production by approval of an application on the applicable Form of the PD–26 Series (hereinafter referred to as Form PD–26).

(d) *Delivery and use.* Except as authorized, subsequent to October 31, 1941, pursuant to an allocation on Form PD–26 or other specific authorization of the Director, (1) no producer, smelter or fabricator shall deliver any aluminum, and (2) no person shall accept the delivery of any aluminum from any producer, smelter or fabricator or use any aluminum in manufacture.

(e) *Application for allocation of aluminum.* Each producer, smelter, fabricator, or such other person as the Director may designate, seeking an authorization required by this order for any month shall file a Form PD–26 for such month, on or before the 15th day of the second preceding month. Except where the customer is required to file an application on Form PD–26, no item shall be included unless the customer, on or before the 5th day of the second preceding month (1) shall have definitely requested the delivery thereof in such month, and (2) shall have filed with his purchase order, information as to the exact part to be made from the aluminum, the product in which such part is to be incorporated or assembled, and the end use to be made of such product, also, any further information which may be necessary to enable the supplier to fill out his Form PD–26. Where the customer is a fabricator or producer or smelter, he need only indicate to the supplier that he has filed such information on his own Form PD–26. The Director will issue specific allocations authorizing the deliveries which may be made, or the aluminum which may be used in manufacture during that month. A supplementary schedule permitting delivery for emergency items may be filed at any date, on Form PD–26.

(f) *Requirements relating to placement of orders with, and acceptance of orders by, producers, smelters, and fabricators.* Only eligible items (as set forth in paragraph (g) below) shall be included on a Form PD–26 except when specific written approval has been secured from the Director for inclusion of certain other items. Request for inclusion of other than eligible items shall be made to the Aluminum and Magnesium Branch, War Production Board, giving the information specified in paragraph (e) (2) above. In the event such an application is denied, appeal for relief may be made to the War Production Board, Washington, D. C., on Form PD–500.

(g) *Eligible items.* Within the limits of available aluminum and fabricating facilities, the Director will authorize the essential requirements for the manufacture of the following eligible items:

(1) Implements of war as defined above which are being produced for any foreign country pursuant to the Act of March 11, 1941, "An Act to Promote the Defense of the United States" (Lease-Lend Act), or for the Army or Navy of the United States, the United States Maritime Commission, War Shipping Administration, or the Coast Guard, where the use of aluminum in the grade and to the extent employed is required by the latest issue of specifications of the respective government agencies applicable to the contract.

(2) Alloys, other than zinc base alloys. The amount permitted in any month will not exceed 12% by weight of the amount of such alloys produced during such month, and the aluminum content of any alloy produced will not be permitted to exceed 15% by weight.

(3) Carbometer wire.

(4) Cathodes for the electrolytic refining of zinc.

(5) Chemical processing equipment for use in manufacturing plants: *Provided*, That the customer certifies in writing to the manufacturers at the

time of placing his order that the use of alternate material is impracticable, indicating reasons therefor, and the manufacturer causes a copy of such certification to be submitted to the War Production Board with the PD–26 Application.

(6) Commercial aircraft.

(7) Containers for intravenous solutions.

(8) Fixed electrolytic and paper condensers: *Provided*, That the person using the aluminum has filed required report with War Production Board for the preceding month, on Form PD–97.

(9) Orthopedic equipment: *Provided*, That lightweight is vital to the operation of the equipment.

(10) Repair and maintenance parts for mechanical or electrical equipment used domestically or in industry: *Provided*, That the manufacturer certifies in writing to the War Production Board that the use of other material is impracticable, stating the specific reasons therefor, and that an equivalent weight of similar defective aluminum parts has been returned by the manufacturer or his customers as evidenced by certificates obtained from waste material dealers or smelters. In the event that the manufacturer operates his own foundry, the certificates of scrap parts disposed of should be attached to his PD–26 Proposed Shipping Schedule. In all other cases, the scrap certificates should support the manufacturer's application.

(11) Thermit reaction. For use in the manufacture of thermit powders and ferroalloys where and to the extent that the use of any other material is not possible.

(12) Welding rod and metallizing wire.

(13) X-ray tube housings.

Only low-grade aluminum will be allocated for the following items:

(14) Anhydrous aluminum chloride: *Provided*, That the customer certifies in writing to the manufacturer at the time of placing his order that such chloride will be used in the production of dyes for textiles, or in the production of synthetic rubber, high-octane gasoline, tear gas, nylon, or pharmaceuticals. Drosses or grindings may be authorized for this purpose.

(15) Match plates, patterns, core boxes, core dryers, and snap flasks; *Provided*, That the customer certifies in writing to the manufacturer that their use is essential to the fulfillment of quantity production orders bearing priority ratings higher than A–2. However, a manufacturer may use aluminum to make new pattern equipment, provided that the customer certifies that the new equipment will be used to fulfill quantity production orders bearing A–10 or higher priority ratings, and that he will supply an equivalent weight of defective or obsolete aluminum equipment, and upon approval on Form PD–26 the manufacturer may melt such scrap notwithstanding the provisions of Supplementary Order M–1–d.

(16) Pistons for engines of trucks (1½ tons or over), heavy duty tractors, Diesel engines, and engines in portable fire-fighting equipment.

(17) Steel deoxidizer. The total amount of aluminum used by any person for deoxidizing steel during any month may not average more than 0.6 pound of aluminum per ton of carbon steel ingot (except for cartridge cases and cartridge boxes, and 2.0 pounds of aluminum per ton of alloy steel ingot, produced by him during such month. The total amount of aluminum used by any person for deoxidizing steel for plate, sheet and strip for cartridge cases and cartridge boxes may not exceed 4.0 pounds of aluminum in each ton of such steel produced by him. The total amount of aluminum used by any person for deoxidizing steel for steel castings during any month may not average more than 2.5 pounds of aluminum per ton of metal charged into the furnace by him during such month.

(18) Tools. Portable electric and pneumatic:

(i) In pneumatic and high cycle electric tools, except grinders: (a) net weight—eight pounds or under—any parts; (b) net weight over eight pounds and up to and including twenty-three pounds—motor housings and gear housings only; (c) net weight over twenty-three pounds—motor housings only.

(ii) In universal electric drills, screw drivers, nut runners, and tappers: (a) net weight ten pounds or under—any parts; (b) net weight over ten pounds and up to and including twenty-three pounds—motor housings and gear housings only; (c) net weight over twenty-three pounds—motor housings only.

Net weight shall be the net weight specified in each producer's latest catalog issued prior to April 18, 1942.

(iii) In all other universal electric tools and in pneumatic and high cycle electric grinders—any parts.

(iv) In handles cast integrally with motor housings.

(19) Zinc base alloys.

(h) *Temporary exception for military orders.* For a period of ninety days after August 18, 1942, the prohibitions and restrictions contained in paragraph (f) of this order shall not apply to any application filed on Form PD–26, insofar as such application relates to the use of aluminum, or to the delivery of aluminum for use, in the manufacture of any item (or the necessary material therefor) which is being produced under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, Coast Guard, Civil Aeronautics Authority, National Advisory Committee for Aeronautics, the Office for Scientific Research and Development, or any foreign country pursuant to the Act of March 11, 1941, "An Act to Promote the Defense of the United States" (Lease-Lend Act) if, but only if, in any such case, the use of aluminum to the extent employed is required by the specifications of the prime contract.

(i) *Report of inventory.* Any person who, in any calendar quarter has had any ingot, similar raw forms of aluminum, or aluminum basic products as defined in paragraph (b) (4) or has used aluminum in manufacture shall, on or before the 20th of the month succeeding the end of the quarter, file an inventory report on Form PD–40A or such other form as may be prescribed for this purpose.

(j) *Dead stock.* Notwithstanding paragraph (d) above, all aluminum, which is not being used in, or which is in excess of reasonable needs for the manufacture of items approved on Form PD–26, shall be promptly disposed of pursuant either to Priorities Regulation No. 13, or where such regulation does not apply, pursuant to Supplementary Order M–1–d.

(k) *Tolling.* Except as the Director may specifically authorize on Form PD–114, no aluminum shall be delivered or received for melting under any toll, repurchase or similar arrangement.

(l) *Operations of same person in different capacities.* Any person who, in the use of aluminum in manufacture, operates in more than one capacity (for example, both as a producer and fabricator) shall, in each such capacity, be subject to the applicable obligations and restrictions imposed by this order. The initial putting into fabrication or other use of raw aluminum by a producer or smelter who produced the same shall be deemed a delivery thereof hereunder.

(m) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using material under priority control and may be deprived of priorities assistance.

(n) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 11, as Amended Nov. 16, 1942[1]]

PRODUCTION REQUIREMENTS PLAN

§ 944.32 *Priorities Regulation No. 11*—(a) *Purpose.* It is the purpose of this regulation to provide for the integration of the system of distributing scarce materials in the interest of the war and the maintenance of the essential civilian economy by requiring principal industrial users of scarce materials to qualify under the production requirements plan and to obtain preference rating assistance primarily under that plan.

(b) *Definitions.* For the purposes of this regulation:

(1) "person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) "PRP application" means an application for priority assistance under the production requirements plan on Form PD–25A or any other prescribed form.

(4) "PRP certificate" means the copy of a PRP application which has been returned to the applicant by the Director General for Operations with an assignment of preference ratings or other priority action endorsed thereon, and includes any supplementary or advance quarter ("bob-tail") certificate which may be issued from time to time.

(5) "PRP unit" means any person who is qualified under the production requirements plan by the issuance to such person of a PRP certificate. In case the certificate is issued to a branch, plant, department, or other division of a corporation or business, "PRP unit" refers only to the portion of the business to which the certificate is issued.

(6) "Production material" means material (including fabricated parts and subassemblies) which will be delivered by a PRP unit as its product, or will be physically incorporated into such product, and includes the portion of such material normally consumed or converted into scrap or by-products in the course of processing. It does not include any supplies or manufacturing equipment.

(7) "Supplies" means maintenance and repair materials and operating supplies. It also includes minor items of productive capital equipment (such as jigs and fixtures, dies and die blocks, portable pneumatic or portable electric tools, and material required for minor relocations of plant machinery and equipment). It does not include any production material or any office machinery or office equipment (whether purchased or leased) or materials for plant expansion or plant construction.

(8) "Listed material" means, with respect to any quarter, any material listed and given an item number on the Materials List No. 1, Revised, appearing on the form of PRP application for that quarter or required to be separately listed by supplementary instructions from the War Production Board.

(9) "Listed fabricated item" means, with respect to any quarter, any part, assembly or other item listed and given an item number on the Fabricated Items List No. 2 appearing on the form of PRP applications for that quarter. The first quarter for which such a list will be in effect will be the first quarter of 1943. "Listed fabricated item" also includes any item required to be listed separately by supplementary instructions from the War Production Board.

(10) "Class I producer" means any person (or any branch, plant, department, or other division of a corporation or business which operates as a separate entity and maintains a separate inventory) whose receipts or withdrawals from inventory during the most recent calendar quarter, or whose anticipated receipts or withdrawals from inventory during the current or next succeeding calendar quarter, of metals in the forms included on the attached metals list aggregate five thousand dollars or more in value, except:

(i) Any agency of the United States, of any foreign government, of any state or territory, or of any subdivision thereof except when and to the extent that any such agency is engaged in the manufacture of commodities or other materials or the furnishing of repair facilities (such as Navy yards, arsenals, prison factories, etc.);

(ii) Any person to the extent that he is engaged in the business of:

(*a*) Transportation by any means;

(*b*) Furnishing of heat, light, power, electricity, gas or water to others;

(*c*) Quarrying;

(*d*) Production, refining, transportation, distribution or marketing of petroleum or associated hydrocarbons;

(*e*) Communications;

(*f*) Sewage or drainage;

(*g*) The sale of material which he has not manufactured, processed, fabricated, assembled, or otherwise physically changed, including sales as a distributor, wholesaler, retailer, warehouse, industrial or mill supply house or scrap dealer;

(*h*) Construction at the site, of buildings, structures, or projects; and

(iii) Any producer located in Alaska, Panama Canal Zone, or in any territory or possession of the United States outside of the continental United States.

(11) "Assignment" of a preference rating means the granting to any person, by order or certificate issued by or under authority of the Director General for Operations, of the right to use such rating.

(12) "Application" of a preference rating means the use of the rating by the person to whom it is initially assigned by or under the authority of the Director General for Operations, and includes the initial issuance by any governmental agency, under authority of the Director General for Operations, of a preference rating certificate rating a delivery to be made directly to such agency.

(13) "Extension" of a preference rating means the use of the rating by any person to whom it is applied or extended by another person.

(c) *Persons required to qualify under PRP.* Every Class I producer shall file a PRP application. For the first quarter of 1943, this application shall be filed not later than October 25, 1942. Any person who becomes a Class I producer shall file such application as promptly as possible after becoming a Class I producer. The Director General for Operations may specifically require other persons to file such applications from time to time, and may also exempt particular Class I producers from the requirements of this paragraph or extend or advance their time for filing PRP applications. Any other processors of materials desiring priority assistance on a quarterly basis may also, with the consent of the Director General for Operations, qualify under the Production Requirements Plan, although not required to do so by this regulation.

(d) *Restrictions on application and extension of ratings by PRP units.* No PRP unit shall apply or extend any rating to the delivery of any material during any quarter other than the ratings authorized on its PRP certificates for that quarter; and the deliveries to which such ratings are so applied shall be limited in amount as specified on such certificates, with the following exceptions:

(1) A PRP Unit may apply ratings specifically assigned to it for acquisition of items of capital equipment or materials for authorized plant expansion or plant construction.

(2) During the fourth quarter of 1942, but not thereafter, a PRP unit may extend any preference rating which it receives, in order to obtain delivery during any quarter of production materials (but not supplies) other than listed materials, provided that the PRP unit has elected to make use of extensions of ratings exclusively for this purpose in lieu of applying the ratings assigned by its PRP certificate. Such election shall be made as follows: Not later than the seventh business day after the day on which the PRP certificate for the fourth quarter is received, the PRP unit shall, if it determines to make the election, endorse the following statement, duly signed by an authorized official, upon the copy of its PRP certificate received by it, under the heading of section F on the certificate:

> The undersigned PRP unit hereby elects to rate deliveries to it during the balance

> of the fourth quarter of 1942 of production materials other than listed materials, as defined in Priorities Regulation No. 11, exclusively by the extension of ratings applied or extended to the undersigned by other persons, and, with respect to such materials to make no use of any ratings assigned by its PRP certificates for the fourth quarter of 1942.

Date

Name of PRP unit

By -------------------

Such election may not be made in any other manner. A PRP unit which makes such election shall not make any use of the preference rating assistance granted on its PRP certificate for the fourth quarter for the delivery of any production materials other than listed materials. Such election must be made as to all such materials or none. Such election may not be made with respect to supplies, which may be rated only in accordance with ratings assigned on the PRP certificates.

(3) In addition a PRP unit which receives a rated purchase order requiring the processing by another person of material owned and supplied by the PRP unit may extend the rating, for processing only and not for acquisition of material, to the person who is to do such processing for it.

(4) Any PRP unit may, until the receipt of its fourth quarter PRP certificate, but not thereafter, apply ratings to the extent permitted under the interim procedure specified in paragraph (i) of this regulation.

(5) In case preference rating assistance for a material is denied on the PRP certificate on the express ground that such assistance is unnecessary or that ratings for such material are not currently being assigned on PRP certificates, the provisions of this paragraph (d) shall not apply to such material.

(6) A PRP Unit may extend an AAA rating it receives, where necessary to obtain material which it will deliver or which will be physically incorporated into material which it will deliver on the AAA rating, subject to the following restrictions:

(i) The AAA rating may not be extended for quantities of material in excess of those required to be delivered by it or to be physically incorporated into materials to be delivered by it on the AAA rating;

(ii) The rating may not be extended to obtain any material to the extent that it has such material on hand which it would be required to divert for the purpose of supplying the material to be delivered on the AAA rating in accordance with the provisions of Priorities Regulation No. 1;

(iii) The rating may not be extended to replace inventory;

(iv) The quantity of any material obtained with the assistance of the AAA rating must, to the extent possible, be deducted from any quantity of such material authorized for receipt on its PRP certificates and not yet received; and

(v) In case it is necessary to extend the rating for materials other than those, or in excess of the quantities, authorized on its PRP certificates, a PD–25F form must be filed within three days after such extension reporting the excess quantity or the other materials to which the AAA rating was extended.

(e) *Restrictions on receipt of listed materials and fabricated items.* No PRP unit shall in any quarter accept deliveries (whether rated, unrated or allocated) of any listed material or any listed fabricated item, whether as production material, supplies or for any other use, in excess of the amounts specifically rated or otherwise authorized on its PRP certificates for such quarter, plus any balance of such materials or items authorized by its PRP certificates for delivery in the previous quarter which is in transit to the PRP unit at the end of the previous quarter or within three days thereafter, with the following exceptions:

(1) A PRP unit may accept deliveries of any balance of listed fabricated items specifically rated or otherwise authorized for the preceding quarter but not yet received.

(2) A PRP unit may in addition, subject to the applicable regulations and orders of the War Production Board, accept delivery of any such materials and items which consist of items of capital equipment or material for authorized plant expansion or plant construction.

(3) Any PRP unit which has applied ratings under the interim procedure specified in paragraph (i) of this regulation based on a particular PRP application may, until receipt of that particular PRP certificate, accept deliveries of the quantities of the materials to which it is authorized to apply ratings under the interim procedure. After receipt of such PRP certificate it may accept deliveries of listed materials and listed fabricated items in excess of the quantities authorized on such certificate only if the same were in transit to the PRP unit at the time its supplier received notice of postponement or cancellation of delivery pursuant to the provisions of paragraph (j) of this regulation and even then may not accept delivery of such materials or items unless shipment was made within ten days (including Sundays) after receipt by the PRP unit of the PRP certificate which necessitated such postponement or cancellation.

(4) A PRP unit may accept delivery of material to which it extends an AAA rating in accordance with the provisions of paragraph (d) (6) of this regulation.

(5) A PRP unit may accept delivery of listed materials or listed fabricated items in excess of the quantities authorized on its PRP certificates, to the extent that cancellation or postponement of such delivery is waived by the provisions of paragraph (j) (3) of this regulation.

(f) *Restrictions on use of material.* Each PRP unit shall also comply with any additional restrictions which may be contained in its PRP certificate, including (without limitation) restrictions on the amount of material to be put into production, the use of any material, apportionment of quantities of material between different products, or on the sale of or delivery of specified products.

(g) *Prohibition against placing duplicate orders.* No PRP unit shall duplicate, in whole or in part, purchase orders which it has placed with one or more suppliers for delivery of any material (whether rated, unrated, or allocated) in such manner that the amount of such material ordered exceeds the amount actually required for delivery (not exceeding the amount authorized), even though the PRP unit intends to cancel or reduce its purchase orders prior to completion of delivery, to the amount of actual requirements as rated or otherwise authorized on its PRP certificate.

(h) *Scheduling of deliveries.* Each PRP unit shall, so far as practicable, place its purchase orders for the production material and supplies rated or otherwise authorized on its PRP certificate so as to call for substantially equal deliveries during each of the three months of the quarter, and shall in no event, unless absolutely necessary to maintain its delivery schedule or to obtain the minimum quantities practicably procurable, order for delivery during the first month of the quarter more than 40%, or during the first two months of the quarter more than 80%, of the total quantity of any production material authorized for delivery during the quarter.

(i) *Interim procedure.* During the interim between filing a PRP application for a particular quarter and receipt of the PRP certificate for such quarter a person may apply or extend preference ratings for delivery during such quarter, and, in case he shall have submitted advance quarter applications, may apply or extend preference ratings for delivery during only the first advance quarter, as follows:

(1) If he has been operating under the Production Requirements plan, he may apply the same preference ratings he was authorized to apply by his PRP certificates for the preceding quarter, to orders calling for delivery of not more than 40% during the first month of the quarter and 70% during the entire quarter, of the quantities of the materials indicated as his anticipated requirements on his PD–25A and on any PD–25F application for the quarter, submitted prior to receipt by him of the first PRP certificate received by him for the quarter.

(2) If he has not been operating under the Production Requirements Plan, he may continue to apply and extend ratings under any applicable preference rating orders or preference rating certificates in the same manner as permitted prior to the beginning of the particular quarter; and, notwithstanding the termination of

any preference rating order on or after the end of the preceding quarter, the same shall be deemed to continue in effect as to any such person until he receives his PRP certificate: *Provided, however,* That he shall not apply or extend ratings to the delivery in the particular quarter of any material in an aggregate quantity greater than 40% during the first month of the quarter, nor greater than 70% during the entire quarter, of the amount of such material which he has indicated as his anticipated requirements on his PRP application for the quarter, subject to any further restrictions contained in the preference rating certificates or orders assigning the ratings which he is applying or extending.

(3) After a person has received an advance quarter authorization, he may not thereafter apply ratings under the interim procedure to deliveries in that advance quarter of any materials included in the authorization for that quarter, until he files a complete PD-25A application for such quarter, but must use only the ratings authorized on advance quarter authorizations for such materials in that quarter. Upon the filing of a complete PD-25A application for a quarter a PRP unit may then rate purchase orders in accordance wth the interim procedure even if this permits rating quantities in excess of those authorized by a previous advance quarter authorization for that quarter.

(4) A person who applies or extends any preference rating pursuant to this paragraph (i) shall deduct the amount of any material which he has received or to which he has applied or extended such rating from the amount rated or otherwise authorized by his corresponding PRP certificate (on Form PD-25A or PD-25F, as the case may be) when issued to him.

(j) *Rerating on receipt of PRP certificates.* (1) Each PRP unit, not later than the seventh day (including Sundays) after the receipt of any PRP certificate for a quarter, shall adjust its outstanding purchase orders so that they shall not exceed, either in quantities or in grades of preference rating, those authorized for the quarter and for any advance quarters covered by the PRP certificates in accordance with the provisions of this regulation; but this provision shall not require the adjustment of orders duly placed under paragraph (i) of this regulation for materials covered by a PD-25F application filed before receipt of a PD-25A certificate, until the return of such PD-25F certificate.

(2) This adjustment may be made by cancellation, postponement of deliveries, or by rerating. To the extent that authorized ratings are higher than those already applied to outstanding orders, rating adjustment shall be optional, and, with respect to any material, the balance of any authorized rating not used may be added to the authorized amount of any lower authorized rating.

(3) No person shall be required by the provisions of this paragraph (j), however, to cancel any order or portion thereof calling for delivery on or before November 21, 1942, or during the first twenty-one days of the first month of any subsequent quarter, of any listed material, if the producer thereof certifies in writing to such person (i) that substitution of other orders, or diversion of the material to fill other orders, (even if such other orders call for later delivery or carry a lower rating) is impossible, and (ii) that the production of such material has been completed or that cancellation would disrupt the producer's production schedules and result in substantially diminished production. Nothing herein contained, however, shall relieve a PRP unit from the obligation of cancelling or postponing delivery under other orders calling for delivery of similar material during the quarter, as to which no certification is received, to the extent necessary to bring the total receipts of such material during the quarter within the quantities authorized on its PRP certificates.

(k) *Restrictions on Class I producers who have not filed PRP applications.* Any Class I producer who has not filed his PRP application by the time required by this regulation or by any specific direction of the Director General for Operations may not extend or apply any rating, other than AAA ratings, until he has mailed or personally submitted his PRP application to the War Production Board: *Provided, however,* That these restrictions do not apply to ratings specifically assigned to a Class I producer for the purpose of acquisition of items of capital equipment, or materials for authorized plant expansion or plant construction.

(l) *Effect on existing orders and certificates.* (1) The provisions of this regulation do not terminate any other existing order or certificate granting preference rating assistance, but limit and prohibit the use of such orders or certificates by specified persons in the manner set forth above.

(2) The provisions of this regulation do not relieve PRP unit from compliance with the terms of any order of the War Production Board controlling the distribution or restricting the use of any specific material, including requirements for the filling or supplying of applications or other documents in connection with the purchase, sale, delivery, or use of any such material.

(m) *Special provisions with respect to metal mills.* Notwithstanding the foregoing provisions of this regulation, the following provisions shall govern with respect to any person (hereinafter in this paragraph (m) referred to as a "metal mill") to the extent that he is engaged in producing metals in any of the forms included on the attached metals list:

(1) A metal mill, in determining whether it is a Class I producer within the meaning of paragraph (b) (10) of this regulation, may exclude all receipts or withdrawals from inventory of metals which will be processed by the metal mill to produce any of the forms listed on the attached metals list. However, there must be included any metals in the forms listed, which will be used by it for maintenance, repair, or operating supplies, or will be fabricated by it beyond the forms listed.

(2) A metal mill need not include in its PRP application materials which will be processed by it to produce metals in any of the forms listed on the attached metals list, but it must include any material, including metals in the forms listed, which will be used by it for maintenance, repair, or operating supplies, or will be fabricated by it beyond the forms listed, and for which it requires priority assistance.

(3) A metal mill may extend and apply preference ratings assigned by a preference rating order or certificate, in the manner heretofore permitted, for delivery to it of material which has been excluded from its PRP application pursuant to the provisions of subparagraph (2) of this paragraph (m) and may accept delivery of such material.

(4) A metal mill, to the extent that it is engaged in producing any of the following:

(i) Pig iron and ferroalloys;

(ii) The following iron and steel products, including alloys: Ingots, blooms (including forged), billets (including forged), slabs (including forged), tube rounds, sheet and tin bars, structural shapes, piling, plates (universal and sheared), rails, tie plates, track spikes, splice bars, rail joints, hot rolled bars (including hoops and bands and concrete reinforcing bars), cold finished bars, pipe and tubes (except conduit), wire rods, wire as drawn (not including further fabrications therefrom), black plate, tin and terne plate, sheets, strip, tool steel bars (including high speed), steel wheels and axles (for railroad use only), railroad locomotive tires, armor plate, ordnance forgings, steel castings (rough as cast), skelp, rolling mill rolls, ingot molds;

(iii) Coke for use in the production of pig iron and ferroalloys; may accept deliveries of supplies in any quarter without regard to the limitations of paragraph (e) hereof of this regulation and, notwithstanding the limitations of paragraph (d) hereof, may apply the ratings assigned on its PRP certificate to deliveries of supplies in the amounts essential for proper operation, subject, however, in every case to the restrictions of § 944.14

of Priorities Regulation No. 1 and to all other applicable regulations and orders.

(n) *Reporting of excess receipts.* Any PRP unit which receives during a quarter any listed material other than, or in excess of, quantities of such material authorized by its PRP certificates for such quarter, or by specific authorization of the Director General for Operations, shall promptly report to the Production Requirements Branch, War Production Board, Washington, D. C., the quantities and kinds of materials so received, together with a statement of the reasons why such receipt was necessary, referring to the provisions of this regulation under which such receipt is permitted, and giving the name and serial number of the PRP unit which received the material.

(o) *Exceptions or exemptions.* The Director General for Operations may grant exceptions or exemptions with respect to any or all provisions of this regulation. Any such action shall be in writing over the signature of the Director General for Operations and shall refer specifically to the fact that it is an exemption from or an exception to this regulation.

Chapter XI—Office of Price Administration

PART 1389—APPAREL

[MPR 273]

CERTAIN ARTICLES OF APPAREL IN WHICH MATERIALS HAVE BEEN REPLACED

In the judgment of the Price Administrator it is deemed necessary and proper to establish maximum prices for the sale of certain articles of apparel in which materials have been replaced and which were not generally sold in their replaced form in March, 1942.

The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 273 is hereby issued.

Sec.	
1389.251	Scope of regulation.
1389.252	Transactions in apparel which are prohibited by this regulation.
1389.253	Knitted underwear, knitted sleeping garments, and knitted sweatshirts, in which combed yarn has been replaced by carded yarn: Maximum prices and informational requirements.

1389.259	How this regulation may be amended.
1389.260	Enforcement.
1389.261	Definitions.
1389.262	Effective date.

AUTHORITY: §§ 1389.251 to 1389.262, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1389.251 *Scope of the regulation.* This regulation establishes maximum prices for sales by manufacturers of certain articles of apparel in which materials have been replaced.

Section 1389.253 of the regulation provides manufacturers' maximum prices for knitted underwear, knitted sleeping garments and knitted sweatshirts in which combed yarn has been replaced by carded yarn. Reductions provided by this section will be reflected in wholesale and retail prices although maximum prices for retailers and wholesalers are not provided herein. Maximum prices for sales at wholesale and at retail are governed by the General Maximum Price Regulation or Maximum Price Regulation No. 210, depending on whether the particular garment is fall and winter knitted underwear as defined in Maximum Price Regulation No. 210. The informational requirements of this section which relate to labeling, the use of the symbol "R" to indicate articles of apparel in which materials have been replaced, and notices to purchasers for resale apply to sellers at wholesale as well as to manufacturers. The prohibition, in this section, against selling garments for which prices are provided by the regulation unless they are properly marked, applies equally to manufacturers, wholesalers and retailers.

§ 1389.252 *Transactions in apparel which are prohibited by this regulation.* On and after November 25, 1942, regardless of any contract or other obligation, no person shall:

(a) Sell or deliver any article of apparel at a price higher than the maximum price established by this regulation; or

(b) Require a purchaser to buy or agree to buy any other apparel, or any other article, service, wrapper, or package in connection with a sale or delivery of any article of apparel for which a maximum price is established by this regulation; or

(c) Buy or receive any article of apparel in the course of trade or business at a price higher than the maximum price established by this regulation; or

(d) Do any other act which directly or indirectly increases above the maximum price the consideration paid by the purchaser for an article of apparel for which a maximum price is established by this regulation; or

(e) Offer, attempt or agree to do any of the acts prohibited by this regulation.

§ 1389.253 *Knitted underwear, knitted sleeping garments, and knitted sweatshirts, in which combed yarn has been replaced by carded yarn: Maximum prices and informational requirements*—(a) *Sales by manufacturers.* In any sale by a manufacturer of a knitted undergarment, a knitted sleeping garment, or a knitted sweatshirt which is the same as a garment for which a maximum price has been established by the manufacturer, except that combed yarn has been replaced by carded yarn, the maximum price is the manufacturer's present maximum price for the combed yarn garment less the manufacturer's "price reduction" for that garment.

(b) *How a manufacturer computes his "price reduction."* A manufacturer's "price reduction." is computed by multiplying the gross knitting weight of the carded yarn in the garment by the difference between the present ceiling price for the count and kind of carded yarn used in the garment and the present ceiling price for the count and kind of the combed yarn which is replaced. The product of this multiplication adjusted to the nearest multiple of 2½¢ is the "cost reduction." The manufacturer's

---

*Copies may be obtained from the Office of Price Administration.

"price reduction" for any garment is the figure in Column II of Schedule A in paragraph (d) of this section, which is set down opposite the amount of "cost reduction" for that garment. If the "cost reduction" is less than 10¢ per dozen, no "price reduction" is made.

(c) *Maximum prices for garments which cannot be priced under § 1389.253.* The manufacturer's maximum price for any knitted undergarment, knitted sleeping garment, or knitted sweatshirt which is the same as a garment for which a maximum price has been established by the seller, except that combed yarn has been replaced by carded yarn and which cannot be priced under paragraph (a) of this section shall be a maximum price in line with the level of maximum prices established by this Maximum Price Regulation. This maximum price shall be determined by the seller after specific authorization from the Office of Price Administration. No person shall sell, deliver, or offer for sale any garment until authorization to determine a maximum price is issued by the Office of Price Administration. A seller who seeks authorization to determine a maximum price under the provisions of this paragraph shall file with the Office of Price Administration, Washington, D. C., in triplicate, a statement of containing:

(1) A description in detail of the garment for which a maximum price is sought.

(2) A statement of the facts which prevent the seller from pricing the garment under paragraph (a) of this section, and

(3) Such other information as may be required by the Office of Price Administration.

(d) *Schedule of price reductions for knitted underwear, knitted sleeping garments, and knitted sweatshirts, in which combed yarn is replaced by carded yarn.*

(e) *Explanation of terms.* (1) "Same garments." A garment is the same as another garment with which it is compared if both have all of the following common characteristics:

(i) They are of the same specific classification and size as provided by the United States Department of Commerce, Commercial Standard CS 33–32;

(ii) They have the same average finished weight for comparable size, within a tolerance of 3%;

(iii) They are knitted from the same kinds of yarn (for example, carded, combed, blended or processed staple fiber yarns), and with the same percentage of fibers (for example, cotton, wool or other fibers and mixtures thereof);

(iv) They have a substantially equal number of courses and needles per inch;

(v) They have construction and trimmings of substantially equal quality and serviceability; and

(vi) They are constructed and finished with substantially equal standards of workmanship.

(f) *Identification of garment in which combed yarn has been replaced by carded yarn*—(1) *Labeling and marking.* No garment for which a maximum price has been established by or pursuant to this regulation may be sold unless a label, hanger, or other marker is attached thereto which shall bear the symbol "R" and clearly indicate that the garment is made with carded yarn.

(2) *Bills, invoices, catalogs, and statements.* In every invoice, bill, catalog, and statement in which a manufacturer or a seller at wholesale describes or designates a garment for which a maximum price is established by this regulation, he shall identify such garment by adding the symbol "R" to the style or catalog number which he presently uses, or most recently used for the combed yarn garment which was otherwise the same.

(g) *Statement of maximum prices to be furnished to purchasers for resale.* Unless the specific information shall have been previously furnished to the purchaser, every person who sells or delivers to a purchaser for resale any garment for which a manufacturer's maximum price has been established by this regulation, shall at the time of delivery of such garment furnish to the purchaser thereof, a statement in the following form concerning the seller's maximum price for the garment delivered:

The following information is sent you as required by the Office of Price Administration in order to:

(a) Explain the reduction in our maximum prices for the garments listed below, and

(b) Assist you in establishing a reduction in your maximum prices for these same garments.

Each of the styles listed below is identified by the symbol "R". This means that the garment is *the same as* our previous garment bearing the same style number *except* that the new garment is made of *carded* yarn *in place of combed* yarn previously used. You will find listed below both our new maximum prices for the garments in this and any future shipment and our maximum prices for the combed yarn garments previously made.

(List as follows the garments in which combed yarn has been replaced by carded yarn, and indicate items to be priced under Maximum Price Regulation No. 210 by an asterisk).

Style No. --------; Description --------; Our maximum price --------; Our selling price --------; Our maximum price for same garment in combed yarn --------.

HOW TO COMPUTE YOUR MAXIMUM PRICES FOR THESE NEW GARMENTS OF CARDED YARN.

1. If the garment *is a fall and winter* garment as defined by Maximum Price Regulation No. 210 (indicated by an asterisk), then you establish your maximum price under Maximum Price Regulation No. 210.
2. If the garment *is not a fall and winter* garment as defined by Maximum Price Regulation No. 210, then you establish your maximum price under the *General Maximum Price Regulation*. (For full details of pricing under the General Maximum Price Regulation, consult the regulation itself, or the nearest State or District OPA Office).

WARNING: O. P. A. has ruled that inasmuch as a garment made of *carded* yarn cannot be considered to be "the same as" or "similar to" a garment made of *combed* yarn, all maximum prices for such garments must be adjusted to reflect the appropriate reduction in costs.

§ 1389.254 *Disclosure of maximum prices.* Every person selling or offering for sale any article of apparel for which a maximum price has been established by this regulation shall, within ten days after receipt of a written request from any person to whom the seller has sold such article of apparel, disclose in writing to such person the seller's maximum price for the article of apparel.

§ 1389.255 *Sales for less than maximum prices.* Lower prices than the maximum prices established by this Maximum Price Regulation No. 273 may be charged, demanded, paid or offered.

§ 1389.256 *Relation between Maximum Price Regulation No. 273 and the General Maximum Price Regulation.*[1] (a) The General Maximum Price Regulation shall not apply and this Maximum Price Regulation No. 273 shall apply to sales of articles of apparel in which materials have been replaced and for which maximum prices have been provided in this regulation. However, the following sections of the General Maximum Price Regulation are made a part of this regulation and each seller must comply with them:

(1) Transfers of business or stock in trade (§ 1499.5).

(2) Federal and state taxes (§ 1499.7).

(3) Current records (§ 1499.12).

(4) Sales slips and receipts (§ 1499.14).

§ 1389.257 *Relation of this regulation to other maximum price regulations*—(a) *Maximum Price Regulation No. 157.*[2] Maximum Price Regulation No. 157—Sales and fabrication of textiles, apparel and related articles for military purposes—shall apply, and this Maximum Price Regulation No. 273 shall not apply to sales and deliveries for which maximum prices are established by Maximum Price Regulation No. 157.

(b) *Maximum Price Regulation No. 172.*[3] Maximum Price Regulation No. 172—Charges of Contractors in Apparel Industry—shall apply, and this Maximum Price Regulation No. 273 shall not apply to transactions for which maximum prices are established by Maximum Price Regulation No. 172.

(c) *Revised Maximum Export Price Regulation.*[4] Revised Maximum Export Price Regulation shall apply and this Maximum Price Regulation No. 273 shall not apply to sales and deliveries for which maximum prices are established by Revised Maximum Export Regulation issued by the Office of Price Administration.

§ 1389.258 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 273 shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any article of apparel alone or in conjunction with any other commodity, or by way of commission, service, transportation, or any other charge, or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1389.259 *How this regulation may be amended.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1389.260 *Enforcement.* Persons violating any provisions of this Maximum Price Regulation No. 273 are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

§ 1389.261 *Definitions*—(a) *Definitions incorporated by reference.* Unless the context otherwise requires or unless otherwise specifically provided herein the definitions set forth in section 302 of the Emergency Price Control Act of 1942 and in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(b) *Other definitions.* When used in this Maximum Price Regulation No. 273 the following terms shall have the meanings set forth below:

(1) "Manufacturer" means a person who sells, delivers, or offers for sale an article of apparel in a form substantially changed from the form in which he bought that article or the materials from which it was made.

(2) "Seller at wholesale" means a person who sells, delivers or offers for sale an article of apparel in a form substantially unchanged from the form in which he bought that article.

§ 1389.262 *Effective date.* This Maximum Price Regulation No. 273 (§§ 1389.251 to 1389.262, inclusive) shall become effective November 25, 1942.

Issued this 19th day of November, 1942.

Bituminous Coal Division.

[Docket No. A-941]

DISTRICT BOARD 11

ORDER GRANTING MOTION TO REOPEN HEARING AND NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 11 for the establishment of minimum prices for raw or washed coals which are crushed, pulverized or reduced by any method down to the size dimensions prescribed for Size Groups 13 and 16, inclusive, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

District No. 11, the original petitioner in the above-entitled matter, filed a motion requesting that the hearing in this matter, which was terminated on November 18, 1941, be reopened for the purposes of amending and supplementing the effective minimum prices for raw and washed coals, produced in District No. 11, which are crushed, pulverized or reduced by any method down to the size dimensions prescribed for Size Groups 13 through 16, inclusive, and amending the price instructions and exceptions pertaining to the invoicing of such coals which were established by the order of the Acting Director dated August 15, 1942, in the above-entitled matter. The District Board also requests that temporary relief be granted pending final disposition of this matter.

In support of its motion, District Board No. 11 states that minimum prices have not been established for certain preparations of crushed coal, and resultant sizes thereof, either loaded directly into railroad cars or mixed with other coals, which were being made prior to the establishment of minimum prices for certain crushed coals by the aforesaid order; that the original petition in this matter did not include various size groups for which relief is now sought; and that the requirements imposed by the order of August 15, 1942 with respect to the invoicing of coals for which minimum prices were established by said order are not necessary in certain instances.

Temporary relief, which is also requested by the District Board, is granted in a Memorandum Opinion and Order Granting Temporary Relief issued concurrently herewith.

Now, therefore, it is ordered, That the motion of District Board No. 11 for the reopening of and further hearing in the above-entitled proceeding be and the same hereby is granted.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on December 8, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section at the Offices of the Division, Washington, D. C., will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the Rules and Regulations of the Bituminous Coal Division for Proceedings Instituted Pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before December 3, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to motion of District Board No. 11 to amend Supplement R attached to and made a part of the order dated August 15, 1942, in the above-entitled matter in the following respects:

I. Add thereto the following matter:

Type of preparation	Price group Nos.	Minimum prices
Crushed coal, made from raw or mechanically cleaned coal, from which 50 per cent of ⅜ inch minus is removed, or which is dedusted through the use of standard dedusters equipped with screens with openings smaller than 8 mesh, and which is loaded direct into railroad cars, or is mixed with washed screenings (Size Groups Nos. 23-24).	5-6	20 cents per ton over prices for group No. 14, except that for Size Group 13 coals the amount shall be 30 cents, instead of 20 cents, over prices for Size Group 14.
	8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20.	25 cents per ton over prices for Size Group No. 14, except that for Size Group 13 coals the amount shall be 35 cents, instead of 25 cents over prices for Size Group 14.
	1, 2, 3, 4, 7, 18, 19	40 cents per ton over prices for Size Group No. 14, except that for Size Group 13 coals the amount shall be 50 cents, instead of 40 cents, over prices for Size Group 14.

II. Add to Items Nos. 3 and 4 thereof the following note: Coals in Size Groups 26–29, inclusive, and Size Groups 30–32, inclusive, which contain crushed coal of the preparation described in this item shall be subject to the effective minimum prices for Size Groups 26–29, inclusive, and Size Groups 30–32, inclusive, as the case may be.

III. Add to Item No. 5 thereof the following note: Coals in Size Groups 26–29, inclusive, and Size Groups 30–32, inclusive, which contain crushed coal of the preparation described in this item shall be priced 10 cents per ton higher than the effective minimum prices for Size Groups 26–29, inclusive, and Size Groups 30–32, inclusive, as the case may be.

IV. Delete Item No. 6 thereof.

V. Add the following matters thereto:

Type of preparation	Price group Nos.	Minimum prices
Stoker coals of the size dimensions prescribed for Size Groups 9, 10, 11, 12, which are made from rescreening crushed raw or mechanically cleaned coal, and which are loaded directly into railroad cars. Stoker coals (Size Groups 9, 10, 11, 12) made from rescreening crushed raw or mechanically cleaned coal and which are mixed with raw stoker coals (Size Groups 9, 10, 11, 12) or with washed stoker coals (Size Groups 17, 18, 19, 20) made from the total concurrent production of screenings, Provided, however, in no case shall the allotment of the crushed coal in a mixture exceed 50 percent of the aggregate.	1, 2, 3, 4, 13, 14	15 cents per ton over the prices for Size Groups 9, 10, 11, or 12, as the case may be.
	5, 6, 7, 8, 9, 10, 11, 12, 16, 17, 18, 19, 20.	10 cents per ton over the prices for Size Groups 9, 10, 11, or 12, as the case may be.
	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20.	Prices for Size Groups 9, 10, 11, or 12, or Size Groups 17, 18, 19, or 20, as the case may be.
Resultant carbon or dust (Size Groups 15-16) made from the preparation of crushed stoker coals or from dedusting crushed coal, and which is loaded direct into railroad cars.	1, 2, 3, 4, 7, 18, 19	30 cents per ton over the prices for Size Group 15.
	14	25 cents per ton over the prices for Size Group 15.
	13, 15, 16, 17	20 cents per ton over the prices for Size Group 15.
	5, 6, 8, 9, 10, 11, 12, 20	15 cents per ton over prices for Size Group 15.
Resultant carbon or dust (Size Groups 15-16) made from the preparation of crushed screenings nut or stoker coal, which is mixed with the total concurrent production of raw carbon or dust (Size Groups 15-16) or with washed carbon (Size Group 25), provided, however, in no case shall the allotment of the resultant carbon or dust in the mixture exceed 50 percent of the aggregate.	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20.	Prices for Size Groups 15, 16, or 25, as the case may be.

VI. Restrict the application of the price instruction and exception pertaining to invoices covering the shipment of the crushed coals involved in this proceeding.

Dated: November 18, 1942.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6448]

ROY L. ALBERTSON (WBNY)

NOTICE OF HEARING

In re application of Roy L. Albertson (WBNY), dated June 26, 1942, for modification of license; class of service, broadcast; class of station, broadcast; location, Buffalo, New York; operating assignment specified: Frequency, 680 kc; power, 250 w; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons:

1. To determine whether the granting of this application would be consistent with the policy announced by the Commission in its Memorandum Opinion dated April 27, 1942, as supplemented September 22, 1942.

2. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of Station WBNY operating as proposed.

3. To determine the extent of any interference which would result from the

simultaneous operation of Station WBNY as proposed and Stations WLAW, WPTF and WISR.

4. To determine the areas and populations which would be deprived of primary service, particularly from Stations WLAW, WPTF and WISR, should Station WBNY operate as proposed, and what other broadcast services are available to those areas and populations.

5. To determine the areas and populations which may be expected to gain primary service should Station WBNY operate as proposed and what other broadcast services are available to those areas and populations.

6. To determine the areas and populations which may be expected to lose primary service should Station WBNY operate as proposed and what other broadcast services are available to those areas and populations.

7. To determine whether the proposed radiating system complies with the Standards of Good Engineering Practice, particularly as to the minimum height requirements.

8. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice and proposed allocation of broadcast facilities (footnote 4, page 3, Standards of Good Engineering Practice).

9. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience or necessity would be served by a grant of the instant application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: Roy L. Albertson, Radio Station WBNY, 485 Main Street, Buffalo, New York.

Dated at Washington, D. C., November 19, 1942.

[Docket No. 6449]

DAVID ASHTON BROWN

NOTICE OF HEARING

In re application of David Ashton Brown (New), dated December 29, 1941, for Construction Permit; class of service, class II experimental; class of station, class II experimental; locatior, Marion, Ohio; operating assignment specified: Frequency, 310,000 kc; emission, A3; power, 1.35 w night; 1.35 w day; hours of operation, sections 5.15 and 5.18.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons:

1. To determine whether the applicant has an organized plan of research leading to a specific objective in the experimental field.

2. To determine whether the applicant has a program of research and development that has reached the stage in the laboratory where actual transmission by radio is essential to the further progress of the experimental program.

3. To determine whether the applicant has a program of research which possesses reasonable promise of substantial contribution to the development or extension of the radio art or is along lines not previously investigated.

4. To determine whether the program of research and experimentation will be conducted by qualified personnel.

5. To determine whether the applicant is legally, technically, financially and otherwise qualified, and possesses adequate facilities, to carry forward the program proposed.

6. To determine whether the applicant is primarily interested in reseach and experimentation in radio, directed toward the development of a new or proposed radio service or some phase of an established radio service.

7. To determine whether the operation as proposed, will cause interference with established stations or services.

8. To determine the use which will be made of the proposed station and the type and character of service which will be rendered.

9. To determine whether the requirements set out under the rules of the Commission, for experimental operation, governing the services involved, will be met.

10. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience or necessity will be served by a grant of the application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: David Ashton Brown, 135 East Church Street, Marion, Ohio.

Dieckbrader; Vera Carter, doing business as M. C. Trucking Company; Fred E. and F. Alvan Sohn, doing business as Sohn and Son; and Zimmerman Trucking Service, Inc.

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of specified commodities as contract carriers by motor vehicle, filed with the Office of Defense Transportation by R. D. Allisbaugh, doing business as Allisbaugh Trucking Company, Wabash, Indiana; O. Brown, doing business as Brown Trucking Company, Wabash Indiana; Harry Urschel, doing business as Urschel Trucking Company, Wabash, Indiana; R. E. Dieckbrader, Cincinnati, Ohio; Vera Carter, doing business as M. C. Trucking Company, Anderson, Indiana; Fred E. and F. Alvan Sohn, doing business as Sohn and Son, Carthage, Indiana; and Zimmerman Trucking Service, Inc., Knightstown, Indiana, as governed by § 501.72 (b) of General Order ODT 17, as amended,[1] and good cause appearing therefor; *It is hereby ordered*, That:

1. R. D. Allisbaugh, doing business as Allisbaugh Trucking Company; O. Brown, doing business as Brown Trucking Company; Harry Urschel, doing business as Urschel Trucking Company; R. E. Dieckbrader; Vera Carter, doing business as M. C. Trucking Company; Fred E. and F. Alvan Sohn, doing business as Sohn

and Son; and Zimmerman Trucking Service, Inc. (hereinafter collectively called "carriers"), respectively, in the transportation of pulpboard, woodpulp, scrap paper, wooden skids and cores, paper boxes, lime, straw, paper mill equipment, supplies and dye, as contract carriers by motor vehicle, for the Container Corporation of America, in order to facilitate the movement of shipments of such described commodities by such carriers within the limitations, restrictions, and requirements of General Order ODT 17, as amended, shall establish an office at Carthage, Indiana, and appoint a manager thereof, and

(a) Shall register with such office shipments of the Container Corporation of America which any of the carriers may be unable to transport by reason of the limitations, restrictions, or requirements of General Order ODT 17, as amended;

(b) Shall register with such office all motor vehicles and facilities for which the carriers have no shipments available.

(c) Such manager shall receive such information and shall arrange with the respective carriers for the acquisition and utilization of such available motor vehicle equipment and facilities of such other carriers for the transportation of such shipments so as to eliminate empty mileage wherever feasible.

(d) Such office shall prepare and maintain a record of all such shipments, available motor vehicle equipment and facilities, and arrangements made in respect of its utilization by such other carriers and shall keep such other records and make such reports as may be prescribed or required by the Office of Defense Transportation. All records of such office shall be available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

(e) The cost of maintaining such office shall be divided among the carriers in accordance with such plan of division as they may agree upon: *Provided*, That if such cariers are unable to agree upon a division of the costs, such costs may be apportioned in such manner as may be determined by the Office of Defense Transportation to be just and equitable.

2. When such a carrier utilizes in the performance of authorized transportation service for the Container Corporation of America the motor vehicle of another such carrier together with the services of the driver and helper, or either, regularly employed by such other carrier in connection therewith, it shall not be necessary for such carrier to transfer such driver or such helper to its payroll: *Provided*, That during such period of utilization of such motor vehicle such operating carrier shall assume direction and control of such motor vehicle and facilities, and in respect of its operation, assume full responsibility to the general public and to the Container Corporation of America: *Provided further*, That the name, address, and permit or certificate number of such operating carrier is prominently displayed on both sides of the vehicle and, if the name of such other carrier or the name of any other person also appears on the motor vehicle, the name of the operating carrier shall be preceded by the words "operated by."

3. Unless the interested carriers agree upon the amount of compensation payable for the use of any such motor vehicle and facilities so utilized, the amount of such compensation shall be such amount as may be determined by the Office of Defense Transportation to be just and equitable, subject to any applicable maximum price established by any competent governmental authority.

4. Any contract carrier by motor vehicle duly authorized to engage in interstate or foreign commerce or intrastate commerce in the transportation of said described commodities, or some of them, and engaged as such by the Container Corporation of America, shall be entitled to participate in the plan of action and arrangement contemplated by this Supplementary Order ODT 17–1 if, upon application filed with the Office of Defense Transportation, a copy of which application shall be served upon each member carrier to this plan, the Director of the Office of Defense Transportation shall have determined that the facilities of such carrier are suitable for participation in such plan and arrangement.

5. This Supplementary Order ODT 17–1 shall not be construed so as to permit or require any contract carrier to perform any transportation service, the performance of which by it is not authorized or sanctioned by law, or to render any service beyond its transportation capacity, nor shall it be construed so as to relieve any such carrier from inquiring at and registering with a Joint Information Office established pursuant to General Order ODT 13, as amended,[2] available motor vehicle equipment not utilized under the terms of this Supplementary Order ODT 17–1.

6. Each carrier named herein shall file a copy of this supplementary order with the Interstate Commerce Commission and with each appropriate State regulatory body.

7. Communications concerning this order should be addressed to the Division of Motor Transport, Office of Defense Transportation, Washington, D. C. and should refer to "Supplementary Order ODT 17–1."

This order shall become effective on November 30, 1942, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 20th day of November 1942.

[Special Order ODT B–32]

NEW ENGLAND TRANSPORTATION CO., ET AL.

COORDINATION OF MOTOR VEHICLE PASSENGER SERVICE

Directing coordinated operation of New England Transportation Company; Union Street Railway Company; and Milton Schoenberg, operating as I. C. T. Bus Company; between Providence, Rhode Island, and New Bedford, Massachusetts.

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of passengers, filed with the Office of Defense Transportation by New England Transportation Company, Boston, Massachusetts, Union Street Railway Company, New Bedford, Massachusetts, and Milton Schoenberg, operating as I. C. T. Bus Company, East Providence, Rhode Island, pursuant to § 501.49 of General Order ODT 11,[1] and in order to assure maximum utilization of the facilities, services, and equipment of common carriers of passengers by motor vehicle, and to conserve and providently utilize vital equipment, material, and supplies, including rubber, the attainment of which purposes is essential to the successful prosecution of the war: *It is hereby ordered*, That:

1. New England Transportation Company, Union Street Railway Company, and Milton Schoenberg, operating as I. C. T. Bus Company, (hereinafter collectively called "carriers"), respectively, in the transportation of passengers, express, newspapers, and mail on the routes served by them between Providence, Rhode Island, and New Bedford, Massachusetts, as common carriers by motor vehicle shall:

(a) Honor each other's interstate tickets and waybills between all points common to their lines where equal fares or charges apply, and divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections;

(b) Adjust and establish interstate schedules to eliminate duplication of times of departure of the respective carriers and provide reasonable frequency of service throughout the day;

(c) Wherever practicable, except at Providence, Rhode Island, and Fall River, Massachusetts, eliminate duplicate depot facilities and commission ticket agencies and in lieu thereof, utilize joint depot facilities and joint commission agencies. Contracts, agreements, and arrangements for any such joint facilities and agencies shall not extend beyond the effective period of this order. At depot facilities and commission ticket agencies used jointly by the carriers, service, travel information, and ticket sales shall be impartial, without preference or discrimination for or against either of such carriers;

(d) Publish consolidated time tables.

2. On the routes served by the carriers between Providence, Rhode Island, and Fall River, Massachusetts:

(a) The carriers shall operate a combined service of not to exceed forty-one (41) round trips daily;

(b) Milton Schoenberg and New England Transportation Company shall honor each other's intrastate tickets and waybills between all points common to their lines where equal fares or charges apply, and divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections;

[2] 7 F.R. 5066, 5678.

[1] 7 F.R. 4389.

(c) The carriers shall adjust and establish intrastate schedules to eliminate duplication of times of departure of the respective carriers and provide reasonable frequency of service throughout the day;

(d) New England Transportation Company and Union Street Railway Company shall operate, as nearly as practicable, sixty-four and one-half (64½) per cent of the combined vehicle mileage of the carriers, and Milton Schoenberg shall operate, as nearly as practicable, thirty-five and one-half (35½) per cent of such mileage;

(e) New England Transportation Company shall pay to Milton Schoenberg ninety (90) per cent of the amount of revenue collected by it and Union Street Railway Company from transportation that is in excess of sixty-four and one-half (64½) per cent of the combined gross revenue of the carriers from transportation, and Milton Schoenberg shall pay to New England Transportation Company ninety (90) per cent of the amount of revenue collected by him from transportation that is in excess of thirty-five and one-half (35½) per cent of such combined gross revenue.

3. Through service between Providence, Rhode Island, and New Bedford, Massachusetts, shall not exceed eighteen (18) round trips daily by New England Transportation Company and Union Street Railway Company, and seven (7) round trips on Saturdays, Sundays, and legal holidays, six (6) round trips on days preceding legal holidays, and four (4) round trips on other days by Milton Schoenberg.

4. Union Street Railway Company shall operate such intrastate service between Fall River and New Bedford, Massachusetts, as the volume of traffic may require.

5. The carriers forthwith shall file with the Interstate Commerce Commission, in respect of transportation in interstate or foreign commerce, and with each appropriate State regulatory body, in respect of transportation in intrastate commerce, and publish, in accordance with law, and continue in effect until further order, tariffs or appropriate supplements to filed tariffs, setting forth any changes in the fares, charges, operations, rules, regulations, and practices of each carrier which may be necessary to accord with the provisions of this order, together with a copy of this order; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs or supplements to become effective on one day's notice.

6. Communications concerning this order should be addressed to the Division of Local Transport, Office of Defense Transportation, Washington, D. C., and should refer to "Special Order ODT B-32."

This order shall become effective on December 4th, 1942, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

OFFICE OF PRICE ADMINISTRATION.

[Order 12 Under MPR 161]

JERRY AARTS LOGGING COMPANY, ET AL.

OVERTIME ADDITIONS

Order No. 12 under § 1381.160 (e) of Maximum Price Regulation 161—West Coast Logs.

Pursuant to the provisions of § 1381.160 (e) of Maximum Price Regulation 161—West Coast Logs, each of the following persons has filed with the Office of Price Administration, Washington, D. C., a certified statement that the following hours per week are maintained in its logging operations. Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with § 1381.160 (e) of Maximum Price Regulation 161, *It is hereby ordered:*

(a) The following persons being on a 48-hour week may add to the maximum prices of all logs produced by them $1.00 per 1,000 ft., log scale:

Jerry Aarts Logging Company, Sumner, Washington.
Lerback Logging Co., Seaside, Oregon.
Dye Logging Co., Tillamook, Oregon.
M. C. Willie, Olympia, Washington.
Duffy Bros., Clallam Bay, Washington.
Southard & Tobin, Olympia, Washington.

[Order 63 Under MPR 188]

PHILIP CAREY MANUFACTURING CO.

DETERMINATION OF MAXIMUM PRICE

Order No. 63 under § 1499.158 of Maximum Price Regulation No. 188—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

On October 6, 1942, The Philip Carey Manufacturing Company of Cincinnati, Ohio, filed an application with the Office of Price Administration seeking a specific authorization pursuant to § 1499.158 of Maximum Price Regulation No. 188 to determine maximum prices for Industrial and Steam Railroad Asbestos Smoke Jacks (as defined in paragraph (b) below) and for instructions as to the method to be used in determining maximum prices for such Asbestos Smoke Jacks to be manufactured by them.

Authorization for The Philip Carey Manufacturing Company to determine maximum prices for Industrial and Steam Railroad Asbestos Smoke Jacks. (a) The maximum prices which may be charged by The Philip Carey Manufacturing Company for Industrial and Steam Railroad Asbestos Smoke Jacks shall be determined in each case in accordance with the following formula:

(1) Determine the unit cost of the direct labor involved in the production of the Asbestos Smoke Jack based upon the highest wage rates in effect in the company for any substantial portion of March 1942, for each class of labor involved in the production of the product.

(2) Add to this sum the selling price of the Asbestos Cement Sheathing required, as stated in The Philip Carey Manufacturing Company's Price Schedule No. Y1B, effective February 25, 1942 for railroads, industrials and others, taking a discount of 45% on this stated price.

(3) Add to the total reached in (2) above the cost to the company of all other materials and accessories of all kinds used in the production of the Asbestos Smoke Jack.

(4) Add to the total reached in (3) above a sum equal to 35% of itself.

(5) The price so determined shall be the maximum price for the Asbestos Smoke Jack being priced, including crating.

(6) Where the Asbestos Smoke Jack is being sold uncrated, the same procedure shall be followed as in paragraphs (a) (1) through (a) (5) above: *Provided, however,* That in this case the discount specified in paragraph (a) (2) shall be 50% instead of 45%.

(7) All freight equalization practices and allowances and all trade or cash discounts applicable to the sale of any Asbestos Smoke Jack, whether based on quantity, class of purchaser, or any other cause, shall be applicable to the sale of any Asbestos Smoke Jack in accordance with the specific provisions of the company's Price Schedule Y1B, referred to above, and with the general practices of the company.

(b) The term "Asbestos Smoke Jack" as used in this Order No. 63 shall include all Smoke Jacks constructed of Asbestos Cement Sheathing and metal and other accessories of varying kinds, manufactured by The Philip Carey Manufacturing Company for use in engine houses to carry out smoke from the stack of the engine, or for related uses, built in each case to the dimensions and specifications shown by the customer.

(c) Within ten days after a maximum price has been determined in accordance with this order, The Philip Carey Manufacturing Company shall report that price to the Office of Price Administration, stating that the price was determined in accordance with the formula set forth in paragraph (a) hereof and setting forth in detail the calculations made in determining that price, including a description of the product and the labor and materials used. This report shall be filed in triplicate.

(d) This order shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Order No. 63 may be revoked or amended by the Office of Price Administration at any time.

(f) This Order No. 63 shall become effective November 21, 1942.

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary

[Rationing Order C]

PART 2—RATIONING OF FARM MACHINERY AND EQUIPMENT

NEW FARM MACHINERY AND EQUIPMENT

In view of the drastic limitation of production of new farm machinery and equipment, it is necessary in the general public interest that the distribution and use of new farm machinery and equipment be so controlled as best to promote the war effort. Accordingly, this Rationing Order C, which establishes a procedure for effectuating that purpose, is issued.

New farm machinery and equipment listed in Schedule I or Schedule II of this order may not be transferred until the Secretary of Agriculture or the Special War Board Assistant to the Secretary of Agriculture takes action pursuant to §§ 2.206, 2.207 and 2.212 of this order, except that new farm machinery and equipment listed on Schedule II which is in the hands of dealers may be transferred on and after the effective date of this order.

Pursuant to the authority vested in the Secretary of Agriculture by Administrative Orders 28[1] and 30[2] of the Office of Price Administration, issued September 15, 1942, and November 11, 1942, respectively: *It is hereby ordered*, That:

Laws 507 and 421, 77th Cong., War Production Board Directive 1, Supplementary Directive 1-K, Supplementary Directive 1-P, 7 F.R. 562, 7280, 8856, Office of Price Administration Administrative Orders 28 and 30, 7 F.R. 7326, 8672, 9368.

DEFINITIONS

§ 2.201 *Definitions.* When used in Rationing Order C:

(a) "Secretary" means the Secretary of Agriculture.

(b) "County farm rationing committee" means the county rationing committee heretofore established pursuant to § 2.4 of Temporary Rationing Order A, as amended (which committees are to remain in full force and effect), or the committee established pursuant to § 2.204 hereof.

(c) "State board" means the State U. S. D. A. War Board.

(d) "Special War Board Assistant" means the Special War Board Assistant to the Secretary of Agriculture.

(e) "Application" means an application for the purchase of Schedule I equipment.

(f) "Purchase certificate" means a certificate authorizing the purchase of Schedule I equipment.

(g) "Applicant" means a person who has filed an application with a county farm rationing committee or with a State board.

(h) "Manufacturer" means any person engaged to whatever extent in the business of making or assembling new farm machinery and equipment.

(i) "Distributor" means any person who accepts transfers of new farm machinery and equipment to the extent that such transfers are accepted for the purpose of making further transfers other than for use.

(j) "Dealer" means any person, whether principal or agent, engaged to whatever extent in the transferring of new farm machinery and equipment for use.

(k) "Type of equipment" means any general class of equipment, such as tractors, combines, grain drills, etc.

(l) "Person" means any individual, partnership, corporation, association, or any other organized group of "persons" and shall include any agent, agency, or any "person" acting for or on behalf of any of the foregoing. The term "person" shall also include the United States or any agency thereof, and a State or any political subdivision or agency thereof.

(m) "Transfer" means any actual or purported act or transaction, whether or not evidenced by writing, the purpose, intent, or effect of which is to create, surrender, release, change, or alter, directly or indirectly, any right, title, interest, or possession with respect to any new farm machinery and equipment and, without limitation upon the foregoing, shall include the making, execution, or delivery of any bill of sale, chattel mortgage, receipt, agreement, contract, certificate, gift, loan, lease, sale, barter, or exchange, the creation or transfer of any lien, the issuance, docketing, filing, or the levy of or under any judgment, decree, attachment, execution, or other judicial process or order. The use by a dealer or manufacturer of new farm machinery and equipment in farming operations shall be deemed a transfer. "Transfer" shall also include delivery of any new farm machinery and equipment from any person to any agent or agency of such person or the delivery thereof to any person acting on behalf of such person.

(1) Notwithstanding the foregoing, the following shall not be deemed to be transfers:

(i) The delivery of new farm machinery and equipment to a repairman, or to any other person, for the sole purpose of making repairs or adjustments.

(ii) The creation, surrender, release or alteration of any right, title or interest in new farm machinery and equipment which is done solely for the purpose of securing or releasing any obligation of the transferor: *Provided, however,* That the transferee may not acquire such new farm machinery and equipment except for purposes of making a transfer thereof pursuant to the provisions of this order.

(2) Notwithstanding the foregoing, the delivery of new farm machinery and equipment to a carrier for shipment or the delivery of new farm machinery and equipment by a carrier to a consignee shall not be deemed to be transfers to or by a carrier.

(n) "Farm machinery and equipment" means agricultural machinery, mechanical equipment and implements (including all attachments used in conjunction therewith) used for the production or care of crops, livestock, livestock products, or other produce on a farm (or elsewhere in the case of poultry), including farm fencing, fluid milk shipping containers and covers (no matter where used), irrigation and drainage equipment (excluding tile), horseshoes (including mule-shoes), horseshoe nails, harness hardware and water well casing: but excluding repair parts and also excluding all of the following: track-laying type tractors, equipment ordered by the United States Department of Agriculture or other United States Government agencies, buildings and repairs thereto, bale ties or straps, oil well casing and water pipe, nails (other than horseshoe nails) and sundry hardware.

(o) "Attachment" for farm machinery and equipment means a supplementary appliance which may be added to an otherwise complete machine to extend the utility of such machine. No item listed in Schedule I or Schedule II shall be considered an attachment.

(p) "New farm machinery and equipment" means all farm machinery and equipment except farm machinery and equipment transferred for use prior to the effective date of this order, or except farm machinery and equipment transferred for use pursuant to the provisions of this order. Farm machinery and equipment transferred or used in violation of this order shall be deemed to be new farm machinery and equipment.

(q) "Schedule I equipment" means new farm machinery and equipment listed in Schedule I attached hereto and made a part hereof.

(r) "Schedule II equipment" means new farm machinery and equipment listed in Schedule II attached hereto and made a part hereof.

(s) "Notification" means the depositing of any notice in the United States mail addressed to the last known address of the person being notified, or the delivery in any other manner of written notice to such person, and whenever this order requires the computation of time after notification, such time shall be computed from the date on which such notice was so deposited in the United States mail or was so delivered to such person.

(t) "Mail order house" means any person engaged in the business of transferring farm machinery and equipment for use directly to transferees upon orders therefor received, primarily by mail, from such transferees.

ADMINISTRATION AND PERSONNEL

§ 2.202 *Personnel.* The administration of the farm machinery and equipment rationing program established by this order and the powers conferred upon the Secretary by the Office of Price Administration Administrative Orders 28 and 30, are hereby delegated to the Special War Board Assistant. The Special War Board Assistant shall be assisted in the administration of the farm machinery and equipment rationing program by the State boards, the county farm rationing committees, and by such employees of the Department of Agriculture as he may designate.

§ 2.203 *Duties.* The county farm rationing committee, the State boards, the Office for Agricultural War Relations, and the Special War Board Assistant shall have the duties and responsibilities prescribed in this order and such further duties and responsibilities as the Secretary or the Special War Board Assistant may designate.

§ 2.204 *County farm rationing committee.* (a) The county farm rationing committee shall consist of three regular members and two alternate members, none of whom shall be dealers. One of the regular members shall be the chairman of the county agricultural conservation committee, who shall be chairman of the county farm rationing committee. If the chairman of the county agricultural conservation committee is a dealer, the county U.S.D.A. war board shall select, as a member and chairman of the county farm rationing committee, a regular or alternate member of the county agricultural conservation committee who is not a dealer. The other two regular members and the two alternate members of the county farm rationing committee shall be appointed by the county U.S.D.A. war board, shall be farmers resident in the county, and shall not be members of the county agricultural conservation committee. The regular and alternate members of the county farm rationing committees shall serve without compensation.

(b) An alternate member of the county farm rationing committee shall serve in case of illness or other indisposition of a regular member. No member of a county farm rationing committee shall take part in any committee action which involves the application of, or in any way affects, himself, any member of his immediate family, or other near relative, or his landlord, tenant, or business associate. An alternate member of the committee, not so disqualified, shall serve in such cases only if the distinterested members of the committee do not agree on the action to be taken.

(c) Any member of the county farm rationing committee may be removed after hearing by the State board. In case of such removal, the county U.S.D.A. war board shall fill such vacancy by appointment pursuant to the provisions of paragraph (a) hereof. If the member removed is a member or chairman of the county agricultural conservation committee, the vacancy shall be filled by the appointment of a qualified regular or alternate member of the county agricultural conservation committee.

(d) If a county farm rationing committee determines that for any reason it cannot satisfactory perform its duties and functions under this order and that such duties and functions could be more satisfactorily performed with the assistance of a subcommittee controlling a smaller geographical area, it may apply to the State board for permission to establish a county farm rationing subcommittee. If the State board determines under all the circumstances that such action would be in the best interest of the new farm machinery and equipment rationing program, it may authorize the county U.S.D.A. war board for such county to appoint a sub-committee consisting of two regular and two alternate members, all of whom shall be farmers, and a third member who shall be a member of the county agricultural conservation committee. All of such regular and alternate members shall be qualified under paragraph (a) hereof. The member of the county agricultural conservation committee shall be the chairman of such sub-committee. The State board shall designate the area in such county to be served by the county farm rationing committee and the area to be served by the sub-committee. The county farm rationing committee shall allocate from its quotas of each type of Schedule I equipment the numbers of units which shall be available for rationing by the sub-committee. Any subcommittee appointed under this paragraph shall act as if it were the county farm rationing committee within the area designated and the procedures in this order applicable to the county farm rationing committee shall be applicable to any such sub-committee. Appeals from any action of such sub-committee shall be made pursuant to this order and shall, after reconsideration by such subcommittee, be made directly to the State board.

(e) If the State board determines for any reason that it is desirable in the best interests of the farm machinery and equipment rationing program that a county farm rationing committee for a particular county be given jurisdiction over one or more other counties in the administration of this order, the State board may designate such county farm rationing committee to administer the provisions of this order for such other county or counties, and it shall abolish any county farm rationing committee heretofore established for such other county or counties. Before a State board takes any action authorized by this paragraph, it shall obtain the approval of the Special War Board Assistant.

(f) The county farm rationing committee for Montgomery County, State of Maryland, shall administer the provisions of this order for the District of Columbia.

RESTRICTIONS

§ 2.205 *Restrictions of transfers.* Regardless of the terms of any contract of sale or purchase, or other commitment, whenever made, no person shall transfer or accept a transfer of any Schedule I equipment or Schedule II equipment except pursuant to the provisions of this order.

SCHEDULE I: EQUIPMENT QUOTAS AND ALLOCATIONS

§ 2.206 *Establishment of quotas.* (a) The Office for Agricultural War Relations and the Special War Board Assistant may, from time to time, establish State quotas providing for the maximum number of units of each type of Schedule I equipment for the transfer of which purchase certificates may be issued. State and county quotas and State reserves, if any, may be altered or revoked in the discretion of the Special War Board Assistant.

(b) The Special War Board Assistant may withhold a portion of each State quota of Schedule I equipment as a national reserve to be administered by him for the making of such adjustments as he may deem necessary pursuant to § 2.210. The State boards may also withhold a portion of each State quota of Schedule I equipment as a State reserve to be administered by the State board of each such State for the purpose of making necessary adjustments of Schedule I equipment quotas for the counties within the State.

§ 2.207 *Allotment of quotas to county farm rationing committees.* The Special War Board Assistant shall forward to each State board the Schedule I equipment quotas applicable to each such State. The State board shall then establish and forward to each county farm rationing committee the Schedule I equipment quotas, if any, applicable to each such county. No county farm rationing committee shall issue a purchase certificate for the transfer of any type of Schedule I equipment in excess of its quotas of such Schedule I equipment. Prior to the establishment of a county quota of any type of new farm machinery and equipment in Schedule I, the county farm rationing committee shall not issue any purchase certificates for such type of Schedule I equipment unless the Special War Board Assistant has announced that no quotas will be presently established for such type of Schedule I equipment: *Provided, however,* That if the Special War Board Assistant thereafter establishes State quotas for any such type of Schedule I equipment, no county farm rationing committee shall, thereafter, issue purchase certificates for transfers of such equipment in excess of its quota.

§ 2.208—*Request for adjustment of quotas to cover special situations.* Where a county farm rationing committee believes that the current agricultural need requires that it issue a purchase certificate for the transfer of any Schedule I equipment, but is unable to issue such a purchase certificate because its quota for such Schedule I equipment has been exhausted, the county farm rationing committee may make a request to the State board to increase the county quota of such Schedule I equipment by filing a written request with the State board setting forth the full facts of the case. The State board in its discretion may draw upon its State reserve, if any, to augment such quota for the county as it deems necessary.

§ 2.209 *General authority of State boards over quotas.* A State board itself shall not issue purchase certificates except as provided in § 2.213 or except pursuant to instructions or regulations issued by the Special War Board Assistant, but may add a specific number of units of Schedule I equipment to the quota of a county for which the county farm rationing committee may then issue purchase certificates. However, a State board shall not increase a county quota in excess of the then existing reserve for such State nor shall the State board grant authority to a county farm rationing committee to exceed that county's then existing quota.

§ 2.210 *Adjustment of State quotas by the Special War Board Assistant.* The Special War Board Assistant may draw upon the national reserve, if any such reserve is established pursuant to paragraph (b) of § 2.206, to adjust the quotas of the different States. A State board may request an allotment from any such national reserve withheld by the Special War Board Assistant to augment a State reserve, if any, held under such board's control. Any such request shall be accompanied by a statement setting forth in full the facts giving rise to such request.

SCHEDULE II: EQUIPMENT

§ 2.211 *Purchase certificates not required.* A purchase certificate is not necessary for the transfer of Schedule II equipment.

DISTRIBUTION ORDERS AND REGULATIONS

§ 2.212 *Shipment of new farm machinery and equipment.* No manufacturer, distributor, mail order house, dealer or other person shall transfer or physically move (unless for purposes of storage within the county in which such equipment is located) any Schedule I or Schedule II equipment except pursuant to orders or regulations issued by the Secretary or the Special War Board Assistant: *Provided, however,* That a dealer, from stocks which he has on hand, may transfer any Schedule II equipment, or may transfer any Schedule I equipment pursuant to a purchase certificate. Orders or regulations issued under this section shall be designed, insofar as practicable, to effectuate the proper distribution of farm machinery and equipment in accordance with quotas and allocations established pursuant to this order.

FLUID MILK SHIPPING CONTAINERS AND COVERS

§ 2.213 *Special provisions for fluid milk shipping containers and covers.* (a) Each State board shall reserve an appropriate number of units of the State quota of new fluid milk shipping containers and covers, if any such quota is established, to ration to dairies and farmers' cooperatives which do business in two or more counties or in a county in which there is no county farm rationing committee established.

(b) The State boards shall act as the county farm rationing committees in the rationing of new fluid milk shipping containers and covers to dairies and farmers' cooperatives which operate in two or more counties or in a county in which there is no county farm rationing committee established. Applications for the above shall be received by the State boards and the State boards shall act upon such applications as if they were the county farm rationing committees and follow the procedures established in this order for county farm rationing committees. Pursuant to such applications the State boards may issue purchase certificates. The State boards shall not issue purchase certificates in any other cases.

(c) The procedure established by this order for appeals from the county farm rationing committees shall be followed in appealing from the action of the State boards acting pursuant to this section, except that requests for reconsideration shall be made to the State board and the appeal from the State board's action shall be taken directly to the Special War Board Assistant.

(d) Any State board acting pursuant to this section shall keep the same records required of a county farm rationing committee.

(e) Any State board may designate one or more areas within its State and may appoint a committee to be responsible for the execution of the provisions of this section in each such area. If such committees are designated, they shall consist of three regular members and three alternate members, all to be appointed by the State board. One member, who shall be chairman, shall be a representative of the Agricultural Marketing Administration, preferably the market administrator, within the designated area; one member shall be a member of a farmers' milk cooperative association within the designated area; and one member shall be affiliated with a dairy company within the designated area. Each alternate shall be qualified in the same manner as the member for whom he is alternate. If any of the above interests are not represented within the designated area, then in lieu of a representative of such interest the State board shall appoint a person resident within the designated area who does not represent any of such interests. Both regular and alternate members shall serve without compensation. Any committee appointed under this subsection shall, in rationing new fluid milk shipping containers and covers, operate in accordance with the provisions of this section relating to State boards, except that appeals from the action of such committees upon applications for reconsideration shall be first made to the State board.

PERSONS AUTHORIZED BY THE WAR PRODUCTION BOARD TO ACQUIRE NEW FARM MACHINERY AND EQUIPMENT

§ 2.214 *Government agencies; exports; non-farm use.* Any Federal agency desiring any new farm machinery and equipment, any person desiring to acquire new farm machinery and equipment for export to and consumption or use in any foreign country, and any person desiring to acquire for non-farm use any new farm machinery and equipment, except fluid milk shipping containers and covers, may acquire such new farm machinery and equipment without purchase certificates provided there is compliance with any and all applicable regulations of the War Production Board.

TRANSFERS OF SCHEDULE I EQUIPMENT WITHOUT PURCHASE CERTIFICATES

§ 2.215 *Persons eligible to transfer Schedule I equipment only for purposes of resale.* The following persons are eligible to transfer or to accept a transfer, pursuant to orders or regulations issued under § 2.212, of Schedule I equipment without purchase certificates for the purpose only of making further transfers in accordance with this order: dealers, mail order houses, distributors, or manufacturers, or their legal successors in interest (including but not limited to heirs, devisees, successors, assigns, trustees in bankruptcy, receivers, persons distraining, levying by execution, attachment, or similar forms of judicial process, or persons repossessing or taking by default).

STANDARDS OF USE

§ 2.216 *Establishment of standards of use.* The Special War Board Assistant may, from time to time, establish standards of use for each type of Schedule I equipment. Such standards may differ from State to State and from county to county. The county farm rationing committees and all persons concerned in the administration of this order shall, in any action on applications for purchase certificates, be guided by such standards of use as may be prescribed for the various types of Schedule I equipment for the State and county in which such applications for purchase certificates are made.

PERSONS ELIGIBLE TO ACQUIRE NEW FARM MACHINERY AND EQUIPMENT IN SCHEDULE I

§ 2.217 *Proof of necessity.* A person may obtain a purchase certificate and a county farm rationing committee may issue such a purchase certificate only if such person:

(a) Establishes the following facts to the satisfaction of the county farm rationing committee:

(1) That such person's present machinery and equipment cannot handle the production or increased or new production planned and required as a contribution to the current agricultural need;

(2) That such person cannot meet his machinery and equipment needs by re-

pairing his old machines and equipment, by purchasing or renting used machinery and equipment, by custom work, by exchange of work or machinery and equipment, or by any other means;

(3) That failure to approve the application would result in a substantial reduction in the production of crops or commodities essential to the war effort;

(4) That the machinery and equipment to be purchased will, where possible, perform services considerably in excess of the average services performed by the same kind of machinery and equipment in use in the community;

(5) That, if such person desires to change from horse-power or mule-power to motor power, he has a good and sufficient reason for making such change;

(6) That, if such person desires to change from hand labor to machinery, he has a good and sufficient reason for making such change; and

(b) Satisfies the county farm rationing committee that the following agreements have been or will be executed in good faith;

(1) An agreement to turn in to the dealer, or to whomever the county farm rationing committee may designate, for rebuilding or for salvage of all usable parts, or for scrap, the machinery and equipment which he proposes to replace, unless such person furnishes the county farm rationing committee with satisfactory evidence that some other disposition of the worn-out machinery and equipment would better serve the national interest, or that no such disposition thereof is possible;

(2) An agreement with the United States to rent, or do custom work with, or let others use the new farm machinery and equipment on such terms and conditions as the county farm rationing committee may deem necessary;

(3) An agreement with the United States to use the new farm machinery and equipment in accordance with the agreements and statements made in his application for such new farm machinery and equipment, and to comply with or conform to any other agreements and statements made in his application; and the further agreement that, if the county farm rationing committee determines after a hearing that he has failed, without regard to existence of fault on his part, to comply with or conform to such agreements and statements, or that he has made a false statement in preparing his said application or has not made in good faith any statement or agreement signed by him in said application, (i) he will not object to the entry of a judgment or decree compelling him to comply with or conform to such agreements and statements, (ii) he will rent or sell such farm machinery and equipment to such person or persons as the county farm rationing committee may designate, upon such terms and at such rental or sales prices as such applicant and such county farm rationing committee may agree upon, or in case of disagreement, upon such terms and at such rental or sales price as may be agreed upon by a majority of arbiters, one to be appointed by the applicant, one to be appointed by the county farm rationing committee and a third to be appointed by such two arbiters; if such applicant refuses to appoint an arbiter, the rental or sales price shall be that fixed by the arbiter appointed by the county farm rationing committee.

(4) An agreement with the transferor of the new farm machinery and equipment that all right, title, and interest therein acquired by such applicant as transferee shall immediately vest in the United States upon the happening of the following conditions: namely; (i) (*a*) that there has been a determination by the county farm rationing committee in writing that such applicant is not complying with or conforming to or has failed to comply with or conform to the uses to which said applicant stated in his application he would put his machinery and equipment, or to the agreements which said applicant signed in said application or to any other statements set forth by said applicant in said application; (*b*) or that the county farm rationing committee has made a determination in writing that said applicant has made a false statement in preparing his said application or has not made in good faith any statement or agreement signed by him in said application, and (ii) that there has been a determination by the State board in writing that such vesting is necessary to promote the best interests of the United States.

APPLICATIONS BY PERSONS FOR SCHEDULE I EQUIPMENT AND NOTIFICATIONS

§ 2.218 *Applications for certificates to purchase Schedule I equipment.* (a) Any person who believes that he is entitled under this order to Schedule I equipment may file with the county farm rationing committee for the county in which such Schedule I equipment is to be principally used an application for a certificate to purchase such Schedule I equipment. Such application shall be filed on Form MR–20. The applications for the Schedule I equipment referred to in § 2.213 shall be filed on Form MR–20 with the State board for the State in which such Schedule I equipment is to be principally used.

(b) If, pursuant to § 2.207, the Special War Board Assistant has announced that no quotas will be presently established for any type of Schedule I equipment, an applicant for such type of Schedule I equipment shall, in addition to filing the application mentioned in paragraph (a) hereof, certify in writing to the county farm rationing committee that he has located in the hands of a dealer or a mail order house the Schedule I equipment for which application is made and that to his best knowledge such Schedule I equipment so located will be transferred to him if he is granted a purchase certificate.

§ 2.219 *Preparation of application*—(a) *Forms.* Copies of Form MR–20 may be obtained from any State board, from any county farm rationing committee or from any dealer.

(b) *Contents*—(1) *Name of applicant.* The applicant shall state his name as provided in the instructions on Form MR–20.

(2) *Addresses.* The applicant shall state the mailing address of his residence or principal place of business or office and the telephone number thereof, if any.

(3) *Separate applications.* A separate application shall be filed for each type of Schedule I equipment.

(4) *Agreements.* The agreements specified in § 2.217 (b) (1), (2), and (3) shall be incorporated in each application and the applicant's execution of the application shall also constitute his execution of such agreements.

(5) *Execution by applicant.* The applicant shall certify the facts stated in the application and shall sign the agreements contained therein in the manner and form provided therefor on Form MR–20.

§ 2.220 *Action by the county farm rationing committee on application.* Before granting an application for a purchase certificate for Schedule I equipment, the county farm rationing committee shall satisfy itself that the applicant has properly executed his application, that all the facts stated in the application are true, and that the applicant has satisfied all the pertinent requirements and conditions specified by this order.

§ 2.221 *Basis for county farm rationing committee determinations.* (a) The county farm rationing committee shall at all times serve the objectives sought by the new farm machinery and equipment rationing program and allocate Schedule I equipment only for uses essential to the war effort and then in the order that such uses are most vital. The determination of facts in each case shall be made by the county farm rationing committee upon the basis of the application and all other information which comes to its knowledge. In acting upon applications, it shall observe all pertinent provisions of this order as originally issued and as subsequently amended. The county farm rationing committee may in its discretion request the applicant, or his authorized representative, to appear in person at a designated time and place to answer pertinent questions. If an applicant shall refuse to permit the county farm rationing committee or its authorized representatives to make such inspection of his farm and farm machinery and equipment as it deems necessary, his application shall be denied forthwith. The county farm rationing committee should attempt, insofar as practicable, to have before it all applications for each type of Schedule I equipment before it issues any purchase certificates for each such type of Schedule I equipment.

(b) No purchase certificate shall be issued to any applicant for any type of Schedule I equipment for which the Special War Board Assistant has announced that no quotas will be presently established, unless such applicant has filed with the county farm rationing committee the certification required by § 2.218 (b) and unless the county farm rationing committee is convinced that said certification has been made in good faith.

§ 2.222 *Notation of action.* When the county farm rationing committee determines that an application shall be granted, at least two members thereof shall place their initials after the word "Approved" on Form MR–20. If the county farm rationing committee determines that an application should be granted in part only, a notation showing the part granted, initialed by at least two members of the county farm rationing committee, shall be made on Form MR–20. If the county farm rationing committee determines an application should be denied, at least two members thereof shall place their initials after the word "Disapproved" on Form MR–20.

§ 2.223 *Notification.* After acting upon an application, the county farm rationing committee shall notify the applicant of its decision. If the application is denied, in whole or part, the reasons therefor shall be set forth on Form MR–21. The original of such form shall be given or mailed to the applicant, and a copy shall be attached to the application, which shall be filed in alphabetical order in the office of the county farm rationing committee.

CERTIFICATES FOR PURCHASE OF SCHEDULE I EQUIPMENT

§ 2.224 *Form of certificate.* (a) In cases where the county farm rationing committee authorizes an applicant to purchase Schedule I equipment, it shall immediately issue to the applicant a purchase certificate for the transfer of such Schedule I equipment. The certificate shall be issued on Form MR–22. All purchase certificates shall be nontransferable. Such certificates, which shall be prepared in triplicate, shall be numbered serially and all numbers shall be accounted for and the serial number of each certificate shall be placed upon the appropriate application. The original and one copy of the certificate shall be given or mailed to the applicant and the remaining copy shall be attached to the application. Each purchase certificate shall show the date of its issuance and expiration, or any extension thereof. Each purchase certificate shall contain the agreement to be entered into between the transferor and the transferee of the Schedule I equipment described therein.

(b) A county farm rationing committee may, before delivery to the applicant of Schedule I equipment described in a purchase certificate issued by it, cancel such purchase certificate if such committee determines that the applicant had made a misrepresentation in his application or in any other matter properly before said committee, or that the applicant will be unable to fulfill the statements and agreements made by him in his application or purchase certificate.

§ 2.225 *Execution by issuing county farm rationing committee.* It shall be the responsibility of the county farm rationing committee, prior to the issuance of a purchase certificate, to insert on the original and each copy thereof the information designated thereon to be filled in by the county farm rationing committee. No certificate shall be valid unless signed by at least one member of the county farm rationing committee.

§ 2.226 *Action by purchaser.* (a) Upon receiving the purchase certificate executed as provided in § 2.225, the applicant shall sign the purchase certificate and copy thereof, thereby executing the agreements contained therein. The applicant may then purchase the Schedule I equipment specified in the purchase certificate, at a price not in excess of the maximum price therefor established by the Office of Price Administration.

(b) The applicant shall at the time of purchase present to the dealer the original purchase certificate and copy thereof in the form in which they were given to him by the county farm rationing committee except for the addition of his signature.

§ 2.227 *Expiration of purchase certificates.* Transfer (including but not limited to delivery) of any Schedule I equipment authorized by a purchase certificate must be made on or before the 60th day after the date of issuance of such purchase certificate. Such date shall be known as the expiration date. Such purchase certificate shall be void if transfer (including but not limited to delivery) is not made before the expiration date and any transfer (including but not limited to delivery) made after such expiration date shall be invalid. Any person who has been granted a purchase certificate pursuant to this order may, before the expiration date, apply to the county farm rationing committee for an extension of such date. If, under all the circumstances, the county farm rationing committee determines that the expiration date should be extended, the county farm rationing committee shall extend the expiration date. An extension shall not be granted for more than 30-day period at any one time. The original and the copy of the purchase certificate must be presented to the county farm rationing committee in order that the extended expiration date may be noted thereon before any transfer (including but not limited to delivery) is made. If, after 5 days from the expiration date of any purchase certificate, the original of such purchase certificate has not been returned to the issuing county farm rationing committee, such issuing county farm rationing committee shall make inquiry of the applicant and determine whether or not transfer (including but not limited to delivery) was made pursuant to such purchase certificate before the expiration date thereof. If such transfer (including but not limited to delivery) has not been so made, the issuing county farm rationing committee shall require the applicant or the dealer, if he has possession of such purchase certificate, to return the original and copy thereof to the issuing county farm rationing committee. It shall be the duty of the county farm rationing committee, at the end of 5 days after the expiration date of a purchase certificate, to cancel upon its books such purchase certificate if the Schedule I equipment covered by such purchase certificate has not been delivered to the transferee before such expiration date. The county farm rationing committee shall make such cancellation regardless of the return of the outstanding original and copy of said purchase certificate.

§ 2.228 *Action by dealer.* Upon the surrender to him of a purchase certificate and copy thereof, the dealer shall ascertain that the original and copy have been properly signed by the purchaser and shall not honor such certificate unless it and the copy are so signed. Immediately upon delivering Schedule I equipment pursuant to a purchase certificate surrendered to him, the dealer shall sign and date the certificate and copy thereof in the space provided, thereby executing the agreement contained therein, and shall thereupon mail the original of such purchase certificate to the issuing county farm rationing committee or the issuing State board. If delivery of the Schedule I equipment specified in any such purchase certificate is not made before the expiration date specified on such purchase certificate, the dealer shall, immediately following such expiration date, return the original and the copy of such purchase certificate to the issuing county farm rationing committee or the issuing State board.

APPEALS BY APPLICANTS

§ 2.229 *Application for reconsideration by the county farm rationing committee.* Any applicant whose application for new Schedule I equipment has been denied in whole or in part by the county farm rationing committee may, within 15 calendar days after notification of such action, request such committee, in writing, to reconsider its action on his application. Notification of the county farm rationing committee's ruling shall be given to such person within 15 calendar days after receipt of his written request for reconsideration.

§ 2.230 *Appeal to State board.* (a) Any applicant for Schedule I equipment who has good reason to believe that the ruling of the county farm rationing committee on his request for reconsideration is not in accordance with the provisions of this order may, within 15 calendar days after written notification of such ruling, file with the county farm rationing committee a written appeal to the State board from such ruling. The county farm rationing committee shall promptly transmit such appeal to the State board.

(b) The applicant shall include in such appeal a statement in writing, setting forth the specific reasons why he believes the action taken by the county farm rationing committee was not in accordance with this order, stating the portion or portions of this order upon which he relies, and stating in full the facts upon which his appeal is based.

§ 2.231 *Action by the State board.* (a) The State board may require the county farm rationing committee or the applicant to furnish pertinent information in addition to that furnished before the county farm rationing committee with respect to the appeal pending before such board. The State board may affirm, reverse, or modify the ruling of the county farm rationing committee. The action of the State board shall in all respects be in accordance with the provisions of this order.

(b) The State board's decision shall be made as soon as is reasonably possible (in any event not later than 30 calendar days after the State board has received such appeal), shall be in writing, and notification thereof shall be given to the applicant and to the county farm rationing committee. If the State board reverses or modifies the ruling of the county farm rationing committee, it shall promptly mail a copy of its decision to the Special War Board Assistant, Room 3095, South Building, Department of Agriculture, Washington, D. C.

§ 2.232 *Review of State board action.* If an applicant has good reason to believe that the decision of the State board on his appeal is not in accordance with the provisions of this order, he may, within 15 calendar days after notification thereof, file with the State board a written petition for review by the Special War Board Assistant. The State board shall promptly transmit such petition to the Special War Board Assistant at the address set forth in § 2.231 (b) hereof. Such written petition shall be dated and signed by the applicant, shall be made under oath, and shall set forth the specific reasons why he believes the decision of the State board is not in accordance with the provisions of this order, and the portion or portions of this order upon which he relies. The Special War Board Assistant may require the furnishing of pertinent information by the applicant, the county farm rationing committee, or the State board. He may affirm, reverse, or modify the decision of the State board, and he may remand the matter to the county farm rationing committee. The decision of the Special War Board Assistant shall be in writing and shall be communicated to the applicant, to the county farm rationing committee, and to the State board, and shall be final and conclusive.

RECORDS

§ 2.233 *Records to be kept by the county farm rationing committee.* (a) All applications for Schedule I equipment, and papers relating thereto, received by the county farm rationing committee, shall be systematically filed in its office. Records shall be kept by the committee of such pertinent and material data as may be necessary to carry out this order or as may be required by the Special War Board Assistant. The purchase certificates returned by dealers shall be attached to the respective applications.

(b) Lists containing the names and addresses of applicants who have been granted purchase certificates and the Schedule I equipment covered by each respective certificate shall be kept freely available for public inspection in the office of the county farm rationing committee and shall be made available for publication in local newspapers.

(c) Data from all purchase certificates issued by the county farm rationing committee shall be kept for each type of Schedule I equipment on Form MR-23, Register of Nontransferable Certificates for Purchase of New Farm Machinery and Equipment.

§ 2.234 *Records to be kept by dealers.* (a) Each dealer shall prepare a copy of the itemized invoice required by § 1361.5 of Maximum Price Regulation No. 133[3] of the Office of Price Administration and shall forward such copy of said invoice or sales check to the issuing county farm rationing committee or issuing State board, along with the original of the purchase certificate. Such invoice or sales check shall contain a separate statement of the following items:

(1) The manufacturer's suggested retail price, f. o. b., factory.

(2) The charge for freight and manufacturer's handling, if any.

(3) The charge for dealer's handling, or the charge for special installation, if any.

(4) The charge for delivery beyond the 30-mile zone, if any.

(5) The amount of excise tax, if any, billed separately to the dealer by the manufacturer.

(6) The amount of sales, use, or gross receipts tax, if any, required or permitted to be paid.

In addition such invoice or sales check shall disclose a complete description of the farm machinery and equipment, transferred pursuant to the purchase certificate, including the name of the manufacturer and the manufacturer's model number.

(b) Each dealer shall maintain a file containing the copies of all purchase certificates which are accepted by such dealer and which are issued on Form MR-22.

(c) Each dealer shall make such reports, including inventories, and furnish such information as may be required from time to time by the Secretary, the Special War Board Assistant, or other persons or agencies designated herein to assist in the administration of this order.

ENFORCEMENT

§ 2.235 *Criminal prosecution.* (a) Any person who knowingly falsifies an application, purchase certificate, certification, or any other record included within the terms of Rationing Order C, or any amendments or supplements thereto, or who otherwise knowingly furnishes false information with regard to any matter covered by this order to a county farm rationing committee, State board or to any other agent, agency, employee, or officer of the Department of Agriculture, may, upon conviction, be fined not more than $10,000 or be imprisoned for not more than 10 years, or both, and shall in addition be subject to the penalties therefor under any and all applicable laws.

(b) Any person who wilfully commits any act prohibited, or who wilfully fails to perform any act required. by any provision of Rationing Order C, or any amendments or supplements thereto, may, upon conviction, be fined not more than $10,000 or be imprisoned for not more than one year, or both, and shall in addition be subject to the penalties therefor under any and all applicable laws.

(c) Any person who conspires with another person to perform any of the acts described in paragraphs (a) and (b) of this section may, upon conviction, be fined not more than $10,000, or imprisoned for not more than two years, or both, and shall in addition be subject to the penalties therefor under any and all applicable laws.

§ 2.236 *Suspension orders.* (a) Any person who violates any provision of Rationing Order C, or any amendment or supplement thereto, or any agreement thereunder, may by administrative suspension order be prohibited from receiving any deliveries of or selling or otherwise disposing of or using any materials now or hereafter authorized to be rationed or allocated by the Secretary, including farm machinery and equipment rationed under this order. Such suspension orders shall be issued by the Secretary, or by such persons as he may designate, and shall be effective for such period as is deemed necessary or appropriate in the public interest and to promote the security of the United States.

(b) The Special War Board Assistant may recommend to the Office of Price Administration or to the War Production Board that any person who violates any provision of Rationing Order C, or any amendment or supplement thereto, or any agreement thereunder, be denied the right to receive, use, sell, or otherwise dispose of any other materials which now or in the future may be under allocation.

§ 2.237 *Other methods of enforcement.* The Special War Board Assistant may also take such other action for enforcement of the provision of this order, or any amendment or supplement thereto, as he may deem necessary, including application to courts and to appropriate agencies of local, State, and Federal governments in order to invoke such powers as may be available and appropriate in connection therewith, including the power to requisition.

§ 2.238 *Publicity.* In the event of a refusal or failure to abide by any provision of this order, or any amendment or supplement thereto, or in the event of any evasion or attempt to evade any provisions of this order, or any amendment or supplement thereto, the Special War Board Assistant, in addition to the foregoing, will make every effort to insure that complete information concerning the same is given to the public and to the appropriate officials of local, State and Federal governments.

§ 2.239 *Complaints of violations.* Any person having knowledge of a violation of any provision of this order, or any amendment or supplement thereto, shall report the same to the county farm rationing committee, the State board, the Special War Board Assistant, or the Secretary. An official or employee of the office to which the report is made shall take such information as is given, securing the signature of the person so reporting, if possible, and transmit the report, together with such pertinent information as may be then available, to the Special War Board Assistant through the State boards.

[3] 7 F.R. 3185.

SCOPE AND APPLICATION OF RATIONING ORDER C

§ 2.240 *Territorial limitation.* Rationing Order C shall apply only within the limits of the continental United States.

TEMPORARY RATIONING ORDERS A AND B

§ 2.241 *Effect on Temporary Rationing Orders A and B.* Temporary Rationing Order A,[4] as amended, and Temporary Rationing Order B,[5] as amended, are modified and superseded by this order to the extent that any of the provisions of those orders are inconsistent with any provision of this order.

EFFECTIVE DATES

§ 2.242 *Effective date of Rationing Order C.* This Rationing Order C (§§ 2.201 to 2.242, inclusive) shall become effective November 28, 1942.

Done at Washington, D. C., this 21st day of November 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary of Agriculture.

  - Two row.
  - Three row and over.
- Listers with planting attachments, tractor mounted:
  - One row.
  - Two row.
  - Three row and over.
- Beet drills, horse or tractor drawn.
- Grain drills:
  - One horse, 3 or 5 disc drills.
  - Fertilizer drills, horse or tractor drawn.
  - Plain drills, horse or tractor drawn.
- Fertilizer distributors, horse or tractor drawn.
- Lime spreaders (sowers):
  - Wheeled type, horse or tractor drawn.
  - Endgate type.
  - Truck body type.
- Manure spreaders:
  - Four wheeled, horse or tractor drawn.
  - Two wheeled, tractor drawn.

PLOW AND LISTERS

- Moldboard plows, tractor drawn or mounted:
  - One bottom, tractor drawn.
  - Two bottom, tractor drawn .
  - Three bottom, tractor drawn.
  - Four bottom, tractor drawn.
  - One bottom, tractor mounted.
  - Two bottom, tractor mounted.
- Disc plows, tractor drawn or mounted:
  - One disc, tractor drawn.
  - Two disc, tractor drawn.
  - Three disc, tractor drawn.
  - One disc, tractor mounted.
  - Two disc, tractor mounted.
- One way disc plows or tillers.
- Listers, horse or tractor drawn (Middlebusters without planting attachment):
  - One row, horse or tractor drawn.
  - Two row, horse or tractor drawn.
  - Three row and larger, horse or tractor drawn.
- Listers, tractor mounted (Middlebusters without planting attachment):
  - One row, tractor mounted.
  - Two row, tractor mounted.
  - Three row and larger, tractor mounted.

HARROWS, ROLLERS, PULVERIZERS

- Harrows:
  - Spike tooth harrow sections, horse or tractor drawn.
  - Spring tooth harrow sections, horse or tractor drawn.
  - Disc harrows, horse or tractor drawn.
  - Disc harrows, tractor mounted.
- Soil pulverizers and packers.
- Ridge busters:
  - Ridge busters, horse or tractor drawn.
  - Ridge busters, tractor mounted.

CULTIVATORS AND WEEDERS

- Cultivators, horse and tractor drawn:
  - Beet cultivator.
  - Field cultivator.
- Cultivators, tractor mounted:
  - One row.
  - Two row.
  - Three and four row.
  - Five row and over.
- Rotary hoes, horse or tractor drawn.
- Weeders:
  - Rod weeders, horse or tractor drawn.
  - Tooth weeders, horse or tractor drawn.

SPRAYERS, DUSTERS AND ORCHARD HEATERS

- Power sprayers, not including engines: Traction sprayers.
- Spray pumps, power.
- Dusters:
  - Power dusters with tractor mounted dusters.
  - Traction dusters.

HARVESTING MACHINERY

- Combines, harvester-threshers:
  - Width of cut, 8 feet and under.
  - Width of cut, over 6 feet, including 10 feet.
  - Width of cut, over 10 feet.
- Grain and rice binders:
  - Grain binders, ground drive.
  - Grain binders, power take-off drive.
  - Rice binders.
- Corn binders (row binder), horse or tractor
- Corn Pickers:
  - drawn.
  - One row, mounted type.
  - Two row, mounted type.
  - One row, pull type.
  - Two row, pull type.
- Field ensilage harvesters, row type.
- Potato diggers:
  - Walking plow type.
  - Horse or tractor.
- Pea and bean harvesters, row type, horse or tractor.
- Beet lifters, horse or tractor.

HAYING MACHINERY

- Mowers, ground drive, horse or tractor drawn.
- Mowers, power take-off drive: Tractor mtd. or semi-mtd.
- Rakes:
  - Sulky, dump.
  - Side delivery, incl. comb. side rakes and tedders.
  - Sweep.
- Hay loaders.
- Stackers (incl. comb. sweep stackers)
- Pick-up hay balers.

MACHINES FOR PREPARING CROPS FOR MARKET OR USE

- Stationary threshers (grain, rice and alfalfa):
  - Threshers, width of cylinder under 28 inches.
  - Threshers, width of cylinder 28 inches and over.
- Stationary pea and bean threshers.
- Peanut pickers.
- Ensilage Cutters (silo fillers).
- Feed cutters, power.
- Corn Shellers:
  - Power corn shellers, cylinder (150 bu. and under).
  - Power corn shellers, cylinder (over 150 bu.).
- Corn huskers and shredders:
  - Combination corn husker-shredders.
  - Corn huskers.
  - Corn shredders.
- Stationary hay balers:
  - Horse.
  - Engine or belt power.
- Feed grinders and crushers:
  - Power, burr type.
  - Hammer and roughage mills.
- Cleaners and graders, corn and grain.
- Potato sorters and graders.

FARM ELEVATORS AND BLOWERS

- Elevators (portable).
- Elevators (stationary).
- Blowers (grain and forage).

TRACTORS

- Tractors, wheel type:
  - Tractors, wheel, special purpose, under 30 h. p.
  - Tractors, wheel, special purpose 30 and over h. p.
  - Tractors, wheel, all purpose, under 30 h. p.
  - Tractors, wheel, all purpose, 30 and over h. p.
- Garden tractors (including motor tillers).

ENGINES

- Engines, one or more but under 5 h. p.:
  - Air cooled.
  - Water cooled.
- Engines (five or more but under 10 h. p.):
  - Air cooled.
  - Water cooled.

FARM WAGONS AND TRUCKS

- Wagons, farm without boxes.
- Trucks, farm (not motortrucks).

DOMESTIC WATER SYSTEMS

- Deep well:
  - Deep well, reciprocal.
  - Deep well, jet pumps.
- Shallow well:
  - 250–499 gals. per hour.
  - 500 gals. per hour and over.
- Power pumps: Horizontal type, up to and including 75 gals. per minute, 100 lb. pressure.

FARM PUMPS AND WINDMILLS

- Windmill heads.
- Windmill pumps.
- Windmill towers.
- Pump jacks.

IRRIGATION EQUIPMENT

- Irrigation pumps:
  - Turbine pumps, 0 to 1,200 GPM.
  - Turbine pumps, 1,200 GPM and up, belt driven.
  - Centrifugal pumps.
  - Hydraulic rams.
- Distribution equipment:
  - Land-leveling equipment, ditchers, corrugators and scrapers (excluding power ditchers, draglines and other self-powered machines).
  - Portable pipe, extensions, and sprinklers.

DAIRY FARM MACHINES AND EQUIPMENT

Milking machines.
Farm cream separators capacity, 250 lbs. per hr. or less.
Farm cream separators, capacity 251 lbs. to 800 lbs. per hour.
Farm milk coolers:
  Immersion type.
  Surface or tubular type.
Metal milk cans and covers.

FARM FENCING

Barbed wire.
Poultry netting.
Poultry flooring.
Woven or welded wire fence:
  Hog and cattle fence.
  Poultry fence.

SCHEDULE II

PLANTING, SEEDING AND FERTILIZING MACHINERY

Planters, horse and tractor drawn:
  One row, one horse corn planters.
  One row, one horse corn and cotton planters.
  One row, two horse corn and cotton planters.
Broadcast Seeders: Endgate.
Garden Planters: Horse or tractor drawn.

PLOW AND LISTERS

Moldboard Plows, horse drawn:
  Walking, one horse, steel bottom.
  Walking, one horse, chilled bottom.
  Walking, two horse and larger.

ROLLERS AND STALK CUTTERS

Stalk cutters.

CULTIVATORS AND WEEDERS

Cultivators, horse drawn:
  One horse, all types.
  One row, walking, two horse.
  One row, riding, two horse.
  Two row and over, riding.

Chapter I—Agricultural Marketing Administration

PART 31—WOOL STANDARDS

DISTRIBUTION OF PRACTICAL FORMS FOR WOOL STANDARDS

By virtue of the authority vested in the Secretary of Agriculture by law (Sec. 19, 39 Stat. 489, 45 Stat. 593, 55 Stat. 408; 7 U.S.C. 1940 ed. 257, 415a–415d), the following amendments to Title 7, Chapter I, Part 31, Code of Federal Regulations (7 CFR and 1939 Supp., Chapter I, Part 31, as amended by 7 F.R. 6802) are promulgated, effective immediately.

Section 31.51 is amended to read:

§ 31.51 *Practical forms; method of obtaining; conditions.* (a) Practical forms of the official standards of the United States for grades of wool, namely:

Complete set: Grades 80's, or Fine, to 36's, or Braid, inclusive, mounted, 12 specimens,

Partial set: Grades Fine to Braid, inclusive, mounted, 7 specimens;

certified under the seal of the United States Department of Agriculture and signed by the Administrator of the Agricultural Marketing Administration or other official duly authorized by him, will be furnished, subject to the other conditions of this Section, upon filing of an approved application and prepayment of costs thereof as fixed by § 31.52.

(b) Each application for practical forms of the official wool standards shall be upon a blank furnished or approved by the Agricultural Marketing Administration, shall be signed by the applicant, and shall be accompanied by certified check, draft, post office money order, or express money order, payable to the "Treasurer of the United States," in an amount to cover the cost of the forms requested, and shall incorporate the following conditions:

(1) That no practical form of the official wool standards shall be considered or used as representing such standards after cancellation in accordance with this section, or after the expiration of 3 years following date of certification unless the Administrator of the Agricultural Marketing Administration has extended said period with respect to the practical forms furnished under such application, or after any subsequent revision of such standards.

(2) That the said practical forms shall be subject to inspection on any business day, between the hours of 9 a. m. and 4 p. m., by the Secretary or by any duly authorized officer or agent of the Department of Agriculture.

(3) That the certificate covering any practical form may be revoked and canceled if it is found upon such inspection that the said practical form is not representative of the official standards.

Section 31.52 is amended to read:

§ 31.52 *Cost of practical forms:*

Complete set: $10.00 each, f. o. b. Washington, D. C., for shipment within the continental United States, and $12.00 each, delivered to destination, for shipment outside the continental United States.

Partial set: $5.00 each, f. o. b. Washington, D. C., for shipment within the continental United States, and $7.00 each, delivered to destination, for shipment outside the continental United States.

Section 31.53 is amended to read:

§ 31.53 *Loaning of practical forms.* In the discretion of the Administrator of the Agricultural Marketing Administration, limited numbers of copies of the practical forms of the official standards or samples or specially prepared exhibits illustrating such standards, may be loaned to governmental agencies for official purposes or to educational and other institutions or organizations for demonstration purposes.

The Rules and Regulations for the distribution of practical forms of wool standards are further amended by adding the following new section:

§ 31.54 *Determination of grade.* The determination of the grade of wool according to the Official Standards of the United States for Grades of Wool shall be by (1) inspection, for grades 80's, or fine, to 36's, or braid, inclusive, or (2) measurement, for grades 80's to 50's, inclusive, in accordance with methods prescribed by the Administrator of the Agricultural Marketing Administration.

Done at Washington, D. C., this 20th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

PART 31—WOOL STANDARDS

DISTRIBUTION OF PRACTICAL FORMS FOR WOOL TOP STANDARDS

By virtue of the authority vested in the Secretary of Agriculture by law (Sec. 19, 39 Stat. 489, 45 Stat. 593, 55 Stat. 408; 7 U.S.C. 1940 ed. 257; 415a–415d), the following amendments to Title 7, Chapter I, Part 31, Code of Federal Regulations (7 CFR and 1939 Supp., Chapter I, Part 31, as amended by 7 F.R. 6802) are promulgated, effective immediately.

Section 31.151 (a) is amended by striking out the words "under the signature of the Secretary of Agriculture, thereto affixed by himself or by some other official or employee of the Department thereunto duly authorized by him, will be furnished to any person, upon prepayment of the cost thereof as determined by the Secretary, subject to other conditions of this section" and inserting in lieu thereof the words "signed by the Administrator of the Agricultural Marketing Administration or other official duly authorized by him, will be furnished, subject to the other conditions of this section, upon filing of an approved application and prepayment of costs thereof as fixed by § 31.152".

Section 31.151 (b) (1) is amended by inserting after the word "certification" the words "unless the Administrator of the Agricultural Marketing Administration has extended said period with respect to the practical forms furnished under such application".

Done at Washington, D. C., this 20th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

[Bulletin NSCP—701]

PART 706—NAVAL STORES CONSERVATION PROGRAM[1]

SURPART E—1943

Sec.
706.401 Authority and availability of funds.
706.402 Definition of terms.
706.403 Duration of program.
706.404 Kind of payments.
706.405 Conditions of payment; performance required.
706.406 Excess cotton acreage.
706.407 Rates of payment and further conditions.
706.408 Application and eligibility for payment.
706.409 Administration.

AUTHORITY: §§706.401 to 706.409 issued under the authority contained in sections 7 to 17, as amended, 49 Stat. 1148, 1915; 50 Stat. 329; 52 Stat. 31, 204, 205, 746; 53 Stat. 550, 573; 16 U. S. C. 590g–490q.

§ 706.401 *Authority and availability of funds.* Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, and in connection with the effectuation of the purposes of section 7 (a) of said Act in 1943, payments will be made for participation in the 1943 Naval Stores Conservation Program in accordance with the provisions of this bulletin and such modifications thereof or other provisions as may hereafter be made.

The provisions of the 1943 Naval Stores Conservation Program are necessarily subject to such legislation affecting said program as the Congress of the United States may hereafter enact; the making of the payments herein provided for is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will be finally determined by such appropriation and by the extent of participation in the program. Any increase or decrease in the rates of payments and deduction set forth herein because of the extent of participation in the program will not be in excess of 10 percent.

706.402 *Definition of terms*—(a) *Turpentine farm.* The land and turpentine timber owned or leased, or operated on a sharecrop basis, and under one management and in one general locality, which is being operated for the production of gum naval stores.

(b) *Gum naval stores.* Crude gum (oleoresin), gum turpentine, and gum rosin produced from living trees. Gum naval stores does not include naval stores produced from dead timber, stumps, knots, etc.

(c) *Producer.* Any person or persons, firm, partnership, corporation, or other business enterprise, doing business as a single legal entity and producing gum naval stores from timber controlled for turpentine purposes through fee ownership, cash lease, percentage lease, share lease, or other form of control.

(d) *Face.* The whole wound or aggregate of streaks made by chipping, streaking, or pulling the live tree to stimulate the flow of crude gum (oleoresin), hereinafter referred to as gum.

(e) *Cup.* A container made of metal, clay, or other material hung on or below the face to accumulate the flow of gum.

(f) *Tins.* The gutters or aprons, made of sheet metal or other material, used to aid in conducting the gum from a face into a cup.

(g) *Crop.* 10,000 faces.

(h) *Drift or tract.* A portion or subdivision of a crop set apart for convenience of operation.

(i) *D. b. h.* Diameter breast height; i. e., diameter of tree measured at 4½ feet from the ground.

(j) *Turpentine season.* The entire calendar year or, if a turpentine farm is operated less than the full calendar year, that period within the calendar year during which a producer is operating his farm for the production of gum naval stores.

(k) *Application.* The prescribed form of application for payment for cooperating in the 1943 Naval Stores Conservation Program (hereinafter referred to as this program).

§ 706.403 *Duration of program.* The period during which this program is to be in effect is the period January 1 to December 31, 1943, inclusive.

§ 706.404 *Kind of payments.* Payment will be made, at the rates and subject to the conditions set forth in § 706.407, to producers who in 1943 carry out the approved practices set forth in § 706.405 with respect to turpentine farms currently being worked in 1943, beginning such cooperation within time limits to be established by the Forest Service of the United States Department of Agriculture (hereinafter referred to as the Forest Service) as appropriate and practicable time limits necessary to afford full opportunity to producers to cooperate in this program and to obtain a full measure of compliance with the objectives of this program.

§ 706.405 *Conditions of payment; performance required.* In order to qualify for payment, producers shall meet the following requirements:

(a) *Working small trees prohibited.* No face (either old or new) shall be worked during the 1943 turpentine season on any tree less than 9 inches d.b.h. on any turpentine farm or farms owned, leased, or worked by the applicant producer.

(b) *Only one face permitted on trees under 14 inches diameter.* No trees that is less than 14 inches d.b.h. shall have more than one face worked during the 1943 turpentine season on any turpentine farm or farms owned, leased, or worked by the applicant producer.

(c) *Virgin faces on trees 9 inches or larger eligible for payment.* Payment will be made on all virgin faces worked, either owned or leased, by the applicant producer if all such virgin faces are on trees 9 inches d. b. h. or larger.

(d) *Working quotas.* For this program there will be no recognition of "base" as it was used in any previous program; and therefore no limitation resulting from "base" provisions as to the number of faces a producer may work. A producer may work any number of faces under this program, provided that all faces so worked conform to the performance requirements outlined in the other paragraphs of this section.

(e) *Written evidence of leases required.* Any producer who acquires faces through a new lease or the renewal of an expiring lease must present to the Forest Service satisfactory proof in writing of such a transaction.

(f) *Restrictions concerning non-participating operations.* Any producer otherwise participating in this program who permits his labor to operate timber which he owns or controls and cannot operate and remain eligible for participation under the terms of this program, or who assists in any manner in the operation of such timber or the sale or processing of the gum therefrom, either directly or through a relative or employee or through any member, officer, or employee of any partnership, corporation, or other business enterprise in which he has any interest or with which he has any connection, or in any other manner whatsoever, shall not be eligible to receive any benefit payment under this program.

(g) *Faces installed on small trees in 1941 and 1942 not eligible for payment.* As in previous programs, participants in this program will be paid for the removal of faces on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h. as required by paragraphs (a) and (b) of this section, if the cups on such trees were installed during the 1939 or 1940 turpentine season. As announced in the 1941 and 1942 bulletins, no payment will be made for the removal of faces that were installed during the 1941 and 1942 seasons on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h.; and in the event of a Naval Stores Conservation Program for 1944 no payment will be made on such faces installed in 1943.

(h) *Payment on discontinued faces limited to small trees.* Payment on discontinued faces shall be limited to those removed from small trees as required by paragraphs (a) and (b) of this section, provided such removed faces are located in drifts that contain working faces which are continued in operation.

(i) *Cups and tins must be detached from small trees.* Cups and tins must be detached from those faces removed from operation on trees under 9 inches d. b. h. or between 9 and 14 inches d. b. h., but need not be removed from the area.

(j) *Limitation of working area on faces.* Total streaks per face made during the period of this program, averaged by drifts or tracts, shall not exceed 24 inches in vertical measurement between shoulders of first streak and shoulders of last streak.

(k) *Minimum number of streaks required.* Payment shall not be made on faces in production which do not average, by drifts or tracts, at least 12 streaks for the 1943 turpentine season, which streaks shall have been made at no greater frequency than two streaks per week.

(l) *Over 90-inch faces not eligible for payment.* Payment shall not be made on working faces or on faces required to be removed by paragraphs (a) and (b) of this section in any drift or tract where the average height of faces exceeds 90 inches at the beginning of the 1943 turpentine season, in vertical measurement between shoulders of first streak and shoulders of last streak, including jump streaks.

---

[1] For the information of producers of gum naval stores in North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas. This bulletin explains the procedure to be followed in order to qualify for payments under the Naval Stores Conservation Program for 1943.

(m) *Repayment for faces removed from small trees.* Payment shall not be made on faces taken out, or remaining out, of production pursuant to the provisions of paragraphs (a), (b), and (g) of this section in any drift or tract unless (1) such faces were discontinued under the 1940 program or a later program and have been kept out of production continuously since removal from production and (2) also the cups on all such faces were installed during the 1939 or 1940 turpentine season and such faces are under the producer's control for turpentine purposes throughout this program.

(n) *Chemical application to faces on experimental tracts.* Additional benefit payments, intended to partly compensate for extra supervision and records and to induce cooperation, will be made to a few participating producers (selected in advance by the Forest Service from volunteer applicants in areas where frequent observation is economical) for the experimental application of chemical stimulants to a portion (not in excess of approximately one crop) of the faces worked by the producer if the experiment is carried out in accordance with conditions prescribed by the Forest Service.

(o) *Bark-bar requirement.* No tree shall have any new (first-year) back face unless a bark-bar on each side of the back face is provided and maintained throughout the 1943 turpentine season, the total of the two being not less than 7 inches in width, measured horizontally along the bark surface: *Provided, however,* That the restriction with respect to the width of the bark-bar shall not apply to any tree which has on it two or more old faces.

(p) *Consolidation of farms.* Any person having part ownership and control of more than one turpentine farm shall have the right and privilege of consolidating two or more such farms for the purpose of carrying into effect the provisions of this program.

(q) *Only participants eligible for loans.* In the event of a loan program being set up for producers during 1943, only those producers who are participating in this program will be eligible for loans except as provided in paragraph (r) of this section.

(r) *Operators on public domain not eligible for payments.* The provisions of this program are not applicable to producers on such portion of their operations as may be within the public domain of the United States, including the lands and timber owned by the United States which were acquired or reserved for conservation purposes or which are to be retained permanently under Government ownership (such lands include, but are not limited to, lands owned by the United States which are administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Division of Grazing or the Bureau of Biological Survey of the United States Department of the Interior): *Provided, however,* That such producers shall have the privilege of borrowing under any loan program for naval stores producers which may be in operation during 1943.

This program is applicable to lands owned by corporations which are only partly owned by the United States, such as Federal Land Banks and Production Credit Associations.

This program is also applicable to land owned by the United States or by corporations wholly owned by the United States which is farmed by private persons if such land is to be temporarily under such Government or corporation ownership and was not acquired or reserved for conservation purposes. Such land shall include only that administered by the Farm Security Administration, the Reconstruction Finance Corporation, the Home Owners' Loan Corporation, or the Federal Farm Mortgage Corporation, unless the Forest Service finds that land administered by any other agency complies with all of the foregoing provisions for eligibility.

(s) *Fire protection requirements.* The applicant producer shall to the best of his ability protect from fire all forest land of any kind within each turpentine farm owned, leased, or otherwise controlled by him for the duration of this program, and in doing so shall cooperate with the State and Federal Governments in any cooperative forest fire protective system that exists contiguous to his turpentine farm or within the area within which such farm is situated: *Provided,* That the producer shall not be required to pay the cost of fire protection on land not owned by him unless so stipulated in the terms of his lease. He shall, however, conduct his operations in all cases in such manner as will prevent fire escaping to adjoining forest lands, whether protected or not.

(t) *Timber cutting requirements.* The applicant producer, in order to provide for restocking and to promote continued production of timber upon which the naval stores, pulp and paper, lumber, and other wood-using industries are dependent, shall, in any and all cutting of timber during the calendar year 1943, which is owned by him or is on land owned by him, meet or exceed the following minimum requirements:

(1) In cutting operations within turpentine stands, all worked-out turpentine, defective turpentine, and non-turpentine trees may be cut, provided at least 6 thrifty seed trees of turpentine species per acre, 8 inches or more in diameter, outside bark, at the stump (12 inches above the ground), are left uncut and undamaged, or provided sufficient young growth of turpentine species (at least 150 trees per acre not less than 6 to 8 feet high) is left uncut and undamaged; no round turpentine trees, except such as are defective or where thinnings are needed, shall be cut; necessary thinnings may be made, but in such case there shall be left uncut and undamaged not less than 50 trees of turpentine species per acre at least 6 to 9 inches in diameter, outside bark, at the stump (12 inches above the ground). A turpentine stand is a stand of predominantly longleaf and/or slash pine, containing sufficient trees of these species to justify use for the production of gum.

(2) In pine timber cutting operations on non-turpentine stands, at least 4 thrifty seed trees per acre, 8 inches or more in diameter, outside bark, at the stump (12 inches above the ground) shall be left uncut and undamaged unless sufficient young growth (at least 150 trees per acre not less than 6 to 8 feet high) is left uncut and undamaged. A non-turpentine stand is a stand of predominantly non-turpentine species containing too few longleaf and/or slash pines to justify gum production.

Payment on working faces or removed faces shall not be made if the tree having such face or faces is cut or removed prior to the expiration of this program; *Provided, however,* That trees having faces which attain a height in excess of 90 inches during the 1943 season may be cut after October 15, 1943, and payment will be made for such faces if written permission to cut is given by a District Supervisor of the Forest Service.

(u) *Records required to facilitate administration of program.* Each applicant producer in measuring his trees to determine those to be worked under this program shall make an accurate count, by drifts, lots, or other suitable units, of all such faces and shall separately account for those located on fee land and those on leased lands; and he shall make and keep a written record thereof and furnish such record to the Forest Service, together with a description of the lands. Each producer who files a work sheet shall assist the representatives of the Forest Service in the administration of this program by giving them free access to his turpentine farm, indicating the location of trees and faces recorded on the work sheet, furnishing competent labor to assist the inspector in counting trees, and otherwise facilitating the work of the inspectors in checking compliance with the terms and conditions of this program. All drifts or tracts must be clearly marked either by paint or non-injurious blazes, so that drift or tract lines can be traced in the field without a guide. Any producer participating in this program is required to notify the Forest Service promptly in writing after the work sheet has been filed (1) if there is any change in ownership or control, (2) if there is any transfer, expiration, or sale of lease, and (3) at least 10 days in advance if any timber on the turpentine farm is to be cut.

§ 706.406 *Excess cotton acreage.* (a) Any person who makes application for payment with respect to any turpentine farm located in a county in which cotton is planted in 1943 shall certify in his Certificate of Performance and Application for Payment that he has not knowingly planted cotton, or caused cotton to be planted, during 1943, on land in any farm wherever situated, in which he has an interest, in excess of the cotton acreage allotment for the farm for 1943, and that if cotton was planted in excess of such allotment it was done without his authority or consent and, if he had knowledge thereof, he made every reasonable effort to prevent such overplanting.

(b) Any person who knowingly plants cotton, or causes cotton to be planted, on his farm in 1943 on acreage in excess of the cotton acreage allotment for the farm for 1943 shall not be eligible for any payment whatsoever, on that farm, on his turpentine farm, or any other farm, for the year 1943 under this program or the Agricultural Conservation Program. For further details, see the 1943 Agricultural Conservation Program Bulletin and the instructions issued thereunder.

§ 706.407 *Rates of payment and further conditions*—(a) *Rates of payment.* In connection with the utilization, during the period of this program, of land devoted to growing trees suitable for or used in the production of gum naval stores, on all turpentine farms operated in accordance with the conditions set forth in this bulletin, payment will be made to each participating producer at the following rates:

(1) 1¾ cents per face for each face in continuous operation during the 1943 turpentine season, except faces in drifts or tracts which, by drifts or tracts, average more than 90 inches in height at the beginning of the 1943 turpentine season.

(2) 3 cents additional per face for each face in the selected areas on which chemical stimulation experiments are conducted as prescribed under § 706.405 (n).

(3) 5 cents per face for any one face of one or more faces on trees less than 9 inches d. b. h. and for any one face of two or more faces on trees 9 to 14 inches d. b. h., which are removed from operation during the 1943 turpentine season, or which were taken out of operation during the 1940 or a later program and kept out of operation during succeeding programs, including this program, for which payment was made in a previous program, and which were first installed during or after the 1939 turpentine season.

(b) *Payments limited to $10,000.* The total of all payments made in connection with all programs for 1943 under section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate, with respect to turpentine places, farms, and ranching units, situated within a single State, Territory, or possession, shall not exceed the sum of $10,000, prior to deduction for association or other administrative expenses in the county or counties or other areas with respect to which the particular payments are made. The total of all payments made in connection with such programs to any person other than an individual, partnership, or estate, with respect to turpentine places, farms, and ranching units situated in the United States (including Alaska, Hawaii, and Puerto Rico), shall not exceed the sum of $10,000 prior to the aforesaid deduction.

(c) *Payment restricted to effectuation of purposes of this program.* All or any part of any payment which has been or otherwise would be made to any person under this program may be withheld or required to be returned if he adopts or has adopted any practice which tends to defeat any of the purposes of this or any previous program, including the loan program, if any, or if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or participated in offsetting, in whole or in part, the performance for which such payment is otherwise authorized, or if, with respect to grazing land, forest land, or woodland owned or controlled by him, he adopts or has adopted any practice which is contrary to sound conservation practices.

Any person who, for any part or all of the 1943 turpentine season, leases any turpentine timber owned or controlled by him, or transfers his lease on any turpentine timber, or sells his turpentine timber, to another person who he knows or has good reason to believe will not carry out all sound conservation practices throughout the 1943 turpentine season on such turpentine timber shall not be eligible to receive any payment whatsoever under this program or to receive under the 1943 Agricultural Conservation Program any payment with respect to the farm in which such turpentine timber was embraced.

(d) *Increase in small payments.* The total payment computed for any producer with respect to his turpentine farm shall be increased as follows:

(1) Any payment amounting to 71 cents or less shall be increased to $1.00;

(2) Any payment amounting to more than 71 cents but less than $1.00 shall be increased by 40 percent;

(3) Any payment amounting to $1.00 or more shall be increased in accordance with the following schedule:

$186.00 to $199.99	(1)
$200.00 and over	(2)

[1] Increase to $200.

[2] No increase.

(e) *Administrative expenses.* There shall be deducted from the payments to each applicant producer his pro rata share of all or such part as the Secretary of Agriculture may prescribe of the estimated expenses incurred or to be incurred in the administration of this program.

§ 706.408 *Application and eligibility for payment*—(a) *Filing of work sheet and application.* Payments will be made upon the basis of facts established in an application for payment properly executed on Form NSCP-703 and filed with a district or regional office of the Forest Service. Each person filing an application for payment will be required to show that a work sheet has been properly executed and timely filed covering each turpentine farm owned, leased, or otherwise controlled, and being operated by him, with respect to which an application for payment is filed.

An application for payment may be made by any producer who is actively engaged in the production of gum naval stores during the 1943 turpentine season.

(b) *Time limit for filing work sheets and applications.* Work sheets and applications shall be filed in the manner prescribed and within time limits established by the Forest Service as affording reasonable opportunity to producers to participate in the benefits of this program and keeping the administrative costs within the budget and as low as reasonably may be reached.

(c) *Producer eligible for payments.* Payment will be made to the producer who operates the turpentine farm and who executes the application for payment. In the event one producer conducts the operation of a turpentine farm during a portion of the 1943 turpentine season and another producer conducts the operation of the turpentine farm during the remainder of the season, payment will be made to the producer who last conducts the operation of the turpentine farm during the season: *Provided, however,* That, in the event of a mutual agreement between the original producer and the successor-producer, payments shall be divided between such producers on the basis of such mutual agreement as evidenced by their joint application.

(d) *Time of payment.* Payment will be made as soon as practicable after a final field inspection of the turpentine farm on which a work sheet has been filed and after an application for payment has been filed with respect to such farm.

(e) *Assignments.* In order to carry out the provisions of section 8 (g) of the Soil Conservation and Domestic Allotment Act, as amended, and as modified by the last proviso to the item entitled "Conservation and Use of Agricultural Land Resources, Department of Agriculture" contained in the Department of Agriculture Appropriation Act, 1939:

Any producer who may be entitled to any payment in connection with the 1943 Naval Stores Conservation Program may assign his interest in such payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1943. No such assignment will be recognized unless the assignment is made in writing on Form ACP–69—Revised in accordance with the instructions (ACP–70 as amended), witnessed, however, by a district supervisor or an inspector of the Forest Service and filed with the Regional Office of the Forest Service, Atlanta, Georgia, or with the office of the appropriate district supervisor of the Forest Service located at Jacksonville, Florida; Savannah, Georgia; or Pensacola, Florida; nor unless such assignment is entitled to priority as determined under the instructions governing the recording of such assignments issued by the Agricultural Adjustment Agency.

The foregoing provisions shall not be construed to give an assignee a right to any payment other than that to which the producer is entitled, and the statute provides that the Secretary of Agriculture and any disbursing agent shall not be subject to any suit or liability if the payment is made to the producer without regard to the existence of any assignment.

§ 706.409 *Administration.* The Forest Service shall have charge of the administration of this program and is hereby authorized to make such determinations and to prepare and issue such bulletins, instructions, and forms as may be required to administer this program pursuant to the provisions hereof; and the field work shall be administered by the Forest Service through the office of the Regional Forester, United States Forest Service, Glenn Building, Atlanta, Georgia.

Done at Washington, D. C., this 20th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter V—Military Reservations and National Cemeteries

PART 55—MOTION PICTURE SERVICE

Section 55.8 (a) (1) (2) and (3)[1] is rescinded and the following substituted therefor:

§ 55.8 *Coupon books*—(a) *Sale.* Coupon books will be sold at the theater or at such other places on the post as the commanding officer may designate, at the price announced by the War Department. Coupon books are sold at a considerable discount which is warranted only under certain conditions surrounding their use as outlined in these regulations with the provisions of which prospective purchasers should be made acquainted. Coupon books will be sold with a clear understanding that they are not transferable and are subject to confiscation if presented by other than the person to whom they were sold. The intent of this requirement is to prevent the purchase of books for the sole purpose of their resale and not to prevent the use by members of a family of a coupon book purchased by one member thereof. (R.S. 161; 5 U.S.C. 22) [Par. 25*b*. AR 210–390, July 10, 1942, as amended by C3, Nov. 1, 1942]

Appendix I Assignment of Procurement Responsibility and Purchase Responsibility.

NEGOTIATED PURCHASES

§ 81.202 *Definitions.* (a) The term "negotiated purchases" as used in these procurement regulations includes all purchases which are not made as a result of formal advertising in accordance with section 3709, Revised Statutes. Negotiated purchases may be made not only by face to face dealings, but also

---

[1] 7 F.R. 7959.

[1] 7 F.R. 4819.

by securing informal written bids or telephone quotations. However, where such bids or quotations are requested, the request therefor should clearly indicate that the service is proceeding under the negotiating power of Public No. 354, First War Powers Act, 1941.

(b) A purchase action is any transaction (including all types of awards) obligating government funds. A transaction, in this case, includes transactions with any individual, firm, corporation or governmental agency outside of the jurisdiction of the War Department. The execution of a letter of intent is to be regarded as a purchase action unless the undertaking contained therein is conditioned upon funds becoming available, and hence does not obligate government funds (See for example, the letter of intent which was the subject of the decision of the Comptroller General issued under date of December 22, 1941; B–21673).

(c) The term "service" as used in this procurement regulation, includes all Supply Services, Services of Supply; the Matériel Command, Army Air Forces; all Service Commands, Services of Supply; Special Services, Services of Supply; Administrative Services, Services of Supply.

§ 81.204 *General policy.* (a) Except as indicated in paragraph (b) below, all contracts will be placed by negotiation. The methods of negotiation to be followed will be determined by the chief of the service concerned. Any method which will result in the most efficient award of contracts and will, in the judgment of the chief of the service concerned, protect the interests of the Government, is hereby authorized.

(b) When authorized by the Director of the Procurement Policy Division of the War Production Board or his designated representative, contracts may be placed by formal advertising instead of by negotiations if deemed necessary in the interests of the Government. Requests for such authority will be submitted to the Director, Purchases Division, Headquarters, Services of Supply, by the chief of the service concerned.

§ 81.205 *Special instructions*—(a) *Decentralization.* The chiefs of the services will decentralize to their field agencies the actual work of negotiating contracts to the greatest extent consistent with efficiency and proper safeguarding of the public interest.

(b) Where consistent with the required speed of war procurement, notification of the proposed procurement will be given to a reasonable number of qualified contractors, and quotations secured from them. A qualified contractor is one who:

(1) Qualifies as such under the laws and lawful regulations governing the purchase of the supplies in question,

(2) Can comply with all the terms and conditions governing the purchase,

(3) Is a manufacturer of or a regular dealer in the supplies or services to be purchased, and

(4) In the judgment of the chief of the service is responsible.

(c) *Considerations relative to procurement as set forth in War Production Board directive.* Under date of October 10, 1942, the Chairman of the War Production Board issued Directive No. 2, amended (7 F. R. 8179) which, in part, provides as follows:

> (b) (1) In negotiating contracts relating to war procurement the following considerations shall govern:
>
> (i) Primary emphasis shall be upon securing deliveries or performance at the times required by the war program.
>
> (ii) Subject to the considerations stated in subdivision (i) contracts shall be placed with concerns needing to acquire the least amounts of additional new machinery, equipment, or facilities for performance of the contracts.
>
> (iii) Subject to the considerations stated in subdivisions (i) and (ii), it shall be the policy of all war procurement departments and agencies to avoid contracting for the production of items or materials in communities or areas in which acute labor shortages are known to exist whenever it is practical to procure the needed items or materials elsewhere. The War Manpower Commission shall be relied upon to certify to the war procurement agencies communities and areas in which acute labor shortages exist to such a degree that the policy stated in this subdivision is applicable.
>
> (iv) Subject to the considerations stated in subdivisions (i), (ii), and (iii), such contracts shall be placed so as to conserve, for the more difficult war production problems, the resources of concerns best able, by reason of engineering, managerial, and physical resources, to handle them. Accordingly, contracts for items which involve relatively simple production problems shall be placed with concerns normally the smaller ones, which are less able to handle the more difficult war production problems.
>
> (v) Subject to the considerations stated in subdivisions (i), (ii), (iii), and (iv), and also subject to the provisions of the Production Concentration Programs, which have been or may in the future be instituted by the War Production Board, such contracts shall be placed so as to spread production among as many firms as is reasonable and feasible.
>
> (c) War procurement departments and agencies are hereby authorized and directed to pay higher prices than would otherwise be required if such action is stated in subdivisions (i) through (v), inclusive. If all the considerations set forth in subdivisions (i) through (v) have been met and there is still need for selection among contractors, contracts shall be so placed as to obtain the lowest price for the Government.
>
> (d) Authority to depart from these policies may, upon specific request, be granted by the Director of the Procurement Policy Division of the War Production Board, or by such person or persons as he may designate for this purpose.

(d) *Additional considerations.* In addition to the considerations set forth in paragraph (c) of this section, regard should be paid to the following considerations in negotiating contracts:

(1) An effort should be made to have, for each item of supplies or equipment, a minimum of two producers so located as not to be subject to the same hazard.

(2) Whenever land-grant railroads or water routes can be utilized for the transportation of military supplies, requests for quotations should specify delivery f. o. b. point of origin in preference to f. o. b. point of destination. This applies to both carload and less-than-carload shipments.

Paragraphs (d), (e) and (f) are redesignated as follows, the redesignated paragraph (f) being amended:

(e) *Authority to make awards.* * * *

(f) *Applicability of labor statutes to negotiated contracts.* The Walsh-Healey Public Contracts Act, as amended, the Davis-Bacon Act, as amended, the Copeland "Kick-back" Act, as amended, and the Eight Hour Law, as amended, are applicable to contracts made and performed under the authority of Executive Order No. 9001 to the same extent as if said contracts had been made and performed under the provisions of section 3709, Revised Statutes.

(g) *Commanders in theaters of operations.* * * *

PURCHASE ACTION REPORTS

§ 81.206 *General*—(a) *Statistics and Progress Branch.* Under General Orders No. 14, Headquarters, Services of Supply, dated June 12, 1942, the Statistics and Progress Branch, Control Division, Headquarters, Services of Supply, was established. This branch is responsible for preparation and submission of all procurement reports required by law to be submitted by the War Department to the President and to the Congress, as well as to other Federal agencies authorized to receive such reports. Effective July 1, 1942, it will be the responsibility of every station, except those in theaters of operations, to make reports of purchase actions as outlined in the succeeding paragraphs. The reports will cover all purchase actions for all types and kinds of things and services, supply contracts (including purchase actions for engineering or architectural services, maintenance of real estate and procurement of abstracts of titles) and purchase actions for the acquisition and leasing of real estate; also purchase actions for construction services, contracts with Defense Plant Corporation and purchase actions for utilities.

(b) *Reports required to be filed.* The reports required to be filed with the Statistics and Progress Branch, Control Division, Headquarters, Services of Supply, are those specified in $ 81.207 (a), (c), (d) and § 81.208. All other initial reports of purchase actions are abolished effective July 1, 1942. When supplementary data is required for operating purposes of a service, the chief of that service may direct supplementary data to be submitted to him.

(c) *Service required to file reports.* When reallocation or suballotment of funds is involved, the service to which funds are assigned is responsible for making the reports required to be filed under § 81.207 (a), (c), (d) and § 81.208.

(d) *Signing of reports.* Reports will be signed by the officer in charge. At procurement stations on the exempted list, it will be the Commanding Officer; at posts, camps, or stations on the non-exempted list, it will be the supply officer in charge of procurement covered by the report.

(e) *Procedure for forwarding reports.* The reports will be forwarded by each station to the chief of its respective service so as to be received, in the case of reports filed under § 81.207 (a), (c) and (d) by the fifth calendar day following the purchase action (see § 81.202 (b)), or, in the case of monthly reports by the fifth calendar day following the close of the month. The chief of the service will forward the required copy to Commanding General, Services of Supply, attention Control Division, Statistics and Progress Branch, to arrive by the eighth calendar day following the purchase action or the month involved. They will be transmitted in duplicate (unless additional copies are directed by chief of the particular service for stations or contracting officers under his jurisdiction) through the office of the chief of the particular service. One copy will be retained by the office of the chief of the service involved, and the original forwarded from said office to the Statistics and Progress Branch as provided above. Chiefs of services will be responsible for complete, accurate and proper submission of reports from stations under their respective jurisdictions. Stations on the exempted list will report through the chief of the respective services. Contracting officers at posts, camps or stations not on the exempted list will submit for their particular stations reports of their actions through the Chiefs of their respective Service Commands, Services of Supply, regardless of the Supply Service indication incorporated as part of the contract number on the purchase action report. In such cases where one contracting officer at an exempted station has been appointed contracting officer by more than one service, even at posts, camps and stations, separate reports (both monthly and individual purchase action) will be submitted for each service individually. The channels through which both individual purchase action and monthly summary reports will be submitted is determined by the station and the higher echelon to which the reallocation or suballotment (under which the purchase action was undertaken) had been made. The respective Supply Services will render advice to these stations as directed by AR 170–10.[1]

(f) *Reports not to be duplicated.* When a "final type" contract is executed covering a previously reported purchase action, no additional purchase action report will be filed. Likewise, a purchase order is to be reported only when it is the original purchase action on the item in question; and a purchase order is not to be reported when it is an order placed against an existing transaction previously reported as a purchase action.

(g) *Matters not to be reported.* Pay of individuals, shipping and travel expenses, etc., are not to be included in the reports required to be filed under § 81.207 (a), (c), (d) and § 81.208. The items involved in this category are stated in War Department Circular No. 206, 1942. Pay of individuals included in architectural, engineering, professional, administrative or management services will not be reported separately, but will be included in the estimated value of the service performed.

§ 81.207 *Reports of purchase actions exceeding $10,000.* (a) A report of every original purchase action which exceeds $10,000 (actual or estimated) in amount will be made on an 8″ x 10½″ sheet and forwarded through the offices of the chiefs of the various services in accordance with the time schedule (the fifth calendar day following the purchase action) and procedure stated in § 81.206 (e). Notwithstanding the provisions of the note under § 81.201, reports made on and after November 1, 1942, should be made on the following form:

(b) *Explanation of report form for purchase actions exceeding $10,000.* The following notes apply to the report form set forth in paragraph (a) of this section. It will be noted that the report form contains cross references to these notes.

(1) Each station will begin with serial No. 1 for the new fiscal year and continue in exact sequence (based on the date of award as established in subparagraph (8) of this paragraph) to the end of the fiscal year. Purchase action reports made in the new fiscal year for awards made in the previous fiscal year should have a serial number in the series of the previous fiscal year.

(2) Under the heading "Reported Through", the command or service through which the report is made should be indicated. Only one command or service should be shown.

(3) Include name of station, location and station number.

(4) Name and address of contractor. If more than one, list each one as a split award on separate purchase action reports.

(5) Name and location of establishment or plant or location where work will be performed. If more than one, list each one. If this is same as contractor, so indicate.

(6) Under the headings "Station", "Supply Service" and "Number" indicate the contract (purchase action) number in accordance with the system specified in § 81.305 (b) of these procurement regulations. When purchase orders are required to be reported (see § 81.206 (f)), the number thereof will be shown under this item of the form.

The date shown will be the date of the original formal agreement as established by the transmittal of the document from the contracting officer to the contractor, which is the date of award and not necessarily the date of agreement.

(7) Indicate whether lump sum, unit price, cost-plus-a-fixed-fee, etc.

(8) For construction, this means work to begin, etc. For real estate, this means date of possession. The starting date may be the same as the completion date; and the starting date or both the starting date and completion date may be the same as the date of award. Where dates are dependent upon receipt of material estimated dates are permissible but will be so indicated.

(9) Complete description of product, service, facilities, project or property. Long lists of items attached to Purchase Action Reports are not required for centralized reporting unless specifically directed by the chief of the service responsible for procurement of the item involved. Where assorted items of like nature are reported, indicate group headings such as: various engine parts, various knit clothing, etc. If item or service is classified state description but so label whole report, and transmit according to regulations covering classified information.

(10) For the preference rating, the W.P.B. priority rating (AAA, AA-1, A-1-a, etc.) will be shown. For the identification symbol, the appropriate allocation classification symbol (as established by W.P.B. in Priority Regulation No. 10, issued June 1, 1942, and known as the "end use code"), should for the time being be used. These are recorded as U.S.A. 6.20. U.S.A. 11.30. LL 1.00, etc. Use the LL symbol for Lend Lease or International Aid. It is anticipated that some time in the future, this note will be amended to require the use of the Federal Standard Stock Catalog number instead of the allocation classification symbol.

(11) Number of units, unit cost and total cost. If cost is estimated, write "estimated" after amount. For purchase actions involving architect-engineer or similar services only indicate as the total cost the amount payable to the individual contractor and chargeable against a War Department appropriation. This applies primarily to cost-plus-a-fixed-fee contracts. In cases where a varied group of items are shown in the description section of the report and not detailed, indicate the various unit prices in the same manner. Indicate this assortment either as a price range, i. e. $4.37 to $4.69 ea., or show the word "various" for a wide range of unit prices such as on tools. In all cases a total cost (actual or estimated) will be shown. This includes purchase actions for utilities or other "open-end" contracts.

(12) State when an escalator clause is included in the contract and whether such clause is for labor, materials or both.

(13) The minimum wage determination of the Secretary of Labor which was made part of this purchase action will be shown.

(14) Where total value of purchase action is in excess of $150,000.00 additional data is required as shown on form. (paragraph (a) of this section)

(c) *Reports of increased purchase actions not originally reported.* When a purchase action, which originally was not reported because it involved a total cost of not more than $10,000, is increased to an amount in excess of $10,000, a purchase action report will be made on the form set forth in paragraph (a) of this section, showing the purchase action, as increased, with a notation that the original purchase action did not exceed $10,000. See subparagraph (8) of § 81.208 (b) for method of treating such purchase actions in monthly summary reports.

(d) *Supplemental reports.* If a purchase action report has been submitted under either paragraph (a) or paragraph (c) of this section, and subsequently there is a change affecting the quantity or value of the original report, a supplemental report will be submitted. Such a supplemental report (clearly marked "Supplemental report") will be forwarded for each such change. The report will be submitted in accordance with the time schedule (5 calendar days after the purchase action) and procedure stated in § 81.206 (e) and will be made on the form specified in paragraph (a) of this section, except that the heading "Total cost" contained in the form will be changed to read, "Net change". The supplemental report will contain the same serial number as the original report followed by a letter of the alphabet in parentheses, the first change being followed by the letter "a" in parentheses (a); the second change by the letter "b" in parentheses (b), and so on. It is to be noted that this letter will suffix the serial number and not the station number. The report will be on the basis of the net increase or decrease (state which) and such net increase or decrease will be shown and not the revised total cost of the purchase action. A different color paper (blue), will be used for reporting such changes in order to differentiate supplemental reports from original reports. Cancellations will be treated as changes for the purposes of supplemental reports, the estimated amount cancelled being shown as a decrease.

§ 81.208 *Monthly summary of purchase actions.* (a) A summary of all purchase actions will be rendered for each calendar month as of the last day thereof and submitted on an 8″ x 10½″ sheet through the offices of the chiefs of the various services in accordance with the time schedule (5 calendar days after the close of the month) and procedure stated in § 81.206 (e) (on the basis of net obligations undertaken during the month and not appropriations authorized). The following form should be used for all reports filed subsequent to December 1, 1942, including the report for the month of November:

(b) *Explanation of monthly report form.* The following comments are applicable to the report form set forth in paragraph (a) of this section:

(1) In item (1) of the form there should be shown the command or service through which the report is submitted.

(2) Care should be taken not to include figures for the same purchase action in more than one monthly report.

(3) The definition of negotiated purchases contained in § 81.202 (a) should be used in answering item (4) of the form.

(4) The net increase or decrease in the amount of purchase actions resulting from changes occurring in any given month are to be reported under "a" and "b" of item (4) of the form. See § 81.207 (d) for method of treating cancellations.

(5) The net value of all changes or supplements is to be shown as one figure within its proper group (that is, under "a" of item (4) if $10,000 or less; under "b" of item (4) if in excess of $10,000; and under item (5) if other than a negotiated purchase action). This will be done regardless of the month in which the original purchase action was reported.

(6) Only original purchase actions are to be shown in the number of purchases made under item (7). At no time will changes or supplements be included in the number of purchases reported under item (7).

(7) Under item (5) of the form will be included purchases made under the general schedule of supplies, purchase notice agreements, contract bulletins, and purchases under all contracts entered into by a Purchasing Officer other than the office making the report (regardless of whether the other purchasing office entered into the contract by negotiation or otherwise).

(8) The revised net amount of all purchase actions which have been supplemented to exceed $10,000 and for which reports have been accordingly filed under § 81.207 (c) will be included in the first figure under (4) b of the form. The amounts shown under (4) a of the forms filed in previous months in respect to such purchase actions will be shown as a decrease in the second figure under (4) a of the form filed for the month in which the change occurred. Thus a balance can be maintained.

(9) Under (4) b indicate the opening purchase actions used to arrive at the first amount shown in (4) b.

(c) In cases where no activity is shown for a particular month by a station, negative or null reports will be submitted by the stations to their respective higher echelon, but no report need be forwarded for such action from the Chief of Service to the Commanding General, Services of Supply, attention Control Division, Statistics and Progress Branch. Where a station has been terminated a report will be submitted indicating that such report is final.

§ 81.324 *Termination for convenience of the Government.* The following reference is added at the end of paragraphs (a) and (b) as published in the FEDERAL REGISTER October 13, 1942:

(a) * * *

(See paragraph (c) of this section.)

(b) * * *

(See paragraph (c) of this section.)

(c) On rare occasions, in connection with an initial contract with a contractor for a particular product or type of construction, involving a long period of preparation for the performance of the contract or unusually large development and planning costs, unusual circumstances may give rise to the request that the contractor be given special protection against loss through termination for the convenience of the Government at an early stage of the performance of the contract. In such cases, a full statement of the facts and a draft of any special contract provisions recommended will be submitted through the Chief of the Supply Service negotiating the contract, to the Director, Purchases Division, Headquarters, Services of Supply, for approval.

§ 81.342 *Renegotiation of price clause.* The following price renegotiation clauses will be used in accordance with Procurement Regulation No. 12 (§ 81.1201 et seq.):

(a) [*Form I*] *Renegotiation pursuant to section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.* (1) Upon the written demand of the Secretary, at such period or periods when, in the judgment of the Secretary, the profits accruing to the contractor under this contract can be determined with reasonable certainty, the contract price will be renegotiated to eliminate therefrom any amount found as a result of such renegotiation to represent excessive profits. The demand of the Secretary shall fix a place for renegotiation and a time for commencement thereof not later than one year after the close of the fiscal year of the contractor within which completion or termination of the contract, as determined by the Secretary, occurs.

(2) The contractor will furnish to the Secretary such statements of actual costs of production and such other financial statements, at such times and in such form and detail, as the Secretary may prescribe, and will permit such audits and inspections of its books and records as the Secretary may request.

(3) The Government shall retain from amounts otherwise due the contractor, or the contractor shall repay to the Government if paid to him, any amount of the contract price found as a result of such renegotiation to represent excessive profits and not eliminated through reductions in contract price or otherwise, as the Secretary may direct.

(4) The contractor will include in each subcontract made by it under this contract for an amount in excess of $100,000, the following provisions:

ARTICLE ------------ *Renegotiation Pursuant to Section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.*

(1) Upon the written demand of the Secretary, at such period or periods when, in the judgment of the Secretary, the profits accruing to ------------------ (subcontractor) under this contract can be determined and reasonable certainty, the Secretary and ------------------ (subcontractor) will renegotiate the contract price to eliminate therefrom any amount found as a result of such renegotiation to represent excessive profits. The demand of the Secretary shall fix a place for renegotiation and a time for the commencement thereof not later than one year after the close of the fiscal year of the subcontractor within which completion or termination of the contract, as determined by the Secretary, occurs.

(2) ------------------ will furnish to the Secretary such statements of actual costs of production and such other financial statements, at such times and in such form and detail, as the Secretary may prescribe, and will permit such audits and inspections of its books and records as the Secretary may request.

(3) Any amount of the contract price found as a result of such renegotiation to represent excessive profits shall, as directed by the Secretary,

(A) Be deducted by ------------------ (contractor) from payments otherwise due to ------------------ (subcontractor) under this contract; or

(B) Be paid by ------------------ (subcontractor) directly to the Government, if paid to him; or

(C) Be eliminated through reductions in the contract price or otherwise.

(4) ------------------ (subcontractor) agrees that ------------------ (contractor) shall not be liable to ------------------ (subcontractor) for or on account of any amount paid to the Government by ------------------ (subcontractor) or deducted by ------------------ (contractor) from payments otherwise due under this contract, pursuant to directions from the Secretary in accordance with the provisions of this Article. Under its contract with the Government, ------------------ (contractor) is obligated to pay or credit to the Government all amounts withheld by it from ------------------ (subcontractor) hereunder.

(5) ------------------ (subcontractor) agrees (a) upon direction of the Secretary, to include in any subcontract hereunder sections (1) to (6) inclusive of this Article, and (b) to make no subdivisions of any contract or subcontract for the purpose of evading the provisions of this section, and (c) to repay to the Government the amount of any reduction in the contract price of any such subcontract which results from renegotiation thereof by the Secretary, and which the Secretary directs ------------------ (subcontractor) to withold from payments otherwise due under such subcontract and actually unpaid at the time ------------------ (subcontractor) receives such direction.

(6) As used in this Article.

(a) The term "Secretary" means the Secretary of War or any duly authorized representative of the Secretary including the Contracting Officer.

(b) The term "subcontract" means any purchase order or agreement to perform all or any part of the work, or to make or furnish any material, part, assembly, machinery, equipment or other personal property, required for the performance of this contract, unless exempt under or exempted pursuant to Section 403 (i) of the Sixth Supplemental National Defense Appropriation Act of 1942 as amended by Section 801 of the Revenue Act of 1942.

(c) The terms "renegotiate" and "renegotiation" have the same meaning as in section 403 (b) of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.

(d) The term "this contract" means this contract as modified from time to time.

(5) (i) The contractor agrees to make no subdivisions of any contract or subcontract for the purpose of evading the provisions of this article.

(ii) If any renegotiation between the Secretary and any subcontractor pursuant to the provisions required by paragraph (d) hereof results in a reduction of the contract price of the subcontract, the Government shall retain from payments otherwise due to the contractor, or the contractor shall repay to the Government, as the Secretary may direct, the amount of such reduction which the Secretary directs the contractor to withhold from payments otherwise due to the subcontractor under the subcontract and actually unpaid at the time the contractor receives such direction.

(6) As used in this article:

(i) The term "Secretary" means the Secretary of War or any duly authorized representative of the Secretary, including the Contracting Officer.

(ii) The term "subcontract" means any purchase order or agreement to perform all or any part of the work, or to make or furnish any material, part, assembly, machinery, equipment or other personal property, required for the performance of this contract, unless exempt under or exempted pursuant to section 403 (i) of the Sixth Supplemental National Defense Appropriation Act of 1942 as amended by section 801 of the Revenue Act of 1942.

(iii) The terms "renegotiate" and "renegotiation" have the same meaning as in section 403 (b) of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.

(iv) The term "this contract" means this contract as modified from time to time.

(b) [*Form II*] *Renegotiation pursuant to section 403 of the Sixth Supplemental National Defense Appropriation Act as amended, 1942.* (1) The contractor will include in each subcontract made by it under this contract for an amount in excess of $100,000, the following provisions:

ARTICLE ------------ *Renegotiation Pursuant to Section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.*

(1) Upon the written demand of the Secretary, at such period or periods when, in the judgment of the Secretary, the profits accruing to ------------------ (subcontractor) under this contract can be determined with reasonable certainty, the Secretary and ------------------ (subcontractor) will renegotiate the contract price to eliminate therefrom any amount found as a result of such renegotiation to represent excessive profits. The demand of the Secretary shall fix a place for renegotiation and a time for the commencement thereof not later than one year after the close of the fiscal year of the subcontractor within which completion or termination of the contract, as determined by the Secretary, occurs.

(2) ------------------ (subcontractor) will furnish to the Secretary such statements of actual costs of production and such other financial statements, at such times and in such form and detail, as the Secretary may prescribe, and will permit such audits and inspections of its books and records as the Secretary may request.

(3) Any amount of the contract price found as a result of such renegotiation to represent excessive profits shall, as directed by the Secretary,

(A) Be deducted by ------------------ (contractor) from payments otherwise due to ------------------ (subcontractor) under this contract; or

(B) Be paid by ------------------ (subcontractor) directly to the Government, if paid to him; or

(C) Be eliminated through reductions in the contract price or otherwise.

(4) ------------------ (subcontractor) agreees that ------------------ (contractor) shall not be liable to ------------------ (subcontractor) for or on account of any amount paid to the Government by ------------------ (subcontractor) or deducted by ------------------ (contractor) from payments otherwise due under this contract, pursuant to directions from the Secretary in accordance with the provisions of this Article. Under its contract with the Government, ------------------ (contractor) is obligated to pay or credit to the Government all amounts withheld by it from ------------------ (subcontractor) hereunder.

(5) ------------------ (subcontractor) agrees (a) upon direction of the Secretary, to include in any subcontract hereunder section (1) to (6) inclusive of this Article, and (b) to make no subdivisions of any contract or subcontract for the purpose of evading the provisions of this section, and (c) to repay to the Government the amount of any reduction in the contract price of any such subcontract which results from renegotiation thereof by the Secretary, and which the Secretary directs ------------------ (subcontractor) to withhold from payments otherwise due under such subcontract and actually unpaid at the time ------------------ (subcontractor) receives such direction.

(6) As used in this Article,

(a) The term "Secretary" means the Secretary of War or any duly authorized representative of the Secretary, including the Contracting officer.

(b) The term "subcontract" means any purchase order or agreement to perform all or any part of the work, or to make or furnish any material, part, assembly, machinery, equipment or other personal property, required for the performance of this contract, unless exempt under or exempted pursuant to section 403 (i) of the Sixth Supplemental National Defense Appropriation Act of 1942 as amended by section 801 of the Revenue Act of 1942.

(c) The terms "renegotiate" and "renegotiation" have the same meaning as in section 403 (b) of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.

(d) The term "this contract" means this contract as modified from time to time.

(2) (i) The contractor agrees to make no subdivision of any contract or subcontract for the purpose of evading the provisions of this article.

(ii) If any renegotiation between the Secretary and any subcontractor pursuant to the provisions required by section (a) hereof results in a reduction of the contract price of the subcontract, the Government shall retain from payments otherwise due to the contractor, or the contractor shall repay to the Government, as the Secretary may direct, the amount of such reduction which the Secretary directs the contractor to withhold from payments otherwise due to the subcontractor under the subcontract and atcually unpaid at the time the contractor receives such direction.

(3) As used in this article:

(i) The term "Secretary" means the Secretary of War or any duly authorized representative of the Secretary, including the Contracting Officer.

(ii) The term "subcontract" means any purchase order or agreement to perform all or any part of the work, or to make or furnish any material, part, assembly, machinery, equipment or other personal property, required for the performance of this contract, unless exempt under or exempted pursuant to section 403 (i) of the Sixth Supplemental National Defense Appropriation Act of 1942 as amended by section 801 of the Revenue Act of 1942.

(iii) The terms "renegotiate" and "renegotiation" have the same meaning as in section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended.

(iv) The term "this contract" means this contract as modified from time to time.

§ 81.905 *Applicability of eight hour law.* * * *

(f) *Qualification of exceptions.* The exceptions contained in paragraphs (a) to (e) of this section (but not the exception for Walsh-Healey contracts) are subject to the qualification contained in the Act that the basic law shall apply to "all classes of work which have been, are now, or may hereafter be performed by the Government * * *." The meaning of this qualification is not clear. Under one literal interpretation, it would nullify the exceptions (See 29 Op. A.G. 505 (1912)). The preferable construction is that the exceptions apply on a given date unless the work is of a class which has been or is then being performed by the Government.

WAGE AND SALARY STABILIZATION

§ 81.968 *General orders.* From time to time the National War Labor Board issues general orders establishing procedures and regulations for the administration and interpretations of Executive Order No. 9250 as well as interpretations of such general orders. The full text of such general orders and interpretations is set forth in the succeeding paragraphs of this procurement regulation.

§ 81.969 *General Order No. 1.* All increases in wage rates which have been directed by the War Labor Board prior to October 3, 1942, shall be put into effect in accordance with the terms of the directive order in each particular case.

§ 81.970 *General Order No. 2.* The procedures in the National War Labor Board for the adjustment of labor disputes affecting wages established under Executive Order No. 9017, dated January 12, 1942, shall remain in full force and operation, and in all present or future cases in which the jurisdiction of the Board has attached or shall attach by certification or otherwise, the parties shall be deemed to have given notice within the terms of Title II, section 1, of Executive Order No. 9250, dated October 3, 1942.

§ 81.971 *General Order No. 3.* (a) The National War Labor Board hereby approves all increases in wage rates which were put into effect on or before October 3, 1942, *Provided, however,* That the Board reserves the power under the provisions of Title III, section 3 of the Executive Order to disapprove any such wage rate which it may find to be inconsistent with the policy enunciated in the said Executive Order or hereafter formulated by the Economic Stabilization Director and in case of such disapproval to order the discontinuance of further payment of such wages.

(b) *Intepretation No. 1 of General Order No. 3.* In General Order No. 3 the words "increases in wage rates which were put into effect on or before October 3" include increases in wage rates which by written agreement entered into on or before October 3, 1942, or by the formal action communicated to the employees on or before October 3, 1942, notwithstanding such increases were first reflected in a payroll subsequent to October 3, 1942.

(c) *Interpretation No. 2 of General Order No. 3.* Any change in wage rates, regardless of its effective date, which results from the award or decision of an arbitrator or referee made after October 3, 1942, is subject to the provisions of Executive Order No. 9250, dated October 3, 1942, notwithstanding the agreement or order for arbitration or reference was made on or before October 3, 1942.

(d) *Interpretation No. 3 of General Order No. 3.* Unless otherwise expressly exempted, any change in wage rates provided for in any existing agreement to take effect at some future date or on the happening of some future event, is subject to the provisions of Executive Order No. 9250, dated October 3, 1942, regardless of when the agreement was made.

§ 81.972 *General Order No. 4.* (a) Wage adjustments made by employers who employ not more than eight (8) individuals are exempted from the provisions of the Executive Order No. 9250 of October 3, 1942.

(b) *Interpretation No. 1 of General Order No. 4.* The exemption granted by General Order No. 4 to employers who employ not more than eight individuals does not apply to employers who own or operate more than one plant or unit where the aggregate of employees in such plants or units exceeds eight.

(c) *Interpretation No. 2 of General Order No. 4.* The exemption provided for by General Order No. 4 shall not apply to employers whose employees' wages, hours or working conditions have been established or negotiated on an industry, association, area or other similar basis, whether by master contract or by separate but similar or identical contracts.

§ 81.973 *General Order No. 5.* (a) Wage adjustments may be made in the rates of individual employees, without approval of the National War Labor Board, if they are incident to the application of the terms of an established wage agreement or to established wage rate schedules covering the work assignments of employees and are made as a result of:

(1) Individual promotions or reclassifications.

(2) Individual merit increases within established rate ranges.

(3) Operation of an established plan of wage increases based upon length of service.

(4) Increased productivity under piece-work or incentive plans.

(5) Operation of an apprentice or trainee system.

The Board further finds that adjustments of wages made under this order should not result in any substantial increase of the level of costs and shall not furnish a basis either to increase price ceilings of the commodity or service involved or to resist otherwise justifiable reductions in such price ceilings.

(b) *Interpretation No. 1 of General Order No. 5.* The fixing of a piece-rate which was theretofore set only tentatively for trial purposes, and the resetting of a piece-rate which was found to have been set in the first instance so as to yield less than the regularly established or normal amount prevailing in the plant for that type of job, are each "wage adjustments . . . incident to the application of the terms of an established wage agreement or to established wage rate schedules" within the meaning of General Order No. 5, and may therefore be made without approval of the National War Labor Board.

§ 81.974 *General Order No. 6.* (a) The hiring of an individual at a wage rate in excess of the rate previously established in the plant for employees of similar skill and productive ability within the classification in which the individual is employed is a "wage increase" within the meaning of Executive Order No. 9250.

(b) If a wage rate for a job classification has not theretofore been established by the employer for the plant involved, the rate shall be fixed at a level not exceeding that which prevails for similar classifications within the area, unless a higher rate is approved by the National War Labor Board.

REQUISITIONING OF PERSONAL PROPERTY

GENERAL

§ 81.1401 *Authority to requisition.* Authority to requisition personal property is conferred under (1) the Act of October 10, 1940 (54 Stat. 1090) as amended by the Act of July 2, 1942 (Pub. Law 643, 77th Congress, 2nd Session), (2) the Act of October 16, 1941 (55 Stat. 742) as amended by the Act of March 27, 1942 (Pub. Law 507, 77th Congress, 2nd Session) and (3) Executive Order No. 8942, dated November 19, 1941 (6 F.R. 5909) as amended by Executive Order No. 9138, April 17, 1942 (7 F.R. 2919). The procedure outlined in this procurement regulation is confined to authority exercised pursuant to the above statutes and executive orders and does not apply to other forms of requisitioning or commandeering which may be available to officers in theaters of operations.

§ 81.1402 *Definitions*—(a) *Property.* The term "property", as used in this procurement regulation includes all items which may be or have been requisitioned under the authorities referred to under § 81.1401 (see § 81.1403).

(b) *Requisition officer.* The term "requisition officer", as used in this procurement regulation, means any contracting officer, as defined in Procurement Regulation No. 3, (§§ 81.301–81.360) or any commanding officer of service commands, armies, arsenals, depots, posts, fields and camps.

(c) *Requisition.* The term "requisition", as used in this procurement regulation, refers to a document consisting of two parts (part 1 "proposal to requisition" and part 2 "requisition order") as set forth in § 81.1417 below.

(d) *Notice of requisition.* The term "notice of requisition", as used in this procurement regulation, refers to the form set forth in § 81.1418 below.

(e) *Serving Officer.* The term "serving officer", as used in this procurement regulation, refers to an officer, agent, or employee of the United States at or near the location of the property to be requisitioned, designated by the requisition officer as the proper person to make personal service of the requisition and of the notice of requisition.

(f) *Report concerning value, condition and use of requisitioned property.* The term "report concerning value, condition, and use of requisitioned property", as used in this procurement regulation, refers to a written statement in the form prescribed by § 81.1419 below.

ACQUISITION OF PROPERTY BY REQUISITION

§ 81.1403 *Selection of proposal forms.* (a) When a requisition is initated under the Act of October 10, 1940, as amended, the requisition officer will first determine that:

(1) The property should be taken over for the use or operation by the United States or in its interest;

(2) The property is military or naval equipment or munitions, or component parts thereof, or machinery, tools or materials or supplies necessary for the manufacturing, servicing or operation thereof; and

(3) The property was ordered, manufactured, procured or possessed for export purposes, and that the exportation thereof has been prohibited or curtailed in accordance with the Act of July 2, 1940. (Pub. Law 703, 76th Congress; 54 Stat. 714)

(b) When a requisition is initiated under the Act of October 16, 1941, as amended, the requisition officer will first determine that:

(1) The use of the property is needed for the defense of the United States;

(2) Such need is immediate and impending and such that will not admit of delay or resort to any other source of supply;

(3) All other means of obtaining use of such property for the defense of the United States upon fair and reasonable terms have been exhausted;

(4) The property is military or naval equipment, supplies or munitions, or component parts thereof, or machinery, tools, or materials necessary for the manufacture, servicing, or operation of such equipment, supplies or munitions; and

(5) The property to be requisitioned is not a firearm possessed by an individual for his personal protection or sport, possession of which is not prohibited by existing law.

§ 81.1404 *Duties of the requisition officer.* Having satisfied himself as to the existence of the above-mentioned conditions, the requisition officer will execute the appropriate form of proposal and will forward the proposal and one copy thereof to the chief of the supply service concerned and five copies thereof direct to the Legal Branch, Purchases Division, Headquarters, Services of Supply.

§ 81.1405 *Duties of the Legal Branch, Purchases Division, Headquarters, Service of Supply.* The Legal Branch will accomplish all clearances and obtain the recommendation of the chief of the supply service concerned. After all necessary clearances and signatures are obtained, the Legal Branch will promptly transmit the requisition directly to the serving officer.

§ 81.1406 *Duties of the serving officer.* (a) The serving officer will personally serve the requisition upon the possessor or custodian of the property, but will not leave the requisition with such possessor or custodian of the property. He will also serve a notice of requisition upon the possessor or custodian of the property leaving the same in the possession of such possessor or custodian to serve as a receipt for the property. He will also serve a notice of requisition upon any persons known or believed to have, or to assert, a claim or interest in the property. In the event that it shall be impossible to accomplish personal service of a notice of requisition upon any person or persons believed to have, or to assert, a claim in the property, service of a notice of requisition will be made upon such persons or persons by the serving officer by registered letter mail, return receipt requested, at the last known address of such persons entitled to notice.

(b) Promptly upon serving the requisition upon the possessor or custodian of the property, the serving officer may take the property and the possession thereof for the purposes specified in the requisition and will promptly execute the Receipt for the property and the Return. The requisition itself will then be returned by the serving officer to the requisitioning officer together with a report of any service made pursuant to § 81.1406 (a) above and a report concerning value, condition, and use of requisitioned property in the form prescribed by § 81.1419 below. Simultaneously therewith copies of the instruments referred to will be transmitted to the chief of the supply service concerned, and a copy of the requisition showing the receipt and the return as executed will be transmitted to the Legal Branch, Purchases Division, Headquarters, Services of Supply.

§ 81.1407 *Proof of claim; disclaimer.* The requisitioning office will immediately, after return of service, upon receiving the report from the serving officer distribute a form of disclaimer or a form of proof of claim, accompanied by appropriate form of verification (individual, corporate, or foreign government as the case may be), together with power of attorney, if necessary, to every person known or believed to assert any claim or interest in the property, together with instructions for the preparation of the proposal and submission of the proof of claim or disclaimer, as the case may be. The requisitioning office will furnish the chief of the supply service concerned and Legal Branch, Purchases Division, Headquarters, Services of Supply, with two copies of each proof of claim or disclaimer with the attached verification and power of attorney. The required forms of proof of claim, verifications, power of attorney, disclaimer, and accompanying instructions are set forth in §§ 81.1420–81.1424 below.

DETERMINATION AND PAYMENT OF FAIR AND JUST COMPENSATION FOR PROPERTY REQUISITIONED

§ 81.1408 *Definitions*—(a) *Certificate of fair and just compensation.* The term "certificate of fair and just compensation", as used in this procurement regulation, refers to a written statement in the form prescribed by § 81.1425 below.

(b) *Acceptance of award and release.* The term "acceptance of award and release", as used in this procurement regulation, refers to a written statement in the form prescribed by § 81.1426 below.

(c) *Stipulation as to amount of fair and just compensation.* The term "stipulation as to amount of fair and just compensation", as used in this procurement regulation, refers to a written statement in the form prescribed by § 81.1427 below.

(d) *Disbursing officer.* The term "disbursing officer", as used in this procurement regulation, refers to the officer who has been designated to make payments for the property in the Proposal to Requisition (Part I of form set forth in § 81.1417.)

(e) *Award where owner is alien enemy or national of a state or territory occupied by enemy.* Where an owner of the requisitioned property is an alien enemy or a national of a state or territory occupied by the enemy, award will be made in the manner prescribed in this section III, (§§ 81.1408–81.1416) except that the payment shall be made into a blocked account for the benefit of such alien enemy or national of a state or territory occupied by the enemy.

INITIAL PROCEDURE IN DETERMINING THE AMOUNT OF COMPENSATION

§ 81.1410 *Preliminary determination.* (a) Promptly after the requisitioning of the property and after consultation with all available persons claiming an interest therein, the requisition officer will make the preliminary determination of the fair and just compensation to be paid for such property. The requisition officer will determine the place of consultation giving due regard to the place of residence or whereabout of the claimants.

(b) In making the preliminary determination of compensation the requisition officer will fix an amount believed to be the fair market value of the property requisitioned (i. e., of the actual materials) as of the time and place of taking: *Provided, however,* That in no instances will the amount of compensation exceed the ceiling price, if any, established by the Office of Price Administration or otherwise established by law, if such ceiling price was in effect at the time of taking. Such determination shall be made in accordance with the provision contained in the fifth amendment of the Constitution of the United States that "private property [shall not] be taken for public use, without just compensation."

(c) The requisition officer will, to the extent practicable, give notice of such determination to all persons known or believed to assert a claim or interest in the property requisitioned. Such notice will be given by personal service where possible, and, where not possible, by registered mail, return receipt requested.

(d) Within thirty (30) days after date of receipt of notice of preliminary determination, any claimant may file written objections thereto with the chief of the supply service concerned, specifying in reasonable detail the grounds for his objection. The preliminary determination may be modified on the basis of such objection.

§ 81.1411 *Final determination of fair and just compensation.* (a) Within ninety (90) days after the taking of the property, the requisition officer will either affirm the preliminary determination or make a new determination of the amount constituting fair and just compensation for the requisitioned property, taking account of any new factors brought to light by any objections filed to the preliminary determination, pursuant to the provisions of § 81.1410 (b) and (d) above.

(b) The requisition officer will then execute, in triplicate, a certificate of fair and just compensation in the form prescribed by § 81.1425 below and will request the owner to accept, by signing an acceptance of award and release in the form prescribed by § 81.1426 below, the amount named in the certificate as fair and just compensation. If the owner cannot be determined with certainty, the procedure set forth in § 81.1413 will govern.

SUBSEQUENT PROCEDURE WHERE CLAIMANTS DISAGREE AS TO AMOUNT OF COMPENSATION

§ 81.1412 *Where ownership is established with certainty.* (a) After obtaining the owner's acceptance of the determination of the amount constituting fair and just compensation, the requisition officer will forward the executed acceptance of award and release of the chief of the supply service concerned for approval and simultaneously a copy will be furnished the Legal Branch, Purchases Division, Headquarters, Services of Supply.

(b) Upon approval of the executed acceptance of award and release, recommendation will be made by the chief of the supply service concerned that the Under Secretary of War make an award in the amount set forth in such acceptance. Such recommendation will be forwarded to the Legal Branch, Purchases Division, Headquarters, Service of Supply, which will prepare an award and forward it to the Under Secretary of War for action.

(c) If the Under Secretary of War signs the award, the Legal Branch will transmit the same to the chief of the supply service concerned. Notice of the signing of the Award shall be transmitted promptly to the claimants by the chief of the supply service.

(d) Upon receipt of payment the payee will be required by the disbursing officer to execute a receipt in final form and such receipt will be returned promptly to the requisition officer who will forward the same to the chief of the supply service concerned, and simultaneously will furnish a copy of such final receipt to the Legal Branch, Purchases Division, Headquarters, Services of Supply.

§ 81.1413 *Where ownership cannot be determined with certainty.* (a) Upon receipt from the chief of the supply service concerned of an approved certificate of fair and just compensation, the requisition officer will request all persons claiming to be entitled to any share in the award to execute a stipulation in the form prescribed in § 81.1427, agreeing to the amount of fair and just compensation as determined in such certificate. Such stipulation, when executed, will be forwarded by the requisition officer to the chief of the supply service concerned, and simultaneously a copy will be furnished the Legal Branch, Purchases Division, Headquarters, Services of Supply.

(b) Cases in which the owner of the property cannot be determined with certainty will be referred to the War Department Board of Contract Appeals in the Office of the Under Secretary of War which shall make a determination of ownership; if possible, obtaining from the owner the prescribed acceptance of award and release. In those cases where the Board finds it imposisble to determine the ownership, the Board will advise the chief of the supply service as to what disposition may be made of the claim.

SUBSEQUENT PROCEDURE WHERE CLAIMANTS AGREE AS TO AMOUNT OF COMPENSATION

§ 81.1414 *Where ownership is established with certainty.* (a) If the owner refuses to execute an acceptance of award and release, the requisition officer will furnish to the chief of the supply service concerned a copy of the certificate of fair and just compensation, and, in addition thereto, a report concerning value, condition and use of requisitioned property in the form prescribed by § 81.1419 below.

(b) All claimants shall be entitled to a hearing before the War Department Board of Contract Appeals according to the rules of procedure prescribed by the Board. A stenographic transcript of the proceedings before the board and copies of all written evidence submitted will be preserved.

(c) After hearing and the presentation of all claims, the War Department Board of Contract Appeals will make a determination of fair and just compensation for the requisitioned property and will request the Under Secretary of War to make an award in the amount determined.

(d) Upon signature of the award by the Under Secretary of War, proceedings will be had in accordance with § 81.1412 (c) and (d) above.

§ 81.1415 *Refusal of award.* In the event that the award of compensation fixed by the Under Secretary of War is refused by the owner of the property requisitioned, the chief of the supply service will direct payment to such owner of fifty per cent (50%) of the amount of the award, as provided in the Act of October 10, 1940 (54 Stat. 1090), as amended, and the Act of October 16, 1941 (55 Stat. 742), as amended.

§ 81.1416 *Where ownership cannot be determined with certainty.* Where the ownership of the requisitioned property cannot be determined with certainty and any person claiming an interest therein declines to execute a stipulation as provided in § 81.1413 (a) above, such case shall be referred to the War Department Board of Contract Appeals, which shall determine fair and just compensation in the manner provided for by § 81.1414 (b) and (c) above, and shall thereupon proceed in accordance with § 81.1413 (b) above.

Chapter III—Proclaimed List of Certain Blocked Nationals

SUPPLEMENT I TO REVISION IV

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), the following Supplement 1 containing certain additions to, amendments to, and deletions from The Proclaimed List of Certain Blocked Nationals, Revision IV of November 12, 1942 (7 F.R. 9510), is hereby promulgated.

By direction of the President:

CORDELL HULL,
Secretary of State.
RANDOLPH PAUL,
Acting Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director,
Board of Economic Warfare.
NELSON A. ROCKEFELLER,
Coordinator of Inter-American Affairs.

NOVEMBER 20, 1942.

GENERAL NOTES

(REVISED AS OF CUMULATIVE SUPPLEMENT NO. 1 TO REVISION IV)

(1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and surname, the title is listed under the *surname*.

Personal-name prefixes such as *de, la, von*, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.
Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(3) Addresses appearing after names on the List are not intended to exclude other addresses of the same firms or individuals. A listed name refers to all branches of the business in the country.

(4) Revision IV of the Proclaimed List, of which this is a supplement, supersedes all previous lists published prior to November 12, 1942. The present series of supplements is cumulative, and each succeeding supplement supersedes all previous supplements to the List. Accordingly, the current Cumulative Supplement and Revision IV together constitute the effective List.

(5) For the convenience of users, symbols are placed after each name on the List to indicate, by reference to the table below, the dates of the supplements or revisions in which the name first appeared, or was amended or deleted. It has not been found practicable, however, to indicate here the dates of listings made between July 17, 1941, the date of the original list, and Revision I, dated February 7, 1942. Accordingly, names appearing prior to Revision I and retained in that revision are followed only by the symbol "I". Roman numerals refer to revisions, arabic numerals to supplements. For example, a name followed by the symbols III-1, III, IV-1 signifies that the listing first appeared in Revision II, Supplement 1; was *amended* in Revision III; and was *amended or deleted* in Revision IV, Supplement 1. Since in the Cumulative Supplements deletions as well as amendments are carried in each succeeding supplement, the last of two or more symbols may reflect either an amendment or a deletion, depending on the action heading under which the listing currently appears.

TITLE 24—HOUSING CREDIT

Chapter IV—Home Owner's Loan Corporation

[Bulletin No. 131]

PART 403—PROPERTY MANAGEMENT DIVISION BULLETIN

DISPOSITION OF DEPOSIT

Section 403.10–15 is amended to read as follows:

§ 403.10–15 *Disposition of deposit.* Deposits of prospective purchasers received by the Property Management Division shall be properly identified and promptly turned over for safekeeping to the Regional Treasurer who shall receipt for same. Upon advice from the Regional Manager that the agreement for sale has been executed on behalf of the Corporation, the Regional Treasurer shall promptly deposit such item; upon advice from the Regional Manager that the agreement for sale has been rejected by the Corporation, the Regional Treasurer shall promptly transmit such safekeeping item to the Property Management Division which shall thereupon promptly return such deposit to the party entitled thereto, either directly or through the contract sales broker, and advise the broker and all other interested parties of such rejection.

(Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k); E.O. 9070, 7 F.R. 1529)

Effective November 1, 1942.

PART 407—TREASURY DIVISION

RECEIPTS, ETC.

Sections 407.21–6 and 407.21–15 of the Code of Federal Regulations are revoked.

The second paragraph of § 407.33–40 is amended to read as follows:

§ 407.33–40 *Receipts.* When authorized by the Regional Manager to complete a transaction involving the sale of non-expendable or expendable property (including waste paper), the collector shall issue Form 107 in exchange for the moneys received. The receipt must show the name and address of the purchaser, the sale number and a notation as to the type of material sold. The original shall be given to the purchaser and the accounting copy must accompany the payment to the collection office, where Form 18–B–1 shall be prepared in quintuplicate and the original and two copies thereof included in the transmittal to the Regional Treasurer, and one copy to the accountable Regional Manager.

The first and third paragraphs of § 407.52 are amended, respectively, to read as follows:

§ 407.52 *Requests to review abstracts and other documents.* Where a mortgagor or the owner of the property on which the Corporation has a loan desires to examine the abstract of title to his property or any other document in the file which he may be entitled to examine, he shall make his request to the Regional Treasurer who shall permit the borrower or owner or his duly authorized agent to examine such abstract or other document in the regional office.

Where the Regional Counsel determines that it is necessary or desirable in connection with a contract of sale of the Corporation's property to deliver for examination or continuation any abstract, title policy or other evidence of title, survey, plat or other documents in the file to the contract purchaser or his attorney, title company or abstract company, he shall obtain such documents from the Regional Treasurer, and may deliver the same or forward by mail or express to the contract purchaser or his attorney, title company or abstract company. Said transmittal may be through a fee attorney, title or abstract company representing the Corporation. Such documents may likewise be forwarded by the Regional Counsel to a fee attorney, title or abstract company representing or acting for the Corporation for the purpose of examination, continuation or any other purpose in connection with a sale of property. The expenses of any such transmittal and return expenses may be paid by the Corporation as a Corporation expense. Receipts containing an agreement to return as and when required shall be taken.

(Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k); E.O. 9070, 7 F.R. 1529)

Effective November 2, 1942.

Part 410—Purchase and Supply Section Bulletin

EMERGENCY PURCHASES, ETC.

Section 410.03 is amended to read as follows:

§ 410.03 *Emergency purchases.* Purchase of supplies and equipment not exceeding $25.00 in any one instance may be made by Regional Managers, under limitations and procedure prescribed by the General Manager with the approval of the General Counsel, or as may be hereafter prescribed under the regulations of the Corporation.

The first paragraph of § 410.03–1 is amended to read as follows:

§ 410.03–1 *Purchases by Regional and State Managers.* Regional Managers may purchase supplies in amounts not to exceed $25.00 in any one instance without prior approval from the Home Office Purchase and Supply Section: *Provided, however,* That such authority shall not extend to typewriter repair charges exceeding $10.00 or to the purchase of nonexpendable equipment. Prior authority must be obtained from the Home Office where the amount involved will exceed $25.00.

The first paragraph of § 410.06–1 is amended to read as follows:

§ 410.06–1 *Sales of non-expendable and expendable property.* Except as otherwise provided, no sales of non-expendable property, and no sales or other disposition of expendable property (including waste paper) may be made by any officer or employee without obtaining the prior written approval of the General Manager, and requests for authority to sell non-expendable property or to sell or otherwise dispose of expendable property (including waste paper) shall be submitted to the Purchase and Supply Section in the home office on Form 741, on which the accountable Regional Manager shall indicate the justification for sale or other disposition.

The third paragraph of § 410.06–2 is amended to read as follows:

§ 410.06–2 *Remittance by purchaser.*

* * *

Where a sale of such property located at a field station is authorized and approved, the purchaser shall make payment therefor to the collection office if such an office is maintained at that place; if there is no such collection office, the purchaser shall make payment to any loan service representative, property management representative, field supervisor or other employee of the Loan Service or Property Management Division who has been specially authorized to make collections from borrowers or from tenants or purchasers of real property and who is designated by the accountable office manager to receive the purchaser's payment in a particular case; and such persons may execute receipts therefor on the appropriate form to the purchaser. Such payments made to a collection office or to such other authorized person shall be handled, accounted for and reported to and by the Regional Treasurer as provided in Part 407 of this Chapter and Chapter VII of the Consolidated Manual.

The second paragraph of § 410.07b is amended to read as follows:

§ 410.07b *Authorization to incur expense.* * * *

The authority herein conferred upon the Director of the Purchase and Supply Section to certify as to receipt of and administratively approve vouchers for purchases and services may be exercised also by the Regional Managers, under procedure and limitations prescribed by the General Manager and the General Counsel, or as may be hereafter prescribed under the regulations of the Corporation.

The third, fourth, and sixth paragraphs of § 410.07–1 are amended, respectively, to read as follows:

§ 410.07–1 *Authorization to pay expense.* * * *

Payment for the purchase of such supplies, equipment and services as well as for such recurring services, shall be made on a properly prepared voucher certified as to delivery and administratively approved by the Director of the Purchase and Supply Section, when for the home office and by the Regional Manager, when for field offices, for purchases previously authorized as provided in § 410.07, and when duly certified for payment by the Auditor.

Payment for the purchase of law books, law periodicals, law publications and like material for law libraries, as provided in § 406.17 of Part 406, for the home office, shall be made on properly prepared vouchers certified as to delivery and administratively approved by the General Counsel, and when duly certified for payment by the Auditor. For field offices, such vouchers shall be signed by the Regional Counsel, as receiving officer, and forwarded to the General Counsel in the home office for approval.

Where it is to the definite advantage of the Corporation, a 10 percent over or under delivery, in quantity only, may be accepted at the discretion of the Director of the Purchase and Supply Section, when for the home office and by the Regional Manager, when for field offices, on deliveries of supplies and forms only. Properly approved vouchers, including this variation in quantity, shall be paid when certified for payment by the Auditor.

(Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k); E.O. 9070, 7 F.R. 1529)

Effective November 2, 1942.

[Bulletin No. 133]

Part 413—Rental and Contracts

FUNCTIONS, APPROVAL OF LEASE, ETC.

Section 413.00 is amended to read as follows:

§ 413.00 *Functions.* The Treasurer of the Corporation is responsible for the safekeeping of all leases and contracts made in behalf of the Corporation for office space and electric and telephone service used in connection with office space of the Corporation, while same are in his custody; and the Rental and Contracts Section, under his control and direction, shall maintain necessary records in connection therewith. The Treasurer is authorized to transmit to the General Accounting Office any and all papers and documents requested by that office pursuant to law.

All leases or contracts for the rental of office space shall be approved by the General Manager with the advice of the General Counsel.

Prior to the execution of any contract for electric service, except where payment for such service in accordance with the lease is included in the monthly rental or is to be made to the lessor based on meter readings (at approved rates of the Public Utilities Commission of the State), the approval of the General Manager, with the advice of the General Counsel, is required.

Contracts for telephone service may be executed by the General Manager with the advice of the General Counsel; such contracts for service for regional offices and field stations may be executed by the Regional Manager with the advice of the Regional Counsel.

Section 413.00–2 is amended to read as follows:

§ 413.00–2 *Approval of lease.* Managers in field offices shall make all reasonable effort to obtain space in a Federal, State, municipal or other public building, free of charge. When free space is not obtainable, requests for authority to lease office space shall be forwarded to the Treasurer in the home office who, after obtaining approval of the General Counsel as to the form of lease, shall submit the request and lease to the General Manager for approval. When necessary approvals have been obtained, the Treasurer will notify the Manager who requested authority to lease office space, and upon receipt of such notification the Manager is authorized to execute the lease on behalf of the Corporation.

Section 413.00–3 is amended to read as follows:

§ 413.00–3 *Payment of rent.* The standard Corporation form of lease provides that payment for rent shall be made at the end of each monthly period. Vouchers for the payment of rent shall be prepared monthly on Standard Government Form 1034, approved by the Regional Manager having jurisdiction and forwarded to the Auditor. Upon administrative certification of the vouchers by the Auditor, payment will be made direct to the payees by the Treasurer of the Corporation.

Section 413.00–5 is amended to read as follows:

§ 413.00–5 *Telephone service.* Contracts for monthly telephone service in the regional offices and field stations shall be prepared in quadruplicate on HOLC Form 706 (Standard Government Form 40, Revised), in accordance with instructions for the use of that form. Such contracts when executed shall be forwarded to the Treasurer in the home office.

The Regional Manager is authorized to approve vouchers covering telephone services rendered the offices within his jurisdiction under properly approved contract.

Section 413.00–6 is amended to read as follows:

§ 413.00–6 *Contracts for electric service.* In those cases where the lease of office space does not provide for the payment of electric service to the lessor, either in the form of rental, or on the basis of meter readings as stipulated in the rental agreement, and it is necessary to contract for such service with a person or company other than the lessor, the request to execute such contract shall be forwarded to the Treasurer in the home office. The contract for electric service shall not be executed by the Regional Manager until receipt of notice from the Treasurer that the General Manager has approved the request.

Contracts for electric service shall be prepared in quadruplicate on U. S. Standard Government Form 33, Revised, and forwarded to the Treasurer in the home office.

The Regional Managers are authorized to approve vouchers covering electric service rendered the offices within their respective jurisdictions under properly approved contracts.

Section 413.03 is amended to read as follows:

§ 413.03 *Cancelation of rental agreements.* When the rented office space for a regional office, field station or collection office is released in whole or in part, written notice on forms provided therefor as required under the terms of the lease shall be given by the official directly supervising such office or station to the lessor or his agent, identifying the space to be released and designating the effective date for the operation of the release. The Treasurer shall submit a statement of the space to be released and the space to be retained and the cost thereof to the General Manager, who is authorized to approve the same.

Section 413.03–1 is amended to read as follows:

§ 413.03–1 *Notice of cancelation.* Three copies of the notice of the cancelation, Form 74–A, of lease or rental contracts, whether in whole or in part, showing the acceptance in writing by the lessor shall be forwarded through the Regional Manager to the Treasurer in the home office.

Section 413.03–2 is amended to read as follows:

§ 413.03–2 *Forms used.* On the effective date for the release of space, in whole or in part, the manager of the office concerned shall cause to be executed by the lessor Form 147, 147–A, 147–B or 147–C for space to be released in whole or in part, and forward the original and two copies thereof to the Treasurer in the home office.

(Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k); E.O. 9070, 7 F.R. 1529)

Effective November 1, 1942.

[SEAL] J. Francis Moore,
Secretary.

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs

Subchapter V—Trading With Indians

Part 277—Traders on Navajo, Zuni, and Hopi Reservations[1]

RECORDS, REPORTS, ETC.

Sections 277.7, 277.16, 277.21 are amended to read as follows:

---

[1] 3 F.R. 1690.

§ 277.7 *Records, reports and obligations of traders.* Each trader shall keep in a form approved by the Commissioner of Indian Affairs accurate records of his business activities and render annually not later than March 1 a report to the superintendent showing capital investment, increases and withdrawals, whether in the form of cash, merchandise, or other property; the value of buildings and improvements, furnishings and fixtures, miscellaneous assets such as automobiles, trucks, or other property essential to the business; a complete record of all liabilities, including accounts, bills and notes payable, and the amount of cash received and disbursed, balances, whether on hand, on deposit, or due the store; the accounts, and notes receivable, and the pawns or pledges taken. The names and respective interests of all persons participating in the business shall be furnished.

The price of all articles of merchandise placed on sale shall be plainly and visibly marked by the trader. (Sec. 5, 19 Stat. 200, 31 Stat. 1066; Sec. 10, 32 Stat. 1009; 25 U.S.C. 261, 262)

§ 277.16 *Security.* Traders may accept pawns or pledges of personal property for security of accounts due to them by Indians. Traders shall be liable for the market value of all pawns or pledges held by them. The market value shall be settled by agreement between the Indian and the trader at the time of the transaction. In all cases where pawns or pledges are accepted by the trader a written receipt shall be given the Indian showing (a) the date of the transaction, (b) the nature of the pawn or pledge, (c) the amount loaned thereon, and (d) its market value as agreed upon between the Indian and the trader. A pawn or pledge not redeemed within 11 months shall be displayed in a conspicuous place in the trader's store for a period of 30 days together with a notice stating that unless the amount due, which shall be specified, is paid before the expiration of the 30 days, such pawn or pledge will be forfeited. At the expiration of 12 months from the date of the original loan, a pawn or pledge not redeemed shall become the property of the trader, in which event the amount due shall be cancelled on the trader's books. Notice of such cancellation shall be given in writing to the interested Indian.

On the Navajo Reservation the period for the redemption of a pawn or pledge shall be 6 months unless at least 30 days prior to the expiration of such period not less than 25% of the amount due has been paid, in which case the redemption period shall be 8 months; an additional period of two months shall be added to the redemption period for every additional 25% of the amount due that may be paid. The provisions of the first paragraph of this section with respect to display, forfeiture, and payment within any 30 days period of grace, shall be applicable also to pawns or pledges taken on the Navajo Reservation. (Sec. 5, 19 Stat 200, 31 Stat. 1066; Sec. 10, 32 Stat. 1009; 25 U.S.C. 261, 262)

§ 277.21 *License fee.* Every licensed trader shall pay in advance a license fee of $25.00 a year for the privilege of trading with the Indians. The fee when received shall be deposited to the credit of the account "Indian Moneys, Proceeds of Labor, Navajo Agency (or Hopi or United Pueblos Agency)" and placed at the disposal of the superintendent to be expended by him in the enforcement of the regulations in this part.

On the Navajo Reservation, this license fee shall be paid on the basis of a calendar year regardless of any change in management or ownership of the business covered by the license unless the license be cancelled for cause. When a license is issued following the cancellation of a license for cause or when a new business is established after the beginning of a calendar year, the license fee shall be determined on a quarterly basis, but the quarterly fee of $6.25 shall be charged also for a fraction of any quarter of a year. A transfer fee of $5.00 shall be collected whenever a still unexpired license is transferred or assigned during a calendar year to a new owner or manager of a trader's business.

Deposits made by a temporary licensee under this part as provided by § 277.12 shall be refunded in the event a license is not issued unless the temporary licensee conducts a trading business during the period of temporary operation in which event the temporary licensee shall be charged a fee on the quarterly basis for the period during which the business was conducted and the balance of the deposit shall be refunded. (Sec. 5, 19 Stat. 200, 31 Stat. 1066; Sec. 10, 32 Stat. 1009; 25 U.S.C. 261, 262)

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amendment 94, 2d Ed.]

PART 614—GROUPING AND SERIAL NUMBERING REGISTRATION CARDS

MISCELLANEOUS AMENDMENTS[1]

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend paragraph (b) of § 614.6 to read as follows:

§ 614.6 *Registrants residing within the local board area; grouping of Registration Cards.* * * *

(b) The local board shall place in Group 1 the Registration Card (Form 1) of each registrant whose date of birth as given on line 5 of such card shows that he is within the age group required to be registered by the first proclamation of the President. Each succeeding proclamation added a new age group. The local board shall place in Group 2 the Registration Card (Form 1) of each registrant in the new age group added by the second proclamation of the President, shall place in Group 3 the Registration Card (Form 1) of each registrant in the new age group added by the third proclamation of the President, shall place in Group 4 the Registration Card (Form 1) of each registrant in the new age group added by the fourth proclamation of the President, shall place in Group 5 the Registration Card (Form 1) of each registrant in the new age group added by the fifth proclamation of the President, and shall place in Group 6 the Registration Card (Form 1) of each registrant in the new age group added by the sixth proclamation of the President. After carefully checking the date of birth of the registrant as set out in answer to question 5 on the face of the Registration Card (Form 1), the local board shall place each card in the group in which it belongs. The following table will assist the local board to determine the group in which each Registration Card (Form 1) should be placed:

TABLE OF AGE GROUPS

Group 1. Registrants born on or after October 17, 1904, and born on or before October 16, 1919.

Group 2. Registrants born on or after October 17, 1919, and born on or before July 1, 1920.

Group 3. Registrants born on or after July 2, 1920, and born on or before December 31, 1921; and registrants born on or after February 17, 1897, and born on or before October 16, 1904.

Group 4. Registrants born on or after April 28, 1877, and born on or before February 16, 1897.

Group 5. Registrants born on or after January 1, 1922, and born on or before June 30, 1924.

Group 6. Registrants born on or after July 1, 1924, and born on or before December 31, 1924; and those reaching the eighteenth anniversary of the day of their birth on or after January 1, 1943.

These regulations will hereinafter refer to Registration Cards (Form 1) or registrants as being in "Group 1," "Group 2," "Group 3," "Group 4," "Group 5," or "Group 6." Whenever such reference is made, it is intended that the determination of the group in which a particular Registration Card (Form 1) or registrant belongs will be made by using the foregoing table.

2. Amend § 614.21 to read as follows:

§ 614.21 *Chairman to call meeting.* The chairman of the local board shall convene a meeting of his local board some time during the week of January 4, 1943. At this meeting, the local board shall complete the steps set forth in §§ 614.22 to 614.27, inclusive.

3. Amend the regulations by adding a new section to be known as § 614.24-3 to read as follows:

§ 614.24-3 *Disposition of Registration Cards in Group 5.* (a) A strip shall be cut from an unused gray-colored Registration Card (Form 1) and pasted across the top of the face of each Registration Card (Form 1) in Group 5.

(b) The Registration Cards (Form 1) in Group 5 shall then be given late-registrant serial numbers in the manner provided in Part 616.

4. Amend § 614.25 to read as follows:

§ 614.25 *Serial numbering Registration Cards in Group 6.* (a) The local board shall arrange the Registration Cards (Form 1) of registrants in Group 6 in a pile according to their respective dates of birth so that the cards of registrants born on July 1, 1924, will be on the top, the cards of registrants born on July 2, 1924, will follow the cards of those born on July 1, 1924, the cards of registrants born on July 3, 1924, will follow the cards of those born on July 2, 1924, and so on to the bottom of the pile where the cards of those born on December 31, 1924, will be located. Thereafter the cards of registrants born on or after January 1, 1925, will be placed on the bottom of the pile, chronologically, according to their birth dates. When the local board has cards for two or more registrants born on the same date, such cards shall be arranged in alphabetical order.

(b) If a Registration Card (Form 1) of a registrant in Group 6 is received from another local board before the commencement of serial numbering of registration Cards (Form 1) in Group 6 and the other local board has erroneously entered a serial number thereon, such serial number shall be crossed out and the card shall be arranged in the pile of Registration Cards (Form 1) of registrants in Group 6 in the manner provided in paragraph (a) of this section and shall be given a new serial number in the manner provided in paragraph (c) of this section.

(c) The local board shall then place on each Registration Card (Form 1) in Group 6 a serial number. Each serial number in Group 6 shall be preceded by the letter "W." The top card in the pile shall be numbered "W-1," the card next to the top shall be numbered "W-2," and so on until all cards are numbered consecutively. No serial number should be skipped or used more than once. It is of vital importance that great care be used in arranging the cards according to the birth dates of the registrants (and alphabetically as to the registrants born on the same date). If any card, not in its proper place, is given an erroneous serial number, such serial number shall be canceled and the card shall be treated as if it were the card of a late registrant and shall be given a serial number in the manner provided in Part 616. No card received after the serial numbering is commenced shall be included, but such card shall be treated as the card of a late registrant and shall be serial numbered in the manner provided in Part 616.

5. Amend § 614.26 to read as follows:

§ 614.26 *Preparing lists of registrants in Group 6.* When the serial numbering of Registration Cards (Form 1) in Group 6 for registrants who became 18 years of age on or before December 31, 1942, has been completed and carefully checked, the local board shall make up at least four copies of List of Registrants (Form 3B) for such group which shall be disposed of in the manner provided in § 615.41. Registrants will be listed in the order of their serial numbers with the name of the registrant having "W-1" at the top of the list. As each page of the List of Registrants (Form 3B) is completed, a check should be made of the column containing the dates of birth of the registrants to be sure that all registrants listed on the page have received their serial numbers in the proper order. All serial numbers from "W-1" to the largest "W" serial number used shall be listed. At the time serial numbers are being placed on the List of Registrants (Form 3B), order numbers may also be entered thereon in the manner provided in paragraph (b) of § 615.41.

6. Amend § 614.27 to read as follows:

§ 614.27 *Report of serial numbering.* (a) As soon as possible after completing serial numbering of Registration Cards (Form 1), the local board shall make the following report to the State Director of Selective Service:

> Registration Cards (Form 1) for the sixth registration serial numbered. Largest serial number assigned to registrant born on or after July 1, 1924, and on or before December 31, 1924, is W______.

(b) As soon as possible, the State Director of Selective Service shall advise the Director of Selective Service the total number of registrants in his State born on or after July 1, 1924, and on or before December 31, 1924, who were assigned "W" serial numbers in the sixth registration.

7. Amend § 614.41 to read as follows:

§ 614.41 *Putting serial numbers on Registration Cards.* The serial numbers shall be placed on the Registration Cards (Form 1) in black ink, either in pen and ink or by rubber stamp. Each Registration Card (Form 1) shall have one, and only one, whole serial number, such as "W-267." Each serial number shall be used only once. If either the serial number or the Registration Card (Form 1) bearing the serial number is canceled for any reason, the serial number shall not be used again.

8. Amend paragraph (b) of § 614.44 to read as follows:

§ 614.44 *Registration cards with two serial numbers.* * * *

(b) When a Registration Card (Form 1) of a registrant in Group 5 or Group 6 has been erroneously given two serial numbers and either of the serial numbers is the correct serial number for such registrant, the other serial number shall be canceled by drawing a line through it. If neither of the serial numbers is the correct serial number for such registrant, both serial numbers shall be canceled by drawing lines through them, the card shall then be treated as if it were the card of a late registrant, and a serial number shall be assigned to it in the manner provided in Part 616.

9. Amend paragraph (b) of § 614.45 to read as follows:

§ 614.45 *Registration Cards of two registrants with same serial number.* * * *

(b) If the Registration Card (Form 1) of two different registrants in Group 5 or Group 6 have the same serial number, the correct serial number of each registrant shall be ascertained. If either of the cards has the correct serial number, such card shall retain such serial number. The number on the other card shall be canceled and the card treated as if it were that of a late registrant and a serial number assigned to it in the manner provided in Part 616. If neither of the cards has the correct serial number, the numbers on each card shall be canceled and each card shall be treated as if it were that of a late registrant and a serial number assigned to it in the manner provided in Part 616.

10. Amend paragraph (b) of § 614.46 to read as follows:

§ 614.46 *Serial numbering when local board has two Registration Cards for the same registrant.* * * *

(b) When a local board has two cards in the same group for the same registrant:

(1) If the registrant belongs to Group 4, Group 5, or Group 6, the local board shall select one card and cancel the other card by marking it "Canceled—Duplicate."

(2) If the registrant belongs to Group 1, Group 2, or Group 3, the local board shall treat the cards just as if they were the cards of two different registrants so far as serial numbering is concerned. The card having the serial number which comes first in the applicable national master list shall be given its proper order number and the other card shall be marked "Canceled—Duplicate."

11. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

[Amendment 95, 2d Ed.]

PART 615—ASSIGNMENT OF ORDER NUMBERS

MISCELLANEOUS AMENDMENTS[1]

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U. S. C., Sup. 301-318, inclusive; E. O. 8545, 5 F. R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 615.35 to read as follows:

§ 615.35 *Procedure.* The regulations which governed the assignment of order numbers to registrants properly registered on gray-colored Registration Cards (Form 1), i. e., registrants in Group 5: *Provided,* That when the assignment of serial numbers has been completed and carefully checked, registrants in Group 5 shall be assigned order numbers in the following manner:

---

[1] See issues of January 20 and June 20, 1942.

[1] See issues of April 8 and June 20, 1942.

The registrant in Group 5 having the Registration Card (Form 1) bearing serial number "N–1" shall be given the order number immediately following the highest order number assigned by the local board to a registrant in Group 3. Consecutive order numbers shall then be assigned to the remaining registrants in Group 5. Example: Assume that in a local board the highest order number which has been assigned to a registrant in Group 3 is 11,123, then the registrant with serial number "N–1" in Group 5 shall receive Order Number 11,124, the registrant in Group 5 with serial number "N–2" shall receive Order Number 11,125, the registrant in Group 5 with serial number "N–3" shall receive Order Number 11,126, and so on until all of the registrants in Group 5 have received an order number.

2. Amend the regulations by adding a new section to be known as § 615.36 to read as follows:

§ 615.36 *Procedure.* When the assignment of serial numbers has been completed and carefully checked, registrants in Group 6 shall be assigned order numbers in the following manner:

The registrant in Group 6 having the Registration Card (Form 1) bearing serial number "W–1" shall be given the order number immediately following the highest order number assigned by the local board to a registrant in Group 5. Consecutive order numbers shall then be assigned to the remaining registrants in Group 6. Example: Assume that in a local board the highest order number which has been assigned to a registrant in Group 5 is 12,111, then the registrant with serial number "W–1" in Group 6 shall receive Order Number 12,112. the registrant in Group 6 with serial number "W–2" shall receive Order Number 12,113, the registrant in Group 6 with serial number "W–3" shall receive Order Number 12,114 and so on until all of the registrants in Group 6 have received an order number.

3. Amend § 615.41 to read as follows:

§ 615.41 *Preparation, posting, and distribution of List of Registrants.* (a) During or immediately after completing the order numbering of Registration Cards (Form 1) in Group 6 for registrants who became 18 years of age on or before December 31, 1942, the order numbers shall be entered upon the List of Registrants (Form 3B). (*See* § 614.26.)

(b) As soon as all registrants in Group 6 who became 18 years of age on or before December 31, 1942, have been placed upon the List of Registrants (Form 3B) and their serial and order numbers have been entered in the proper columns, one copy shall be posted in a public place in the office of the local board; one copy shall be maintained at all times in the files of the local board; and two copies shall be forwarded to the State Director of Selective Service, one to be filed in his records and one to be forwarded to the Director of Selective Service, at the Gimbel Building, Philadelphia, Pennsylvania. The local board should also furnish as many copies as possible of the List of Registrants (Form 3B) to the press, radio, and other mediums of publication.

(c) After the List of Registrants (Form 3B) has been prepared for the registrants in Group 6, as set forth in paragraph (a) of this section, a List of Registrants (Form 3B) shall be prepared once each month on the last day thereof. All registrants who have registered during the month, regardless of the group to which they belong, shall be listed on such monthly list of registrants and they shall be distributed as provided in § 616.41.

4. Amend § 615.42 to read as follows:

§ 615.42 *Placing registrants' names and order numbers in Classification Record.* (a) The Classification Record (Form 100) was started at the time order numbers were assigned to registrants in Group 1 following the first national lottery. The names and order numbers of registrants in Group 1 commenced on page 1 of the Classification Record (Form 100). When order numbers were assigned to registrants in Group 2 immediately following the second national lottery, the names and order numbers of such registrants were placed in the Classification Record (Form 100) commencing on a new page numbered 2.001. This was done in order to keep the list of registrants in Group 2 separated from the list of registrants in Group 1 in the Classification Record (Form 100). In a similar manner, when the registrants in Group 3 were listed in the Classification Record (Form 100) numerically, according to their order numbers, with Order Number 10,001 at the top, such list was commenced upon a new page numbered 3,001. Registrants in Group 4 were not listed in the Classification Record (Form 100). The names and order numbers of registrants in Group 5 were listed in the Classification Record (Form 100) numerically, according to their order numbers, immediately following the name and order number of the registrant in Group 3 to whom the local board had assigned the highest order number in Group 3.

(b) The names and order numbers of registrants in Group 6 shall be listed in the Classification Record (Form 100) numerically, according to their order numbers, immediately following the name and order number of the registrant in Group 5 to whom the local board has assigned the highest order number in Group 5. In the example given in § 615.36, the registrant in Group 5 to whom the local board assigned the highest order number in Group 5 was 12,111 and the name and order number would appear in the Classification Record (Form 100) as the last registrant of Group 5. The registrant in Group 6 who had serial number "W–1" would be given Order Number 12,112, and his name and order number would be entered in the Classification Record (Form 100) on the line immediately following the name of the registrant in Group 5 having Order Number 12,111.

5. Amend § 615.43 to read as follows:

§ 615.43 *Preparation of cover sheets and filing folders.* (a) After each registrant in Group 1, Group 2, Group 3, Group 5, or Group 6 is listed in the Classification Record (Form 100), the local board shall open an individual file for him by preparing a Cover Sheet (Form 53). These Cover Sheets (Form 53) shall be maintained in a file in the local board. Every paper pertaining to the registrant except his Registration Card (Form 1) shall be filed in his Cover Sheet (Form 53).

(b) The local board shall also open an individual file for each registrant in Group 4 by preparing a Filing Folder (Form 54). No Cover Sheet (Form 53) shall be made for registrants in Group 4. Filing Folders (Form 54) for registrants in Group 4 shall be maintained in a file separate and apart from the file of Cover Sheets (Form 53) of the registrants in Group 1, Group 2, Group 3, Group 5, and Group 6. Every paper pertaining to the registrant in Group 4 except his Registration Card (Form 1) shall be filed in his Filing Folder (Form 54).

6. Amend § 615.44 to read as follows:

§ 615.44 *Registration Cards to be filed alphabetically.* (a) After entering the name and order number of a registrant in Group 1, Group 2, Group 3, Group 5, or Group 6 in the Classification Record (Form 100), the local board shall file his Registration Card (Form 1) in an alphabetical file of Registration Cards (Form 1) of such registrants.

(b) The local board shall file the Registration Card (Form 1) of each registrant in Group 4 in an alphabetical file of Registration Cards (Form 1) of such registrants which shall be maintained separate and distinct from the alphabetical file of Registration Cards (Form 1) for registrants in Group 1, Group 2, Group 3, Group 5, and Group 6.

7. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Director.

PART 616—LATE REGISTRATION

MISCELLANEOUS AMENDMENTS[1]

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. No. 8545, 5 F.R. 3779. Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by adding a new section to be known as § 616.7 to read as follows:

§ 616.7 *Registration of late registrants in Group 6.* Any person in the age group required to be registered for the first time from December 11 to December 31, 1942, inclusive, the days fixed by the President for the sixth registration (registrants in Group 6), who has not heretofore registered, may present himself for and submit to registration before any local board. Each such person shall be registered on a revised gray-colored Registration Card (Form 1) and shall be issued a Registration Certificate (Form 2).

2. Amend the regulations by adding a new section to be known as § 616.25 to read as follows:

§ 616.25 *Serial numbering; late registrants in Group 6.* When the local board is satisfied that it has jurisdiction over a late registrant in Group 6, a serial number shall be placed on his Registration Card (Form 1) in the following manner: The local board shall determine the serial number which would have been placed upon his Registration Card (Form 1) had it been received by the local board prior to the commencement of serial numbering of Registration Cards (Form 1) of registrants in Group 6. This shall be done by referring to the date of birth on his Registration Card (Form 1) and to the List of Registrants (Form 3B) for registrants in Group 6, ascertaining therefrom the place his card would have been located had his card been received by the local board before it started to assign serial numbers to registrants in Group 6. The local board shall then place on his Registration Card (Form 1) the serial number preceding the one which he would have had and shall add a letter after such number. For example: If he would have received "W–217" as his serial number had his card been received by the local board before the commencement of serial numbering of Registration Cards (Form 1) of registrants in Group 6, he will be given serial number "W–216A."

3. Amend the regulations by adding a new section to be known as § 616.36 to read as follows:

§ 616.36 *Assigning order numbers to Group 6 registrants whose Registration Cards are received late.* When a late Registration Card (Form 1) in Group 6 has been given a serial number under the provisions of this part, the local board shall refer to the List of Registrants (Form 3B) for registrants in Group 6 to determine the order number the registrant would have been given had his Registration Card (Form 1) been received by the local board prior to the time it commenced to serial number Registration Cards (Form 1) of registrants in Group 6 and shall assign to the registrant the order number preceding the one he would have been assigned with a letter added to it. For example: If the registrant would have received "W–217" as his serial number had his card been received before the commencement of serial numbering of Registration Cards (Form 1) of registrants in Group 6, he would, under the provisions of section 616.25 be given serial number "W–216A." Therefore, if the registrant with serial number "W–217" (the serial number which the late registrant would have been given had his card been received on time) was given order number "15,254," the late registrant would be given order number "15,253A."

4. Amend § 616.41 to read as follows:

§ 616.41 *Entries on and disposition of List of Registrants.* (a) When the Registration Card (Form 1) of a registrant is received late, the local board shall add the name, serial number, and (except in the case of a registrant in Group 4) the order number of such registrant to the office file copy and the publicly posted copy of the List of Registrants (Form 3B).

(b) At the end of each month when the names of the registrants who registered during that month are added to the office file copy and the publicly posted copy of the List of Registrants (Form 3B), the same information shall be placed upon two copies of a List of Registrants (Form 3B), both of which shall be forwarded to the State Director of Selective Service. The State Director of Selective Service shall file one such List of Registrants (Form 3B) and shall forward to the Director of Selective Service, Gimbel Building, Philadelphia, Pennsylvania, the other copy of such List of Registrants (Form 3B).

5. Amend § 616.42 to read as follows:

§ 616.42 *Entries in Classification Record.* The local board shall enter the name, serial number, and order number of each registrant in Group 1, Group 2, Group 3, Group 5, or Group 6 whose Registration Card (Form 1) is received late in the Classification Record (Form 100) following the names, serial numbers, and order numbers of the registrants in the age group to which such registrant belongs. To make certain that the case of such registrant is handled in its proper turn, the local board shall insert an "R," followed by the page on which his name appears in the Classification Record (Form 100), in the column of order numbers in the Classification Record (Form 100) at the place where the order number of such registrant would have appeared in the Classification Record (Form 100) had his Registration Card (Form 1) been received on time. For example: If the registrant is in Group 1, his order number is 83A, and his name appears on page 30 of the Classification Record (Form 100), print "R page 30" between Order Numbers 83 and 84.

6. Amend § 616.43 to read as follows:

§ 616.43 *Preparation of cover sheets and filing folders.* For each registrant in Group 1, Group 2, Group 3, Group 5, or Group 6 whose Registration Card (Form 1) is received late, the local board shall prepare a Cover Sheet (Form 53) and place it in the appropriate file. For each registrant in Group 4 whose Registration Card (Form 1) is received late, the local board shall prepare a Filing Folder (Form 54) and place it in the appropriate file.

7. Amend § 616.45 to read as follows:

§ 616.45 *When Selective Service Questionnaire is mailed immediately.* If Selective Service Questionnaires (Form 40) have been mailed to registrants in Group 1, Group 2, Group 3, Group 5, or Group 6 who have larger order numbers than the registrant whose Registration Card (Form 1) is received late, the local board shall immediately mail to the registrant whose Registration Card (Form 1) is received late his Selective Service Questionnaire (Form 40).

8. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

PART 621—QUESTIONNAIRE AND OTHER INFORMATION TO BE USED IN CLASSIFYING REGISTRANTS

MAILING OCCUPATIONAL QUESTIONNAIRE

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend paragraph (b) of § 621.11[1] to read as follows:

§ 621.11 *Mailing occupational questionnaire.* * * *

(b) When a Selective Service Occupational Questionnaire (Form 311) is mailed to a registrant prior to his being listed in the Classification Record (Form 100) the date of mailing shall be noted on the List or Registrants (Form 3B). After the Classification Record (Form 100) has been prepared, the date of mailing shall be noted thereon in one of the blank columns of the Classification Record C (Form 100A).

2. The foregoing amendment to the Selective Service Regulations shall be

Part 623—Classification Procedure

CLASSES NOT REQUIRING PHYSICAL EXAMINATION,[1] ETC.

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U. S. C., Sup. 301–318, inclusive; E. O. No. 8545, 5 F. R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 623.21 to read as follows:

§ 623.21 *Consideration of classes not requiring physical examination.* (a) Upon undertaking to classify any registrant, it should first be determined whether he should be classified in Class I–C. If the registrant is not classified in Class I–C, it should next be determined whether he should be classified in Class IV–A.

(b) If the registrant is not classified in Class I–C or Class IV–A under paragraph (a) of this section, the local board shall next determine whether he should be classified in Class IV–C on the ground that he is a neutral alien who has filed DSS Form 301 or on the ground that there is no possibility of him being accepted for training and service because of his nationality or ancestry. Otherwise no consideration will be given to Class IV–C at this time.

(c) If the registrant is not classified in Class I–C or Class IV–A under paragraph (a) of this section and is not classified in Class IV–C under paragraph (b) of this section, consideration shall next be given to the following classes in the order listed and the registrant shall be classified in the first class for which grounds are established:

Class IV–D
Class IV–B
Class III–C
Class III–B
Class III–A
Class II–C
Class II–B
Class II–A

(d) If the registrant is not classified in one of the classes set forth in paragraphs (a), (b), or (c) of this section, and, under the provisions of § 622.61, he is completely disqualified morally and there is no possibility that a waiver of such moral disqualification can be secured, he shall be classified in Class IV–F (moral). Otherwise no consideration will be given to Class IV–F at this time.

2. Amend paragraph (a) of § 623.31 to read as follows:

§ 623.31 *Notice to registrant to appear for physical examination.* (a) If a registrant has not been placed in one of the classes set forth in § 623.21 the local board, as soon as practicable after the determination of that fact, shall mail to him a Notice to Registrant to Appear for Physical Examination (Form 201). This notice shall fix the date, time, and place for the registrant to report for such physical examination, normally 5 days after the date of mailing of such notice.

3. Amend the regulations by adding a new section to be known as § 623.52 to read as follows:

623.52 *Procedure when moral standards for military service require waiver.* (a) If the moral standards for military service require that a registrant who has been classified in Class I–A or Class I–A–C, under the provisions of § 623.51, must secure a waiver or an order terminating or suspending civil custody before he can be inducted, the local board shall make a request for such waiver or order.

(b) If the necessary waiver or order is granted, it shall be forwarded to the induction station at the time the registrant is mailed an Order to Report for Induction (Form 150).

(c) If the necessary waiver or order is not granted, the classification of the registrant shall be reopened and he shall be classified in Class IV–F.

4. Amend the regulations by adding a new section to be known as § 623.53 to read as follows:

§ 623.53 *Procedure when moral standards for work of national importance require waiver.* (a) If a registrant who is in Class IV–E would not meet the moral standards for military service, the local board shall request the Director of Selective Service to issue a waiver of moral disqualification. If any such registrant is in civil custody, the local board will request an order terminating or suspending civil custody during the period of assignment to work of national importance under civilian direction.

(b) If the necessary waiver or order is granted, it shall be forwarded to the camp director at the time the registrant is mailed an Order to Report for Work of National Importance (Form 50).

(c) If the necessary waiver or order is not granted, the classification of the registrant shall be reopened and he shall be classified in Class IV–F.

5. Amend the regulations by adding a new section to be known as § 623.54 to read as follows:

§ 623.54 *Procedure when acceptability must be determined.* If the registrant is classified in Class I–A, Class I–A–O, or Class IV–E and is a citizen or subject of a country whose acceptability must be determined before it is forwarded for induction or assigned to work of national importance under civilian direction, the local board will follow the procedure set forth in §§ 623.71 to 623.77, inclusive.

6. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Part 628—Appeal to the President

MISCELLANEOUS AMENDMENTS [1]

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 628.1 to read as follows:

§ 628.1 *Reconsideration of board of appeal determination.* (a) When either the Director of Selective Service or the State Director of Selective Service deems it to be in the national interest or necessary to avoid an injustice, he may, at any time, request a board of appeal to reconsider any determination made by it, stating his reasons for requesting such reconsideration. Upon receiving such a request or on its own motion, a board of appeal may reconsider its determination in any case.

(b) Any time before an Order to Report for Induction (Form 150) has been mailed to a registrant, the government appeal agent, if he deems it to be in the national interest or necessary to avoid an injustice, may prepare and place in the registrant's file a recommendation that the State Director of Selective Service request the board of appeal to reconsider its decision. The registrant's file shall then be forwarded to the State Director of Selective Service. As soon as the State Director of Selective Service has acted upon the government appeal agent's request he shall advise the local board and, if he determines not to request the board of appeal to reconsider its decision, he shall return the file to the local board.

2. Amend § 628.2 to read as follows:

§ 628.2 *Appeal to the President.* (a) The Director of Selective Service, if he deems it to be in the national interest or necessary to avoid an injustice, may appeal to the President at any time from any determination of a board of appeal.

---

[1] See issues of March 17, June 2 and 11, August 19, and September 15, 1942.

[1] See issues of August 11 and September 1, 1942.

(b) When the board of appeal upon receiving a request from the State Director of Selective Service has reconsidered or declined to reconsider its determination in any case, the State Director of Selective Service, if he deems it to be in the national interest or necessary to avoid an injustice, may request the Director of Selective Service to appeal the determination of the board of appeal to the President.

(c) The registrant or any person who claims to be a dependent of the registrant, at any time within 10 days after the mailing by the local board of the Notice of Classification (Form 57) or the Notice of Continuance of Classification (Form 58), may appeal from the classification of the registrant by the board of appeal provided (1) the appeal is made upon the grounds of dependency only; (2) the registrant was classified by the board of appeal in either Class I–A, Class I–A–O, or Class IV–E; and (3) one or more members of the board of appeal dissented from such classification. The local board may permit any person who is entitled to appeal under this paragraph to do so, even though the 10-day period herein provided for appeal has elapsed, if it is satisfied that the failure of such person to appeal within the 10-day period was due to a lack of understanding of the right of appeal or to some cause beyond the control of such person. Unless the local board permits such an appeal, the right of such persons to appeal shall terminate at the end of the 10-day period herein provided.

3. Amend paragraph (c) of § 628.4 to read as follows:

§ 628.4 *Procedure on appeal to the President.* * * *

(c) When the State Director of Selective Service has complied with the provisions of paragraph (b) of this section, he shall, unless the file is returned to the local board, forward the file to the Director of Selective Service. The State Director of Selective Service, unless he himself requests the appeal, shall not place in the file any statement or expression of opinion concerning the information in the registrant's file.

4. Amend § 628.7 to read as follows:

§ 628.7 *Stay of registrant's induction.* A registrant shall not be inducted during the time when, under the provisions of this part, his file is being forwarded to or considered by the board of appeal, the State Director of Selective Service, the Director of Selective Service, or the President.

5. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Part 617—Registration Certificates

EFFECT OF FAILURE TO HAVE CERTIFICATE IN PERSONAL POSSESSION, ETC.

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 617.1 to read as follows:

§ 617.1 *Effect of failure to have registration certificate in personal possession.*[1] Every person required to present himself for and submit to registration must have a registration certificate (Form 2) in his personal possession at all times and, upon request, must exhibit it to any law-enforcement officer, any representative of the Secretary of State, any representative of the Secretary of the Treasury, any representative of the Attorney General, any official of National Headquarters for Selective Service, any official of a State Headquarters for Selective Service, any member of a local board or board of appeal, any government appeal agent, and any other official designated by the Director of Selective Service. The failure of any such person to have such registration certificate (Form 2) in his personal possession shall be prima facie evidence of his failure to register. Such person upon becoming a member of the armed forces shall surrender such registration certificate (Form 2), to his commanding officer who will dispose of it in accordance with the current orders of his service.

2. Amend § 617.2 to read as follows:

§ 617.2 *Wrongful possession of, or making, altering, forging or counterfeiting, registration certificates prohibited.*[2] It shall be a violation of these regulations for any person to have in his possession a registration certificate (Form 2) issued to some other person, or to permit a registration certificate (Form 2) issued to him to be in the possession of any other person, except as provided in the instructions upon such form; or to falsely make, alter, forge, or counterfeit, or cause or procure to be falsely made, altered, forged, or counterfeited, or to willingly aid or assist another to falsely make, alter, forge, or counterfeit, any registration certificate (Form 2); or to utter or publish as true, or cause to be uttered or published as true, or have in his possession with the intent to utter or publish as true, any such false, altered, forged, or counterfeited registration certificate (Form 2); or to exhibit or present to any person any such false, altered, forged, or counterfeited registration certificate (Form 2), knowing the same to be false, forged, altered, or counterfeited.

3. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 809—SHIPPING PRIORITY RATINGS

APPEALS FOR HIGHER RATINGS

Section 809.8 is hereby amended in its entirety and reads as follows:

§ 809.8 *Appeals for higher ratings.* (a) Exporters may appeal for a higher rating than that assigned under an individual license, or for a higher rating than those prescribed under § 809.6. (a) for articles and materials under general license, by submitting in triplicate an "Appeal for Higher Shipping Priority Rating." Such appeal shall supply the following information relative to the articles or materials to be exported:

1. Name and address of the applicant.
2. Name and address of the consignee, ultimate consignee, and purchaser.
3. Individual or general license number.
4. Portion of the shipment which is at point of exit from the United States ready to be exported.
5. Location of goods at point of exit: in railroad cars, in railroad storage, etc.
6. Portion of the shipment which remains to be forwarded to point of exit.
7. Where information is available, the stage of manufacture of such portions: completed, in process, not started.
8. Whether the material or article is manufactured to specifications not normally used in the United States.
9. Rating originally assigned to the commodity to be exported.
10. Description of the commodity as it appears on the export license. (If under general license, give brief description and the Department of Commerce Schedule B number.)
11. Specific reasons why the applicant believes that a higher rating is justified, with particular reference to proposed end-use.
12. If an application for freight space has been filed, the serial number and status of that application.
13. If an application for freight space has not been filed and the shipment is in excess of 2,240 pounds, an application for freight space with an acknowledgment card.

(b) When articles and materials are to be exported under an export program or export project license (S. P.) an exporter who desires a higher rating than that which has been assigned, may apply in writing for a reconsideration, attaching to his request the original document upon which the rating has been affixed.

(c) Only one appeal for a higher shipping priority rating for any particular shipment will be entertained, unless there has been a substantial change of facts with respect to the shipment subsequent to the date that the first appeal was filed.

(Sec. 6, 54 Stat. 714, Pub. Laws 75 and 638, 77th Cong.; Order No. 3, Delegations of Authority Nos. 25 and 26, 7 F.R. 4951)

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 903—DELEGATIONS OF AUTHORITY

[Supplementary Directive 1R]

RATIONING OF COFFEE

§ 903.23 *Supplementary Directive 1R.* (a) In order to permit the efficient rationing of coffee, the authority delegated to the Office of Price Administration in § 903.1 (Directive 1) is hereby extended to include the exercise of control over the sale, transfer, delivery or other disposition of coffee by or to any person, and over the use of coffee by any person: *Provided,* That such authority shall not include the power to:

(1) Limit or restrict the quantity or use of coffee obtainable by the Army, Navy, Marine Corps, and Coast Guard, of the United States, or by any agency of the United States to the extent to which it may acquire coffee for export to and consumption or use in any foreign country;

(2) Authorize the importation of green coffee by any person or allocate arrivals of green coffee imported by any agency of the United States Government pursuant to directive from the War Production Board.

(b) As used in this supplementary directive, the term "coffee" means green coffee and roasted coffee in any form—bean or ground, soluble, compounded, or otherwise processed or prepared.

(c) The authority of the Office of Price Administration under this supplementary directive shall include the power to regulate or prohibit the sale, transfer, delivery or other disposition of coffee to, or requisition or use of coffee by any person who has acted in violation of any rationing regulation or order prescribed by the Office of Price Administration.

(d) Notwithstanding the authority delegated hereunder, the War Production Board reserves the power to restrict, by suspension or other similar order, the amount of coffee which may be delivered or accepted by any person heretofore or hereafter found to be in violation of War Production Board Conservation Order M-135, and amendments and supplements thereto.

(e) The War Production Board reserves the right to determine, at its option, the amount of coffee available for rationing or other distribution hereunder.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-150]

COLDEN MANUFACTURING CO.

Colden Manufacturing Company, 1333 Broadway, New York, New York, is a New Jersey corporation engaged in the manufacture of spring mattresses. Limitation Order No. L-49 places certain restrictions upon the use of steel wire in the manufacture of mattresses, among other items. The company violated this order by using, during the months of July and August, 1942, 6000 pounds of steel wire in excess of the quantity which it was permitted to use during these months pursuant to the restrictions contained in the order.

These violations of Limitation Order No. L-49 have impeded and hampered the war effort of the United States by diverting steel wire to uses unauthorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered,* That:

§ 1010.150 *Suspension Order S-150.* (a) Deliveries of material to Colden Manufacturing Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to Colden Manufacturing Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Colden Manufacturing Company, its successors and assigns, shall not sell, transfer or deliver its inventory or any part of such inventory of steel wire regardless of the form or condition thereof, except in accordance with Priorities Regulation No. 13.

(d) Nothing contained herein shall be deemed to relieve Colden Manufacturing Company, its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on November 23, 1942, and shall expire on February 23, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 20th day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-154]

GUARANTEE SILK COMPANY, INC.

Guarantee Silk Company, Inc., 1441 Broadway, New York, New York, is a New Jersey corporation and a former manufacturer of silk products. After restrictions were placed upon the use of silk, the company applied for and received allocations of reserved rayon yarn pursuant to the provisions of Supplementary Order M-37-a, and after the revocation thereof, pursuant to the provisions of Supplementary Order M-37-c. Despite the fact that the company knew that these orders prohibited the unauthorized exchange of reserved rayon yarn, during the period of December, 1941, through May, 1942, it, in conjunction with Judy Textile Corporation, of the same address, caused quantities of reserved acetate rayon yarn in excess of a total of 38,000 pounds, allocated to it for processing in its mill, to be exchanged with the Malina Company of New Jersey, Paterson, New Jersey, for viscose rayon yarn, despite the fact that no authorization had been obtained from the War Production Board.

These violations of Supplementary Order M-37-a and M-37-c have impeded and hampered the war effort of the United States by diverting reserved rayon yarn to uses unauthorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered,* That:

§ 1010.154 *Suspension Order S-154.* (a) Guarantee Silk Company, its successors and assigns, shall not order or accept delivery of reserved rayon yarn, as the same is defined in Supplementary Order M-37-c, except as specifically authorized by the Director General for Operations.

(b) Nothing contained in this order shall be deemed to relieve Guarantee Silk Company from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on November 23, 1942, and shall expire on March 23, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 20th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1012—DOMESTIC VACUUM CLEANERS

[Supplementary Limitation Order L-18-c, as Amended Nov. 20, 1942]

Section 1012.4 *Supplementary Limitation Order L-18-c* is hereby amended to read as follows:

§ 1012.4 *Supplementary Limitation Order L-18-c*—(a) *Definitions.* For the purpose of this order:

(1) "Domestic vacuum cleaner" means any vacuum cleaner designed primarily for household use.

(2) "New domestic vacuum cleaner" means any domestic vacuum cleaner which has never been used by an ultimate consumer, including but not limited to, any domestic vacuum cleaner which has been used merely for demonstration purposes.

(3) "Manufacturer" means any person who has produced any domestic vacuum cleaner since October 1, 1941. "Manufacturer" shall include all subsidiaries, affiliates or other companies or enterprises under common ownership or control with such person.

(4) "Private brand seller" means any person, other than a manufacturer, engaged in the business of selling new domestic vacuum cleaners under his own trade mark or brand name, and includes all subsidiaries, affiliates, or other companies or enterprises under common ownership or control with such person.

(5) "Restricted private brand seller" means any private brand seller who held more than 500 new domestic vacuum cleaners on October 24, 1942, whether in his own or other persons' warehouses or on consignment to wholesalers or dealers.

(6) "Transfer" means to sell, lease, lend, ship, trade, deliver or otherwise transfer a new domestic vacuum cleaner. "Transfer" does not include any delivery to or by a carrier, or the delivery to its immediate destination of any new domestic vacuum cleaner which was in transit on October 24, 1942.

(b) *Restrictions on transfer of new domestic vacuum cleaners.* No manufacturer or restricted private brand seller shall transfer any new domestic vacuum cleaner, except:

(1) To the Army or Navy of the United States (excluding transfers to post exchanges, ships' stores, ships' service stores or commissaries for resale by them).

(2) To the government of any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) To any person outside the United States pursuant to an export license issued by the Board of Economic Warfare for the new domestic vacuum cleaners being transferred.

(4) With specific authorization of the Director General for Operations granted on Form PD–556, pursuant to an application filed on Form PD–556.

(c) *Reports.* (1) On or before November 9, 1942, each manufacturer and each restricted private brand seller shall file with the War Production Board, a report on Form PD–655 of all new domestic vacuum cleaners which were in his stock on October 24, 1942.

(2) Each manufacturer and each restricted private brand seller shall file with the War Production Board on or before the tenth day of each calendar month, beginning with December 10, 1942, a report on Form PD–655, of all the new domestic vacuum cleaners which he shipped or delivered pursuant to this order during the preceding calendar month.

(3) Each person affected by this order shall file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(e) *Records.* Each person affected by this order shall keep and preserve, for not less than two years, accurate and complete records of all sales of new domestic vacuum cleaners. Such records shall be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(g) *Communications.* All reports required to be filed hereunder, and all other communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers' Durable Goods Division, Washington, D. C., Ref.: L–18–c.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2(a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 20th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 3134—DAIRY PRODUCTS

[Conservation Order M–267]

BUTTER

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of butter for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3134.3 *Conservation Order M–267*—(a) *Definitions.* For the purposes of this order:

(1) "Butter" means butter as defined in the Act of March 4, 1923, Chapter 268, 42 Stat. 1500, U. S. C. Tit. 21, sec. 6.

(2) "Warehouses in the 35 cities" mean the cold storage warehouses which reported their weekly butter stocks from October 30, 1942 through November 20, 1942, to the Agricultural Marketing Administration of the United States Department of Agriculture, which warehouses are located in or near the following cities: New York Metropolitan Area; Chicago, Illinois; Philadelphia, Pennsylvania; Boston, Massachusetts; Buffalo, New York; Lowville, New York; Pittsburgh Pennsylvania; Detroit, Michigan; Cleveland, Ohio; Milwaukee, Wisconsin; Plymouth, Wisconsin; Marshfield, Wisconsin; Green Bay, Wisconsin; St. Paul, Minnesota; Minneapolis, Minnesota; Kansas City, Missouri; Omaha, Nebraska; St. Louis, Missouri; Denver, Colorado; Seattle, Washington; Portland, Oregon; Los Angeles, California; San Francisco, California; Springfield, Massachusetts; Cincinnati, Ohio; Duluth, Minnesota; Ft. Worth, Texas; Dallas, Texas; Petaluma, California; Santa Rosa, California; Oakland, California; San Diego, California; Providence, Rhode Island; Cuba, New York; Syracuse, New York.

(b) *Restrictions on delivery.* Every person who on November 6, 1942, at the close of business or at any time thereafter, until the close of business on November 20, 1942 had any butter in his possession or under his control physically located in any warehouse in the 35 cities, shall set aside for the requirements of government agencies 50% of his holdings of such butter at the close of business on November 6, 1942, or 50% of his holdings at the close of business on November 20, 1942, whichever shall be the greater. Without regard to previously existing contracts, and until March 6, 1943, butter so set aside may not be delivered except on specific permission of the Director General for Operations, or to or for the account of the Army and Navy of the United States, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the War Shipping Administration, the Agricultural Marketing Administration, and any agency of the United States for supplies to be delivered to or for the account of the government of any foreign country pursuant to the Act of March 11, 1941 (Lend-Lease Act). Each person shall set aside the amount of butter required by this order from that part of holdings which score 89 or higher according to the official grades prescribed in Code of Federal Regulations (1938 Supplement) Title 7, Part 55, §§ 55.42–55.48, as amended. So far as compliance with the above grade standards permit, butter in wooden boxes shall first be selected for setting aside pursuant to this order, and butter in wooden tubs shall be selected as a second preference to the extent that butter in wooden boxes is not available. Butter packed in other containers shall be set aside to the extent that butter in boxes and tubs is not available to meet the requirements of this order. Any person who prior to November 20, 1942, has delivered so much of his holdings on November 6, 1942 that he is unable to set aside the percentage required by this order, shall set aside all his remaining holdings. Persons having holdings in more than one warehouse in the 35 cities shall charge any such deficiency in his holdings in one warehouse against his holdings in other warehouses, but, subject to this requirement, percentages shall be charged against holdings in different warehouses as equally as possible.

(c) *Inspection.* Butter set aside and held pursuant to this order, and all books and records in the possession of any warehouse in the 35 cities pertaining to such butter, are subject to inspection by the Director General for Operations, and any person or government agency thereto duly authorized by him. The agencies to which delivery is authorized in paragraph (b) of this order are hereby designated as agencies authorized to inspect pursuant to this paragraph as agents of the Director General for Operations.

(d) *Certificates.* No person other than those designated in paragraph (b) shall remove butter from a warehouse in the 35 cities unless he files with the warehouseman a certificate in duplicate in substantially the following language:

> This is to certify that the following quantity of butter ---------------- removed by me on ---------------- from --------------, is not included within the percentage of my holdings or the holdings of my predecessor in title, which were required to be set aside by Conservation Order M–267, with the terms of which I am familiar.
>
> ------------------------
> (Signature)
> By ------------------------
> (Duly authorized official)

(e) *Restrictions on warehouseman.* No warehouseman in the 35 cities may release or deliver any butter from his custody and control with knowledge or reason to believe that such butter is being delivered or removed in violation of the terms of this order. Unless such delivery is to a government agency he shall not make such delivery without obtaining a certificate as prescribed by paragraph (d). He shall retain all such certificates in his files for six months.

(f) *Reports.* Persons to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board may from time to time request.

(g) *Records.* Every person to whom this order applies shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(h) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall unless otherwise directed, be addressed to: "War Production Board, Food Division, Washington, D. C. Ref: M–267.

(l) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024; 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 20th day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–160]

LONG ISLAND MAT CO.

Long Island Mat Company, Lynbrook, Long Island, New York, is a New York corporation engaged in the manufacture of rubber mats. Amendment No. 6 to Supplementary Order M–15–b prohibited the consumption of scrap rubber in the manufacture of rubber mats, among other items, except to fill War Orders, as defined therein. During the months of April through July, 1942, the Company violated Amendment No. 6 to Supplementary Order M–15–b by consuming sufficient scrap rubber to manufacture approximately 3500 rubber mats to fill civilian orders.

These violations of Supplementary Order M–15–b have impeded and hampered the war effort of the United States by diverting rubber to uses unauthorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered,* That:

§ 1010.160 *Suspension Order S–160.* (a) Long Island Mat Company, its successors and assigns, shall accept no deliveries from any source of rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(b) Long Island Mat Company, its successors and assigns, shall not consume or in any way use any rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(c) Long Island Mat Company, its successors and assigns, shall make no deliveries of rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(d) Deliveries of material to Long Island Mat Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(e) No allocation shall be made to Long Island Mat Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(f) Nothing contained herein shall be deemed to relieve Long Island Mat Company from any restriction, prohibition or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(g) This order shall take effect on November 23, 1942, and shall expire on May 23, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 21st day of November 1942.

PART 1157—CONSTRUCTION MACHINERY AND EQUIPMENT

[Limitation Order L–192, as Amended Nov. 17, 1942[1]]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rubber and other materials used in the production of construction machinery and equipment and repair parts for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1157.10 *Limitation Order L–192*—(a) *Revocation of Limitation Orders L–82 and L–82–a.* This order, as of November 30, 1942, supersedes Limitation Orders Nos. L–82 and L–82–a. Notwithstanding the revocation of Orders L–82 and L–82–a issued November 7, 1942, every person subject to the terms thereof immediately prior to such date shall abide by the terms of such orders until November 30, 1942, as though their text were fully incorporated in this order. All releases on equipment granted by the Director General for Operations pursuant to Limitation Orders Nos. L–82 and L–82–a not shipped by November 30, 1942 shall be deemed cancelled as of that date.

---

[1] This document is a restatement of Amendment 1 of Limitation Order L–192 which appeared in the FEDERAL REGISTER of November 18, 1942, page 9459, and reflects the order in its completed form as of November 17, 1942.

(b) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(c) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, government corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Producer" means any person engaged in the manufacture of equipment as hereafter defined.

(3 "Equipment" means that construction machinery and equipment listed in Schedules A, B, and C attached hereto, but shall not include any rubber tired chassis or running gear built for or useable for the transportation of commodities or persons.

(4) "New", when applied to equipment, means any equipment which has never been received or accepted by any person acquiring it for use.

(5) "Repair part" means any part manufactured for use in the repair and maintenance of equipment.

(6) "Lend-Lease government" means the government of any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States".

(7) "Essential project" means a construction project undertaken by, or contracted by or for the account of the Army, Navy, Maritime Commission, War Shipping Administration or Defense Plant Corporation, or any other construction project granted a preference rating of A–1–k or higher under any order in the P–19 series.

(8) "Rubber" means all kinds of natural, reclaimed and synthetic rubber.

(9) "Government corporation" means any corporation which is beneficially owned by the United States Government or any of its agencies.

(d) *Procedure for placing and receiving orders.* (1) Any person desiring to place an order for new equipment listed in Schedule A attached hereto shall apply for authorization to purchase as follows:

(i) Such person, except the Army, Navy, Maritime Commission, War Shipping Administration or a Lend-Lease government, shall file an application on Form PD–556 in quadruplicate with the War Production Board Regional Office in the region in which such person desires to use such equipment. Such application when approved by the Director General for Operations shall establish all conditions under which such order may be placed with the supplier including the assignment of preference ratings if not previously granted.

(ii) No person, except the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease government, may file application on Form PD–556 for any items listed in Schedule A which appear in Schedule C hereof.

(iii) The Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease government shall furnish the Construction Machinery Branch, War Production Board, Washington, D. C., with Form PD–556 made out in quadruplicate.

(2) No person shall accept an order for such equipment, except from the Army, Navy, Maritime Commission, War Shipping Administration and Lend-Lease government, unless accompanied by such authorization.

(e) *Restrictions on production of equipment.* (1) On and after November 30, 1942, no producer shall produce any equipment except in accordance with such production schedules as may be approved by the Director General for Operations as provided in paragraph (f) hereof.

(2) On and after November 30, 1942 no producer shall produce any equipment designed for or requiring rubber tires unless the authorization on Form PD–556 required by paragraph (d) specifically so provides.

(3) No producer shall manufacture more parts for assembly into new equipment than required by approved production schedules.

(4) On and after November 30, 1942, no producer shall put into process or assemble any materials in the manufacture of any equipment listed in Schedule C, except to fill an order placed by the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease Government or for the use by a prime contractor on a construction project for any of the foregoing, and then only if authorized by the Director General for Operations on Form PD–556.

(f) *Production schedules.* On or before November 25, 1942 and on or before the 15th day of each succeeding calendar month, every producer shall file in triplicate on Form PD–697 proposed production schedule of new equipment projected for such period as production may be planned. Except as limited in paragraph (e) (2) hereof, the production schedules of all new equipment for the three calendar months succeeding such filing or for such shorter time as production scheduling may be planned shall be deemed to be approved as of the first of the calendar month following receipt of such Form PD–697 by the War Production Board, unless the Director General for Operations shall otherwise direct. No producer shall change his production schedule as approved or changed by the Director General for Operations without specific authorization of the Director General for Operations.

(g) *Inventory reports.* On or before November 25, 1942 and on or before the 15th day of each succeeding calendar month every producer shall file in triplicate on Form PD–697 a statement of finished unsold inventory, as of the last day of the preceding calendar month, of new equipment including that in the possession of their dealers and distributors. Dealers and distributors, on the fifth day of each month, shall report their inventories of new equipment as of the last day of the preceding calendar month to the producer from whom such equipment was purchased or, if not purchased, to the producer for whom the distributor or dealer is acting as agent.

(h) *Prohibiting transfer and use of equipment.* On and after November 30, 1942 no producer shall use for other than experimental or demonstration purposes, or sell, lease, trade, lend, deliver, ship or transfer, any new equipment and no person shall accept the same unless:

(1) Such equipment is then in transit to such person, or

(2) Such use, sale, lease, trade, loan, delivery, shipment or transfer is specifically approved by the Director General for Operations as follows:

(i) On or before November 25, 1942, and on or before the fifteenth (15) day of each succeeding calendar month, each producer shall file in triplicate on Form PD–697 showing his proposed delivery schedule of all unfilled orders of new equipment, shipments made during the calendar month previous to filing and the current month to date of filing. The delivery of all such new equipment scheduled for the calendar month following the date of filing shall be deemed to be authorized by the Director General for Operations on the first day of such calendar month unless the Director General for Operations shall otherwise direct.

(ii) The delivery of all new equipment as scheduled for delivery on or before November 30, 1942, and previously authorized under Limitation Order L–82 and L–82–a, shall be deemed to be

authorized, unless the Director General for Operations shall direct otherwise.

(iii) The Director General for Operations, at any time, may revoke delivery authorization provided for in paragraphs (h) (2) (i) and (h) (2) (ii) as to any or all new equipment, direct or change the schedule for deliveries, allocate any order listed on Form PD–697 to any other producer, or direct the delivery of any new equipment to any other person, at regularly established prices and terms.

(iv) No producer shall change the schedule of deliveries as listed on said form, or as directed or changed by the Director General for Operations, without specific authorization of the Director General for Operations.

(i) *Restriction on resale, rental and use.* (1) On and after November 30, 1942, all persons except a Government corporation, the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease government to whom delivery of any new equipment listed in Schedule A has been authorized pursuant to paragraph (d) must use such equipment on the project described in the authorization to purchase and will be subject to the provisions of paragraphs (i) (2) and (i) (3) hereof.

(2) All persons except a Government corporation, the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease Government, thirty days prior to the sale, lease or use on any other project of such equipment, shall complete, sign and return Form WPB–1159 to the Used Construction Machinery Regional Specialist in the War Production Board Regional Office in the region in which such equipment is located.

(3) The Director General for Operations, at any time on two weeks' written notice, may require such person who owns such equipment to sell, lease or use such equipment as directed.

(4) Nothing in this order shall restrict application of Limitation Order L–196 in regard to the filing of Form WPB–1333.

(j) *Restrictions on sale and delivery of repair parts.* (1) All orders for repair parts for equipment in use on essential projects in the United States or Canada shall not be individually rated but shall carry the highest preference rating of the project and shall be subject to the following limitations:

(i) No person shall purchase repair parts during the calendar quarter commencing October 1, 1942 or any calendar quarter thereafter, in excess of 5% of the original purchase price of the equipment for which the repair parts are ordered unless authorized by the Director General for Operations on Form PD–556.

(ii) No producer, dealer or distributor shall sell or deliver repair parts to any person unless such person has furnished the information and certification called for below in a writing signed by such person and in substantially the following form.

Repair Parts for Maintenance and Repair—Rating ________ Contract Number ______ in accordance with Limitation Order L–192 with the terms of which I am familiar.

________________ ______________________
Date Purchaser
By:

Such certification shall constitute a representation to the Director General for Operations that such repair parts are required for the purpose of repair of actual or impending breakdown or proper maintenance of the equipment and that the applicant does not have such parts available for this purpose.

(2) Orders for spare parts for new equipment listed in Schedule A shall be placed at the same time as the order for new equipment and must be authorized on Form PD–556 by the Director General for Operations.

(3) Any conditions in regard to purchase or delivery of repair parts not covered herein shall be in accordance with current regulations and orders of the War Production Board.

(k) *Substitution and conservation of critical materials.* In the manufacture of any item of equipment or repair parts, no producer shall use any alloy steel, stainless steel, aluminum, magnesium, copper, brass, bronze, zinc, nickel, tin, cadmium or fabricated rubber products where the use of other less critical materials will not impair the efficiency of operation of such item.

(l) *Records.* All persons affected by this order shall keep and preserve for not less than two (2) years accurate and complete records concerning inventories, purchases, production and sale.

(m) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(o) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the Construction Machinery Branch, War Production Board, Washington, D. C., setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action, if any, as he deems appropriate by the amendment of this order or otherwise.

(p) *Communications.* All communications concerning this order except where specific reference is made herein to the contrary shall be addressed to Construction Machinery Branch, War Production Board, Washington, D. C., Ref: L–192.

Issued this 17th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

SCHEDULE A

The items of construction machinery and equipment appearing in Schedule A are subject to all the paragraphs of this order.

Items which appear in both Schedules A and C may be ordered and produced only for military purposes as stated in paragraph (d) (1) (ii) and (e) (4).

Angledozers and modifications thereof.
Batchers, construction material.
Batching plants, construction type.
Bins, construction material, portable.
Bins, construction material, stationary.
Brooms, contractors rotary.
Bulldozers and modifications thereof.
Cranes, crawler mounted power.
Cranes, tractor mounted power.
Cranes, rubber tired mounted power.
Crushers jaw and roll, portable type.
Crushing plants, portable type.
Derricks, guy.
Derricks, stiff leg.
Distributors, bituminous.
Ditchers, ladder.
Ditchers, wheel.

Draglines, see cranes.
Draglines, slack line.
Draglines, walking.
Dredges, and dredge equipment.
Drilling machines, blast hole drills.
Drilling machines, core drills.
Drilling machines, rock portable mounted.
Dryers, construction aggregate.
Earth boring machines.
Excavators, see power shovels.
Finegraders and subgraders, self-propelled.
Finishers, concrete.
Finishers, bituminous paving.
Forms, concrete road.
Graders, blade or pull type earth moving.
Graders, elevating earth moving.
Graders, self-propelled earth moving.
Grapples.
Hammers, pile.
Heaters, and circulators, tank car.
Hoists, contractors.
Loaders, portable bucket (other than coal).
Maintainers, road.
Maintainers, shoulder.
Mixers, bituminous cold mix type—10 tons per hour capacity or more.
Mixers, agitator concrete truck type.
Mixers, concrete truck mounted with elevating towers.
Mixers, concrete construction—above 10 cu. ft. size.
Pavers, concrete.
Plants, stabilizing.
Plants, asphalt.
Plows, snow-V and blade type, truck, tractor or grader mounted.
Plows, snow rotary type.
Power control units for tractors—both cable and hydraulic.
Pumps, portable engine or electric motor driven pumping units mounted on skids, with or without handles, or trailer mounted, larger than 90 M gallons per hour self-priming centrifugal pumps, horizontal or vertical triplex piston road pumps, ordinarily used for contractors' purposes or by contractors for dewatering and supply, as defined and approved in Contractors Pumps Standards by the Associated General Contractors of America, Inc. (A. G. C.), February 21, 1941.
Rippers, road.
Rollers, road pneumatic tired.
Rollers, road portable.
Rollers, tamping and sheepsfoot.
Rollers, road tandem.
Rollers, road three wheeled.
Scrapers, carrying and hauling, both drawn and self-propelled.
Screening plants, portable type.
Shovels, crawler mounted power.
Shovels, rubber tired mounted power.
Shovels, tractor mounted power.
Spreaders, concrete.
Sweepers, street.
Sweepers, street, motor pick-up.
Wagons, contractors crawler.
Washing and screening plants, portable type.
Winches, tractor mounted.

SCHEDULE B

The items of construction machinery and equipment appearing in Schedule B are subject to all the paragraphs of this order except:

1. Paragraph (d), controlling the procedure for placing and receiving orders.

2. Paragraph (i)[1], restricting resale, rental and use of equipment.

Blade bits.
Blades, grader.
Breakers, paving.
Buckets, clamshell.
Buckets, concrete.
Buckets, dragline.
Buckets, orange peel.
Buckets, scraper (bottomless) for dragline operation.
Buggies and carts, concrete hand operated.
Buggies and carts, concrete power propelled.
Centerline markers.
Chutes, concrete handling.
Concrete, surfacing machines.
Conveyors, construction material.
Crushers, gyratory and cone (portable type).
Disc, road.
Distributors, water.
Ditchers, blade.
Drills, jack hammer.
Drills, rock except portable mounted.
Filling machines, joint and crack.
Finegraders and subgraders, drawn type.
Finishers, floor other than wood.
Form tamping machines.
Graders, under truck type.
Heaters, asphalt surface.
Heaters, concrete mixer.
Hoppers, portable concrete.
Jacks, mud.
Joint levellers.
Kettles, bituminous heating.
Loaders, portable snow.
Mixers, aggregate pulverizers.
Mixers, bituminous, cold mix type, under 10 ton per hour capacity.
Mixers, concrete construction, 10 cu. ft. and smaller.
Mixers, plaster and mortar.
Paving breakers.
Plows, cable laying.
Pumps, concrete.
Pumps, portable engine or electric motor driven pumping units, mounted on skids with or without handles, or trailer mounted, 90,000 gallons per hour and smaller self-priming, centrifugal pumps, plunger pumps, or diaphragm pumps ordinarily used for contractors purposes or by contractors for dewatering and supply as defined and approved by the Associated General Contractors of America, Inc. (A. G. C.), February 21, 1941, excluding farm type, industral type and Underwriters approved fire fighting pumps.
Scarifiers.
Scrapers, drag, fresno and rotary.
Screens, rotary, vibrator and gravity types, other than coal and industrial.
Sprayers, bituminous material.
Spreaders, aggregate.
Towers, concrete placing.
Towers, material elevating.
Vibrators, concrete.
Winches, contractor.

SCHEDULE C

The items appearing in-Schedule C may be ordered and produced only for military purposes as provided in paragraphs (d) (1) (ii) and (e) (4).

Batchers, construction material.
Batching plants, construction type.
Bins, construction material, portable.
Bins, construction material, stationary.
Brooms, contractors rotary.
Buckets, scraper (bottomless) for dragline operation.
Buggies and carts, concrete hand operated.
Buggies and carts, concrete power propelled.
Centerline markers.
Chutes, concrete handling.
Concrete surfacing machines.
Conveyors, construction material—except when a part of a portable crushing plant.
Derricks, guy.
Derricks, stiff leg.
Disc, road.
Ditchers, blade.
Dredges, and dredge equipment.
Drilling machines, core drills.
Drilling machines, portable well.
Dryers, construction aggregate, except portable type.
Filling machines, joint and crack.
Finishers, floor other than wood.
Form tamping machines.
Graders, blade or pull type earth moving.
Graders, elevating earth moving.
Graders, self-propelled earth moving.
Graders, under truck type.
Grapples.
Heaters, asphalt surface.
Hoists, contractors.
Hoppers, portable concrete.
Jacks, mud.
Joint levellers.
Maintainers, road.
Maintainers, shoulder.
Plants, asphalt except portable travel-mix type.
Plows, cable laying.
Plows, snow—V and blade type, truck, tractor or grader mounted.
Rollers, road pneumatic tired.
Rollers, road tandem.
Rollers, road three wheeled.
Scrapers, drag, fresno and rotary.
Screening plants, portable type.
Sweepers, street.
Sweepers, street, motor pick-up.
Towers, concrete placing.
Towers, material elevating.
Washing and screening plants, portable type.

PART 1176—IRON AND STEEL CONSERVATION

[Conservation Order M-126 as Amended Nov. 21, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1176.1 *General Conservation Order M-126*—(a) *Definitions.* For the purpose of this order:

(1) "Governing date", with respect to any item on List A or List S, or part

thereof, means the date set forth opposite such item.

(2) "Army - Navy - Maritime order" means an order for material to be purchased (or physically incorporated into material to be purchased) by or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration, where with respect to any item on List A, or part thereof, the use of iron or steel, or with respect to any item on List S, or part thereof, the use of stainless steel, is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration, applicable to the contract, subcontract or purchase order.

(3) The terms "iron" and "steel" shall not be deemed to include screws, nails, rivets, bolts, or wire, strapping or small hardware for joining or other similar essential purposes.

(4) The term "stainless steel" means corrosion or heat resistant alloy iron or alloy steel containing 10 per cent or more of chromium with or without nickel and/or other alloying elements.

(5) "Process" means cut, draw, machine, stamp, melt, cast, forge, roll, turn, spin or otherwise shape.

(6) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(7) The term "assemble" shall not be deemed to include the putting together of an article after delivery to a sales outlet or consumer in knockdown form pursuant to an established custom. The term "assemble" shall also not be deemed to include adding finished parts to an otherwise finished article when the placing of one or more finished parts or the size or type of one or more finished parts is determined by the use to which the ultimate consumer is to put the article.

(b) *Restrictions with respect to List A products.* Except as provided in paragraph (d):

(1) *Raw material deliveries.* From and after the applicable governing date of any item on List A, no person shall deliver or accept delivery of any iron or steel which he knows or has reason to know will be used to make such item, or any part thereof.

(2) *Fabrication*—(i) *Limitation.* During the 30 days next following the applicable governing date of any item on List A, no person shall put into process any iron or steel to make such item, or any part thereof, in an aggregate weight greater than 75 per cent of the average monthly weight of all metals put into process by him during 1941 in the making of such item and parts, and no person shall put into process any iron or steel in the making of any such item or part unless processing thereof will be completed within such 30 day period.

(ii) *Prohibition.* From and after the date 30 days after the applicable governing date of any item on List A, no person shall process any iron or steel to make such item, or any part thereof.

(3) *Assembly.* From and after the date 60 days after the applicable governing date of any item on List A, no person shall assemble such item, or any part thereof, containing any iron or steel.

(4) *List A products without governing dates.* With respect to any item on List A without a governing date, (i) no person shall deliver or accept delivery of any iron or steel which he knows or has reason to know will be used to make such item, or any part thereof, (ii) no person shall put into process or process any iron or steel to make such item, or any part thereof, and (iii) no person shall assemble such item, or any part thereof, containing any iron or steel.

(5) *Finished item deliveries.* No person shall deliver or accept delivery of any item on List A, or part thereof, which he knows or has reason to know was fabricated, assembled or delivered in violation of any applicable provision of this order as amended from time to time.

(c) *Restrictions with respect to List S products.* Except as provided in paragraph (d):

(1) *Raw material deliveries.* From and after the applicable governing date of any item on List S, no person shall deliver or accept delivery of any stainless steel which he knows or has reason to know will be used to make such item, or any part thereof.

(2) *Fabrication*—(i) *Limitation.* During the 30 days next following the applicable governing date of any item on List S, no person shall put into process any stainless steel to make such item, or any part thereof, in an aggregate weight greater than 50% of the average monthly weight of stainless steel put into process by him during 1941 in the making of such item and parts, and no person shall put into process any stainless steel in the making of any such item or part unless processing thereof will be completed within such 30 day period.

(ii) *Prohibition.* From and after the date 30 days after the applicable governing date of any item on List S, no person shall process any stainless steel to make such item, or any part thereof.

(3) *Assembly.* From and after the date 45 days after the applicable governing date of any item on List S, no person shall assemble such item, or any part thereof, containing any stainless steel.

(4) *Finished item deliveries.* No person shall deliver or accept delivery of any item on List S or part thereof, which he knows or has reason to know was fabricated, assembled, or delivered in violation of any applicable provision of this order as amended from time to time.

(d) *Exemption for Army-Navy-Maritime orders.* (1) The provisions of paragraph (b) with respect to items on List A with governing dates shall not apply to Army-Navy-Maritime orders for such items, or any parts thereof, for a period of 60 days after the applicable governing date. From and after the expiration of the applicable exemption period, no person shall deliver, accept delivery of, put into process, process or assemble any iron or steel for the making of any item on List A, or part thereof, unless such item or part is on List C. The provisions of paragraph (b) shall not apply to Army-Navy-Maritime orders for any item on List C, or part thereof, except that stainless steel shall not be used to make such item and parts, unless permitted by paragraph (d) (3).

(2) The provisions of paragraph (c) shall not apply to Army-Navy-Maritime orders for any item on List S, or part thereof, for a period of 60 days after its governing date. From and after the expiration of the applicable exemption period, no person shall deliver, accept delivery of, put into process, process or assemble any stainless steel for the making of any item on List S, or part thereof, unless such item or part is on List C.

(3) Except as otherwise specified on List C as to any item, or part thereof, stainless steel may be used to make any item on List C, or part thereof, for Army-Navy-Maritime orders until December 31, 1942. Except as provided in paragraph (d) (4), on and after December 31, 1942, no person shall use any stainless steel to make any item on List C, or part thereof, unless, and then only to the extent that, the use of stainless steel is expressly permitted for such item.

(4) Where the use of stainless steel or a type of stainless steel in the making of any item on List C, or part thereof, for Army-Navy-Maritime orders is prohibited by the provisions of this order, and the person making any such item or part is unable to secure permitted materials, a further exemption period is hereby granted for the minimum period of time necessary to obtain such permitted materials, but in no event later than April 30, 1943.

---

[1] Formerly paragraph (j).

(e) *Restrictions with respect to other products*—(1) *Roofing and siding.* No person shall manufacture any iron or steel into roofing and siding except:

(i) For delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, The War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development; or

(ii) For delivery on a preference rating of AA-5 or higher assigned by a PD-3A preference rating certificate or by a preference rating order in the P-19 series; or

(iii) For defense housing, to the extent specified in the Defense Housing Critical List; or

(iv) For the manufacture, maintenance and repair of railroad freight cars, street cars, or busses; or

(v) For deliveries on preference ratings assigned by the Board of Economic Warfare or for deliveries on Lend-Lease orders; or

(vi) For delivery to an ultimate purchaser for maintenance and repair purposes regardless of rating. With respect to this paragraph (e) (1) (vi), no person may manufacture from May 5, 1942 to December 31, 1942, more than 20 percent of the roofing and siding made by him from iron or steel during the calendar year 1940; or in the calendar year 1943 or any subsequent calendar year, more than 25 percent of the roofing and siding made by him from iron or steel, during the calendar year 1940.

Any person manufacturing or selling any such roofing or siding may rely on the certificate of his customer that such roofing or siding will only be sold or used as permitted by this paragraph (e) (1).

(2) *Other products.* No person shall use any iron or steel to make any article not prohibited on List A, or any part thereof, where and to the extent that the use of other material (excluding material on List D) is practicable. Alloy steel shall not be used when the use of carbon steel is practicable, and no more iron or steel shall be used in connection with the manufacture of any such article than is essential. The provisions of this paragraph (e) (2) shall not apply in the case of articles or parts to be purchased by or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, or to be physically incorporated into products to be so purchased to the extent that the use of iron or steel is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration applicable to the contract, subcontract or purchase order.

(f) *Restrictions with respect to other scarce materials.* No person whose use of iron or steel is restricted by paragraphs (b), (d) or (e) shall use as a substitute therefor any material on List D.

(g) *Disposition of frozen and excessive inventories.* The disposition of frozen and excessive inventories containing iron or steel shall be subject to the applicable provisions of Priorities Regulation No. 13 (§ 944.34).

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply whether the items are ordered or manufactured pursuant to a contract made prior to, on, or subsequent to May 5, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of any material in the production of any item, the limitations of such order shall be observed.

(4) *Intra-company deliveries.* The restrictions of this order with respect to deliveries prohibit or restrict deliveries not only to other persons, including affiliates or subsidiaries, but also from one branch, division, or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(6) *Installation.* The restrictions of this order with respect to putting into process, processing, and assembling shall not apply to the installation of an item or part for the ultimate consumer on his premises when any putting into process, processing or assembling of such item or part is incidental to such installation and is done on such premises.

(7) *Repair.* The restrictions of this order (other than those contained in paragraph (e) (2)) shall not apply to a person repairing a used article on or off the premises of the owner, if the person making the repair does not use iron or steel weighing in the aggregate more than 25 pounds and if any putting into process, processing or assembling done by such person is for the purpose of making the specific repair. The limitations in this paragraph (h) (7) on repairing a used article shall not apply to any item on List A or List S, or part thereof, to the extent that maintenance and repair of such item is specifically excepted on List A or List S.

Issued this 21st day of November, 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1288—POWER, STEAM AND WATER AUXILIARY EQUIPMENT

[Schedule III to Limitation Order L-154]

FEED WATER HEATERS

§ 1288.4 *Schedule III to Limitation Order L-154*—(a) *Definitions.* For the purposes of this schedule:

(1) "Producer" means any person who produces, manufactures, processes fabricates or assembles feed water heaters.

(2) "Feed water heater" means any tubular heater or heat exchanger, used in land installations to raise the temperature of boiler feed water.

(3) "Copper base alloy" means any alloy which contains 40 per cent or more copper by weight.

(b) *Restrictions on materials.* (1) No producer shall install or incorporate tubing or tube sheets of any type or class in any feed water heater if such tubing or tube sheets contain copper, copper base alloys, or alloys containing nickel, chrome, or tin, unless such installation or incorporation is for the repair of an actual breakdown which involves the replacement of not more than 25 per cent of the tubing in a feed water heater equipped with copper base alloy tubes. No repair shall be subdivided into parts to come within these limits.

(2) No producer shall install or incorporate seamless steel tubing in any feed water heater.

(c) *Required specifications.* No producer shall deliver and no purchaser shall accept delivery of any feed water heater, manufactured in accordance with the restrictions of paragraph (b) of this schedule, which contains, or which is designed to contain, a larger heat transfer surface area than would be necessary in normal operation, under actual conditions at its proposed installation, if copper base alloy tubing were used.

(d) Nothing herein contained shall prevent the delivery or use of tubing or tube sheets which were in process or fully fabricated five days after the issuance of this schedule.

PART 3029—PORTABLE ELECTRIC FANS

[Interpretation 1 to General Limitation Order L-176]

The following interpretation is hereby issued by the Director General for Operations with respect to § 3029.1, General Limitation Order L-176, issued September 5, 1942:

General Limitation Order L-176 prohibits the transfer by a manufacturer of all portable electric fans except pursuant to specific authorization of the Director General for Operations. A manufacturer is defined as "any person who manufactures or assembles any portable fan." A person who makes a business of bringing all the parts of a fan together in one place in such form that it is a simple or minor operation to assemble such parts into a fan is to be considered a manufacturer even though he does not personally fasten all of the parts together. Consequently any such person who sells or delivers substantially all the parts of a portable fan as a kit or in other knock-down form, with the expectation or knowledge that the transferee or some other person will put the parts together and produce a completed fan, violates the provisions of Order L-176 unless he obtains specific authorization from the Director General for Operations.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 21st day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 3032—FILM

[Limitation Order L-178 as Amended Nov. 21, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of film for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3032.1 *General Limitation Order L-178*—(a) *Definitions.* For the purposes of this order:

(1) "35 mm. film" means unexposed film 35 mm. wide with a nitrate or safety base, whether negative or positive, other than film packaged for use in 35 mm. still cameras.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(3) "Transfer" means to sell, lease, trade, lend, deliver, ship or transfer 35 mm. film from one person to any other person. For the purposes of this order, the following shall not be regarded as transfers:

(i) To sell, lease, trade, lend, deliver, ship or transfer 35 mm. film from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control;

(ii) A transfer of title merely for security purposes to a person financing a conditional sale or a similar transaction made simultaneously with the transfer of 35 mm. film.

(b) *Restrictions on transfers of film on and after 11:59 P. M., Eastern War Time, August 20, 1942.* On and after 11:59 P. M., Eastern War Time, August 20, 1942, until 11:59 P. M., Eastern War Time, December 18, 1942, no person shall transfer any 35 mm. film, except:

(1) Any 35 mm. film actually in transit at the time this order takes effect may be delivered to its immediate destination, or

(2) Pursuant to specific authorization of the Director General for Operations,

(c) *Records and reports.* (1) Every person, other than the Army or Navy of the United States, who has any 35 mm. film on August 20, 1942, shall keep and preserve, for not less than two years, accurate and complete records of all such 35 mm. film and of all sales and shipments made by him pursuant to this order. Such records shall be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(2) On or before the 15th day following August 20, 1942, every person, other than the Army or Navy of the United States, who has any 35 mm. film on August 20, 1942 shall file with the War Production Board a statement of the amount in linear feet and type of 35 mm. film in stock on August 20, 1942.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(e) *Applications for specific authorization by the Director General for Operations.* Any person desiring film may apply in writing to the Director General for Operations, War Production Board, Washington, D. C., Ref.: L-178, fully setting forth the amount in linear feet by types of 35 mm. film desired, the reasons why such person deems it appropriate that he obtain such film and the use to which such film is to be put. The Director General for Operations may thereupon take such action as he deems appropriate.

(f) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall be addressed to the War Production Board, Washington, D. C., Ref.: L-178.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued November 21, 1942.

ERNEST KANZLER,
Director General for Operations.

  36″ to 40″, 2.90 to 4.50 yards.
Frock cloth (carded):
  36″ to 39″, 2.00 to 2.35 yards.

(ii) Pro rata widths of like count and weight to the above constructions.

(3) "Hospital clothing processor" shall mean:

(i) A person who purchases hospital clothing textiles for manufacturing, or for the purpose of being manufactured for his account, into hospital clothing for sale.

(ii) The converter or finisher of hospital clothing textiles who purchases gray goods for bleaching or finishing for sale to a manufacturer of hospital clothing.

(4) "Inventory" shall mean the total quantity of hospital clothing textiles or of hospital clothing textiles in process of manufacture into hospital clothing or of hospital clothing owned by any hospital clothing processor and held by him in any mill, warehouse, place of storage or manufacturing plant.

(b) *Assignment of preference rating.* Purchase or manufacturing orders for hospital clothing textiles placed by hospital clothing processors are hereby assigned a preference rating of A-2.

(c) *Application of preference rating.* Any hospital clothing processor, in order to apply the preference rating assigned by paragraph (b) to deliveries of material to him, must endorse on or attach to each purchase or manufacturing order placed by him to which the rating is applied, a certificate in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

CERTIFICATE

The undersigned purchaser hereby certifies to the seller and the War Production Board that he is entitled to apply the preference rating indicated opposite the items shown on the attached purchase order and that such application is in accordance with Priorities Regulation No. 3 as amended, with the terms of which the undersigned is familiar. Furthermore, the undersigned certifies that the fabrics hereby ordered will be used in the manufacture of hospital clothing or otherwise disposed of only as permitted in General Preference Order No. M-207 and/or Schedule III thereto

-------------------------------- ---------
(Name of hospital clothing processor) (Address)

By -------------------------------- ---------
(Signature and title of authorized officer) (Date)

Such endorsement shall constitute a representation to the War Production Board and the supplier with whom the contract or purchase order is placed that such contract or purchase order is duly rated in accordance herewith.

Such person applying ratings must maintain at his regular place of business all documents, including purchase or manufacturing orders, preference rating orders and certificates upon which he relies as entitling him to apply or extend such ratings, segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection.

(d) *Restrictions on inventory.* In addition to the restrictions on inventory contained in Priorities Regulation No. 1 (§ 944.14):

(1) No manufacturer of hospital clothing shall after November 21, 1942, hold in his inventory a total quantity of hospital clothing textiles for such garments, such textiles in process of manufacture into such garments, and such completed garments in excess of such a total quantity as will be delivered out of his inventory within ninety days.

(2) No converter or finisher of hospital clothing textiles who purchases gray goods for bleaching, finishing, or processing into hospital clothing textiles for sale to a hospital clothing manufacturer shall after November 21, 1942, hold in his inventory any hospital clothing textiles in excess of the total quantity of such textiles, including such textiles in process, which will be delivered out of his inventory within ninety (90) days.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 21st day of November 1942.

(iii) Pro rata widths of same count and weight to above constructions.

(3) "Women's work clothing processor" shall mean:

(i) A person who purchases women's work clothing textiles for manufacturing, or for the purpose of having manufactured for his account, into women's work clothing for industrial and agricultural purposes for sale.

(ii) The converter or processor of women's work clothing textiles who purchases gray goods for bleaching, finishing or processing into women's work clothing textiles for sale to a manufacturer of women's work clothing.

(4) "Inventory" shall mean the total quantity of women's work clothing textiles or of women's work clothing textiles in process of manufacture into women's work clothing or of women's work clothing owned by any women's work clothing processor and held by him in any mill, warehouse, place of storage, or manufacturing plant.

(b) *Assignment of preference rating.* Purchase or manufacturing orders for women's work clothing textiles placed by women's work clothing processors are hereby assigned a preference rating of A-2.

(c) *Restrictions on the use of women's work clothing textiles.* Notwithstanding the provisions of paragraph (c) (1) of General Preference Order M-207, no women's work clothing processor shall use any women's work clothing textiles secured by him pursuant to the application of the rating assigned by paragraph (b).

(1) In the manufacture of any women's work clothing which is not visibly designated as such by label or other marking thereon, or

(2) In the manufacture of any work dress, any model other than those generally known as wrap-around or coat styles, or

(3) In the manufacture in the twelve calendar months period beginning December 1, 1942, of more than four models of each of the types of such women's work clothing set out in paragraph (a) (1), or in the manufacture at any one time of more than two models of each such type, unless such other model is made and sold to conform with state, county, or municipal safety laws or plant safety regulations.

(d) *Application of preference rating.* Any women's work clothing processor in order to apply the preference rating assigned by paragraph (b) to deliveries of material to him, must endorse on or attach to each purchase order placed by him to which the rating is applied, a certificate in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an officer duly authorized for such purpose:

CERTIFICATION

The undersigned purchaser hereby certifies to the seller and the War Production Board that he is entitled to apply the preference rating indicated opposite the items shown on the attached purchase order and that such application is in accordance with Priorities Regulation No. 3, as amended, with the terms of which the undersigned is familiar. Furthermore, the undersigned certifies that the fabrics hereby ordered will be used in the manufacture of women's work clothing or otherwise disposed of only as permitted in General Preference Order M-207 and/or Schedule IV thereto.

PART 3056—PETROLEUM COKE

[Conservation Order M-212, as Amended Nov. 21, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of petroleum coke for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3056.1 *Conservation Order M-212*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(3) "Raw petroleum coke" means any solid, infusible, carbonaceous residue produced by the destructive distillation of petroleum, when the residue equals or exceeds 5 pounds for every barrel (of 42 gallons) of petroleum processed by destructive distillation.

(4) "Calcined petroleum coke" means raw petroleum coke after being calcined or graphitized.

(5) "Petroleum coke" means raw petroleum coke or calcined petroleum coke.

(c) *Limitations on delivery and use of petroleum coke within the United States.* Subject to the exceptions in paragraph (d) of this order, no person shall deliver within the United States, and no person shall accept delivery of or use within the United States, petroleum coke except where (1) it is to be incorporated within the United States into the following materials and articles:

Anodes
Arc carbons
Bearings
Blocks (for other than fuel purposes)
Bricks (for other than fuel purposes)
Bushings
Cathodes
Diffusers
Dry battery electrodes
Dry battery mixes
Electrical contacts
Electrodes
Extruded specialties
Filters
Fittings
Generator brushes
Joint compounds
Machined specialties
Motor brushes
Moulded specialties
Packing rings
Pipes
Powder
Raschig rings
Resistance and resistor elements[1]
Structural material
Telephone specialties
Tower sections
Tubes
Welding plates
Welding rods, or

(2) It is to be incorporated within the United States into silicon carbide abrasives, or

(3) It is to be used (otherwise than as fuel) within the United States in the treating of metals or ores after receipt of the written authorization of the Director General for Operations authorizing the specific use. Applications for such authorization should be made by the prospective user by letter filed in quadruplicate addressed to the War Production Board, Aluminum and Magnesium Branch, Washington, D. C., Ref.: M-212, which letter should state:

(i) His name and address,

(ii) The quantity and specifications of petroleum coke he proposes to use in the ensuing three months,

(iii) Why he believes no other material may be used instead of petroleum coke,

(iv) The quantity of petroleum coke in his inventory on the date of the letter,

(v) The quantity, if any, of petroleum coke he desires permission to acquire, and

(vi) The name and address of the supplier, if any, from whom he wishes to acquire the petroleum coke.

(4) It is to be used in packing electrodes for gas baking and graphitizing purposes during manufacture.

(d) *Exceptions.* (1) Any person who had in his possession or under his control not in excess of 100 short tons of petroleum coke (exclusive of briquets) on October 10, 1942, may deliver or use within the United States, free from the restrictions of paragraph (c) hereof, any petroleum coke from such stocks; and any person may accept delivery of any petroleum coke from such stocks and thereafter such petroleum coke shall be free from the restrictions of paragraph (c) hereof if used within the United States.

(2) Any person may deliver or use within the United States free from the restrictions of paragraph (c) hereof and any person may accept delivery of or use within the United States free from the restrictions of paragraph (c) hereof, petroleum coke already manufactured into briquets for fuel purposes on October 10, 1942.

(e) *Limitations on delivery of petroleum coke for export.* No person shall deliver petroleum coke for export outside of the United States unless and until he has received the written authorization of the Director General for Operations authorizing the specific delivery. Applications for such authorization should be made by the person making delivery by letter filed in quadruplicate addressed to the War Production Board, Aluminum and Magnesium Branch, Washington, D. C., Reference: M-212, which letter should state:

(1) His name and address,

(2) The name and address of the prospective user,

(3) The quantity and specifications of petroleum coke he proposes to deliver for export to the prospective user and the period in which he proposes to make delivery, and

(4) The proposed use of the petroleum coke.

(f) *Special directions.* The Director General for Operations may from time to time issue specific directions or prohibitions with respect to the production and qualities of petroleum coke.

(g) *Reports.* Reports shall be made at such times and on such forms as may be prescribed therefor by the Director General for Operations, War Production Board.

(h) *Appeals.* Any person affected by this order (otherwise than by the failure of the Director General for Operations to grant an authorization under paragraph (c) (3) hereof) who considers that compliance therewith would interfere with the war effort, may appeal to the Director General for Operations, setting forth the pertinent facts, and the reasons he considers that he is entitled to relief. Such appeal should be made by letter in quadruplicate and shall be addressed to: War Production Board, Aluminum and Magnesium Branch, Washington, D. C., Ref.: M-212. The Director General for Operations may thereupon take such action as he deems appropriate.

(i) *Communications.* All statements and reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be in duplicate and addressed to: War Production Board, Aluminum and Magnesium Branch, Washington, D. C., Ref.: M-212.

(j) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

PART 1052—KITCHEN, HOUSEHOLD AND OTHER MISCELLANEOUS ARTICLES

[Interpretation 1 to Supplementary General Limitation Order L-30-b]

ENAMELED WARE

The following interpretation is hereby issued by the Director General for Operations with respect to § 1052.3, *Supplementary Limitation Order L-30-b*, issued October 24, 1942:

Paragraph (b) (3) of Order L-30-b provides that the restrictions on the sizes and types of enameled ware articles which may be produced do not apply to articles produced for the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration for use in the field or on ship board pursuant to a contract or subcontract specifying "an article which may not be produced within the limitations of subparagraph (1) of this paragraph (b)." Paragraph (b) (1) in many instances permits a manufacturer to produce only one size of an enameled article within a specified size range; for example, only one size of water pail may be produced within the 10 to 12½ quart range. A question has arisen as to whether a manufacturer may produce under paragraph (b) (3) an article within such a range, such as a 12 quart pail, for United States Army field use after he has chosen to produce that article for civilian and general military purposes in the 10 quart size, which is within the same range. The answer is that he may produce such a 12 quart pail for military use in the field or on shipboard, though only for such use, just as he may produce for such use a 14 quart enameled pail, which is not within the range of sizes permitted for general use.

Paragraphs (b) (5) and (b) (6) set quotas on "the use of iron and steel" in the "production of enameled ware." In a case where one manufacturer fabricates steel into a black shape and then ships the black shape to a second manufacturer who coats it with vitreous enamel, the question has arisen as to whose quota of iron and steel is involved. Paragraph (a) (5) defines "iron and steel use" as "the aggregate weight of iron and steel when first put into production by a manufacturer whether in the form of raw materials or as purchased parts." Under this provision both the manufacturer who fabricates the steel into black shapes and the manufacturer who coats the black shapes with vitreous enamel are considered to be "using" iron and steel within the meaning of the order. Consequently, such use must conform to the quota limitations of each manufacturer. In computing his quota, however, each manufacturer is entitled to include in his base period "use" of iron and steel, both the raw material which he fabricated into black shapes and the black shapes which he purchased and to which he applied a vitreous enamel coating.

PART 3051—SCALES, BALANCES AND WEIGHTS

[Interpretation 1 of Limitation Order L-190]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 3051.1 *Limitation Order L-190:*

Paragraph (a) (7) of § 3051.1, *Limitation Order L-190,* defines "Class One scales" to include "commercial scales for use in retail trade." The phrase "commercial scales for use in retail trade" means only cylinder-type scales, fan-type scales, hanging scales and even-balance scales of the kinds, sizes and models commonly used in making sales of merchandise direct to ultimate consumers.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1055—WOOL

[Conservation Order M-73, as Amended November 23, 1942 for the period August 3, 1942, to January 31, 1943]

Whereas the fulfillment of requirements for the defense of the United States has created a shortage of wool for the combined needs of defense, private account, and export; and the supply is, and may continue to be, insufficient for defense and essential civilian requirements, unless its use is curtailed or prohibited as hereinafter provided; and it is necessary in the public interest and to promote the national defense to allocate wool in the manner hereinafter in this order provided;

Now, therefore, it is hereby ordered, That:

§ 1055.1 *Conservation Order M-73—* (a) *Curtailment of use of wool for nondefense orders for period August 3, 1942, through January 31, 1943.* During the period from August 3, 1942, to January 31, 1943, both dates inclusive, no person shall put into process, or cause to be put into process by others for his account, for nondefense orders, any wool except as follows:

(1) *On worsted system.* Any person having a basic quarterly poundage on the worsted system shall be entitled to put into process, or cause to be put into process by others for his account:

(i) An amount of wool owned by him not in excess of 20% of such basic quarterly poundage, for the manufacture of fabrics or yarns containing not less than 20% wool, wool waste, noils, reprocessed and reused wool, and

(ii) An additional amount of wool owned by him not in excess of 25% of such basic quarterly poundage for the manufacture of fabrics or yarns containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

(2) *On woolen, cotton, felt or other system.* Any person having a basic quarterly poundage on the woolen, cotton, felt, or any other system shall be entitled to put into process or cause to be put into process by others for his account:

(i) An amount of wool owned by him not in excess of 5% of such basic quarterly poundage, for the manufacture of fabrics or yarns containing not less than 20% wool, wool waste, noils, reused and reprocessed wool, and

(ii) An additional amount of wool owned by him not in excess of 25% of such basic quarterly poundage for the manufacture of fabrics or yarns containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

Provided, however, That notwithstanding the provisions of subparagraphs (1) and (2) above any person who made and sold prior to June 1, 1942, fabrics or yarns containing less than 20% wool, wool waste, noils, reused and reprocessed wool shall be entitled to put into process wool for the manufacture of these same fabrics and yarns within the limitations herein prescribed. Nothing herein contained shall be construed to prohibit the manufacture of fabrics or yarns containing less than 20% of wool waste, noils, reused and reprocessed wool.

(3) *On manufacture of floor covering.* Notwithstanding the provisions of subparagraph (1) and (2) above, any person whose basic quarterly poundage is calculated from wool put into process for

the manufacture of floor covering shall only be entitled to put into process, or cause to be put into process by others for his account:

(i) Amounts of wool of grades 44s and lower, fine carpet wools, coarse carpet wools, coarse alpaca fleece, alpaca seconds or short fleece (unless from Arequipa), Huarizo (unless from Arequipa), llama (unless from Arequipa), or pieces or locks of alpaca or llama, owned by such person, for the manufacture of wool products other than floor covering, and

(ii) Amounts of coarse carpet wool for the manufacture of floor covering,

but shall be entitled to put into process a total amount of such wools for the purposes prescribed which is not in excess of 50 per cent of such basic quarterly poundage calculated from the manufacture of floor covering.

(b) *Bonus for use of certain types of wool.* Any person shall, for each pound of wool of grades 44s and lower (including carpet wool), or skin alpaca, coarse alpaca fleece, alpaca seconds, Huarizo, llama, or coarse pieces or locks of alpaca or llama, owned, or hereafter acquired by such person, put into process or cause to be put into process by others for his account, within the limits of paragraphs (a) (1) and (2), be entitled to put into process, or caused to be put into process by others for his account:

(1) On the worsted system, an additional two pounds of such material owned or hereafter acquired by him,

(2) On the woolen, cotton or felt system, an additional five pounds of such material owned or hereafter acquired by such person.

(c) *Special provision for manufacture of yarn for use in manipulated fabrics.* (1) For the purposes of paragraphs (a) (1) and (2) the putting into process of wool for the manufacture of yarns for sale to knitters or weavers to be manufactured by them into fabrics or garments containing not more than 65% wool and not less than 20% wool, wool waste, noils, reused and reprocessed wool, shall be considered as the putting into process of wool for the manufacture of such fabrics: *Provided,* That each sale of such yarn to a knitter or weaver is made only upon the receipt from such knitter or weaver of a certificate in duplicate, signed on behalf of the knitter or weaver placing such order by a duly authorized person in substantially the following form:

> The undersigned hereby certifies to his vendor and to the War Production Board that the yarn covered by this purchase order will be used by the undersigned for the manufacture of fabrics or garments containing not more than 65% wool as the term is defined in Conservation Order M–73, and not less than 20% wool, wool waste, noils, reused and reprocessed wool.

and *Provided, further,* That one of the duplicate certificates required for each such sale shall be filed with the War Production Board on or before the 15th day of the month following the month in which such sales were made.

(2) No knitter or weaver furnishing the certificate mentioned in subparagraph (1) of this paragraph for the purchase of yarn shall knit or weave such yarn into fabrics or garments which contain more than 65% wool or less than 20% wool, wool waste, noils, reused and reprocessed wool, or otherwise use or dispose of such yarn.

(d) *Restrictions on use of certain types of wool and of wool content of certain products*—(1) *Restriction on wool content of blankets for nondefense use.* No person shall manufacture for nondefense order any blanket containing more than 80 per cent of wool, wool waste, noils, or reused and reprocessed wool, in the aggregate, except blankets made solely from used or damaged paper-makers' felts and/or used processing felts.

(2) *Restrictions on use of certain wools in drapery and upholstery fabrics for nondefense use.* No person shall put into process, or cause to be put into process by others for his account for nondefense order for the manufacture of any drapery or upholstery fabrics any wool other than coarse carpet wool, coarse alpaca fleece, alpaca seconds or short fleece (unless from Arequipa), Huarizo, (unless from Arequipa), llama, (unless from Arequipa) or pieces or locks of alpaca or llama.

(3) *Restrictions on use of certain wools in floor coverings.* No person shall put into process, or cause to be put into process by others for his account any wool other than coarse carpet wool for the manufacture of floor covering.

(4) *Restrictions on use of alpaca, huarizo and llama.* No person shall put into process any No. 1 alpaca fleece from Arequipa, Callao or Tacna, No. 1 skin Alpaca fleece from Arequipa, alpaca seconds or short fleece from Arequipa, Huarizo fleece from Arequipa, or llama fleece from Arequipa, and no person shall use or process any alpaca tops, except for the manufacture of fabrics or yarn to be delivered to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, or in the manufacture of fabrics or yarns to fill orders therefor accompanied by a certificate, signed by the purchaser, or by a person duly authorized to sign in his behalf, in substantially the following form:

> The undersigned hereby certifies to his vendor and to the War Production Board that the yarns or fabrics covered by the annexed purchase order will be used by him in the manufacture of material or equipment to be delivered to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration.

(e) *General exceptions.* The prohibitions and restrictions of this order shall not apply to any person to the extent that such person puts wool into process for the making of wool products entirely by hand, including the spinning, and weaving of the fabrics.

(f) *Prohibition against sales or deliveries.* No person shall hereafter sell or deliver any material to any person if he knows, or has reason to believe, such material is to be used in violation of this order.

(g) *Limitation of inventories.* No person shall receive delivery of wool or products thereof in the form of raw materials, semi-processed wool materials or finished goods containing wool, in quantities which shall result in an inventory of such material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of wool by this order: *Provided, however,* That nothing herein contained shall be deemed to restrict the purchase or delivery of any imported wool to the person importing the same either directly or through an agent or to the person to whom such wool may be sold prior to landing in this country.

(h) *Fair distribution of products.* In making sales or deliveries of wool yarn, fabrics, styles or patterns, no person shall make discriminatory cuts in amounts or quantities in acceptance of orders or deliveries between former customers and new customers who meet such person's regularly established prices and terms, or between former customers, new customers and his own consumption of these products, or any of them.

(i) *Additional allotment of wool for use in certain knitted wear.* (1) In addition to the amount of wool which any person may put into process, or cause to be put into process by others for his account, pursuant to paragraphs (a) and (b) hereof, such person may put wool into process, or cause wool to be put into process by others for his account, for the manufacture of machine knitting yarns suitable for making machine knitted sweaters, shawls, and underwear, *Provided,* That:

(i) All such additional wool shall not exceed 10% of such person's basic quarterly poundage,

(ii) Such person makes such yarns to fill orders placed with him after October 30, 1942, by manufacturers of machine knitted sweaters, shawls or underwear, or by jobbers who deal in machine knitting yarns, and

(iii) Each such order is accompanied by a certificate signed by the purchaser, or by a person duly authorized to sign in his behalf, in substantially the following form:

> The undersigned hereby certifies to his vendor and to the War Production Board that he is entitled under the provisions of paragraph (i) of M–73, as amended for the period August 3, 1942 to January 31, 1943 to purchase machine knitting yarns made from the special allotment of wool granted therein, and that the knitting yarns covered by the annexed purchase order will be put into process by him prior to January 15, 1943, and only in the manufacture of machine knitted sweaters, shawls or underwear, containing not more than 65% wool, or will be put into process by others for his account for such purposes before such date.

For the purpose of the above certificate "put into process" shall mean the first operation on knitting yarn performed by the knitter, such as dyeing, scouring, winding or knitting or otherwise, as the case may be.

(2) The bonus established by paragraph (b) for use of certain types of wool shall be operative with respect to amounts of wool put into process pursuant to subparagraph (1) of this paragraph (i).

(3) Persons putting wool into process for the manufacture of machine knitting yarns pursuant to the provisions of subparagraphs (1) and (2) of this paragraph (i) shall report the amount of wool so put into process in their monthly reports on Form PD–274 under the heading "Special Wool Grant, Series S."

(j) *Miscellaneous provisions*—(1) *Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of wool conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board on the form provided therefor setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and the restrictions contained in this order shall apply to the use of wool put into process on or after August 3, 1942 in all articles hereafter manufactured. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of wool in the production of any article, the limitation of such other order shall be observed.

(4) *Violations.* Any person who wilfully violates any provisions of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Definitions.* For the purposes of this order:

(i) "Wool" means the fiber from the fleece of the sheep or lamb, or the hair of the Cashmere goat or camel or the alpaca, llama, vicuna, and related fibers, including fine carpet wool and coarse carpet wool, but (except for the purposes of paragraph (h)) shall not include noils, waste, reprocessed or reused wool, or yarn or cloth.

(ii) "Fine carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor covering (but which under the terms of this order may only be used for the manufacture of wool products other than floor covering, and other than drapery and upholstery fabrics on nondefense orders) identifiable under the following names: Persian Gulf fleece, New Zealand fleece, Criolla, Joria, and Thibet number one white.

(iii) "Coarse carpet wool" means wool which, under paragraph 1101 of the Tariff Act of 1930, may be imported free of duty for the manufacture of floor covering, not specifically named in subparagraph (ii) above.

(iv) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(v) "Manufacture" means any and all processing on any system beyond the scouring operation, excepting only the carding and combing operations on the worsted system.

(vi) "Put into process" means:

(*a*) On the worsted system, the first process of drawing after combing.

(*b*) On any other system using tops, cut tops or broken tops, the first operation of cutting, breaking, picking or carding as the case may be.

(*c*) On the woolen, felt, or any other system not using tops, the first step after scouring, carbonizing, dusting or similar cleaning or preparatory process.

(vii) "Basic quarterly poundage" for any single system of manufacture shall mean one half of the number of pounds of wool and mohair, either kid or adult, put into process on that system by a person or for his account during the period from December 29, 1940, to June 28, 1941, both inclusive or for the period from January 1, 1941, to June 30, 1941, both inclusive, according to the method of keeping production records maintained by such person during such period. Such poundage shall be determined as follows:

(*a*) On the worsted system or any other system using tops, the weight of tops put into process at 15 percent moisture regain, 3¼ percent of oil and natural fats.

(*b*) On the woolen system, scoured wool, and mohair, either kid or adult, at 12 percent moisture.

(*c*) On the felt or any other system, the weight of wool and mohair, either kid or adult, in the stage immediately preceding putting into process.

(6) *Reports and records.* (i) Each person who puts wool into process shall file with the War Production Board, such reports or forms, setting forth the amount of wool put into process in any period, the yardage of fabrics and/or the amount of yarns produced therefrom and the fiber content of each type thereof, the amount of wool expected to be put into process in any period, the yardage of fabrics and/or the amount of yarns expected to be produced therefrom and the fiber content of each type thereof, and such other information, as the Director General for Operations may prescribe.

(ii) All persons who put wool into process shall keep and preserve such records as will clearly and adequately show their methods and amounts of consumption hereunder.

(7) *Reports and correspondence.* All applications, statements, or other communications filed pursuant to this order or concerning the subject matter hereof should be addressed to the War Production Board, Textile, Clothing and Leather Branch, Washington, D. C. Ref.: M–73.

(k) *Effective date.* This order shall take effect on August 3, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1084—CANNED FOODS

[Supplementary Order M–86–a as Amended Nov. 23, 1942]

Section 1084.2 *Supplementary Order M–86–a* is hereby amended to read as follows:

§ 1084.2 *Supplementary Order M–86–a.* (a) Pursuant to Order M–86, which this order supplements, it is hereby ordered that each canner shall set aside to be delivered for the requirements of government agencies, pursuant to Order M–86, a quota of fruits and vegetables packed by him at any time in the calendar year 1942 or, when specified in Tables II and III, attached hereto, in 1942–3. Such quota of fruits and vegetables shall be of the kinds and in the percentages set forth in Columns A and B of Tables I, II, and III, attached hereto.

If the type, style, or variety of any such fruit or vegetable is described in Column C, such quota shall be in the type, style, and variety described, but other types, styles or varieties shall be substituted to the extent that those specified in Column C are not packed. To the extent that the canner's production of the first preference grade of such fruit or vegetables specified in Column E is sufficient, at least two-thirds of the quota, but preferably the entire quota, shall be set aside from such grade. To the extent that the quantity so set aside does not fill his quota, the canner shall set aside sufficient of his production of the second preference grade, if any, specified in Column F to complete his quota. To the extent that the quantities so set aside out of both first and second preference grades do not fill his quota, the canner shall set aside sufficient of his production of the third preference grade, if any, specified in Column G to complete his quota.

To the extent possible and insofar as compliance with the above grade requirements permits, at least two-thirds of the quota, but preferably the entire quota, shall be set aside in the largest can size specified in Column D. The balance shall be reserved in the next largest can sizes available in the order of preference specified in Column D.

Any canner who is required to set aside canned goods pursuant to this order shall provide himself with the necessary materials to pack such canned goods in export boxes, which may be nailed wooden boxes, weatherproof solid fiber boxes, or wirebound wood boxes, at his option according to specifications attached hereto, except that nailed wooden boxes and weatherproof solid fiber boxes shall not be wired or strapped except as specifically directed by the purchaser.

(b) The report prescribed by paragraph (c) (2) of Order M-86 shall be given on Form PD-343, Seasonal Pack Report. In the case of products listed in Tables II and III, of which the seasonal pack is completed in 1943, the report shall be filed within fifteen days of the completion thereof and shall not be limited to the year 1942 as indicated in the caption of said Form PD-343.

(c) The notice permitted by paragraph (c) (3) of Order M-86 may be given if any goods set aside in compliance with this order have not been purchased within sixty days after the mailing or filing of the report with respect to such goods prescribed by paragraph (c) (2) of said Order M-86.

Issued this 23d day of November 1942.

ERNEST KANZLER,
Director General for Operations.

TABLE I—PRIMARY PRODUCTS

The quota of any product listed in Column A to be set aside by any canner for the Government shall be equal to the percentage shown in Column B applied to his total 1942 pack of that product.

TABLE III—CANNED CITRUS PRODUCTS

The quota to be set aside for Governmental purchase from a canner's production during the quota period of any product listed in Column A shall be computed by applying the percentage in Column B against the canner's total production, by weight, of that product in the base period. The quota period shall be August 1, 1942 to July 31, 1943, in Florida, Texas and Arizona, and December 1, 1942 to November 30, 1943 in California. The base period shall be the corresponding period one year prior to the quota period.

SPECIFICATIONS FOR BOXES

1. *Weatherproof solid fiber boxes.* Weatherproof solid fiber boxes must be of one piece regular slotted construction, metal stitched body joint; construction in accordance with the following table:

Total weight (exclusive of box)	Minimum thickness of board (inch)	Minimum bursting strength (pounds)
Not exceeding 42 lbs.	0.090	325
Over 42 lbs., but not exceeding 65 lbs.	.100	375

Boards shall further comply with the following waterproofing tests: Specimens 6″ x 10″, cut from unscored sections of boxes, shall be completely immersed in water for one hour, after which the component plies must not separate beyond 2″ from the edges of the piece; after total immersion for 2½ hours similar samples must test not less than 50% of the originally specified bursting strength, and must weigh not more than 150% of the weight before immersion.

Bottom flaps shall be metal stitched, to the extent the canner's facilities permit, otherwise bottom flaps shall be securely sealed by gluing over all areas in contact; top flaps shall be sealed by gluing over all areas in contact. The sealed boxes shall be reinforced by two flat or round steel straps each having a joint or knot breaking strength of not less than 290 lbs., applied at right angles (over sides, top, and bottom, and over ends, top, and bottom), toward centers of respective panels, but over points of contact of cans with wall of box. Boxmaker shall print or clearly mark by knurled impressions which do not impair the strength of the board, approximately ⅜″ wide, to indicate the position of the strapping, and shall print a guarantee of compliance with this specification.

2. *Wirebound wood boxes.* Shall comply with Federal Specification NN-B-631a, except as follows: Styles 1, 2, or 3 boxes, or boxes with twisted loop closures, may be used. Veneer or sawed boards, of the following thicknesses, shall be used:

Total weight (exclusive of box)	Minimum thickness of sides, top, bottom, ends, and liners		
	Group I woods (see note I) (inch)	Group II and group III woods (inch)	Group IV woods (inch)
Not exceeding 55 lbs.	3/16	1/7	1/8
Over 55 lbs, but not exceeding 85 lbs.	1/4	1/6	1/7
Over 85 lbs., but not exceeding 125 lbs.	5/16	3/16	1/6

NOTE 1: The following species of Group I may be of the same thickness permitted for Group II or III woods for sides, top, bottom, end and liners only: Cottonwood, Cypress, Magnolia, Noble Fir and Spruce.

Cleats shall not be less than 13/16″ x 13/16″ and shall be made of Group II, III or IV woods.

Binding wires shall be not less than No. 15 gauge (.072″ diameter). Girth wires shall be spaced not more than 6″ apart. End wires on Style No. 3 boxes shall be spaced not more than 6″ from cleats or from each other.

Style No. 3 boxes shall have 2 edge lines, not less than 1⅛″ wide attached to each end perpendicular to (across) the grain of the end boards.

Boxes shall be printed with the name and address of the manufacturer and a guarantee of compliance with this Specification.

3. *Nailed wooden boxes.* Boxes shall be made of new materials and of good commercial quality. All boxes shall be made of seasoned lumber having a moisture content not to exceed 18%. The pieces shall show no defects that materially weaken them, expose the contents of the box to damage or interfere with nailing. No knot or knot hole shall have a diameter exceeding one-third the width of the piece. Surfaces of box parts shall be sufficiently smooth to permit legible stenciling and shall not be splintery. Boxes for weights not exceeding 75 lbs. shall be Style 1, Federal Specification NN-B-621a. Boxes for weights exceeding 75 lbs. shall be Style 5 with triangular cleats for round or oval cans and Style 4 for square and oblong cans.

(Thickness of parts of boxes)

Total weight (exclusive of box)	Minimum finished thickness of ends		Minimum finished thickness of sides, tops, and bottoms	
	Group I or II woods (inch)	Group III or IV woods (inch)	Group I or II woods (inch)	Group III or IV woods (inch)
Not exceeding 55 lbs.	5/8	9/16	9/32	1/4
Over 55 lbs., but not exceeding 75 lbs.	3/4	11/16	11/32	5/16
Over 75 lbs., but not exceeding 100 lbs.	3/4	11/16	11/32	5/16

Each side, top and bottom shall be nailed to each end piece with not less than four six-penny cement coated box nails for Groups I and II woods, or four five-penny cement coated box nails for Groups III and IV woods, spaced not more than three inches apart.

Boxes shall be sized to allow approximately one-eighth inch over exact length, width and height of contents.

The nailed boxes shall be reinforced by two flat or round steel straps, each having a joint or knot breaking strength of not less than 290 lbs., applied over sides, top, and bottom, approximately ⅙ the distance from each end of box.

PART 1084—CANNED FOODS

[Conservation Order M-237, as Amended November 23, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the available supply of canned fruits and vegetables for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1084.15 *Conservation Order M–237*—(a) *Definitions*. For the purposes of this order:

(1) "Canner" shall mean any person engaged in the business of canning foods in hermetically sealed metal or glass containers and sterilizing the same by the use of heat.

(2) "Civilian pack" shall mean the total amount by weight of all grades of all restricted canned foods in any one of the three groups listed in Exhibit A canned by any canner during the season specified, excluding any food which the canner is required to set aside by Conservation Order M–86 and orders amendatory and supplementary thereto, and which is not released from the operation of such orders by the Director General for Operations, and also excluding any canned foods actually purchased by or contracted for, or packed pursuant to duly authorized letter of intent issued by, any non-quota purchaser. This definition shall not be deemed to affect or change the meaning of the term "pack" as used in Conservation Order M–81, wherein such term refers to area of tinplate or terneplate, nor to affect or change the meaning of the term in Conservation Order M–86.

(3) "Restricted canned foods" shall mean any of the fruits and vegetables listed in Exhibit A attached hereto, packed in hermetically sealed metal or glass containers and sterilized by the use of heat, during the packing seasons indicated in said exhibit, excluding, however, liquid, strained, mashed or chopped canned foods, when packed as infant food or for invalid feeding, and excluding jams, jellies, preserves, marmalades, pickles, relishes, and soups.

(4) "Non-quota purchaser" shall mean:

(i) The Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the Defense Supplies Corporation, War Shipping Administration or any agency of the United States Government for supplies to be delivered to, or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(ii) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in the foreign, coastwise, or intercoastal trade, for necessary supplies for such vessels.

(iii) Any person who furnishes eating facilities for members of the armed forces pursuant to contract therefor with the United States, for necessary supplies for such purpose, if such person furnishes copies of his contract to the canner, or other adequate evidence that such restricted canned foods are required for such use.

(iv) Any person who purchases restricted canned foods for delivery in any territory or possession of the United States, if such person furnishes to the canner copies of purchase orders or other adequate proof that the restricted canned foods actually were purchased for delivery in any such territory or possession: *Provided*, That proof shall not be required of a government agency.

(v) Any person who purchases restricted canned foods for use in the commercial manufacture of food products, to the extent of his current requirements (grape juice, tomato pulp in 5 gallon cans, tomato paste in #10 cans, and peppers, only).

(vi) Any person who purchases restricted canned foods from a canner for resale to a non-quota purchaser, or to replace in his inventory material delivered to a non-quota purchaser, to the extent of his purchases for such purposes, if he furnishes to the canner copies of purchase orders or other adequate proof that such resales or deliveries were to non-quota purchasers

(5) "Wholesale receiver" means any person other than a non-quota purchaser (regardless of whether or not he is also a canner) who since June 30, 1942, bought in excess of 4,000 cases of any group of restricted canned foods for any purpose.

(b) *Restrictions on delivery*. (1) Without regard to existing contracts, and except as authorized in this paragraph and in paragraphs (b) (2), (3), (4), and (5) below, no canner shall deliver more than 35% of his civilian pack of any group of canned foods listed in Exhibit A before December 1, 1942, nor more than 70% thereof before April 1, 1943. Deliveries already made on or before September 26, 1942 shall not be deemed in violation of this paragraph, but shall be charged first against the 35% permitted before December 1, 1942, and if in excess of 35%, against subsequent delivery quotas in their chronological order. No delivery to a non-quota purchaser shall be deemed in violation of this paragraph, notwithstanding that it may reduce a canner's permitted delivery quota for any period below his prior actual deliveries during that period, but any such excess shall be charged against the canner's quota for the ensuing period. For the purpose of calculating the delivery quotas permitted by this paragraph all canning plants owned directly or indirectly by a single person may be regarded at the canner's election either separately as single units or as a whole, but such election, once made, must be adhered to for all the purposes of this order.

(2) Notwithstanding paragraph (b) (1), but subject to paragraph (b) (3), any canner may deliver, and any person (except a wholesale receiver prohibited from accepting delivery by paragraph (b) (4)) may accept delivery from a canner, of any restricted canned foods, in advance of the permitted delivery date for such foods, if the canner notifies the purchaser in writing of the permitted delivery date of such restricted canned foods, and if such purchaser certifies in writing that he will not deliver, transport, or use such restricted canned foods in advance of the permitted delivery date. Such certificate shall be provided to the canner and a copy filed with the War Production Board, and it shall be in substantially the following form:

> Pursuant to paragraph (b) (1) of Order M–237, with the terms of which order the undersigned is familiar, we have this day accepted delivery of ____________, (describe merchandise) from ________________________
>
> (canner)
>
> We understand that we are not permitted to deliver, transport, or use such merchandise until ____________, 19__, as it is part of the pack which ______________________ (canner) was required to hold until that date.
>
> ____________________
>
> (Purchaser)
>
> By ____________________
>
> (Duly authorized official)

No person who accepts delivery of any restricted canned foods with knowledge or reason to believe that such foods are delivered in advance of their permitted delivery date may deliver, transport, or use such foods in advance of such date.

(3) The restrictions on delivery in paragraph (b) (1) do not prohibit shipment for storage at the point of destination or in transit in advance of the permitted delivery date, provided that possession and control do not pass to the purchaser. The 30% which may not be delivered before April 1, 1943 must be stored at or near the canner's plant until the time when such delivery is permitted. If any canner or person accepting delivery from a canner pursuant to paragraph (b) (2) is unable to store any part of the canner's pack in a heated warehouse at or near his plant, he may so notify the War Production Board in writing and unless he receives instructions to the contrary within two weeks after the date of such notice, he shall not be required to hold such part of the pack at or near such plant.

(4) Any wholesale receiver who between August 1, 1942, and April 1, 1943, has accepted or shall have accepted delivery of restricted canned foods of any group equaling or exceeding the following percentage of his base figure

	Percent
for group I	70
for group II	80
for group III	80

shall not sell, deliver, or use such excess of such group, and shall not accept delivery of any further restricted canned foods of such group. The base figure for each wholesale receiver for each group shall be, at his option, either the total of his acceptances of delivery, or of his sales, between January 1, 1942, and August 31, 1942, of all canned foods listed in such group, whenever packed. Canned foods for resale to non-quota purchasers or to replace in the wholesale receiver's inventory material so sold are subject to the limitations of this subparagraph unless evidence is furnished to the canner as prescribed in paragraph (a) (4) (vi). Notwithstanding this subparagraph, a wholesale receiver may accept delivery from a canner in excess of his quota in advance of the canner's permitted delivery date, as permitted in paragraph (b) (2), whenever the canner's permitted delivery date is not earlier than April 1, 1943. The restrictions of this paragraph (b) (4) shall expire on April 1, 1943, unless extended by further order of the Director General for Operations.

(5) Any canner may deliver not to exceed 80% of his pack of apple juice, cranberries, pumpkin, and squash, at any time prior to April 1, 1943, notwithstanding the limitations of paragraph (b) (1), without charge against his quotas for other restricted canned foods.

(6) No wholesale receiver may deliver during the month of November, 1942, and during each of the following months more restricted canned foods of any group than monthly quotas constituting the following percentages of his base figure.

	Percent
For group I	9
For group II	10
For group III	10

The base figure shall be calculated as prescribed in paragraph (b) (4). If during November, 1942 any wholesale receiver has delivered restricted canned foods of any group in excess of his permitted monthly quota for that group, he shall charge such excess against his quotas for December and January. Not less than 50% of such excess must be charged against the December quota. Deliveries to non-quota purchasers are not required to be charged against the monthly quota percentages prescribed by this paragraph (b) (6), if in calculating his quotas the wholesale receiver deducts deliveries to non-quota purchasers during the base period from the base figure. The restrictions of this paragraph (b) (6) shall expire on April 1, 1943, unless extended by further order of the Director General for Operations.

(c) *Reports*. Canners to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board may from time to time request.

(d) *Records*. Every person to whom this order applies shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection*. All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Violations*. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Appeals*. Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal in writing to the Director General for Operations setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board*. All reports required to be filed hereunder and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Food Branch, Washington, D. C., Ref: M–237.

(i) *Applicability of priorities regulations*. This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024; 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 23d day of November 1942.

ERNEST KANZLER,
Director General for Operations.

Chapter XI—Office of Price Administration

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Ration Order 12]

COFFEE RATIONING REGULATIONS

Preamble. Interruptions in ocean communications and the use of available shipping space to carry materials important to the prosecution of the war have resulted in a recent sharp decline in coffee imports. The supply of coffee in the United States, which depends virtually in its entirety upon ocean-going transportation, has, therefore, suffered to such an extent that it is insufficient to satisfy normal demands. In addition, the tremendous purchases and consumption of coffee by the armed forces has depleted the coffee supply that would normally be available for civilian consumption.

Coffee has become an important drink to practically the entire adult population of this country. It is important, therefore, to take steps to insure the orderly distribution of coffee so that each person may obtain his share of the coffee available for distribution. The War Production Board has accordingly directed the Office of Price Administration to ration coffee. Ration Order No. 12 is issued pursuant to that directive.

Because the supply of coffee is inadequate to provide the entire population with coffee in amounts sufficient to satisfy normal demands and because the youngest members of the community are those who would suffer least from being deprived of coffee, no coffee ration is being provided for children fourteen years old and younger. No one will be allowed to obtain coffee with the coffee stamps contained in such children's war ration books.

In order to allow retailers and wholesalers of coffee to build up their stocks of roasted coffee, coffee cannot be sold to consumers during the period from November 22, 1942, to November 28, 1942, inclusive. Certain stamps contained in War Ration Book One will be designated as coffee stamps and will enable consumers to acquire their coffee rations. Consumers will not, however, be allowed to buy green coffee even with coffee stamps.

In order to assure that dealers will have available sufficient coffee to satisfy consumers' rations, provisions are made for allowing retailers and wholesalers working inventories which they will be able to replenish through use of the same coffee stamps.

Roasters and persons dealing in green coffee will be able to buy green coffee without the use of coffee stamps or certificates. Roasters, however, must have on hand stamps or certificates equal in weight value to the coffee roasted and sold by them.

Institutions will receive bimonthly allotment certificates at their local war price and rationing boards.

To provide information necessary to the proper administration and enforcement of this rationing program, all members of the trade are required to take an initial inventory, to keep certain records, and to make certain reports.

Accordingly, pursuant to the authority vested in the Administrator by Executive Order No. 9125, issued by the President on April 7, 1942, and Directive No. 1 and Supplementary Directive No. 1–R[1] of the War Production Board, issued on January 24 and November 20, 1942, respectively, *It is hereby ordered*, That:

AUTHORITY: §§ 1407.951 to 1407.1092, inclusive, issued pursuant to Pub. Law 671, 76th Congress, as amended by Pub. Laws 89, 507, 421, and 729, 77th Congress; W.P.B. Dir. No. 1, Supp. Dir. No. 1–R, 7 F.R. 562, *supra*.

SCOPE OF RATION ORDER NO. 12

§ 1407.951 *Territorial limitation.* Ration Order No. 12 shall apply within the 48 States of the United States and within the District of Columbia.

DEFINITIONS

§ 1407.952 *Definitions.* When used in Ration Order No. 12 the term:

(a) "Acquire" means to accept a transfer or otherwise obtain possession of, title to, or any interest in coffee.

(b) "Beverage," unless otherwise indicated by the context, means the drink commonly known as "coffee."

(c) "Board" means a war price and rationing board or, if the context so indicates, the specific war price and rationing board having jurisdiction over specific persons or establishments.

(d) "Certificate" means a coffee purchase certificate. A coffee purchase certificate shall consist of O.P.A. Form R–306 with the word "sugar" stricken wherever it appears thereon, with the words "coffee in the amount of" inserted on the line in such form provided for insertion of amount, and with the words "Rationing Order No. 3 (Sugar)" stricken from the following line.

(e) "Coffee" means green or roasted coffee, packaged or unpackaged, bean or ground, and includes any substitute or substance, including but not limited to chicory, cereal, peas, or beans when mixed, blended, or compounded with coffee. When modified by the word "green" or "roasted," the term "coffee" shall denote only the kind of coffee indicated. "Coffee" does not include soluble or liquid extract coffee or similar products processed or manufactured in whole or in part from coffee but does include coffee from which all or part of the caffeine has been removed.

(f) "Coffee stamps" means stamps numbered 20 to 28, inclusive.

(g) "Compounder" means a person, other than a consumer, a registering unit, or an industrial user, who mixes or blends coffee with any substitute or substance including but not limited to chicory, cereal, peas, or beans for the purpose of transfer.

(h) "Consumer" means any individual acquiring or seeking to acquire coffee for personal use, who has obtained a war ration book pursuant to Rationing Order No. 3 or Ration Order No. 12, and whose age, as entered in said war ration book, is 15 years or over.

(i) "Establishment" means the business or operation subject to Ration Order No. 12, conducted at or from a particular location. Each shipping point from which one or more car, wagon, or other house-to-house routes originate shall be deemed a separate establishment.

(j) "Family unit" means a group of two or more individuals, consisting of all persons customarily living together in the same household (including persons temporarily absent therefrom) who are related by blood, marriage, or adoption.

(k) "Industrial establishment" means an establishment which uses coffee in the production, manufacture, or processing of soluble coffee or any product other than coffee. It does not include an establishment which only blends, mixes, or compounds coffee with substitutes or substances including but not limited to chicory, cereal, beans, or peas, or which brews coffee to make beverages. A person owning an industrial establishment is, with respect to the ownership and operation of such establishment, an industrial user.

(l) "Institutional establishment" means an establishment which uses roasted coffee in the preparation of a beverage.

(m) "Person" means any individual, corporation, partnership, association, or business trust, and includes the United States or any agency thereof, and any State or any political subdivision or agency thereof, and any other government or agency thereof.

(n) "Purchase warrant" means a statement prepared and signed by a retailer or wholesaler for the purpose of acquiring roasted coffee and certifying to the authority of the retailer or wholesaler to acquire, under Ration Order No. 12, roasted coffee in the amount stated thereon.

(o) "Ration period" means the period designated by the Office of Price Administration during which a coffee stamp shall be valid for use by a consumer.

(p) "Registering unit" means the institutional establishment or group of institutional establishments selected by the owner thereof to be treated as a single unit for the purposes of Ration Order No. 12 and which is so registered by him. A person owning a registering unit is, with respect to the ownership and operation thereof, an institutional user.

(q) "Retail establishment" means an establishment engaged in a business involving the transfer of roasted coffee which makes at least 50 per cent of its transfers of all merchandise to consumers. A person owning one or more retail establishments is, with respect to the ownership and operation thereof, a retailer.

(r) "Roaster" means a person who roasts green coffee owned by him or has green coffee supplied by him roasted for his account on a fee or similar basis by some other person. Whenever in Ration Order No. 12 reference is made to green coffee roasted by a person it shall include green coffee supplied by such person but roasted for his account on a fee or similar basis by some other person and shall not be included by such other person as green coffee roasted by him.

(s) "Stamp" means a war ration stamp originally contained in a war ration book.

(t) "Transfer" means sell, lease, lend, trade, give, ship, deliver, or transfer, in any way, the ownership or possession of coffee or any interest therein from one establishment or person to another establishment or person. It includes diverting to consumer use coffee held for sale or transfer whether or not a change in ownership or possession results.

(u) "War ration book" means War Ration Book One (O.P.A. Form R–302).

(v) "Weight value" means the amount of coffee authorized to be transferred by a certificate, coffee stamp, or purchase warrant.

(w) "Wholesale establishment" means an establishment engaged in a business involving the transfer of roasted coffee which makes over 50 per cent of its transfers of all merchandise to other establishments or to persons other than consumers. A person owning one or more wholesale establishments is, with respect to the ownership and operation thereof, a wholesaler.

JURISDICTION

§ 1407.953 *Jurisdiction of boards.* For the purposes of Ration Order No. 12 each board shall have jurisdiction over each consumer and registering unit registered with it, and over each retailer, wholesaler, and industrial user whose principal business office is located within the area assigned to the board.

RESTRICTION OF TRANSFERS

§ 1407.954 *Restriction of transfers.* Notwithstanding the terms of any contract, agreement, or commitment, regardless of when made, no person shall on or after November 22, 1942, transfer or acquire coffee except in accordance with Ration Order No. 12.

§ 1407.955 *Transfers to consumers between November 22 and 28, 1942, prohibited.* From November 22, 1942, to November 28, 1942, inclusive, no person shall transfer coffee to a consumer.

§ 1407.956 *Transfer of roasted coffee must be accompanied by surrender of coffee stamps or certificates.* Except as otherwise provided in Ration Order No. 12, a transfer of roasted coffee shall be made only upon surrender of appropriate coffee stamps or certificates authorizing such transfer.

§ 1407.957 *Transfer of coffee prohibited to individuals less than 15 years old.* No person shall transfer coffee against or acquire coffee with a coffee stamp in or from the war ration book of an individual whose age, as entered in said war ration book, is less than 15 years.

§ 1407.958 *Restriction on transfer of green coffee.* Except as otherwise provided in Ration Order No. 12, no person shall, on or after November 22, 1942, transfer green coffee to any other person unless such other person is a roaster or is and was prior to November 22, 1942, engaged in a business or operation involving dealing in green coffee.

§ 1407.959 *Transfer of green coffee to consumers prohibited.* Notwithstanding anything contained in Ration Order No. 12, no person shall on or after November 22, 1942, transfer green coffee to a consumer.

§ 1407.960 *Restriction on transfers of roasted coffee by roasters.* (a) No roaster shall, during January 1943 or during any month thereafter, transfer more roasted coffee roasted by him than 75 per cent of the amount of such roasted coffee transferred by him during the corresponding month of 1941.

(b) In computing, for the purposes of paragraph (a) of this section, the amount of roasted coffee transferred, the weight of substitutes or substances, including but not limited to chicory, cereal, beans, or peas, mixed, compounded, or blended with such roasted coffee by the transferor, shall be deducted from the weight of such roasted coffee.

§ 1407.961 *Restriction on transfers or acquisitions in excess of War Production Board suspension orders.* No person against whom the War Production Board has issued or issues any suspension or similar order limiting the amount of coffee such person may acquire or transfer shall, on or after November 22, 1942, acquire or transfer any coffee in excess of the amount permitted by such order.

CONSUMERS

§ 1407.970 *Individuals not possessing War Ration Books.* (a) Any individual who registered as a consumer pursuant to Rationing Order No. 3, who was 15 years old or older at the time of such registration, and who either (1) did not obtain a war ration book by virtue of the provisions of Rationing Order No. 3 or (2) surrendered his war ration book thereafter to the board pursuant to Rationing Order No. 3, may, upon applying therefor to the board on or before December 15, 1942, receive a war ration book containing stamps Nos. 17 to 28, inclusive, together with any other stamps to which such individual may be entitled pursuant to Rationing Order No. 3: *Provided, however,* That coffee stamps for any ration periods which have expired shall be detached from such war ration book.

(b) Any individual 15 years old or older who has not registered and applied for a war ration book in accordance with Rationing Order No. 3 and who is entitled to register pursuant to § 1407.68 of Rationing Order No. 3 may register pursuant thereto and apply for a war ration book. The board shall issue a war ration book to such an individual containing stamps Nos. 17 to 28, inclusive, together with any other stamps to which he may be entitled pursuant to Rationing Order No. 3: *Provided,* That coffee stamps for any ration periods which have expired shall be detached from such war ration book.

(c) A consumer whose war ration book does not contain stamps other than stamps Nos. 17 to 28, and who under the provisions of Rationing Order No. 3 subsequently becomes entitled to any stamps numbered 16 or less may exchange his war ration book at the board for a new war ration book. Before issuing the new war ration book, the board shall detach all stamps required to be detached by Rationing Order No. 3, the coffee stamps for any ration periods which have expired, and the coffee stamps corresponding to any coffee stamp which had been removed from the surrendered war ration book.

§ 1407.971 *Consumers eating regularly at same establishment.* (a) A consumer who has arranged or arranges to eat 14 or more meals per week in an establishment registered as an institutional user shall, if he has not already done so pursuant to Rationing Order No. 3, surrender his war ration book to the owner or manager of the establishment at or before the time he eats the first of such meals. The owner or manager of the establishment with which such arrangement is made shall secure the surrender of the war ration book at such time. The war ration book shall be returned to the consumer when he ceases to eat 14 or more meals per week at the establishment. At the time of the return the owner or manager shall detach and destroy the coffee stamps for the ration periods that expired while such arrangement existed.

(b) Consumption by a consumer of 14 or more meals in any seven successive days at the same institutional establishment shall establish prima facie that such meals were consumed pursuant to arrangement between the consumer and such establishment.

(c) Notwithstanding the provisions of this section, the war ration book shall be returned to the consumer temporarily for use in purchasing any product other than a food product for which a stamp may have been designated as valid by the Office of Price Administration.

§ 1407.972 *Consumers handicapped by transportation difficulties.* A consumer t whom a war ration book has been issued and who, because of transportation difficulties, finds it a hardship to acquire roasted coffee at the times specified in § 1407.1091, may apply to the board for a certificate having a weight value not in excess of five pounds. The application shall be made to the board by the consumer personally, by an authorized agent, or by any other person authorized by Rationing Order No. 3 to register for him. The board, in its discretion, may grant the application in whole or in part. Before issuing a certificate in such a case, the board shall detach from the war ration book of the consumer coffee stamps having a weight value equal to the amount for which the certificate is issued.

§ 1407.973 *Army, Navy, Marine Corps, and Coast Guard personnel on furlough.* A member of the Army, Navy, Marine Corps, or Coast Guard who is on furlough for at least seven days, may apply to a board for a certificate for one pound of coffee. Not more than one such certificate may be issued to the same person in any ration period. When issuing such a certificate, the board shall enter on the leave papers its designation, a statement that it has issued a certificate, and the date of issuance.

§ 1407.974 *Issuance of certificates by Army, Navy, Marine Corps, or Coast Guard.* Whenever the Army, Navy, Marine Corps or Coast Guard shall require roasted coffee from any person, an officer authorized by the Army, Navy, Marine Corps, or Coast Guard shall issue a certificate in such weight value as may be required.

§ 1407.975 *Restriction on use of coffee stamps.* (a) A consumer who on November 28, 1942, owns or possesses more than one pound of coffee shall retain in his possession one coffee stamp for each pound of coffee he owns or possesses in excess of one pound. The consumer shall surrender such coffee stamps to the Board when so ordered by the Office of Price Administration.

(b) For the purposes of this section, a consumer shall be considered as owning and possessing his per capita share of the coffee owned or possessed by the family unit of which he is a member or by any member thereof. In determining the per capita share of a consumer who is a member of a family unit, shares shall not be computed for members of such family units whose ages, as entered in their war ration books, are below 15 years.

RETAILERS AND WHOLESALERS

§ 1407.980 *Allowable inventory of coffee.* Every retailer and wholesaler is permitted a working inventory of coffee which shall be known as his allowable inventory.

§ 1407.981 *Allowable inventory of certain single-establishment, non-roasting retailers.* (a) The allowable inventory of a person owning one retail establishment only, not engaged in roasting coffee, which commenced operations on or before September 1, 1942, and which transferred during September 1942 less than 2,000 pounds of roasted coffee, shall be one pound of roasted coffee for each ten dollars, or fraction thereof, of gross sales of all meats, groceries, fruits, vegetables, and similar products made from such establishment during September 1942. The gross sales of a person owning one retail establishment only, not engaged in roasting coffee, which commenced operations after September 1, 1942, shall be computed by multiplying by 26 its average daily gross sales of meats, groceries, fruits, vegetables, and similar products between September 2 and November 22, 1942, and the allowable inventory of such person shall be one pound of roasted coffee for each ten dollars, or fraction thereof, of gross sales so computed. If such establishment is one of two or more departments located within one building and holding themselves out to the public as a single operation, such gross sales may include the sales made by all such departments regardless of their ownership.

(b) For the purposes of this section, average daily gross sales shall be determined by dividing the total gross sales made from the establishment by the number of days on which said establishment was open for business during the period for which the average daily gross sales are being determined.

§ 1407.982 *Allowable inventory of retailers not included in § 1407.981 and wholesalers.* (a) The allowable inventory of a person owning a single retail establishment not referred to in § 1407.981 or two or more retail establishments or one or more wholesale establishments, all of which commenced operations on or before September 1, 1942, shall be an amount equal to the sum of (1) the amount of roasted coffee, acquired by such owner as roasted coffee, and transferred during September 1942 by such owner to another person; and (2) three times the amount of roasted coffee roasted by said owner, transferred during September 1942 to another person.

(b) The allowable inventory of a person owning a single retail establishment not referred to in § 1407.981 or two or more retail establishments or one or more wholesale establishments, none of which was in operation on or before September 1, 1942, shall be computed by determining for each such establishment the sum of (1) the average daily quantity of roasted coffee, acquired by the owner of such establishment as roasted coffee, and transferred by such establishment, during the period between September 2 and November 22, 1942, to any person other than the owner of the establishment, and (2) three times the average daily quantity of roasted coffee, roasted by the owner of the establishment, transferred by such establishment, during the period between September 2 and November 22, 1942, to any person other than the owner of the establishment; by adding such sums for all the establishments owned by said person; and by multiplying the figure thus obtained by 26. For the purposes of this section, average daily quantities shall be determined by dividing the amount of roasted coffee transferred by an establishment during the period between September 2 and November 22, 1942, by the number of days on which said establishment was open for business during said period.

(c) A person owning two or more retail establishments or two or more wholesale establishments, some, but not all, of which commenced operations on or before September 1, 1942, shall compute his allowable inventory by treating, for the purpose of this Section only, those establishments which commenced operation on or before September 1, 1942, as if they were owned by one person and all other establishments as if they were owned by another person and by adding the two results thus obtained.

(d) A person owning retail and wholesale establishments shall compute his allowable inventory by treating, for the purposes of paragraphs (a), (b), and (c) of this section, all his retail establishments as if they were owned by one person and all his wholesale establishments as if they were owned by another person and by adding the two results thus obtained.

§ 1407.983 *Compounded coffee in allowable inventory computation.* In computing, for the purposes of §§ 1407.981 and 1407.982, the amount of roasted coffee transferred, the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, compounded, mixed, or blended with such coffee by the transferor shall be deducted from the weight of such roasted coffee.

§ 1407.984 *Initial inventory.* (a) The initial inventory of a retailer or wholesaler shall include all green and roasted coffee located within the continental United States (the 48 States of the United States and the District of Columbia) to which, at midnight, November 21, 1942, he has title or holds documents of title. He shall be deemed to have title to coffee: (1) in transit or stored for delivery to him and out of the possession of the vendor prior to November 22, 1942; (2) held by him on consignment or on any similar basis; (3) mortgaged, pledged, or otherwise used by him as security in a credit transaction; or (4) in the possession of his vendor if such coffee has been paid for and physically segregated and earmarked by the vendor for delivery to him.

(b) In computing his initial inventory, the retailer or wholesaler shall deduct from the weight of the coffee included in such inventory the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, blended, compounded, or mixed by said retailer or wholesaler with said coffee.

§ 1407.985 *Excess inventory.* The amount of coffee by which the initial inventory of a retailer or wholesaler exceeds the allowable inventory, shall be known as the "excess inventory". A retailer or wholesaler who has an excess inventory of coffee shall, before he may acquire any coffee upon the surrender of coffee stamps or certificates, surrender to the board for cancellation coffee stamps or certificates in weight value equal to the amount of his excess inventory: *Provided, however,* That such retailer or wholesaler may, before surrendering such coffee stamps or certificates to the board for cancellation, acquire roasted coffee through the issuance of purchase warrants pursuant to §§ 1407.986 to 1407.988, inclusive. In no event shall a retailer or wholesaler acquire any coffee after January 31, 1943, unless he has surrendered to the board for cancellation coffee stamps or certificates in weight value equal to the amount of his excess inventory.

§ 1407.986 *Issuance of purchase warrants.* Between November 22, 1942, and December 5, 1942, inclusive, a retailer or wholesaler may, in order to acquire roasted coffee, issue purchase warrants in an aggregate weight value not in excess of any amount by which his allowable inventory exceeds his initial inventory of coffee.

§ 1407.987 *Form of purchase warrants.* Purchase warrants shall be in the following form:

Purchase warrant issued to______________
Name of Supplier

I hereby certify to the Office of Price Administration that I am authorized, pursuant to the provisions of Ration Order No. 12 (Coffee Rationing Regulations) to acquire ____________ pounds of coffee.

____
Corporation or firm name
By _________________________
____
Address
Date: ___________________, 1942.

§ 1407.988 *Transfers upon purchase warrants.* (a) Any retailer or wholesaler who, on or before December 12, 1942, receives a purchase warrant from any person authorized to issue such purchase warrant is authorized to transfer roasted coffee to such person in an amount equal to the weight value of the purchase warrant.

(b) A person receiving purchase warrants and transferring roasted coffee pursuant thereto may himself on or before December 12, 1942, in addition to purchase warrants issued by him pursuant to § 1407.986, issue purchase warrants having a weight value equal to the amount of roasted coffee transferred by him pursuant to purchase warrants received by him, for the purpose of obtaining from his suppliers roasted coffee to replace the roasted coffee thus transferred by him.

(c) After December 26, 1942, no person shall transfer roasted coffee on the authority of a purchase warrant.

(d) Every person receiving purchase warrants shall maintain a file thereof at his principal business office for delivery to the Office of Price Administration upon demand therefor. Such file shall be maintained in alphabetical order according to the names of the persons from whom the purchase warrants were received.

§ 1407.989 *Replenishment of allowable inventory.* Except as otherwise provided in Ration Order No. 12, on and after November 22, 1942, the allowable inventory of a retailer or wholesaler may be replenished with roasted coffee only upon the surrender by such person of coffee stamps or certificates.

§ 1407.990 *Compounders of coffee; reports.* (a) On and after November 22, 1942, no person, other than a consumer or an institutional user, shall blend, compound, or mix coffee with substitutes or substances, including but not limited to chicory, cereal, peas, or beans, unless he shall first notify the Office of Price Administration, Washington, D. C., of his intention to engage in such practice.

(b) Every compounder shall maintain records showing the amounts of substitutes or substances, including but not limited to chicory, cereal, peas, or beans, blended, compounded, or mixed by him with coffee transferred by him during each month and, beginning in January 1943, shall, between the first and fifth days of each month, surrender to the Office of Price Administration, Washington, D. C., coffee stamps or certificates in weight value equal to the weight of the substitutes or other substances blended, compounded, or mixed by him with the coffee transferred by him during the preceding month. Such person shall, at the same time, send to the Office of Price Administration, Washington, D. C., a report stating (1) the amount of substitutes and substances, including but not limited to chicory, cereal, peas, or beans, blended, compounded, or mixed by him with coffee transferred during the preceding month and (2) the total weight of such coffee (including the weight of the substitutes and substances referred to in (1)) transferred during the preceding month. The report made in January 1943 shall include the required information for the period from November 22 to December 31, 1942.

§ 1407.991 *Transfer of coffee to certain exempt persons.* (a) Any person who requires roasted coffee for the purpose of transfer to any person specified in paragraph (c) (1) or (c) (2) of this section pursuant to a written contract with such person may apply in writing to the board for certificates authorizing the acquisition of the quantity of roasted coffee so required. Such application shall include or be accompanied by a statement of the date of contract, the number or other designation of the contract, and the quantity of roasted coffee required in order to perform the contract. Such roasted coffee shall be used only for the purpose of performing the contract.

(b) Any retailer or wholesaler who on or after November 22, 1942, transfers roasted coffee to any of the persons and for the purposes specified in paragraph (c) of this section, without receiving coffee stamps or certificates therefor, may, if he has not obtained a certificate with respect thereto pursuant to paragraph (a) of this section, apply in writing to the board for certificates authorizing the acquisition of an equivalent amount of roasted coffee.

(c) The persons and purposes included within the provisions of this section are the following:

(1) Any agency of the United States or foreign government for export to any foreign country.

(2) The United States Maritime Commission and the War Shipping Administration.

(3) Any person for transfer to any territory or possession of the United States other than the District of Columbia.

(4) Any person operating an ocean-going vessel engaged in the transportation of cargo or passengers in foreign, coastwise, or intercoastal trade, as ships' stores for consumption aboard such vessel.

(d) Application for a certificate pursuant to paragraph (b) of this section shall include or be accompanied by:

(1) In the case of a transfer to a person specified in paragraph (c) (1) or (c) (2) of this section, a certification signed by such person or his authorized agent or employee setting forth the name and address of the person, the name and address of the transferor, the date of transfer, and the quantity of roasted coffee transferred.

(2) In the case of a transfer to a person specified in paragraph (c) (3) of this section, a copy of the bill of lading under which the roasted coffee was shipped or a shipper's export declaration bearing a notation of an authorized customs official to the effect that to the best of his knowledge and belief the amount of roasted coffee therein stated has been exported by such person.

(3) In the case of a transfer to a person specified in paragraph (c) (4) of this section, a statement signed by the Collector of Customs or his deputy, certifying that such roasted coffee was delivered as ships' stores.

(e) The certifications and statements which are referred to in paragraph (d) of this section may be in any convenient form and do not require verification or acknowledgment.

INSTITUTIONAL USERS

§ 1407.995 *Registration.* (a) Every person owning one or more institutional establishments shall on November 23, 24, or 25, 1942, or on such other date or dates as the Office of Price Administration may designate, register all such institutional establishments at the board as one or more registering units. Each such registering unit shall consist of the institutional establishment or establishments selected by the owner thereof to be treated as such single unit: *Provided, however,* That institutional establishments registered on November 22, 1942, pursuant to Rationing Order No. 3 shall be registered in identical registering units under Ration Order No. 12.

(b) The registration of institutional establishments registered under Rationing Order No. 3 shall be made on the reverse side of the O. P. A. Form R–310 filed for such institutional establishments in connection with their registration under Rationing Order No. 3. The registration of institutional establishments not registered under Rationing Order No. 3 shall be made on O. P. A. Form R–310, but only items numbered one to six, inclusive, on the front of such form shall be completed.

(c) If the registering unit is composed of more than one institutional establishment there shall be attached to the registration form a list of the institutional establishments included, with the address of each, unless such registering unit is identical with the registering unit registered under Rationing Order No. 3; *Provided, however,* That a registering unit composed of institutional establishments located on mobile conveyances, including vessels and airplanes, need not list such mobile conveyances.

(d) The registering unit shall state the following information on the registration form or, at the option of the registering unit, on a separate sheet of paper to be attached thereto and containing the name and address of the owner of the registering unit and the designation and address of the principal business office of the registering unit: (1) the amount of its initial inventory of coffee; (2) the amount of roasted coffee used by it in the preparation of beverages during the period from September 1, 1942, to October 31, 1942, inclusive; (3) in the case of a registering unit whose coffee base is determined pursuant to §§ 1407.998 (b) or 1407.999 (c), the computation of such base; (4) the names and addresses of the persons from whom coffee was acquired between September 1 and October 31, 1942, inclusive, and the amount of each such acquisition; and (5) if the registering unit roasts green coffee used by it in the preparation of beverages, the amount of such roasted coffee used by it during the month of October 1942.

(e) In computing the amount of roasted coffee used by a registering unit in the preparation of beverages, the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, mixed, compounded, or blended by the registering unit with roasted coffee so used, shall be deducted from the weight of such roasted coffee.

(f) The person registering in behalf of the registering unit shall execute the following certificate on the registration form or on the separate sheet of paper filed pursuant to paragraph (d) of this section:

> I hereby certify and represent to the Office of Price Administration that the statements made above, with respect to coffee, are true.

§ 1407.996 *Initial inventory.* (a) The initial inventory of a registering unit, to be reported pursuant to § 1407.995 (d), shall include all coffee located within the continental United States (the 48 States of the United States and the District of Columbia) at midnight, November 21, 1942, in the possession of the registering unit and to which the owner of the registering unit has title. Such owner shall be deemed to have title to coffee: (1) in transit or stored for delivery to him and out of the possession of the vendor prior to November 22, 1942; (2) mortgaged, pledged, or otherwise used by him as security in a credit transaction; or (3) in the possession of his vendor if such coffee has been paid for and physically segregated and earmarked by his vendor for delivery to him.

(b) Every person who owns one or more registering units and who holds documents of title, or, pursuant to paragraph (a) of this section, is deemed to have title to any coffee not in the possession of any such registering unit, shall include such coffee in the initial inventories of such registering units, allocating such coffee among the registering units as he elects.

(c) In computing the initial inventory of a registering unit there shall be deducted from the weight of the coffee included in such inventory the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, compounded, blended, or mixed by such registering unit with said coffee.

§ 1407.997 *Allowable inventory of coffee for institutional roasters.* (a) A registering unit which roasts green coffee used by it in the preparation of beverages is permitted a working inventory of coffee which shall be known as its allowable inventory.

(b) The allowable inventory of such a registering unit shall be equal to three times the amount of roasted coffee, roasted by the registering unit and used by it in the preparation of beverages in September 1942. In computing the allowable inventory there shall be deducted from the weight of the coffee included in such inventory the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, compounded, blended, or mixed by such registering unit with said coffee.

§ 1407.998 *Roasted coffee base.* (a) The roasted coffee base for a registering unit of which all the component establishments were in operation during the entire period from September 1, 1942, to October 31, 1942, inclusive, shall be the amount of roasted coffee used by the registering unit in the preparation of beverages during the period from September 1, 1942, to October 31, 1942, inclusive.

(b) The roasted coffee base for a registering unit composed of establishments none of which was in operation during the entire period from September 1, 1942, to October 31, 1942, inclusive, but all of which were in operation for part of such period or during all or part of the period from November 1, 1942, to November 21, 1942, inclusive, shall be computed by (1) determining for each such establishment the average daily amount of roasted coffee used by the establishment in the preparation of beverages during the period in which such establishment was in operation; (2) multiplying the average daily usage for each such establishment by the number of days said establishment would have been open for business during September and October 1942 if it had been in business during the entire period; and (3) adding such amounts for all the establishments in the registering unit. For the purposes of this section, average daily usage shall be determined by dividing the amount of roasted coffee used by an establishment in the preparation of beverages during the period in which such establishment was in operation by the number of days that said establishment was open for business during said period.

(c) A registering unit composed of establishments some, but not all, of which were in operation during the entire period from September 1, 1942, to October 31, 1942, inclusive, shall compute its roasted coffee base, for those establishments which were in operation during the entire period from September 1, 1942, to October 31, 1942, inclusive, in accordance with paragraph (a) of this section, and, for those establishments which were not so in operation, in accordance with paragraph (b) of this section and shall add the two results thus obtained.

(d) In computing, for the purposes of this section, the amount of roasted coffee used by the registering unit in the preparation of beverages, the weight of any substitutes or substances, including but not limited to chicory, cereal, peas, or beans, mixed, blended, or compounded by the registering unit with such roasted coffee so used by the registering unit, shall be deducted from the weight of such coffee.

(e) There shall not be included in the computation of the roasted coffee base of any registering unit any coffee used for service by it of beverages to Army, Navy, Marine Corps, or Coast Guard personnel messed separately under an officer's command.

§ 1407.999 *Allotments.* (a) A registering unit which has established a roasted coffee base shall receive, as provided in Ration Order No. 12, an amount of roasted coffee which is known as an allotment.

(b) The amount of the allotment for each period shall be the applicable percentage, specified in § 1407.1092, of the roasted coffee base of the registering unit.

§ 1407.1000 *Allotment certificates*—(a) *Application.* Application for allotment certificates shall be made by a registering unit for each period, as provided in this section. The first period for which allotment certificates may be granted shall be the period from the date of registration to January 31, 1943, inclusive, and application therefor shall be made at the time of registration. All subsequent applications for allotment certificates shall be for consecutive two-month periods, the first of which shall commence on February 1, 1943. Applications shall be made not later than the fifth day of the first month of the period for which the application is being made and not earlier than the 15th day of the month preceding the period. The board, in its discretion, may permit an application to be made at any time after the time specified herein but in such case the board shall reduce the allotment by an amount which bears the same proportion to the allotment as the number of days which have elapsed bears to the total number of days in the period.

(b) *Registering unit whose initial inventory is greater than its allotment*—(1) *Non-roasters.* A registering unit which does not roast green coffee used by it in the preparation of beverages, and whose initial inventory is greater than its first allotment shall not apply for an allotment certificate for any period until such initial inventory has been reduced, by the crediting of prior allotments, below the amount of its allotment for such period.

(2) *Roasters.* A registering unit which roasts green coffee used by it in the preparation of beverages, whose initial inventory is greater than its allowable inventory plus its first allotment shall not apply for an allotment certificate for any period until such initial inventory has been reduced, by the crediting of prior allotments, below the amount of its allowable inventory plus its allotment for such period.

§ 1407.1001 *Amount for which allotment certificate is to be issued.* (a) Upon proper written application therefor a certificate shall be issued to a registering unit in a weight value equivalent to its allotment except as provided in paragraph (b) or (c) of this section and subject to any adjustments required by Ration Order No. 12.

(b) The amount of the allotment certificate issued for the first period to a registering unit which does not roast green coffee shall be the allotment for such period minus the initial inventory of roasted coffee of the registering unit: *Provided, however,* That the first certificate issued to a registering unit whose initial inventory was greater than the amount of its allotment shall be of a weight value equal to the difference between the initial inventory of such registering unit and the aggregate of its allotments including the allotment for the period for which the certificate is issued.

(c) The amount of the allotment certificate issued for the first period to a registering unit which roasts green coffee used by it in the preparation of beverages shall be the allotment for such period minus the amount, if any, by which its initial inventory exceeds its allowable inventory: *Provided, however,* That the first certificate issued to a registering unit whose initial inventory was greater than the amount of its allowable inventory plus its allotment shall be of a weight value equal to the difference between its initial inventory and the amount of its allowable inventory plus the aggregate of its allotments including the allotment for the period for which the certificate is issued.

§ 1407.1002 *Adjustments.* (a) In the computation of allotments and the issuance of certificates, corrections shall be made for any previous errors or mistakes in allotments or in the issuance of certificates.

(b) Any registering unit which acquires roasted coffee on or after November 22, 1942, without the surrender of certificates, shall have the amount thereof charged against the amounts for which subsequent certificates may be issued.

§ 1407.1003 *Restriction on use.* (a) No registering unit shall, in any allotment period, use more coffee for any purpose for which allotment certificates may be obtained than the amount of its allotment for said period plus the unused portion of any of its prior allotments; *Provided, however,* That a registering unit may use any part of an allotment at any time after a certificate for such allotment has been issued to it.

(b) No registering unit shall use roasted coffee for any purpose other than the preparation by it of a beverage.

§ 1407.1004 *Establishments which were not in operation between September 1 and November 21, 1942.* (a) An institutional establishment which commences operations on or after November 22, 1942, shall be registered on O.P.A. Form R–310 as a registering unit or as a part of a new or existing registering unit. The registration of such institutional establishment registered under Rationing Order No. 3 shall be made on the reverse side of the O.P.A. Form R–310 filed for such institutional establishment in connection with its registration under Rationing Order No. 3. The registration of such institutional establishments not registered under Rationing Order No. 3 shall be made on O.P.A. Form R–310 with the board designated to serve the area in which the principal business office of the owner is located, but only items numbered one to six, inclusive, on the front of such form shall be completed.

(b) Each of the first two allotments of roasted coffee to be granted for such an institutional establishment shall be equal to one pound of roasted coffee for every 60 meals to be served by the institutional establishment during the allotment period for which application is made, as estimated by the registering unit and approved by the board. The amount of each subsequent allotment shall be equal to one pound of roasted coffee for every 60 meals served by the institutional establishment in the preceding allotment period. In all other respects the institutional establishment shall be treated as if it had been in operation between September 1 and November 21, 1942.

§ 1407.1005 *Definition of "meal."* For the purposes of Ration Order No. 12, a "cup of coffee" shall not constitute a meal unless the service thereof is accompanied by the service of at least one other item of food exclusive of milk, cream, and sugar.

§ 1407.1006 *Late registration.* A registering unit in operation on November 21, 1942, which is not registered on November 23, 24, or 25, 1942, may thereafter be registered at the office of the board. The initial inventory of the registering unit shall, in such circumstances, be computed as of midnight November 21, 1942, and the registering unit shall not be issued any certificates for any allotment periods or partial periods that may have elapsed.

§ 1407.1007 *Obtaining roasted coffee for feeding troops pursuant to written contract with the Army, Navy, Marine Corps, or Coast Guard.* Whenever an institutional user shall, pursuant to a written contract made with the Army, Navy, Marine Corps, or Coast Guard, require roasted coffee for use in the preparation of beverages to be served by it to Army, Navy, Marine Corps, or Coast Guard personnel to be messed separately under an officer's command, an officer authorized by the Army, Navy, Marine Corps, or Coast Guard may issue a certificate in such weight value as may be required for such purpose. The institutional user may acquire roasted coffee therewith; *Provided, however,* That roasted coffee acquired with such certificate shall remain under the control of the officer commanding such personnel and shall not be used for any purpose other than service to such personnel.

§ 1407.1008 *Obtaining roasted coffee for troop movements.* (a) Whenever an institutional user shall require roasted coffee for use in the preparation of beverages to be served by it to Army, Navy, Marine Corps, or Coast Guard personnel involved in troop movements and which are to be messed separately under an officer's command, such institutional user may apply in writing to the board for a certificate in the amount required, stating on such application the address of the institutional establishment or addresses of the institutional establishments or of the commissaries or immobile service points at which such roasted coffee is needed, and that the roasted coffee applied for will be used only for such purpose. The board, upon satisfactory proof that such roasted coffee will be needed, shall grant the application. The applicant shall, within 15 days after the service of coffee to such troops, file with the board proof of the service and the amount thereof. He shall surrender to the board certificates in weight value equal to the amount, if any, by which the certificate issued to him by the board exceeds in weight value the roasted coffee so used or such difference shall be charged against the amount of his next allotment or allotments or against any subsequent certificate issued pursuant to this section.

(b) An institutional user who on or after November 22, 1942, uses roasted coffee in the preparation of beverages served by it to Army, Navy, Marine Corps, or Coast Guard personnel involved in troop movements, which were messed separately under an officer's command, may apply to the board for a certificate in a weight value equal to the weight of the roasted coffee so used, if no certificate therefor has been issued pursuant to paragraph (a) of this section. The application shall state the address of the institutional establishment or addresses of the institutional establishments or of the commissaries or immobile service points at which such troops were served and the quantity of roasted coffee used at each of such establishments, commissaries, or immobile service points, and shall be accompanied by a statement signed by the officer in charge of the troops setting forth the number of meals served to the troops, the dates upon which this service was rendered, and the quartermaster's requisition for the meals served. Upon the presentation of the evidence required by this paragraph, the board shall grant such application.

(c) In issuing a certificate pursuant to paragraph (a) or (b) of this section, the weight of any substitute or substance, including but not limited to chicory, cereal, peas, or beans, to be mixed, blended, or compounded with the roasted coffee to be served, or mixed, blended, or compounded by the applicant with the roasted coffee served, shall not be included by the board in the amount of such certificate.

INDUSTRIAL USERS

§ 1407.1015 *Restriction on use of coffee.* No industrial user shall roast any green coffee in connection with or for use in connection with the production, manufacture, or processing of any products, other than of products to be transferred to the Army, Navy, Marine Corps, or Coast Guard or to any persons specified in § 1407.991, without petitioning the Office of Price Administration, Washington, D. C., for permission to do so and obtaining such permission. The petition shall state the name and address of the petitioner; the purposes for which he intends to use the coffee he seeks permission to roast; the amount of roasted coffee so used by him in each month of 1941, and, if he was not in business during the entire year of 1941, the amount of roasted coffee so used by him in each month of 1942; the amount of green coffee the petitioner seeks permission to roast; his inventory of coffee on the date of his application; and any other facts deemed pertinent by such industrial user. The Office of Price Administration may, before acting on any such petition, require the petitioner to furnish any additional information it deems pertinent.

§ 1407.1016 *Inventory.* (a) In reporting his inventory, the industrial user shall include all coffee located within the

continental United States (the 48 States of the United States and the District of Columbia) to which said industrial user has title or holds documents of title. Said industrial user shall be deemed to have title to coffee: (1) in transit or stored for delivery to him and out of the possession of the vendor; (2) mortgaged, pledged, or otherwise used by the industrial user as security in a credit transaction; and (3) in the possession of the vendor of the industrial user if such coffee has been paid for and physically segregated and earmarked by the vendor for delivery to said industrial user.

§ 1407.1017 *Industrial users—nonroasters.* An industrial user of coffee who does not roast green coffee used by him in the production, manufacture, or processing of products may petition the Office of Price Administration, Washington, D. C., for allotments of roasted coffee. The petition shall state the name and address of the petitioner; the purposes for which roasted coffee is used or is desired to be used by him; the amount of roasted coffee so used by him in each month of 1941 and, if he was not in business during the entire year of 1941, the amount of roasted coffee so used by him in each month of 1942; the amount of allotments being sought; and any other facts deemed pertinent by such industrial user. The Office of Price Administration may, before acting on any such petition, require the petitioner to furnish any additional information it deems pertinent.

§ 1407.1018 *Restriction on transfer of soluble and liquid extract coffee.* No industrial user shall transfer any soluble or liquid extract coffee to any person, other than the Army, Navy, Marine Corps, or Coast Guard, or any person specified in § 1407.991, without petitioning the Office of Price Administration, Washington, D. C., for permission to do so and obtaining such permission. The petition shall state the name and address of the petitioner; the amount of soluble or liquid extract coffee he seeks to transfer; the person to whom he seeks to transfer such soluble or liquid extract coffee; the amount of soluble or liquid extract coffee so transferred by him in each month of 1941, and, if he was not in business during the entire year of 1941, the amount of soluble or liquid extract coffee so transferred by him in each month of 1942; his inventory of soluble and liquid extract coffee on the date of his application; and any other facts deemed pertinent by such industrial user. The Office of Price Administration may, before acting on any such petition, require the petitioner to furnish any additional information it deems pertinent.

CERTIFICATES AND COFFEE STAMPS

§ 1407.1020 *Nature and validity of certificates and coffee stamps.* (a) A certificate may be transferred by the person to whom it is issued only for the purpose of authorizing such person to acquire the amount of roasted coffee authorized by the certificate. A coffee stamp may be transferred by a consumer to a retailer or wholesaler only for the purpose of authorizing the consumer to whom the coffee stamp was issued to acquire one pound of roasted coffee. A coffee stamp is valid in the hands of a consumer only if attached to a properly issued war ration book.

(b) Each coffee stamp authorizes the transfer of one pound of roasted coffee to a consumer only during the ration period assigned to that coffee stamp in § 1407.1091. A coffee stamp received from a consumer by a retailer or wholesaler in accordance with Ration Order No. 12 and against which such retailer or wholesaler has transferred roasted coffee, authorizes such retailer or wholesaler to acquire roasted coffee therewith from another retailer or wholesaler or to receive from the board a certificate having an equal weight value: *Provided,* That such coffee stamp is surrendered to such other retailer or wholesaler or to the board within ten days of the close of the ration period assigned to such coffee stamp.

(c) Coffee stamps in or from the war ration book of an individual whose age, as entered in said war ration book, is less than 15 years, are invalid for the acquisition of coffee. Such coffee stamps shall not be detached from the war ration book.

(d) A certificate authorizes the person to whom it is issued to acquire roasted coffee therewith within 60 days of the date of issuance of the certificate. A certificate received by a person by surrender and endorsement from another person pursuant to Ration Order No. 12, authorizes the transfer of roasted coffee to such other person within 60 days of the date of issuance of the certificate or within 30 days of the date set forth in the endorsement on such certificate to such person, whichever is later.

(e) A person receiving coffee stamps or certificates from a retailer or wholesaler or from a registering unit may, if requested by the person surrendering the coffee stamps or certificates, transfer to such person a quantity of roasted coffee equal to the weight value of the coffee stamps and certificates so received, plus an additional quantity of roasted coffee equal to either: (1) an amount, not in excess of ten per cent of the weight value of the coffee stamps or certificates so received, required to make a total quantity equal to a carload or (2) an amount, not in excess of 23 pounds, required to permit a transfer in shipping packages customarily used by the transferor. The person acquiring roasted coffee in a quantity greater than the weight value of the coffee stamps and certificates surrendered by him shall be charged with such excess and shall surrender to the transferor coffee stamps or certificates in weight value equal to such excess within 15 days after such acquisition.

§ 1407.1021 *Surrender of certificates and coffee stamps.* (a) Certificates or coffee stamps must be surrendered by the person acquiring roasted coffee to the person transferring roasted coffee at or before the time of such transfer. Before a certificate is surrendered, the proper endorsement thereon shall be completed by the holder of the certificate.

(b) A coffee stamp shall not be detached from a war ration book except by the consumer or the person acting on his behalf in the presence of the person making delivery of the roasted coffee.

§ 1407.1022 *Mail orders and similar transactions.* When a consumer wishes to acquire roasted coffee by mail-order or similar transaction, he shall forward his war ration book or certificate to the seller with his order. Before transferring the roasted coffee to the consumer, the seller shall, where the consumer has forwarded his war ration book to the seller, detach therefrom the appropriate coffee stamp. Such seller shall return the consumer's war ration book to him promptly.

§ 1407.1023 *War ration stamp cards.* (a) A person to whom coffee stamps are surrendered by a consumer shall affix the coffee stamps on a war ration stamp card (O.P.A Form R–304) or upon a facsimile thereof. Only coffee stamps bearing the same number may be affixed to a card. Not all the spaces on a card need be filled. The card may be surrendered by a retailer or wholesaler, subject to paragraphs (b) and (c) of this section, to another retailer or wholesaler for the purpose of acquiring an amount of roasted coffee equivalent to the aggregate weight value of the coffee stamps affixed thereto.

(b) When a retailer or wholesaler surrenders a card for the purpose of authorizing a transfer of roasted coffee to him, he shall write across the face of the card his name and address, the date of such surrender, and the name and address of the person to whom the card is being surrendered. A retailer or wholesaler who receives cards shall surrender such cards to the board within ten days of their receipt. Such retailer or wholesaler may, at the same time, surrender any certificates received by him. At the time of such surrender the retailer or wholesaler shall complete and submit with the surrendered cards and certificates, if any, O.P.A. Form R–309. The board receiving such cards and certificates together with such form shall thereupon issue to such retailer or wholesaler a certificate or certificates in weight value equal to the surrendered coffee stamps and certificates.

(c) Coffee stamps affixed to a card shall, except as set forth in paragraph (b) of this section, have no greater period of validity than coffee stamps not so affixed and, in any event, shall have no greater value.

(d) A retailer or wholesaler may, if he desires, surrender, pursuant and subject to the provisions of paragraph (b) of this section, stamps or certificates received by any establishment owned by him to the board having jurisdiction over the area within which such establishment is located.

§ 1407.1024 *Sale, gift, loan, or judicial seizure of coffee stamps or certificates prohibited.* The transfer, sale, gift, loan, or assignment of a coffee stamp or certificate is prohibited and no coffee stamp or certificate or any interest therein may be so acquired or seized by distraint, execution, levy, attachment, or other judicial process or acquired through devise, bequest, or inheritance except that such transfer, sale, gift, loan, assignment, seizure, and acquisition is permitted when coffee stamps or certificates are transferred as part of the assets of an establishment transferred as provided in § 1407.1054, and when otherwise expressly permitted in Ration Order No. 12: *Provided, however,* That a person to whom a war ration book or certificate has been issued may institute and prosecute any proceeding for the purpose of recovering possession of said war ration book or certificate from any person wrongfully in possession thereof.

§ 1407.1025 *Destroyed, mutilated, or stolen coffee stamps or certificates.* (a) A certificate that is torn or mutilated is valid only if more than one-half thereof remains legible and only if such remaining portion clearly evidences the date of the certificate, its weight value, and the name of the person to whom the certificate was issued. A coffee stamp that has been torn or mutilated is valid for use by a consumer only if more than one-half of such coffee stamp remains undetached in the war ration book.

(b) If a certificate or coffee stamp, held by a retailer or wholesaler or by an institutional or industrial user is lost, destroyed, or stolen, or becomes invalid because of mutilation, the person entitled to such certificate or coffee stamp may apply to the board for a new certificate in weight value equal to that of the lost, stolen, destroyed, or mutilated certificate or coffee stamp. Upon the presentation of satisfactory proof, the board shall grant the application.

§ 1407.1026 *Exchange of certificates.* Any person may surrender to the board a valid certificate or valid certificates which he is entitled to use to acquire roasted coffee and obtain a certificate or certificates in different denominations in exchange therefor. The board shall issue a certificate or certificates to such person, dated as of the date of their issuance, in such reasonable denominations as he may require, but in no event shall the aggregate weight value of the newly-issued certificate or certificates exceed the weight value of the surrendered certificate or certificates.

§ 1407.1027 *Transfers not to be made upon invalid coffee stamps, certificates, or purchase warrants.* (a) No person shall transfer roasted coffee if the coffee stamp, certificate, or purchase warrant tendered therefor is mutilated or illegible.

(b) No person shall transfer roasted coffee if he knows or has reason to believe that the certificate or purchase warrant tendered therefor was not acquired or issued in accordance with Ration Order No. 12 or that the coffee stamp tendered therefor was not acquired or issued in accordance with Rationing Order No. 3 or Ration Order No. 12. In the event of a refusal to transfer roasted coffee against a coffee stamp, certificate, or purchase warrant the person refusing to make the transfer shall promptly notify the issuing board of such refusal and his reasons therefor.

§ 1407.1028 *Notification to the Office of Price Administration of legal proceedings.* Every person holding a certificate, coffee stamp, or purchase warrant shall notify the District Office of the Office of Price Administration immediately upon the commencement of any legal action or proceeding involving such certificate, coffee stamp, or purchase warrant.

§ 1407.1029 *Authorization of transfer against coffee stamps, certificates, or purchase warrants is authorization of acquisition, and vice versa.* Where in Ration Order No. 12 the transfer of roasted coffee is authorized on the surrender of coffee stamps, certificates, or purchase warrants the acquisition of such roasted coffee, as part of the same transaction, on the surrender of coffee stamps, certificates, or purchase warrants shall also be deemed to be authorized, and vice versa.

§ 1407.1030 *Prohibition of transfer except against coffee stamps, certificates, or purchase warrants is prohibition of acquisition, and vice versa.* Where in Ration Order No. 12 the transfer of roasted coffee is prohibited except on the surrender of coffee stamps, certificates, or purchase warrants the acquisition of such roasted coffee, as part of the same transaction, except on the surrender of coffee stamps, certificates, or purchase warrants shall also be deemed to be prohibited, and vice versa.

§ 1407.1031 *Prohibited acts with respect to coffee stamps and certificates.* (a) No person shall use or have in his possession any coffee stamp, certificate, or purchase warrant, whether issued as a ration or not, except the person, or the agent of the person, to whom such coffee stamp, certificate, or purchase warrant was issued or by whom it was acquired in accordance with the provisions of Ration Order No. 12.

(b) No person shall counterfeit or forge a coffee stamp, war ration book, purchase warrant, or certificate.

(c) No person shall transfer, acquire, possess, or use any forged, altered, or counterfeited coffee stamp, war ration book, purchase warrant, or certificate.

(d) No person shall transfer, surrender or assign and no person shall acquire, or receive an assignment of, any coffee stamp, war ration book, purchase warrant, or certificate, except in accordance with the provisions of Ration Order No. 12 or any other ration order of the Office of Price Administration.

TRANSFER AND ACQUISITION OF GREEN COFFEE

§ 1407.1040 *Initial inventory.* (a) Every person, other than the Army, Navy, Marine Corps, and Coast Guard and Commodity Credit Corporation, who transfers or acquires green coffee shall take an inventory of his green coffee as of 12 o'clock midnight, November 21, 1942: *Provided, however,* That this section shall not apply to persons who roast green coffee.

(b) Such inventory shall include all green coffee located within the continental United States (the 48 States of the United States and the District of Columbia) to which such person has title or holds documents of title. He shall be deemed to have title to green coffee: (1) in transit or stored for delivery to him and out of the possession of the vendor prior to November 22, 1942; (2) held by him on consignment or on any similar basis; (3) mortgaged, pledged, or otherwise used by him as security in a credit transaction; or (4) in the possession of his vendor if such green coffee has been paid for and physically segregated or earmarked by the vendor for delivery to him.

(c) Such person shall include a statement of said inventory of green coffee in the first report filed by him pursuant to § 1407.1071.

§ 1407.1041 *Transfer and acquisition of green coffee.* (a) No person shall acquire, except by import or pursuant to §§ 1407.1053, 1407.1054, 1407.1056, 1407.1058, or 1407.1060, green coffee if as the result of such acquisition his existing inventory would exceed his allowable inventory of coffee. If green coffee is acquired by any person by import or pursuant to §§ 1407.1053, 1407.1054, 1407.1056, 1407.1058, or 1407.1060, in an amount which, together with the coffee in his existing inventory, exceeds his allowable inventory of coffee, such person if he is unable to make an immediate sale of coffee in an amount equivalent to such excess shall, within 72 hours after acquiring such green coffee, offer, through established coffee dealers and brokers, an equivalent amount of coffee for sale in conformity with Ration Order No. 12. If, prior to the acceptance of such offer, such person becomes entitled, as a result of reduction of his existing inventory, to acquire green coffee, coffee in an amount equivalent to the amount which he is so entitled to acquire may be withdrawn from the amount of coffee offered for sale pursuant to this section.

(b) Any person making an offer for sale in accordance with paragraph (a) of this section shall, at the same time, forward a report to the Office of Price Administration, Washington, D. C., stating (1) the amount so offered for sale; (2) whether the coffee offered for sale is from his existing inventory; (3) a description of the coffee offered for sale; (4) the location of the coffee offered for sale; and (5) the names of the brokers or dealers through whom the offer is being made. In the event of sale of any such coffee, such person shall forward a report of such sale, within 24 hours thereafter to the Office of Price Administration, Washington, D. C., stating the name of the purchaser and the date of sale.

§ 1407.1042 *Retention of coffee stamps and certificates by roasters.* (a) Every retailer or wholesaler who roasts green coffee shall retain in his possession, until further order by the Office of Price Administration, coffee stamps, certificates, or purchase warrants equal in weight value to 84 per cent of the weight of the green coffee roasted by him and transferred by him subsequent to November 21, 1942. Stamps or certificates surrendered to the board pursuant to § 1407.985 shall be considered, for the purposes of this section, as being retained by such person.

(b) An institutional registering unit which roasts green coffee used by it in the preparation of beverages shall retain

in its possession, until further notice by the Office of Price Administration, certificates in weight value equal to 84 per cent of the weight of the green coffee roasted by it subsequent to November 21, 1942: *Provided, however,* That such a registering unit whose initial inventory was greater than the amount of its allowable inventory need not retain certificates for such excess.

TRANSFERS PERMITTED WITHOUT THE SURRENDER OF COFFEE STAMPS, CERTIFICATES, OR PURCHASE WARRANTS AND IRRESPECTIVE OF RESTRICTIONS ON THE ACQUISITION OF GREEN COFFEE

§ 1407.1045 *Transfer of green coffee.* When the transfer of green coffee is permitted by Ration Order No. 12, such transfer may be made without the surrender of coffee stamps, certificates, or purchase warrants.

§ 1407.1046 *Loans and gifts of roasted coffee.* (a) Loans of roasted coffee owned for personal use which are repaid in kind in equal quantity may be made between consumers without the surrender of coffee stamps or certificates.

(b) Gifts of roasted coffee may be made by a consumer to a charitable or religious organization without the surrender of coffee stamps or certificates.

§ 1407.1047 *Coffee included in initial inventory.* Any coffee included in the initial inventory of a person or registering unit may be transferred to said person or registering unit without the surrender of coffee stamps, certificates, or purchase warrants and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12.

§ 1407.1048 *Exchanges*—(a) *Of roasted coffee.* Roasted coffee may be exchanged for other roasted coffee without the surrender of stamps or certificates: *Provided,* That the weights of the roasted coffee exchanged must be equal.

(b) *Of green coffee.* Green coffee may be exchanged for other green coffee irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12: *Provided,* That the weights of the green coffee exchanged must be equal.

(c) *Time limit.* Deliveries or shipments of coffee involved in an exchange made pursuant to this section must be made on the same day.

§ 1407.1049 *Transfers to exempt persons.* Any person may transfer, without the surrender of coffee stamps or certificates and irrespective of any restriction on the transfer or acquisition of coffee imposed by Ration Order No. 12, coffee to any of the persons enumerated in § 1407.991 (c), subject, however, to the provisions of § 1407.991. The Army, Navy, Marine Corps, and Coast Guard may acquire green coffee irrespective of any restriction on the transfer or acquisition of green coffee imposed by Ration Order No. 12.

§ 1407.1050 *Transfers between establishments owned by same person.* Any person may transfer coffee, without the surrender of coffee stamps or certificates, between establishments owned by him except between institutional establishments registered in different registering units.

§ 1407.1051 *Green coffee transferred for roasting.* Any person may transfer, irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, green coffee owned by him to another person for roasting and may accept the return of such coffee after it is roasted, without surrendering coffee stamps or certificates.

§ 1407.1052 *Transfer of coffee for carriage.* (a) Coffee delivered before November 22, 1942, to a carrier may be delivered by the carrier to the person to whom the coffee was consigned or may be redelivered to the consignor without the surrender of certificates or coffee stamps by anyone in connection therewith and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12.

(b) On or after November 22, 1942, coffee may be received by a carrier for carriage without the surrender of certificates or coffee stamps by the carrier and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12. Coffee so received may thereafter be delivered, without the receipt of certificates or coffee stamps by such carrier and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, only to (1) the person from whom it was received; (2) the person to whom it was consigned; (3) the person to whom the bill of lading or similar instrument, if any, issued in connection with such carriage, has been duly transferred; or (4) connecting carriers for the purpose of such delivery.

(c) Nothing in this section shall be deemed to relieve any person who delivers roasted coffee to a carrier from the obligation to receive certificates, coffee stamps, or purchase warrants from the consignee or other person to whom a transfer is made as a result of such delivery or from any other obligation imposed by Ration Order No. 12.

§ 1407.1053 *Transfer of coffee for storage.* (a) Coffee delivered before November 22, 1942, to a public or other warehouse, not an establishment within the meaning of Ration Order No. 12, may at any time, without the surrender of certificates or coffee stamps and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, be redelivered to the person who delivered it to such warehouse, or delivered to the person to whom the warehouse receipt or other similar instrument, if any, issued in connection with such storage, has been duly transferred.

(b) On or after November 22, 1942, any public warehouse may, without surrendering certificates or coffee stamps and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, receive roasted coffee for storage and deliver such roasted coffee to the person from whom it received such roasted coffee or to the person to whom the warehouse receipt or other similar instrument, if any, issued in connection with such storage, has been duly transferred.

(c) Nothing in this section shall be deemed to relieve any person who delivers roasted coffee for storage from the obligation to receive coffee stamps, certificates, or purchase warrants from any person other than the warehouseman to whom such roasted coffee is transferred or from any other obligation imposed by Ration Order No. 12.

§ 1407.1054 *Voluntary or involuntary transfer of establishment.* (a) Coffee may be acquired by any person without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12 where, as a consequence of reoganization, liquidation, merger, foreclosure, execution, assignment for the benefit of creditors, bankruptcy, death, devise, bequest, inheritance, or other voluntary or involuntary transfer or sale of an establishment, all or substantially all the assets of such establishment, including good-will, are transferred to such person.

(b) Any person acquiring roasted coffee pursuant to paragraph (a) of this section shall, with respect thereto, be subject to all obligations of the former owner of the establishment to transfer roasted coffee in exchange for certificates, coffee stamps, or purchase warrants surrendered to such former owner prior to such acquisition and against which the transfer of roasted coffee had not been completed at the time of such acquisition and be entitled to receive certificates, coffee stamps, or purchase warrants equivalent in weight value to any amount by which the quantity of roasted coffee transferred by such former owner to any person prior to such acquisition exceeds in weight value the certificates, coffee stamps, and purchase warrants surrendered by such person. The person acquiring roasted coffee pursuant to paragraph (a) of this section may continue the operation of the establishment, and, if he does so, shall be subject to all the provisions of Ration Order No. 12 applicable thereto. If a person acquiring roasted coffee pursuant to paragraph (a) of this section does not continue the operation of the establishment, such roasted coffee may be transferred by him pursuant to the provisions of § 1407.1061.

§ 1407.1055 *Liquidation of establishments.* (a) The person in charge of the liquidation of a retail, wholesale, or institutional establishment, which is the sole establishment owned by the owner thereof, and the person in charge of the liquidation of retail or wholesale establishments, which are all the establishments owned by the owner thereof, or institutional establishments, which are all the establishments in a registering unit, shall promptly after the commencement of the liquidation (1) acquire all roasted coffee for which coffee stamps, certificates, or purchase warrants had been surrendered by said owner; (2) transfer all roasted coffee for which coffee stamps, certificates, or purchase warrants had been surrendered to said owner; (3) acquire all coffee stamps, certificates, or purchase warrants to which said owner is entitled by reason of the transfer by him of roasted coffee; and (4) surrender coffee stamps, certificates, or purchase warrants for which roasted coffee has been transferred to said owner. At the completion of the liquidation the person in charge thereof shall surrender to the board for cancellation all certificates, coffee stamps, and purchase warrants held by the establishment or establishments and shall account for any difference between the coffee stamps, certificates, and purchase warrants so surrendered and the allowable inventory of such owner, or, if a registering unit is being liquidated, all certificates on hand or, if such registering unit roasts coffee, all coffee stamps or certificates required to be retained thereby pursuant to Ration Order No. 12. If at the completion of the liquidation the person in charge thereof is unable to surrender, acquire, or transfer coffee stamps, certificates, purchase warrants, or roasted coffee as required by this section, he shall file with the board a complete statement of all the facts and circumstances in connection therewith.

(b) In the event of the liquidation of an institutional establishment, the allotment made thereafter to the registering unit of which said institutional establishment was a part shall be reduced by the amount applicable to such institutional establishment.

(c) Any person who has surrendered certificates, coffee stamps, or purchase warrants to an establishment and who does not, prior to the liquidation of such establishment or within one month after the commencement of such liquidation, receive from the person in charge of such liquidation, pursuant to paragraph (a) (2) of this section, all the roasted coffee for which certificates, coffee stamps, or purchase warrants have been surrendered by such person to the establishment being liquidated may apply to the board for a certificate authorizing the acquisition of the quantity of roasted coffee he has so failed to receive. Before the board may grant any such application, the applicant shall prove, to the satisfaction of the board, the surrender by him of certificates, coffee stamps, or purchase warrants and his failure to receive roasted coffee therefor as claimed.

§ 1407.1056 *Disposal of damaged coffee and undamaged coffee mingled therewith, or coffee in a package, bag, or other container damaged while in transit by common carrier.* (a) Coffee which is damaged and undamaged coffee mingled therewith, or coffee which is in a package, bag, or other container damaged while in transit by a common carrier, may be transferred by any person in possession thereof without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12 to (1) any person who has insured such coffee against loss or damage and is duly authorized by law to engage in the insurance business; (2) common or contract carriers in connection with the exercise of the right of subrogation or by virtue of the payment by them of a claim for damage to such coffee or container; and (3) persons engaged principally and primarily in the business of adjusting losses or selling or reconditioning and selling damaged commodities, who take possession of or receive such commodities on the occurrence or imminence of casualties or in connection with the adjustment of losses resulting from casualties.

(b) A person described in paragraph (a) (1), (2), or (3) of this section, acquiring coffee pursuant to said paragraph (a), shall report such fact in writing to the board having jurisdiction over the area in which its principal business office is located. The report shall also state the disposition proposed to be made of such coffee.

(c) Following such report, undamaged coffee which has been mingled with, but which can be and is separated from damaged coffee, or coffee which is in a package, bag, or other container damaged while in transit by common carrier, may be disposed of by such person, but only, if the coffee is green coffee, to a person who is a roaster or who is and was prior to November 22, 1942, a green coffee dealer, or, if the coffee is roasted coffee, as follows:

(1) It may be transferred, without the receipt of coffee stamps or certificates, in the manner provided in §§ 1407.1052, 1407.1053, or 1407.1060.

(2) It may be transferred upon receipt of coffee stamps or certificates as prescribed in Ration Order No. 12 and the coffee stamps or certificates thus received shall be surrendered to the board for cancellation within five days of receipt.

(3) An institutional user may use such roasted coffee subject to the provisions of § 1407.1002 (b).

§ 1407.1057 *Replacement of damaged, destroyed, lost or stolen coffee or coffee in a package, bag, or other container damaged while in transit.* (a) A person, other than a consumer, whose damaged roasted coffee and undamaged roasted coffee mingled therewith is transferred pursuant to § 1407.1056 (a), or whose roasted coffee is destroyed, lost, or stolen may obtain certificates in weight value equal to the original weight of such roasted coffee. A person, other than a consumer, whose roasted coffee, in a package, bag, or other container damaged while in transit by common carrier, is transferred pursuant to §1407.1056 (a) may obtain certificates in weight value equal to the amount of roasted coffee in such package, bag, or other container before it was damaged. A person, other than a consumer, whose roasted coffee, although in a package, bag, or other container damaged while in transit by common carrier, was not transferred pursuant to § 1407.1056 (a), or was in a package, bag, or other container damaged in any other manner may obtain certificates in weight value equal to the amount of roasted coffee lost from the package, bag, or other container because of such damage.

(b) Written application shall be made by such a person to the board stating facts which establish compliance with the requirements of paragraph (a) of this section and including such other information as the board may require.

§ 1407.1058 *Recovery of lost or stolen coffee.* (a) Coffee which has been lost or stolen may be recovered without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12 by the person rightfully in possession of such coffee when it was lost or stolen or by a person who has insured such coffee against loss or theft and is duly authorized by law to engage in the insurance business or by a common or contract carrier in connection with the exercise of the right of subrogration or by virtue of the payment by it of a claim for such loss or theft. Such recovery may be made directly or through a Government agency or other person authorized to secure such recovery.

(b) A person recovering lost or stolen roasted coffee for which he has obtained a certificate pursuant to § 1407.1057 shall report such fact in writing to the board. The report shall also state the amount of such roasted coffee and the disposition proposed to be made of it. Such roasted coffee may thereafter be disposed of by such person but only in the manner provided by § 1407.1056 (c) (1), (2), and (3).

(c) An insurer or carrier recovering lost or stolen coffee shall report such fact in writing to the board having jurisdiction over the area in which its principal office is located. The report shall also state the amount of such coffee and the disposition proposed to be made of it. Such coffee may thereafter be disposed of by such person but only in the manner provided by paragraphs (c) (1), (2), and (3) of § 1407.1056.

§ 1407.1059 *Surrendering certificates to the board for cancellation.* Where roasted coffee which had been transferred pursuant to §§ 1407.1049 or 1407.1060 is returned to the person from whom it was acquired and such person has obtained from the board certificates authorizing the acquisition of roasted coffee to replace such roasted coffee, such person shall surrender to the board for cancellation certificates or coffee stamps in weight value equal to the weight of the roasted coffee so returned.

§ 1407.1060 *Acquisition of coffee by judicial process, by operation of law and for security and similar purposes; enforcement*—(a) *Acquisition by judicial process, by operation of law, and by the exercise of statutory rights or powers.* Coffee may be acquired by, or a lien created thereon in favor of, the following persons and in the following cases without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12: (1) any person pursuant to judicial process or an order issued by a court of competent jurisdiction or by operation of law; (2) a State or political subdivision or agency thereof or by the United States or any agency thereof in the enforcement or exercise against such coffee of statutory rights or powers.

(b) *Creation of security interests and liens.* Coffee may be acquired for security purposes by, or a lien created thereon for security purposes in favor of, the following persons and in the following cases without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12: (1) a State or political subdivision or agency thereof or the United States or any agency thereof or any person duly licensed to engage in the business of making loans upon collateral and regulated in conducting such business by a State or the United States; (2) any person where the security interest arises or is transferred with respect to all or substantially all the coffee of an establishment.

(c) *Assignments prohibited.* Nothing in this section shall be deemed to permit any person to acquire, without coffee stamps or certificates or irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, an interest in coffee in connection with or as a consequence of an assignment of less than the entire debt secured by such coffee.

(d) *Release or return.* Except as otherwise provided in Ration Order No. 12, coffee or any interest therein or lien thereon acquired pursuant to paragraphs (a) or (b) of this section may be returned to the person from whom it was acquired or released without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12 or such coffee may be used or transferred pursuant to the provisions of § 1407.1061.

(e) *Enforcement of security.* Any person who has acquired coffee or in whose favor a lien thereon has been created under the authority of this section, or who holds a lien on or security interest in coffee created prior to November 22, 1942, may enforce such security, lien, or other interest in the manner provided by applicable State or Federal laws. Transfers necessary for the enforcement thereof may be made to such person, without the surrender of coffee stamps or certificates and irrespective of any restriction on the acquisition of green coffee imposed by Ration Order No. 12, or to other persons, with respect to roasted coffee, upon receipt of appropriate coffee stamps or certificates (except as otherwise provided in Ration Order No. 12) to be disposed of as provided in § 1407.1061, or, with respect to green coffee, to persons authorized to acquire such coffee by Ration Order No. 12. Roasted coffee acquired by such person hereunder may not be used by such person and may not be transferred except pursuant to § 1407.1061.

§ 1407.1061 *Disposal of roasted coffee acquired without coffee stamps or certificates.* Any person who acquires roasted coffee without the surrender of coffee stamps or certificates, pursuant to § 1407.1060, may thereafter, if an institutional user, use such roasted coffee subject to the provisions of § 1407.1002 (b) or may transfer such roasted coffee only upon surrender to him of appropriate coffee stamps or certificates, except as otherwise expressly permitted by Ration Order No. 12. Such coffee stamps or certificates shall, within five days after each such transfer, be surrendered for cancellation to the State Director of the State in which such person resides or in which his principal business office is located.

§ 1407.1062 *Obtaining certificates to replace roasted coffee acquired pursuant to* § 1407.1060. When roasted coffee of a person who does not roast such coffee, has been acquired by another person without the surrender of coffee stamps or certificates, pursuant to § 1407.1060, the person from whom such roasted coffee has been acquired may apply to the board for a certificate in weight value equal to the weight of the roasted coffee acquired from him. Before the board may grant any such application, the applicant shall prove to the satisfaction of the board that the roasted coffee was acquired from him under the conditions described in § 1407.1060 and has not been returned to him.

PETITIONS FOR ADJUSTMENT; NEW BUSINESS

§ 1407.1065 *Petitions for adjustment of base, allotment, or allowable inventory.* (a) Any person may petition the board in writing for an adjustment of his base, allotment, or allowable inventory. Such petition shall state the name and address of the petitioner, the adjustment sought by him, the grounds on which the adjustment is sought, and any other facts deemed pertinent by such person. The board may request such additional information as it may deem pertinent, and shall, within ten days after the receipt of the petition, send it together with all relevant and material evidence and information received by the board, to the State Director. The board shall attach to the petition its recommendation concerning the action to be taken thereon.

(b) The State Director shall not act upon said petition but shall forward it, together with all other material concerning said petition received from the board, to the Office of Price Administration, Washington, D. C., for appropriate action. The petitioner may be requested to furnish further information and to appear personally.

§ 1407.1066 *New establishments*—(a) *Retail establishments.* (1) Any person desiring to obtain coffee for a retail establishment owned by him which commenced or will commence operations on or after November 22, 1942, may petition the board having jurisdiction over the area in which such person's principal business office is located for assignment to such person for such establishment of an allowable inventory.

(2) The board shall assign to the owner of such establishment an allowable inventory of coffee, not to exceed one pound of coffee for every ten dollars of the estimated gross sales, of all meats, groceries, fruits, vegetables, and similar products, to be made by said establishment in the first month of its operations, and shall issue to such owner a certificate or certificates in a weight value equal to such allowable inventory.

(3) Within ten days after the completion of its first two full months of operations the establishment shall report to the board its average monthly gross sales of all meats, groceries, fruits, vegetables, and similar products. If such report shows that the allowable inventory assigned by the board with respect to such establishment pursuant to paragraph (a) (1) of this section is greater than one pound of coffee for every ten dollars of such average monthly gross sales, the board shall reduce the allowable inventory to such amount and the establishment shall surrender to the board for cancellation coffee stamps or certificates in weight value equal to the amount of such reduction. If such report shows that the allowable inventory assigned to such establishment by the board pursuant to paragraph (a) (1) of this section is less than one pound for every ten dollars of such average monthly gross sales, the board shall increase the allowable inventory to such amount by issuing additional certificates to the establishment.

(b) *Wholesale establishments.* Any person desiring to obtain coffee for a wholesale establishment owned by him which commenced or will commence operations on or after November 22, 1942, may petition the Office of Price Administration, Washington, D. C., for assignment to him for such establishment of an allowable inventory. The petition shall state the name and address of the owner, the location or proposed location of the establishment, the value or estimated value of all meats, groceries, fruits, vegetables, and similar products on hand or to be acquired by such establishment, whether the establishment will roast coffee, the estimated transfers (in pounds) by the establishment during the first month of its operations of roasted coffee to be acquired by the establishment as roasted, and the estimated transfers (in pounds) by the establishment during the first month of its operations of roasted coffee roasted by the establishment.

REPORTS AND RECORDS

§ 1407.1068 *In general.* All persons who transfer or acquire coffee shall maintain such records and make such reports as Ration Order No. 12 requires and as the Office of Price Administration may from time to time require. Unless otherwise indicated in Ration Order No. 12, such records shall be maintained for a period of not less than two years and shall be available during such period for inspection by the Office of Price Administration.

§ 1407.1069 *By retailers and wholesalers.* (a) Every retailer and wholesaler shall maintain records of (1) all roasted and green coffee acquired by him on or after November 22, 1942, the names and addresses of the persons from whom such coffee was acquired, and the date and amount of each acquisition thereof; (2) the names and addresses of all persons, except consumers, to whom green and roasted coffee was transferred and the date and amount of each transfer; (3) the names and addresses of all persons to whom purchase warrants were surrendered and the date and amount of each purchase warrant so surrendered; (4) the names and addresses of all persons from whom purchase warrants were received and the date and amount of each purchase warrant so received; and (5) the amounts of his initial and allowable inventories of coffee. Each retailer and wholesaler shall also preserve all existing sales and other records upon which the computations of his initial and allowable inventories are based.

(b) Every retailer or wholesaler shall on or before December 31, 1942, report to the board, on such form as may be prescribed by the Office of Price Administration, the following: (1) the information contained in his records maintained pursuant to paragraphs (a) (3), (a) (4), and (a) (5) of this section; (2) the computations of his initial and allowable inventories; and (3) such other information as may be called for by such form.

§ 1407.1070 *By institutional and industrial users.* Every institutional registering unit and every industrial user shall maintain a record showing by months, the amounts of green and roasted coffee acquired by it and the names and addresses of the persons from whom such coffee was acquired, the amount of green coffee roasted by it, and, in the case of an industrial user, the amount of coffee used by him in products transferred by him.

§ 1407.1071 *By persons transferring or acquiring green coffee.* (a) Every person, not a retailer or a wholesaler, who transfers or acquires green coffee shall keep a record of the dates and amounts of such transfers and acquisitions and of the names and addresses of the persons to whom green coffee was transferred and from whom green coffee was acquired by him.

(b) Every person, other than the Army, Navy, Marine Corps, and Coast Guard, and Commodity Credit Corporation, who transfers or acquires green coffee shall monthly, beginning in January 1943, prepare a report in triplicate, showing, with respect to the previous month, (1) the names and addresses of the persons to whom green coffee was transferred and from whom green coffee was acquired, together with the dates and amounts of such transfers and acquisitions, and (2) his inventory of green and roasted coffee as of the first day of the month in which the report is prepared. Every person who roasts coffee shall, in addition, include in such report a statement of the weight value of all coffee stamps, certificates, and purchase warrants received by him against which he transferred, during the preceding month, roasted coffee which was roasted by him.

(c) The original and duplicate of each report referred to in paragraph (b) of this section shall be sent to the Office of Price Administration, Washington, D. C., not later than the tenth day of each month. The triplicate copy shall be retained by the person reporting. The report for the month of December 1942 shall include the required information for the period from November 22 to December 31, 1942, inclusive.

§ 1407.1072 *Miscellaneous records.* Any person required to make a report pursuant to § 1407.1056 or 1407.1058 shall preserve at his principal business office records of all coffee acquired or transferred by him pursuant to those sections, the persons by or to whom such transfers were made and the amounts thereof, the weight value of all coffee stamps and certificates received by him for such transfers, the serial numbers of such certificates, and the amount of roasted coffee transferred against such coffee stamps and certificates.

§ 1407.1073 *Disclosure of information.* (a) Information and documents obtained under Ration Order No. 12 will not be disclosed, in response to subpoena or otherwise, to any person other than the person furnishing such information or documents unless the Administrator or an officer or employee of the Office of Price Administration designated by the Administrator (1) determines that the requested disclosure is not contrary to any provision of law and (2) consents to such disclosure.

MISCELLANEOUS

§ 1407.1075 *Administration.* Ration Order No. 12 shall be administered by the Office of Price Administration, its Regional Administrators, State Directors, war price and rationing boards, and such other administrative personnel as it may designate.

§ 1407.1076 *Powers and duties.* The persons appointed to administer Ration Order No. 12 or to assist therein shall have such powers and duties as are herein described and as the Office of Price Administration has assigned and may from time to time assign.

§ 1407.1077 *Imports of roasted coffee.* (a) Roasted coffee may be brought to a place subject to Ration Order No. 12 from a place not subject to Ration Order No. 12, if it is delivered to the Collector of Customs at the point of entry into the United States. Such roasted coffee may be delivered to the Collector of Customs without the receipt of coffee stamps or certificates.

(b) The Collector of Customs may transfer roasted coffee thus received by him to any person importing such roasted coffee upon the receipt of coffee stamps or certificates in weight value equal to the weight of the roasted coffee transferred. When coffee stamps are surrendered to the Collector of Customs by a consumer importing the roasted coffee, the Collector of Customs shall detach from the war ration book of such consumer one coffee stamp for each pound of roasted coffee imported, in the following order: 27, 28, 25, 26, 23, 24, 21, 22, 20. Coffee stamps or certificates so received by the Collector of Customs shall be delivered, at least once each calendar month, to the State Director of the State in which such point of entry is located.

(c) Except as otherwise permitted in Ration Order No. 12, no person shall bring roasted coffee into a place subject to Ration Order No. 12 from a place not subject to Ration Order No. 12 or receive roasted coffee from the Collector of Customs.

§ 1407.1078 *Weight computation formulae*—(a) *Basis of computations.* In applying for and issuing certificates, issuing purchase warrants, and computing initial and allowable inventories, coffee bases, and allotments, all weights of coffee shall be stated in terms of roasted coffee.

(b) *Conversion*—(1) *Green coffee into terms of roasted coffee.* Whenever it is necessary, for the purpose of Ration Order No. 12, to compute the weight of green coffee in terms of weight of roasted coffee, such computation shall be made by multiplying the weight of the green coffee by .84.

(2) *Roasted coffee into terms of green coffee.* Whenever it is necessary, for the purpose of Ration Order No. 12, to compute the weight of roasted coffee in terms of weight of green coffee, such computation shall be made by multiplying the weight of the roasted coffee by 1.19.

§ 1407.1079 *Appeals.* (a) Any person directly affected by the action of a board, State Director, or Regional Administrator taken with reference to any application, petition, or other matter before such board, State Director, or Regional Administrator under Ration Order No. 12 may appeal from such action in accordance with Procedural Regulation No. 9.[8]

(b) This section shall not apply to any action taken with respect to petitions made pursuant to §§ 1407.1065 or 1407.1066, except action taken with respect to such a petition by the board, State Director, or Regional Administrator in cases where the board or official taking the action has been authorized by the Office of Price Administration to grant or deny such petition.

§ 1407.1080 *Persons authorized to sign reports, forms, purchase warrants.* Registration forms, petitions, applications, reports, purchase warrants, and any other documents required by Ration Order No. 12 to be signed by retailers, wholesalers, or industrial or institutional users may be signed by an owner, a partner (if the owner is a partnership), an officer (if the owner is a corporation, association, or similar organization), a manager of the owner, or any authorized agent of the owner.

§ 1407.1081 *Communications.* All petitions and reports required by Ration Order No. 12 to be made to the Office of Price Administration, Washington, D. C., and all other communications concerning Ration Order No. 12 sent to the Washington, D. C., office of the Office of Price Administration shall be addressed to: Office of Price Administration, Att: Food Rationing Division, Washington, D. C.

§ 1407.1082 *Duties, rights, obligations of establishments and registering units.* When the provisions of Ration Order No. 12 impose or confer duties, rights, or obligations upon an establishment or registering unit, such duties, rights, and obligations shall be considered as being conferred or imposed upon the person owning such establishment or registering unit with respect thereto.

§ 1407.1083 *Additional prohibitions.* (a) No person shall, except in accordance with Ration Order No. 12 or other ration order of the Office of Price Administration, deface, mutilate, alter, or destroy any coffee stamp, war ration book, purchase warrant, certificate, or any other document or record provided for in Ration Order No. 12.

(b) No person shall transfer, acquire, possess, or use coffee except in accordance with the provisions of Ration Order No. 12.

(c) No person shall, or shall cause another person to, solicit, attempt, or agree to do any act in violation of Ration Order No. 12.

(d) No person shall, in any application, petition, inventory, certificate, report, or other statement or record made pursuant to or required by the provisions of Ration Order No. 12, make any untrue statement of any fact, or omit to state any fact required to be stated therein or necessary to make the statements therein not misleading.

§ 1407.1084 *Acquisition and transfer of roasted coffee by Army, Navy, Marine Corps, and Coast Guard post exchanges, commissaries, ships' service stores, and men's and officers' clubs*—(a) *Acquiring roasted coffee for institutional purposes.* Army, Navy, Marine Corps, and Coast Guard post exchanges and ships' service stores, and officers' clubs, non-commissioned officers' clubs, and enlisted men's clubs maintained within the limits of Army, Navy, Marine Corps, or Coast Guard posts, camps, or bases, which use roasted coffee in the preparation of beverages, shall not register as institutional users pursuant to § 1407.995, but shall acquire roasted coffee for such purposes, without the surrender of certificates therefor, from the Army, Navy, Marine Corps, or Coast Guard commissaries or supply activities, in such amounts and in accordance with such arrangements as may be approved by the Office of Price Administration.

(b) *Acquiring roasted coffee for transfer to consumers.* Army, Navy, Marine Corps, and Coast Guard post exchanges, ships' service stores, and commissaries, which transfer roasted coffee to consumers shall, with respect to such transfers, be governed by the applicable provisions of Ration Order No. 12 concerning transfers of roasted coffee by retailers and wholesalers: *Provided, however,* That such post exchanges, ships' service stores, and commissaries may acquire roasted coffee for the purpose of transfer to consumers either from the Army, Navy, Marine Corps, or Coast Guard, without the surrender of coffee stamps or certificates, or from civilian suppliers upon the surrender to such suppliers of certificates obtained from the Army, Navy, Marine Corps, or Coast Guard. Coffee stamps and certificates received from consumers by any such post exchange, ship's service store, or commissary shall be surrendered by it at least once each week to the nearest board.

ENFORCEMENT

§ 1407.1085 *Removal of coffee stamps from war ration books of individuals under 15 years old.* (a) Upon the issuance of War Ration Book Two to an individual whose age, as entered on his War Ration Book One, is less than 15, there shall be detached from the War Ration Book One of either parent or the guardian of such individual or from the War Ration Book One of any person legally responsible for such individual two coffee stamps for each coffee stamp that is not attached to the war ration book of such individual. The board shall destroy all coffee stamps it thus detaches from war ration books pursuant to this paragraph.

(b) Any action taken by the board pursuant to this section shall be in addition to any penalties provided by law for violation of Ration Order No. 12.

§ 1407.1086 *Criminal prosecutions.* (a) Any person who wilfully performs any act prohibited, or wilfully fails to perform any act required by any provision of Ration Order No. 12, may upon conviction be fined not more than $10,000.00, or imprisoned for not more than one year, or both, and shall be subject to such other penalties as may be prescribed by law.

(b) Any person who knowingly falsifies an application, or any other record, report, purchase warrant, or certificate made pursuant to or required by the terms of Ration Order No. 12, or who otherwise knowingly furnishes false information concerning a material fact within the jurisdiction of the Office of Price Administration to any board, or any other agent, employee, or officer of the Office of Price Administration, or who attempts by the use of a trick, scheme, or device to conceal or cover up such a material fact within the jurisdiction of the Office of Price Administration, may upon conviction be fined not more than $10,000.00, or imprisoned for not more than ten years, or both, and shall be subject to such other penalties as may be prescribed by law. Any person who conspires with another person to perform any of the foregoing acts may upon conviction be fined not more than $10,000.00, or imprisoned for not more than two years, or both, and shall be subject to such other penalties as may be prescribed by law.

§ 1407.1087 *Suspension orders.* Any person who violates Ration Order No. 12 may, by administrative suspension order, be prohibited from acquiring or transferring any coffee or other rationed product for such period as in the judgment of the Administrator is necessary or appropriate in the public interest and to promote the national security.

§ 1407.1088 *Report of violations.* Any person may report a violation of Ration Order No. 12 to a war price and rationing board, a State Director, a Regional Administrator of the Office of Price Administration, or to the Office of Price Administration, Washington, D. C.

EFFECTIVE DATE

§ 1407.1090 *Effective date of Ration Order No. 12.* Ration Order No. 12 (§§ 1407.951 to 1407.1092, inclusive) shall become effective 12:00 p. m., November 21, 1942.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPERS AND PAPER PRODUCTS

[MPR 182,[1] Amendment 3]

KRAFT WRAPPING PAPERS AND CERTAIN BAG PAPERS AND CERTAIN BAGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.* The words "Certain Bags" in the title, which hereafter reads as set forth above; §§ 1347.305 (a), 1347.306, 1347.307, 1347.308a, subparagraphs (2) and (3) of § 1347.311 (a) are amended; and three new §§ 1347.315, 1347.316 and 1347.317 are added; as set forth below:

§ 1347.305 *Records and reports.* (a) Every person making a purchase or sale in the course of trade or business of Kraft wrapping paper or Kraft bag paper after July 28, 1942, or of standard grocer's or variety bags after November 26, 1942, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale showing the date thereof, the name and address of the purchaser or seller, the price paid or received, the quantity and grade bought or sold.

§ 1347.306 *Export sales.* The maximum price at which a person may export Kraft wrapping papers or Kraft bag papers or standard grocer's or variety bags shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation [2] issued by the Office of Price Administration.

§ 1347.307 *Adjustable pricing.* No person shall enter into an agreement permitting an adjustment of prices to prices in excess of the maximum prices established by §§ 1347.301 (a), (b) and (c), 1347.315 and 1347.316, in the event of this Maximum Price Regulation No. 182 being held invalid or upon any other condition, except that any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.308a *Licensing.* The provisions of Supplementary Order No. 19, licensing distributors of paper and paper products, are applicable to every distributor selling any of the commodities for which maximum prices are now or hereafter established by Maximum Price Regulation No. 182. The term "distributor" shall have the meaning given to it by Supplementary Order No. 19.

§ 1347.311 *Definitions.* (a) When used in this Maximum Price Regulation No. 182, the term:

* * * * *

(2) "Manufacturer" includes any person who manufactures any Kraft wrapping paper or Kraft bag paper or standard grocer's or variety bags covered by this Maximum Price Regulation No. 182, and any person who distributes or sells Kraft wrapping paper or Kraft bag paper or standard grocer's or variety bags as a del credere agent or other representative of a manufacturer.

(3) "Merchant or distributor" includes any person who buys Kraft wrapping paper or Kraft bag paper or standard grocer's or variety bags in any quantity from a manufacturer or other seller, and who resells such paper.

* * * * *

§ 1347.315 *Manufacturers' maximum prices for standard grocer's and variety bags.* On and after November 27, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver, or offer, solicit or attempt to sell or deliver standard grocer's or variety bags listed in paragraph (b) of this section, and no person shall buy or receive, or offer, solicit or attempt to buy or receive standard grocer's or variety bags listed in the aforementioned paragraph in the course of trade or business, at prices higher than the maximum prices set forth in this section and § 1347.316. The provisions of this section and § 1347.316 shall not be applicable to sales or deliveries of standard grocer's or variety bags to a purchaser, if, prior to November 27, 1942, such standard grocer's or variety bags have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(a) *Preliminary explanation.* The maximum prices as hereinafter set forth are computed on the basis of industry base price lists, which lists are included in § 1347.317. The maximum manufacturers' prices are set forth in terms of discounts of 5% each from the basic list price, then 5% off the resultant figure, and so forth, and may be ascertained by reference to the list and discount computations included in § 1347.317.

[2] Brown M. F. Kraft in the basis weights as stated in the simplification report submitted to the War Production Board by Conservation Committee for the Paper Bag Industry.

(1) The maximum prices established in paragraph (b) of this section are the maximum prices per thousand bags in carload lots, Zone A,[3] f. o. b. mill, lowest available carload rate of freight allowed to destination point. The lowest available carload rate of freight means the lowest freight rate for shipment of carload quantities by the means of transportation available at the time of shipment.

(c) *Differentials applicable to sales by manufacturers.* In sales by manufacturers, there may be added to the maximum base prices established in paragraph ( ) of this section the following differentials in only such cases in which such differentials are applicable:

(1) Deliveries to zones other than A,[3] in carload lots, f. o. b. mill, lowest available rate of freight allowed to destination point:

(i) Zone B [3]—1/5 less than basic discount.

(ii) Zone C [3]—2/5s less than basic discount.

(iii) Zone D [3]—Same as Zone A.[3]

(2) For l. c. l. orders: ⅖s less than basic discount.

(3) For other grades of variety or odd bags there shall be subtracted from or there may be added to the maximum price for popular weight self-opening (automatic) Kraft grocer's bags set forth in paragraph (b) of this section, the differential between such grades and popular weight self-opening (automatic) Kraft grocer's bags actually employed by the manufacturer in sales or deliveries during the period from October 1, 1941, to October 15, 1941, inclusive, to a purchaser of the same class.

Within 10 days after the first sale involving the application of any such differential subsequent to the effective date of this Amendment, the seller shall submit to the Office of Price Administration, Washington, D. C., a report, signed under oath, setting forth the amount of such differential, to what the differential was applied, the purpose or use of the bags to which such differential was applied, and the estimated tonnage of such bags to which such differential was applied, to be manufactured during the succeeding six months. The differential so reported shall be subject to adjustment or disapproval at any time by letter of the Office of Price Administration.

(d) *Definitions.* When used in this Amendment No. 2, the term:

(1) "Standard grocer's or variety bags" includes all types of grocer's bags (squares, flats, self-opening (automatic), and sacks), millinery and notion bags, liquor bottle bags, banana bags, candy bags, doughnut bags, garment and pants bags, laundry bags, nail bags, shopping bags and sugar bags, excluding bags made of specialty papers and transparent material.

(2) "Bale" includes a shipping bundle or unit containing the number of bags specified in the standard industry net price discount tables for the particular sizes and types of standard grocer's or variety bags involved.

(3) Base list means industry list. Basic discount means discounts from the base list as used in this regulation.

(4) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(5) "Zone A"[3] includes Texas, Oklahoma, Kansas, Nebraska, the cities of Aberdeen, Watertown, Brookings, Sioux Falls, Huron and Mitchell in South Dakota, the cities of Grand Forks, Fargo and Wahpeton in North Dakota and all the continental United States east of this region.

(6) "Zone B"[3] includes New Mexico, Colorado, Wyoming and the areas of North Dakota and South Dakota not included in Zone A.

(7) "Zone C"[3] includes Montana, Utah, and all of Idaho and Nevada not included in Zone D.

(8) "Zone D"[3] includes Washington, Oregon, California, the cities of Reno and Las Vegas in Nevada and the cities of Coeur D'Alene, Wallace, Moscow, Lewiston, Weiser, Boise and Nampa in Idaho.

§ 1347.316 *Merchants' or distributors' maximum prices for standard grocer's and variety bags*—(a) *Sales to persons other than merchants or distributors.* The maximum price shall be the manufacturer's price as established in § 1347.315 (b), plus the differentials set forth in § 1347.315 (c) (1) and (2) when actually charged by the manufacturer (with the exception stated in paragraph (a) (1) below), plus the following mark-ups:

Quantity in bales:	*Mark-up (see standard industry base lists and discount tables)*
Less than 1	12/5s
1 to less than 5	6/5s
5 to less than 10	5/5s
10 to less than 75	4/5s
75 to less than 300	3/5s
300 to less than carload	2/5s
Carload	1/5

(For example, where the manufacturer's maximum price in basic discounts from the standard base list amounts to 26/5s, the mark-up is computed by deducting the appropriate number of 5s from such 26/5s; in a sale of 5 to less than 10 bales, the mark-up is determined by deducting 5/5s from such 26/5s, resulting in a maximum price which amounts to 21/5s in discounts from such base list.)

(1) On sales of standard grocer's bags and sacks the manufacturer's differentials for l. c. l. shipments as set forth in § 1347.315 (c) (2) may in no event be included in a determination of the maximum price of the merchant or distributor.

(b) *Sales to other merchants or distributors.* The maximum price shall be the manufacturer's price as set forth in § 1347.315 (b), plus the differentials set forth in § 1347.315 (c) (1) and (2) when actually charged by the manufacturer (with the exception stated in paragraph (b) (1) below), plus the following mark-ups:

Quantity in bales:	*Mark-up (see standard industry base lists and discount tables)*
Less than 1	6/5s
1 to less than 5	3/5s
5 to less than 10	2½/5s
10 or more	2/5s

(1) On sales of standard grocer's bags and sacks the manufacturer's differentials for l. c. l. shipments as set forth in § 1347.315 (c) (2) may in no event be included in a determination of the maximum price of the merchant or distributor.

(c) *Charges for delivery in sales by merchants or distributors.* (1) The maximum prices established in this section shall be f. o. b. point of delivery for shipments to points within a free delivery zone or area within which the merchant or distributor customarily shipped or would have shipped on such basis during the period from October 1 to October 15, 1941.

(2) On sales of less than carload lots to points outside the recognized free delivery zone, the merchant may add the differential which he charged during the period October 1 to October 15, 1941, or, if he made no such sale, which he would have charged on such deliveries to purchasers of the same class, or the actual freight, whichever is lower.

(d) For sales involving shipment from the manufacturer directly to a person purchasing from a merchant or distributor, the maximum prices shall be those established in paragraph (a) of this section.

---

[3] Applicable in sales of standard grocer's or variety bags.

[3] *Supra.*

(e) For sales in carload lots involving shipment from the manufacturer to a person purchasing from a merchant or distributor where local delivery by the merchant or distributor from a warehouse or rail siding is required, there may be added to the maximum price established herein the actual delivery expense (except that no rail freight shall be included), which in no event shall exceed the applicable local common carrier rate; and such expense shall be separately included in the invoice or other evidence of sale.

§ 1347.317 *Base price lists and computation of discounts.* The basic manufacturers' price lists, and the computation of discounts off such lists, as referred to in this regulation, are as set forth below:

[MPR 136 as Amended,[1] Amendment 53]

MACHINES AND PARTS AND MACHINERY SERVICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

New subparagraph (40) is added to § 1390.25 (c) and new paragraph (bbb) is added to § 1390.31a as set forth below:

§ 1390.25 *Petitions for amendment or adjustment.* * * *

(c) *Amendments.* * * *

(40) *Machines and parts containing silver.* Notwithstanding any other provision of this Maximum Price Regulation No. 136, as amended, the maximum price applicable to the sale and delivery of any machine or part containing silver may be increased by the sum of 9.625¢ per fine troy ounce of silver contained in such machine or part: *Provided*, That no overhead, margin or profit factor be applied to such increase: *And provided further*, That where the provisions of this Maximum Price Regulation No. 136, as amended, already permit a seller to reflect in his maximum price the increase in the cost of a machine or part containing silver (See § 1390.7 (c) (3) (i) and § 1390.10 (c)), no additional allowance may be added by such seller.

§ 1390.31a *Effective dates of amendments.* * * *

(bbb) Amendment No. 53 (§ 1390.25 (c) (40)) to Maximum Price Regulation No. 136, as amended, shall become effective November 25, 1942.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[MPR 136, as Amended,[1] Amendment 54]

MACHINES AND PARTS AND MACHINERY SERVICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In paragraph (a) of § 1390.7, subparagraph (4) is amended, and new subparagraph (8) is added; in paragraph (c) of § 1390.7, subdivision (i) of subparagraph (3) is amended; in § 1390.11, paragraphs (b), (c) and (d) are amended, paragraph (e) is redesignated (f), and a new paragraph (e) is added; in § 1390.16 paragraphs (a) and (b) are amended; in § 1390.26 new paragraph (c) is added; in § 1390.32 one item is amended and a new item is added in paragraph (c), one item is amended and two new items are added in paragraph (g), a new item is added in paragraph (h), two items in paragraph (i) are amended, and paragraph (j) is amended; and in § 1390.33 three items are amended in paragraph (c), all as set forth below:

§ 1390.7 *Maximum prices: sales by the manufacturer of machines or parts without list prices.* * * *

(a) *Pricing formula.* * * *

(4) To the extent that the price-determining method includes or is based on prices paid for subcontracted services, whether machinery services or otherwise, the manufacturer shall use actual prices paid or to be paid for such subcontracted services, not in excess of applicable maximum prices;

* * * * *

(8) To the extent that the price-determining method includes or is based on prices paid for perishable tools, dies, molds, patterns, or work-holding devices, the manufacturer shall use actual prices paid or to be paid for such items, not in excess of maximum prices provided by this Maximum Price Regulation No. 136, as amended, determined in accordance with paragraph (c) (4) below.

* * * * *

(c) *Material prices.* * * *

(3) * * *

(i) For any part or subassembly purchased, the manufacturer shall use the actual price for such part or subassembly paid or to be paid, not in excess of the applicable maximum price. For the purposes of this paragraph, the term "parts and subassemblies" means, in addition to products covered by Maximum Price Regulation No. 136, as amended, products covered by Revised Price Schedule No. 82—Wire, Cable and Cable Accessories, No. 105—Gears, Pinions, Sprockets and Speed Reducers, Maximum Price Regulation No. 119—Original Equipment Tires and

Tubes, No. 147—Bolts, Nuts, Screws, and Rivets, and No. 149—Mechanical Rubber Goods, and materials bought on an installed basis in the process of erection of a machine or parts sold on an erected and installed basis.

§ 1390.11 *Maximum prices: sales of second-hand machines and parts.* * * *

(b) The price for any rebuilt and guaranteed machine or part shall not be more than eighty-five percent of the highest maximum price to any class of purchasers for the nearest equivalent new machine or part f. o. b. factory, whether established by this Maximum Price Regulation No. 136, as amended, or by any other price schedule or maximum price regulation or order issued by the Office of Price Administration. A "rebuilt and guaranteed" machine or part is one in which all worn or missing components which should be replaced or repaired for satisfactory operation, if any, have been replaced or repaired, and which carries a binding guaranty of satisfactory operation for a period of not less than sixty days, and which is expressly invoiced as a rebuilt and guaranteed machine or part or its equivalent. In the event of a sale by a governmental agency, such agency may substitute for the guaranty a certification by a qualified person who is not engaged in the business of selling second-hand machines and parts and who is approved by the purchaser, to the effect that all worn or missing components which should be replaced or repaired for satisfactory operation, if any, have been replaced or repaired.

(c) The price for any other second-hand machine or part shall not be more than fifty-five percent of the highest maximum price to any class of purchasers for the nearest equivalent new machine or part f. o. b. factory, whether established by this Maximum Price Regulation No. 136, as amended, or by any other price schedule or maximum price regulation or order issued by the Office of Price Administration.

(d) In quoting, contracting, invoicing, or billing any second-hand machine or part for which a maximum price is provided in paragraphs (b) or (c), the seller may add to the maximum price the amount of any tax upon the sale or delivery of such machine or part, and shall bill any such tax separately from the price of such machine or part.

(e) In general, the maximum price for any second-hand machine or part provided in paragraph (b) or (c) of this section is the price f. o. b. the seller's place of business. In any case where a machine or part is actually sold on an "as-is where-is" basis the seller shall reimburse the buyer for the actual cost of dismantling and loading up to 10% of the maximum price determined in accordance with paragraph (c) of this section.

§ 1390.16 *Federal and state taxes.* (a) Any tax levied by any statute of the United States or statute or ordinance of any state or subdivision thereof which the seller on October 1, 1941, added to the price paid by the purchaser shall not be included in the maximum price but may be collected by the seller in addition to the maximum price if such tax is stated separately from the purchase price, except that such tax need not be stated separately if it is measured by the seller's cost of such machine or part.

(b) Any tax upon the sale or delivery of a machine or part and any compensating use tax upon a machine or part levied by any statute of the United States or statute or ordinance of any state or subdivision thereof and becoming effective on or after October 1, 1941, may also be collected by the seller making such taxable sale or delivery in addition to the maximum price if such tax is stated separately from the purchase price, unless the seller had increased his price on or before October 1, 1941, to reflect such new or increased tax, except that such tax need not be stated separately if it is measured by the seller's cost of such machine or part.

§ 1390.26 *Records and additional or substituted reports.* * * *

(c) *Reports on products brought under this Maximum Price Regulation No. 136, as amended.* Notwithstanding any other provisions of this Maximum Price Regulation No. 136, as amended, whenever the sale or rental of any products or services are brought within the scope of this Maximum Price Regulation No. 136, as amended, after the effective date thereof by amendment or otherwise, the reports required by this Maximum Price Regulation No. 136, as amended, in § 1390.5 (b) shall be filed within thirty days after the effective date of such amendment, and the reports provided for in § 139C.10 (b) may be filed within thirty days after such effective date.

§ 1390.32 *Appendix A: Machines and parts to which the October 1, 1941, date is applicable.* * * *

(c) *Processing machinery and equipment:* * * *

Chemical process machinery.

* * * * *

Electroplating and hot-dip metal coating equipment, including preparatory and finishing equipment used in connection with metal coating processes.

* * * * *

(g) *Auxiliary equipment:* * * *

Heat exchange equipment, industrial.

* * * * *

Open tanks and vessels (except field erected tanks or vessels; domestic fuel oil storage tanks; products commonly known as plumbing fixtures, such as flush tanks and laundry trays; products commonly known as pans and cans, such as pails, buckets, nonreturnable shipping containers, refuse receptacles, drip receivers, and waste receivers).

Pressure tanks (except field erected tanks; high pressure cylinders not over 1,000 lbs. water capacity for shipping or storing liquids or gases at pressures up to 3,000 lbs. per square inch; range boilers or expansion tanks not over 192 gal. capacity, made of metal not over 12 B W G gauge).

* * * * *

(h) *Miscellaneous:* * * *

Industrial power-operated devices for applying protective coatings or for the application of metals by spraying methods.

* * * * *

(i) *Miscellaneous parts and subassemblies, etc.:*

Anti-friction bearings, except automotive.

Chains, sprocket, and roller and silent, except automotive.

(j) *Parts and subassemblies of any items set forth in paragraphs* (a) *through* (i) *inclusive of this Appendix A when manufactured by the manufacturer of the complete item.* (This paragraph applies to any such part or subassembly, even when it is of a type listed in paragraph (c) of § 1390.33, and even though it may in some cases be incorporated in items other than those set forth in paragraphs (a) through (i) inclusive of this Appendix A).

§ 1390.33 *Appendix B: Machines and parts to which the March 31, 1942, date is applicable.* * * *

(c) *Miscellaneous:* * * *

* * * * *

Dies, molds, and patterns.

Gaskets and packing, except automotive.

Screw machine products (this shall not include bolts, nuts, screws, and rivets, as defined in Maximum Price Regulation No. 147. The sales of these are subject to Maximum Price Regulation No. 147 or the General Maximum Price Regulation, depending upon the type of seller).

§ 1390.31a *Effective dates of amendments.* * * *

(ccc) Amendment No. 54 (§§ 1390.7 (a) (4) (8) and (c) (3) (i), 1390.11 (b) (c) (d) and (e), 1390.16 (a) and (b), 1390.26 (c), 1390.32 (c) (g) (h) (i) and (j), 1390.33 (c)) to Maximum Price Regulation No. 136, as amended, shall become effective November 25, 1942.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 5A,[1] Amendment 17]

GASOLINE RATIONING REGULATIONS

A Rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1394.1402, and paragraph (d) of § 1394.1506, are amended; a new paragraph (e) to § 1394.1201 is added; and a new paragraph (r) has been added to § 1394.1902; as set forth below:

Renewal of Rations and Issuance of Further Rations

§ 1394.1201 *Renewal of rations.* * * *

(e) When issuing a further service ration or ration represented by Class S coupons, the Board shall allow only the mileage required for the operation of the vehicle through November 30, 1942.

* * * * *

Expiration and Revocation of Rations

§ 1394.1402 *Expiration of rations.* All basic rations shall expire at midnight July 21, 1943. All other rations shall expire at midnight of the date noted on the application therefor or on the coupon books issued therefor, except that Service ration books and coupons may continue to be used through November 30, 1942 irrespective of the expiration date fixed for such rations.

Restrictions on Transfers

§ 1394.1506 *Emergency transfer.* * * *

(d) Any Regional Administrator of the Office of Price Administration who finds that there has been such delay in the issuance of further rations as of November 22, 1942, as to jeopardize the movement of trucks, busses or other essential vehicles for which no basic ration is issuable, may by declaration designate the States within his region in which such delay has occurred and specify the types of vehicles affected thereby. Such declaration shall continue in effect until November 30, 1942 or such earlier date as he may determine. During the effective period of such declaration, the operator of a vehicle of a type specified therein, licensed in a state designated therein, may acquire gasoline in the rationed area for use in such vehicle by signing an emergency receipt on Form OPA R–555, in duplicate: *Provided,* That gasoline may be so acquired for a vehicle only during the interval between the date of application for a further ration for such vehicle and the date of receipt or denial of such ration. Any dealer who has made a transfer of gasoline in exchange for an emergency receipt pursuant to this paragraph shall transmit such receipt, in duplicate, to the Board having jurisdiction over the area in which his place of business is located and such Board shall issue inventory coupons to him, in exchange for such receipt, in accordance with the procedure specified in paragraph (c) of this section.

PART 1307—RAW MATERIALS AND COTTON TEXTILES

[RPS 7, Amendment 7[2]]

COMBED COTTON YARNS AND THE PROCESSING THEREOF

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1307.12 paragraph (d) (4) (iii) is amended; a proviso is added to inferior subdivision (*d*) of paragraph (d) (4) (vii).

§ 1307.12 *Appendix A: Maximum prices for combed yarns and mercerizing, bleaching and/or gassing thereof.* * * *

(d) Maximum prices for combed yarns not covered by contract prior to December 24, 1942, and for mercerizing, bleaching and/or gassing.

* * * * *

(4) *Premiums.* * * *

(iii) *Jobbers.* A jobber[10] may:

(*a*) (*1*) Sell to a given customer broken-case[10a] lots of combed yarn in quantities of 1,500 pounds or less per calendar month at a premium of 10 per cent and in quantities in excess of 1,500 pounds per calendar month at a premium of 5 per cent: *Provided,* That in no event shall sales of broken-case lots at a premium, irrespective of quantity per sale, exceed 15,000 pounds in any calendar month to all of the seller's customers.

(*2*) Sell combed yarn in lots of 1 to 3 unbroken cases at a premium of 5 per cent: *Provided,* That except as set forth below no jobber may avail himself of this premium on that portion of his sales in any calendar month which is in excess of 3,000 pounds to the same customer or 20,000 to all his customers.

(*b*) On lots of 1 to 3 unbroken cases, the following concerns may avail themselves of the premium set forth in (*a*) (*2*) above on that portion of their respective sales of combed yarn in any calendar month which is not in excess of the amounts set forth below:

Name	Permissible amount to any given customer	Permissible amount to all customers
	Pounds	*Pounds*

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 30]

WASTEPAPER

The preamble and §§ 1347.1 to 1347.10 inclusive of Revised Price Schedule No. 30—Wastepaper—are amended, renumbered, and reissued as Maximum Price Regulation No. 30—Wastepaper.

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of wastepaper by a maximum price regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation, which apply to the sale of wastepaper, are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Emergency Price Control Act of 1942 as amended.

So far as practicable the Price Administrator has consulted with representatives of the trade and industry. He has found that the issuance of this regulation conforms to the standards of the Act.

A statement of considerations involved in the issuance of this regulation is issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 this Maximum Price Regulation No. 30 is hereby issued.

AUTHORITY: §§ 1347.1 to 1347.14, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E. O. 9250, 7 F.R. 7871.

§ 1347.1 *Prohibitions.* Regardless of any contract, agreement, lease or other obligation:

(a) No person shall sell or deliver any wastepaper at higher prices than the maximum prices set forth in Appendix A (§ 1347.14) of this Maximum Price Regulation No. 30.

(b) No person shall buy or receive any wastepaper at higher prices than the maximum prices set forth in Appendix A (§ 1347.14) of this Maximum Price Regulation No. 30.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

§ 1347.2 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 30 may be charged, demanded, paid or offered.

[10] As used herein, "jobber" means a person at least 75 per cent of whose sales of combed yarn during the calendar month preceding any given transaction consisted of stock yarn sales. See footnote 1 for definition of "stock yarn".

[10a] As used herein the term broken case means a case from which at least 25 per cent of the contents have been removed.

§ 1347.3 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 30 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of wastepaper for which maximum prices are established by this regulation.

§ 1347.4 *Export sales and sales for export.* The maximum price at which a person may export wastepaper shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[1] issued by the Office of Price Administration. The maximum prices at which a person may make a domestic sale of wastepaper which is to be exported shall not exceed the maximum prices herein provided for domestic sales: *Provided, however,* That persons specially packaging wastepaper for export and selling the same to a purchaser who warrants in writing that the wastepaper so packed will be sold in export, may add to the maximum price an amount not in excess of the highest premium actually charged for the same or similar packing by such person during the period of January 1 through September 30, 1941. If a person made no such charge for such packing in said period, the amount of his charge for such packing shall not exceed the amount charged in said period by his nearest and most closely competitive seller in said period.

§ 1347.5 *Imports.* The maximum prices established herein shall apply to imports of wastepaper from a foreign country, f. o. b. the port or city of entry in the United States.

§ 1347.6 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 30 may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[2] issued by the Office of Price Administration.

§ 1347.7 *Licensing.* The provisions of Supplementary Order No. 5[3]—Licensing, are applicable to every dealer and broker subject to this Maximum Price Regulation No. 30, selling, offering to sell, delivering or transferring at a price wastepaper to a consumer.

§ 1347.8 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 30 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of wastepaper, alone or in conjunction with or relating to any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege or tying agreement, or other trade understanding or otherwise.

§ 1347.9 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 30 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942 as amended.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 30 or any price schedule, regulation or order issued by the Office of Price Administration, or any acts or practices which constitute such a violation, are urged to communicate with the nearest District, State, Field or Regional Office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1347.10 *Records and reports.* (a) Every person who has been required under Revised Price Schedule No. 30 to keep records for inspection by the Office of Price Administration shall preserve such records for so long as the Emergency Price Control Act of 1942 shall remain in effect.

(b) Every person making purchases or sales of commercially packed wastepaper shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 shall remain in effect, complete and accurate records of each purchase or sale of wastepaper showing the following:

(1) Date of purchase or sale.

(2) Name and address of the buyer or seller.

(3) Grade of wastepaper purchased or sold.

(4) Quantity of each grade purchased or sold.

(5) Prices paid or received.

(6) Warranties, if any, given or received.

Such records shall set forth separately the f. o. b. point of shipment price, the origin and destination of the shipment, the means of transportation used, the amount of the transportation charge, and any other amounts paid or received in connection with such sale.

(c) Persons required to keep records shall submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this § 1347.10 as the Office of Price Administration may from time to time require or permit.

§ 1347.11 *Definitions.* (a) When used in this Maximum Price Regulation No. 30, the term:

(1) "Person" means an individual, corporation, partnership, association, any other organized group of persons, the legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Wastepaper" includes papers and paper products which have been used or discarded, or which result as by-products from a manufacturing or conversion operation, or which are sold for reuse in a manufacturing or conversion operation involving repulping, shredding, or grinding.

(3) "Consumer" means a person who acquires wastepaper for use in the manufacturing process conducted by him.

(4) "Dealer" means a person who acquires wastepaper for the purpose of sale as wastepaper.

(5) "Commercially packed" means packed in machine compressed bales or by an optional method of packing where such method is allowed in the definition of a grade.

(6) "Objectionable papers" include carbon, waxed, paraffined, oil treated, greased, glazed, parchment, asphalt, tar, tympan, and used wall paper, friction board, cloth book-covers, heavy cores, pressboard, used bill board stock, paper-wrapped excelsior, felt furniture pads, paper twine, uncut printer's rolls, and paper strings.

(7) "Foreign materials" include every non-paper substance that cannot be manufactured into paper or paper products by the processes normally used for wastepaper, including, but in no way limited to cellophane, rags, rubbers, strings, vulcanized fiber, metals, and rubbish of all kinds.

(8) "Out-throw" for a given grade of wastepaper consists of all substances not suitable for the manufacture of paper or paperboard such as "Objectionable papers" and "Foreign materials", and all papermaking materials present in the packing that do not meet the requirements of the applicable definition for the grade. In the book, magazine and ledger grades "Out-throw" includes books, magazines and papers containing groundwood.

(9) "Manila", whenever used in the definitions set forth in § 1347.14 of this Maximum Price Regulation No. 30, refers to a color and finish of paper obtained by the natural undyed or very lightly tinted color of the woodpulp employed in the manufacture of the paper, such color and finish being comparable to that secured in paper manufactured from manila hemp or rope.

(10) "One cut" as applied to wastepaper means wastepaper of one color, shade, basis weight and finish resulting from one run in a process of conversion.

(11) "Broker", commonly known as a wastepaper broker, means any person who sells to consumers wastepaper not packed by such person, and purchased by such person in the condition in which it is to be delivered to the consumer.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1347.12 *Applicability.* The provisions of this Maximum Price Regulation No. 30 shall be applicable to the continental United States and the District of Columbia, but not to the territories and possessions of the United States.

§ 1347.13 *Effective date.* This Maximum Price Regulation No. 30 (§§ 1347.1 to 1347.14 inclusive) shall become effective November 27, 1942.

[1] "No. 1 mixed paper" consists of wastepaper which does not have the uniform or distinctive qualities required for classification as any other grade.

[2] "No. 1 news" consists of waste newspapers. Optional method of packing—securely tied bundles.

[3] "Overissue news" consists of unused overrun newspapers from a newspaper office. Dealers' returns constitute a lower quality of this grade. Optional method of packing—securely tied bundles.

[4] "Old corrugated containers" consist of used corrugated or solid fiber containers.

[5] "Old Kraft corrugated containers" consist of used Kraft corrugated or solid fiber containers of 100% sulphate fiber content. A lower quality of this grade consists of corrugated containers composed of two liners which are of 100% sulphate fiber with a corrugated filler of other fiber. Unless both of the liners are 100% sulphate fiber, the material must not be sold at a price in excess of the maximum price of "Old corrugated containers."

[6] "New corrugated cuttings" consist of new corrugated or solid fiber container board cuttings.

[7] "Boxboard cuttings" consist of new cuttings of paperboard which is used in the manufacture of folding paper cartons, set-up boxes and similar boxboard products.

[8] "White blank news" consists of unprinted cuttings or sheets of white newsprint paper.

[9] "Extra manilas" of the highest quality consist of unprinted manila paper. Lower qualities may contain printing.

[10] "New manila envelope cuttings" consist of new cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes. Optional method of packing—securely tied packages.

[11] "One cut new manila envelope cuttings" consist of new one cut cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes. Optional method of packing—securely tied packages.

[12] "Manila tabulating cards, free from groundwood" consist of new or used printed manila cards, free from groundwood, which have been manufactured for use in automatic tabulating machines. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[13] "Manila tabulating cards, groundwood" consist of new or used printed manila cards, containing groundwood, which have been manufactured for use in automatic tabulating machines. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[14] "No. 1 hard white shavings" consist of new groundwood-free bond or writing paper shavings of sulphite and/or rag fiber content. The highest quality of this grade consists of all white shavings. Lower qualities may contain rulings or light colored stock.

[15] "Hard white envelope cuttings" consist of new cuttings from groundwood-free bond or writing papers of the quality used in the manufacture of envelopes. The fiber content of the stock shall be sulphite, rag, or bleached sulphate. Optional method of packing—securely tied packages.

[16] "One cut hard white envelope cuttings" consist of new one cut cuttings from groundwood-free bond or writing papers of the quality used in the manufacture of envelopes. The fiber content of the stock shall be sulphite, rag, or bleached sulphate. Optional method of packing—securely tied packages.

[17] "No. 1 soft white shavings" consist of unprinted, all white shavings from book and similar printing papers, free from groundwood, and containing not in excess of 10% of coated paper stock and/or heavily filled papers.

[18] "One cut soft white shavings" consist of unprinted, all white, one cut shavings from book and similar printing papers, free from groundwood, and containing not in excess of 10% of coated paper stock and/or heavily filled papers.

[19] "Miscellaneous soft white shavings" consist of unprinted all white shavings from book and similar printing papers, free from groundwood, but not limited with respect to coated or filled paper stock.

[20] "No. 1 fly leaf shavings" consist of the trim of magazines, catalogs and similar printed matter, free from groundwood, and may contain the bleed of cover and insert stock. Solid color printed and beater-dyed papers constitute a lower quality of this grade.

[21] "No. 1 groundwood fly leaf shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood, and may contain the bleed of cover and insert stock, but shall be free from beater-dyed papers, solid or other color printing, and coated stock.

[22] "No. 2 mixed colored groundwood shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood or coated stock, and may contain the bleed of cover and insert stock as well as beater-dyed papers and solid and other color printing.

[23] "Mixed books" consist of books or magazines, including outthrow not in excess of 40 per cent of the total weight of the packing. Packings which contain in excess of 40 per cent outthrow must not be sold at a price in excess of the maximum price of "No. 1 mixed paper". Packings of this grade which are sold for use in the manufacture of paperboard, regardless of outthrow percentage must not be sold at a price in excess of the maximum price of "No. 1 mixed paper".

[24] "No. 1 heavy books and magazines" consist of used and overissue books and magazines, stitchless stock, quire waste, and similar printed matter. The stock shall be free from heavily inked, deeply colored, gilt, aluminum, varnished, lithographed, rotogravure printed, and cover papers. This grade shall not contain more than 2% outthrow. Deliveries which fail to meet the requirement as to outthrow must be rejected or paid for only after adjustment to eliminate any payment for the excessive outthrow.

[25] "No. 1 mixed ledger (colored ledger)" consists of ledger sheets, bond, and writing papers, white and colored, which contain no more than 2% outthrow. Deliveries which fail to meet the requirement as to outthrow must be rejected or paid for only after adjustment to eliminate any payment for the excessive outthrow.

[26] "No. 1 white ledger" consists of ledger sheets, bond, and writing papers, all white, which contain no more than 2% outthrow. Deliveries which fail to meet the requirement as to outthrow must be rejected or paid for only after adjustment to eliminate any payment for the excessive outthrow.

[27] "No. 1 assorted Kraft (old Kraft)" consists of Kraft paper waste, free from corrugated waste of any kind.

[28] "Triple sorted No. 1 brown soft Kraft" consists of old, soft, natural color Kraft papers completely free from papers other than those containing 100% sulphate fiber.

[29] "Mixed Kraft envelope and/or bag cuttings" consist of new cuttings from 100% sulphate envelope and/or bag stock. Deliveries containing cuttings of less than 100% sulphate fiber shall be sold at a price not in excess of the maximum price of "No. 1 assorted Kraft (old Kraft)".

[30] "Kraft envelope cuttings" consist of new cuttings from 100% Northern sulphate envelope stock. Optional method of packing—securely tied packages.

[31] "New 100% Kraft corrugated cuttings" consist of cuttings from new corrugated or solid fiber container stock of 100% sulphate fiber content. A lower quality of this grade consists of cuttings from new corrugated stock composed of two liners which are 100% sulphate fiber with a corrugated filler of other fiber. Unless both of the liners are of 100% sulphate fiber, the material must not be sold at a price in excess of the maximum price of "New corrugated cuttings."

[32] "Mill wrappers" consist of paper used as outside wrappers for rolls or bundles of finished paper stock and may contain sulphite or Kraft screenings, groundwood fiber or chemical woodpulp fiber.

(b) *Grade requirements*—(1) *Differentials.* All prices established by this Maximum price Regulation No. 30 are the maximum prices for the respective grades of wastepaper. No differentials or service charges other than those specifically provided for in this Maximum Price Regulation No. 30 may be charged.

(2) *Highest qualities.* The highest qualities of each grade shall be clean, dry, and free from objectionable papers and foreign materials. Other qualities of wastepaper of each grade may be purchased or sold at or below the maximum price established for such grade: *Provided,* That such wastepaper fulfills the minimum requirements of fiber and physical characteristics as set forth in the definition of such grade, and is of merchantable quality in all respects.

(3) *Baling.* All wastepaper must be packed in machine compressed bales unless provision is made in the definition of the grade for an optional method of packing. A deduction of at least $2.00 per ton must be made from the maximum

price specified for such grade, if the packing does not comply with this requirement. Tare shall not exceed 2% of the gross weight.

(c) *Maximum prices for unlisted grades of wastepaper.* The maximum price for any grade of wastepaper not listed in paragraph (a) of this § 1347.14 shall be a price in line with the maximum price enumerated therein for the nearest related grade of wastepaper.

Any person proposing to sell to a consumer of wastepaper or any consumer proposing to buy a grade of wastepaper not listed in paragraph (a) of this § 1347.14 shall, before making such sale or purchase, submit to the Administrator in Washington, D. C. a sworn statement setting forth all of the relevant facts including the following:

(1) Name of grade.

(2) Detailed statement of fiber content and physical characteristics of said grade.

(3) Maximum price per short ton f. o. b. point of shipment for which such person proposes to buy or sell said grade.

(4) Detailed statement of prices for which petitioner has purchased or sold said grade since January 1, 1941. This statement must be set forth on a monthly basis.

(5) Detailed statement of tonnage of said grade purchased or sold by petitioner since January 1, 1941. This statement must be set forth on a monthly basis.

(6) Statement indicating the degree of uniformity of fiber content and physical characteristics of said grade in all other purchases or sales thereof which have been made by said person.

(7) All other facts requested by the Office of Price Administration.

Representative samples of the wastepaper proposed to be purchased or sold shall be submitted with the sworn statement.

The price for which such wastepaper is purchased or sold by such person shall be subject to adjustment by the Office of Price Administration, if such price is not in line with the maximum price enumerated in this schedule for the nearest related grade of wastepaper. When any person has submitted the data described above with respect to any grade of wastepaper, he shall not be required to submit such data again prior to making a purchase or sale of the identical grade of wastepaper.

If either the buyer or seller shall furnish the Administrator with all the data required under this paragraph (c), it shall not be necessary for the other party to the same transaction to furnish such data.

(d) *Maximum prices for unsorted wastepaper.* Unsorted wastepaper, which contains two or more unsorted grades, shall not be subject to the maximum prices prescribed by this Maximum Price Regulation No. 30, in the event that such paper is sold to a purchaser who warrants in writing to the seller that he will not use such paper as a consumer thereof, but will sort and grade it for resale into (1) grades listed in this Maximum Price Regulation No. 30, or (2) specialty grades described in paragraph (c) of this § 1347.14, or (3) paper which does not constitute wastepaper as defined in § 1347.11, and that he will sell such paper so sorted and graded at prices no higher than the maximum prices prescribed for such grades by this Maximum Price Regulation No. 30, or by any other applicable maximum price regulation or price schedule. If, however, such unsorted paper is sold to a consumer thereof, the price therefor shall not exceed the maximum price prescribed by this Maximum Price Regulation No. 30 for "No. 1 mixed paper". The warranties required from the purchaser must be kept in the seller's records in the manner provided in § 1347.10.

(e) *Transportation allowances.* All prices established by this Maximum Price Regulation No. 30 shall be for wastepaper f. o. b. freight cars, trucks, or barges at the point of shipment. The point of shipment is the point at which the wastepaper is first loaded on a conveyance for transportation to the buyer, except that in the case of imported wastepaper the point of shipment shall be the port or city of entry in the United States.

(1) *Delivery charges.* Sales may be made on a delivered basis, but such sales must be made at prices not in excess of the maximum f. o. b. point of shipment prices established by this Maximum Price Regulation No. 30, plus, where the costs of delivery are incurred by the seller, such of the transportation allowances set forth in this subparagraph (1) or in subparagraph (2) of this paragraph (e) as are applicable thereto.

(i) When transportation to the buyer is by public (common or contract) carrier, the lowest established transportation rate for such shipment;

(ii) When transportation to the buyer is by a vehicle owned or controlled by the seller, other than a common or contract carrier;

(*a*) An amount not in excess of $1.00 per short ton, plus actual toll charges, when the point of shipment and the buyer's premises are located in the same city, town or municipality, or at a distance of ten miles or less from each other by the shortest available public highway route.

(*b*) An amount per short ton not in excess of the lowest published rail rate for full carload shipments of wastepaper, when the point of shipment and the buyer's premises are not located in the same city, town or municipality and are at a distance of more than ten miles from each other by the shortest available public highway route.

(2) *Loading charge.* If there is no rail siding or barge dock at the point of shipment, and the wastepaper is transported to and loaded on a freight car or barge at a public track or public barge dock for transportation to the buyer at the expense of the seller, the seller may add to the shipping point price an amount not in excess of $1.00 per short ton for such transportation and loading.

No allowance may be added under any circumstances, if either the point of shipment or the public track or barge dock at which the wastepaper is loaded is within the limits of the railway switching district of Chicago, Illinois.

(f) *Invoice requirements.* All sales of wastepaper to a consumer shall be invoiced. The invoice shall state as separate items the following data:

(1) *The grade name.* This shall be (i) the applicable grade name set forth in paragraph (a) of this § 1347.14, or (ii) the grade name of a specialty with respect to which sworn statements and samples have been submitted to the Office of Price Administration in accordance with paragraph (c) of this § 1347.14.

(2) *The origin of the shipment.* This shall include the name of the city or town where the point of shipment is located. If delivery is in the seller's own truck, and if the point of shipment and the buyer's premises are located at a distance of more than ten but less than fifteen miles from each other by the shortest available highway route, the street address and city where such point of shipment is located shall be shown.

(3) *The destination of the shipment.* This shall include the name, street address and city of the consumer.

(4) Any amount charged by the seller for transportation of the wastepaper.

(g) *Brokerage.* (1) In the event that a consumer of wastepaper shall purchase wastepaper through a broker as defined in § 1347.11 (a) (11), hereof, such consumer may pay such broker not more than the maximum price herein plus a broker's allowance not to exceed the following percentages of the price per ton of the amount actually paid to the broker, exclusive of the broker's allowance:

Price per ton for grade of wastepaper purchased:	*Broker's allowance in percentage*
Up to $20.00	4
$20.01 to $30.00	5
$30.01 to $40.00	5½
$40.01 to $50.00	7
$50.01 to $60.00	8
$60.01 and up	9

(2) The maximum prices established in § 1347.14 Appendix A, can in no case be augmented by more than one brokerage allowance for each ton. In no event shall a person receive brokerage or the proceeds of brokerage on wastepaper packed by him. In no event shall a person receive brokerage on the pack of another person pursuant to any contract, agreement or understanding of any sort whatsoever between the two, whereby each is to sell, and charge brokerage on, the pack of the other. In addition to the price paid by the consumer, a broker may receive a broker's allowance only from a consumer, and only if the transaction in question fulfills all of the following requirements:

(i) The broker records the name or names of his vendor, or vendors in each transaction, the quantity and grade of wastepaper purchased, the price f. o. b. point of shipment paid by such broker, the name of his consuming purchaser, the method of shipment to such consuming purchaser, the price paid by such consuming purchaser, and the broker's allowance.

(ii) The sale is made by the broker to the consumer.

(iii) The wastepaper sold by the broker to the consumer has been completely prepared for delivery by a person other than the broker.

(iv) The broker guarantees the merchantable quality of the wastepaper.

(v) The broker's allowance in such transaction is shown as a separate item on the invoice. This invoice must contain a statement that the broker has had no part in the preparation of the wastepaper covered, prior to its delivery to the consumer, and that the charges are not in excess of those established in this Maximum Price Regulation No. 30.

(vi) The broker's allowance is not split or divided with any other person.

(vii) All pertinent provisions in this Maximum Price Regulation No. 30 are strictly complied with.

Part 1404—Rationing of Rubber Footwear

[Ration Order 6,[1] Amendment 5]

MEN'S RUBBER BOOTS AND RUBBER WORK SHOES RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new § 1404.37a and a new paragraph (e) to § 1404.71 are added, as set forth below:

Acquisition and Transfer by Retailer, Distributor and Manufacturer

§ 1404.37a *Obtaining Certificates to replace rubber footwear transferred by a distributor to retail and distributing establishments.* (a) Any establishment registered as a distributing establishment may, at any time between November 28 and December 5, 1942, inclusive, apply to the Board for Certificates representing the number of pairs of each type of rubber footwear transferred by it to registered retail or distributing establishments during the period from October 5 to November 28, 1942, inclusive. Application shall be made on OPA Form R-604 and shall state the number of pairs of each type of rubber footwear transferred in such period to registered retail or distributing establishments, and the number of pairs of each type for which replacement Certificates are desired. The application shall be accompanied by such evidence as the Board may require.

(b) The Board, if it is satisfied that the facts stated in the application are true, shall issue Parts I of Certificates to the applicant for the number of pairs of each type of rubber footwear for which such replacement is desired, not exceeding, for any type, the number of pairs of that type transferred by the establishment to registered retail or distributing establishments during the period from October 5 to November 28, 1942, inclusive.

(c) The number of pairs of rubber footwear represented by Parts I of Certificates issued pursuant to this section shall be reported by the applicant to the Central Inventory Unit, Office of Price Administration, Empire State Building, New York City.

[Order 105 Under § 1499.18 (b) of GMPR]

PITTSBURGH COKE AND IRON COMPANY

For reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1006 *Adjustment of maximum prices for sales of 2° pyridine by the Pittsburgh Coke and Iron Company.* (a) The Pittsburgh Coke and Iron Company, of Pittsburgh, Pennsylvania, may sell, and any person may buy from such company, 2° pyridine at the following maximum prices:

(1) *In non-returnable containers,* $0.445 per gallon, plus actual invoice cost of containers to seller.

(2) *In returnable containers,* $0.445 per gallon, without additional charge for containers. Seller may require reasonable deposit for return of containers, which must be refunded to buyer on return of container. Transportation charges on return of container shall be borne by seller.

(b) All discounts, allowances, freight and trade practices of the seller, not in conflict with paragraph (a) above, in effect with respect to the sale of the above commodity during March 1942, shall apply to the maximum prices established in paragraph (a) above.

(c) This Order No. 105 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 105 (§ 1499.1006) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(e) This Order No. 105 (§ 1499.1006) shall become effective November 23, 1942.

Part 1499—Commodities and Services

[Order 106 Under § 1499.18 (b) of GMPR]

THE NARRAGANSETT BREWING COMPANY

Order 106 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3-1880.

For the reasons set forth in an opinion issued simultaneously herewith; *It is ordered:*

§ 1499.1007 *Adjustment of maximum prices in the State of Connecticut for sales of fermented malt beverages manufactured by Narragansett Brewing Company.* (a) The Narragansett Brewing Company of Providence, Rhode Island, its wholesalers and retailers may sell and deliver in the State of Connecticut and any person may buy and receive from the Narragansett Brewing Company or any wholesaler or retailer, in the State of Connecticut, fermented malt beverages manufactured by the Narragansett Brewing Company at prices not higher than those set forth below:

(1) *Maximum prices for Narragansett Brewing Company to sellers at wholesale.* The maximum prices established under § 1499.2 of the General Maximum Price Regulation for the Narragansett Brewing Company plus the following amounts:

4¢ per case of 24 twelve ounce bottles
10¢ per case of 12 thirty-two ounce bottles

(2) *Maximum prices which a wholesaler may charge a retailer for fermented malt beverages manufactured by the Narragansett Brewing Company.* The maximum prices established under § 1499.2 of the General Maximum Price Regulation for the particular wholesaler plus the following amounts:

4¢ per case of 24 twelve ounce bottles
10¢ per case of 12 thirty-two ounce bottles

Provided, That if the particular wholesaler raised his prices during March 1942, he may add only the excess, if any, of the adjustment permitted hereunder over the amount by which he increased his prices during March.

(3) *Maximum prices which retailers may charge for fermented malt beverages manufactured by Narragansett Brewing Company.* The maximum prices established under § 1499.2 of the General Maximum Price Regulation for the particular retailer plus 1¢ for 3 twelve ounce bottles and 1¢ for each thirty-two ounce bottle: *Provided,* That such prices as increased shall not exceed 27¢ for 3 twelve ounce bottles and 22¢ for each thirty-two ounce bottle.

(b) *Notification of adjustment.* (1) All wholesalers who purchase fermented malt beverages from the Narragansett Brewing Company shall be notified in writing by such company on or before the first delivery after the effective date of this order as follows:

> The Office of Price Administration has permitted us to raise our maximum prices for sales to you of our fermented malt beverages, 4¢ per case of 24 twelve ounce bottles and 10¢ per case of 12 thirty-two ounce bottles over our March ceiling prices. This amount represents that amount of cost increase which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would be increased only in certain cases and under certain conditions. You may add to your present maximum price 4¢ per case of 24 twelve ounce bottles and 10¢ per case of 12 thirty-two ounce bottles: *Provided,* That if you raised your price on these products during March 1942, you may now add only the excess, if any, of the adjustment above mentioned over the amount by which you increased your prices during March.

(2) All sellers at wholesale who sell fermented malt beverages manufactured by the Narragansett Brewing Company to retailers shall notify in writing such retailers on or before the first delivery after the effective date of this order as follows:

> The Office of Price Administration has permitted the Narragansett Brewing Company to add to its maximum price 4¢ per case of 24 twelve ounce bottles and 10¢ per case of 12 thirty-two ounce bottles. We are permitted to add this same increase to our March ceilings prices to you: *Provided,* That if our price was increased during March 1942 we could add only the excess, if any, of this adjustment over the increase that took place in March. Accordingly, you are permitted to add to your ceiling prices 1¢ on quantity sales of 3 twelve ounce bottles and 1¢ on each thirty-two ounce bottle: *Provided,* That such prices as increased shall not exceed 27¢ for 3 twelve ounce bottles of 22¢ for each thirty-two ounce bottle.

(c) All prayers of the application not granted herein are denied.

(d) This Order No. 106 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 106 (§ 1499.1007) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2 of the General Maximum Price Regulation.

(f) This Order No. 106 (§ 1499.1007) shall become effective November 23, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Chapter XIII—Office of Petroleum Coordinator for War

[Recommendation 61]

Part 1504—Processing and Refining

ASPHALT AND ASPHALTIC PRODUCTS

To manufacturers and processors of asphalt and asphaltic products:

The requirements of war make necessary the efficient utilization of petroleum transportation and storage facilities. One means which will tend to accomplish this purpose is the elimination of unnecessary grades of paving asphalt which are being manufactured.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, I do hereby recommend that immediately and until further notice:

Sec.	
1504.112	Manufacture of asphalt.
1504.113	Grades of asphalt.
1504.114	Date of applicability.
1504.115	Area of applicability.

Authority: §§ 1504.112 to 1504.115, inclusive, issued under the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1504.112 *Manufacture of asphalt.* No asphalt or asphaltic products for paving purposes other than the grades specified in § 1504.113 of this chapter shall be manufactured after the effective date of this recommendation.

§ 1504.113 *Grades of asphalt.* The grades of asphalt and asphaltic products for paving purposes which may be manufactured after the effective date of this recommendation are:

Asphalt cements: Penetration Ranges—50-60, 85-100, 120-150, 150-200, 200-300.[1] Federal Specifications—SS-A-706a (November 26, 1940) and SS-R-406a (April 25, 1942).

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 203—BRIDGE REGULATIONS

CALIFORNIA

Pursuant to the provisions of section 5 of the River and Harbor Act approved August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), paragraph (b) of the rules and regulations to govern the operation of the drawbridges crossing all navigable waters of the United States within the State of California approved March 4, 1936, as amended July 15, 1940, is hereby further amended as follows:

§ 203.710[3] *State of California; bridge regulations for all navigable waterways of the United States within California, including San Francisco Bay and connected bays and river systems tributary thereto.* * * *

(b) * * *

(4) *Sacramento River.*

BELOW CHICO LANDING

* * * * *

Highway Bridge across Sutter Slough near Courtland. The owner of, or agency controlling, the bridge will not be required to keep draw tenders in constant attendance at the above-mentioned bridge.

Whenever a vessel, unable to pass under the closed bridge desires to pass through the draw, at least 8 hours' advance notice to that effect shall be given to the Sacramento County Engineer or to the draw tender of the Sacramento River Walnut Grove Bridge.

Upon receipt of such notice, prompt opening of the draw shall be arranged for the time specified in the notice for the passage of the vessel.

The owner of, or agency controlling, the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such manner that it can easily be read at any time, a copy of these regulations, together with notice stating exactly how the representatives specified above may be reached.

The operating machinery of the draw shall be maintained in a serviceable condition, and the draw opened and closed frequently enough to make certain that the machinery is in proper order for satisfactory operation. TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of Interior

PART 4—DELEGATION OF AUTHORITY

By virtue of the authority vested in the Secretary of the Interior to issue rules and regulations in the administration of the functions of the Department of the Interior; the authority conferred by the act of March 14, 1862 (12 Stat. 355, 369, ch. 41; secs. 438, 439 Rev. Stats.; 5 U.S.C. (1940 ed.) secs. 482, 483); the act of March 3, 1885 (23 Stat. 478, 497, ch. 360; 5 U.S.C. (1940 ed.) sec. 482); the act of May 9, 1935 (49 Stat. 176, 177, ch. 101; 5 U.S.C. (1940 ed.) sec. 481a); the act of March 28, 1918 (40 Stat. 499, ch. 29; 5 U.S.C. (1940 ed.) sec. 483); sec. 161, Rev. Stats., 5 U.S.C. (1940 ed.) sec. 22; and the general authority of the Secretary of the Interior to prescribe the functions and delegate the duties to be performed by the Under Secretary of the Interior, the First Assistant Secretary of the Interior and the Assistant Secretary of the Interior, the following delegation of authority is hereby ordered and prescribed:

§ 4.1 *Delegation of authority to the Under Secretary, First Assistant Secretary, and Assistant Secretary of the Interior.* The Under Secretary, the First Assistant Secretary and the Assistant Secretary of the Interior are hereby respectively authorized and directed, with respect to any matter, duty or function relating to, arising under, or in connection with the following bureaus, offices, officers, and functions of the Department of the Interior, to perform all the functions and duties and exercise all the powers, authority and discretion of the Secretary of the Interior, and the acts and directions of the Under Secretary, the First Assistant Secretary, or the Assistant Secretary, respectively, pursuant to the authority herein delegated, shall be deemed to be the acts and directions of the Secretary of the Interior:

(a) *Under Secretary of the Interior:*

1. National Park Service.
2. Bureau of Reclamation.
3. Grazing Service.
4. Bituminous Coal Division.
5. Petroleum Conservation Division.
6. Division of Territories and Island Possessions.

(b) *First Assistant Secretary of the Interior:*

1. General departmental administration.
2. Budget matters.
3. Organization Surveys.
4. Division of Personnel Supervision and Management.
5. Classification Division.
6. Office of Land Utilization.
7. Office of the Chief Clerk.
8. Office of the Departmental Representative of the Advisory Council, Civilian Conservation Corps.
9. Office of the Adviser on Labor Relations.

(c) *Assistant Secretary of the Interior:*

1. General Land Office.
2. Geological Survey.
3. Bureau of Mines.
4. Office of Indian Affairs.
5. Fish and Wildlife Service.
6. United States Board on Geographical Names.

§ 4.2 *Authority in absence of designated secretarial official.* In the absence of the Secretary, the Under Secretary will, as Acting Secretary, perform the duties and functions and exercise the powers, authority and discretion of the Secretary of the Interior. In the absence of the Secretary and the Under Secretary, the First Assistant Secretary, and in his absence the Assistant Secretary, will, as Acting Secretary, perform the duties and functions and exercise the powers, authority and discretion of the Secretary of the Interior. In the absence of either the Under Secretary, the First Assistant Secretary or the Assistant Secretary, the Secretary or Acting Secretary of the Interior will designate the person who shall perform the duties and functions and exercise the authority, powers and discretion of the Under Secretary, the First Assistant Secretary or the Assistant Secretary, respectively.

§ 4.3 *Offices under direct supervision of the Secretary.* The following offices and divisions shall remain under the direct supervision of the Secretary of the Interior:

1. Office of the Solicitor.
2. Division of Information.
3. Division of Power.
4. Office of Field Representatives.
5. Office of the Petroleum Coordinator for War.
6. Office of Solid Fuels Coordinator for War.
7. Office of Fishery Coordination.

§ 4.4 *Prior orders superseded.* This order supersedes Orders 1386 of May 26, 1939, and 1611 of September 23, 1941; but nothing herein shall be construed to invalidate any act heretofore performed by any of the secretarial officials pursuant to any order of delegation heretofore in force.

This order shall be published in the FEDERAL REGISTER.

Issued and effective this 20th day of November, 1942.

HAROLD L. ICKES,
Secretary of the Interior.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Docket No. 3666]

PARTS 73 TO 81—TRANSPORTATION OF EXPLOSIVES

PART 2—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES[1]

AUTHORITY: Issued under sec. 233, 41 Stat. 1445, sec. 204 (a) (2), 49 Stat. 546; 18 U.S.C. 383, 49 U.S.C. 304.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 28th day of October, A. D. 1942.

Superseding and amending list, order Aug. 16, 1940, or Nov. 8, 1941, as follows:

Order in the matter of regulations for transportation of explosives and other dangerous articles.

It appearing, that certain new and amended regulations for the transportation of explosives and other dangerous articles by rail in freight, express and baggage services, and by water and highway, have been proposed for our approval, pursuant to section 233 of the Criminal Code (Transportation of Explosives Act), and section 204 (a) (2) of Part II of the Interstate Commerce Act;

It further appearing, that by notice dated September 16, 1942, these proposals were circulated among all parties of record, specifying the changes proposed for our approval; and that certain emergency changes hereinafter set forth were thereafter submitted for such approval;

It further appearing, that in said notice it was stated that any party desiring to be heard upon any proposed amendment therein should advise the Commission in writing within 20 days from the date of this notice; otherwise the Commission might proceed to investigate and determine the matters involved in the applications, or might suspend action pending formal hearing;

It further appearing, that as a result of conferences on matters involved in the proposed changes set out in notice of September 16, 1942, and the proposed emergency changes thereafter submitted, agreement was reached by all parties of record with respect to the suggested requirements;

And it further appearing, that the said new and amended regulations have been considered, and the Division finds that the said new and amended regulations attached to and made a part of this order are in accord with the best-known practicable means for securing safety in transit, covering the packing, marking, loading, handling while in transit, and the precautions necessary to determine whether the material when offered is in proper condition to transport:

It is ordered, That the aforesaid regulations heretofore published in orders of August 16, 1940, November 8, 1941, December 18, 1941, February 26, 1942, and July 14, 1942, be and they are hereby superseded and amended as indicated in the regulations made a part hereof, as of the effective date of this order, as follows:

Article	Classed as	Exemptions and packing (sec.)	Label	Maximum quantity, express
(Change) *Butadiene, See* Liquefied petroleum gas *or Liquefied hydrocarbon gas.*				
(Add) Butyraldehyde	Inf. L	103, 110	Red	10 gallons.
(Change) *Cyclopropane, See* Liquefied hydrocarbon gas.				
(Add) *Hydrochloric acid, anhydrous, See* Hydrogen chloride.				
(Add) Hydrogen chloride	Noninf. G	302, 303	Green	300 pounds.

PART 3—REGULATIONS APPLYING TO SHIPPERS

Superseding and amending par. (b), sec. 29, order Aug. 16, 1940, to read as follows (empty containers):

(b) They may be loaded in open or stock cars when desired. Cars should not be placarded but lighted open-flame lanterns or other open-flame lights should be kept away.

Amending sec. 60, order Aug. 16, 1940, as follows (packing black powder and low explosives) (Add (b) (3) (a)):

(a) Because of the present emergency and until further order of the Commission, black powder and low explosives may be shipped in fiber kegs, spec. 13A.

Amending pars. (b) (6), (b) (7), (b) (9), (b) (10), (b) (16), and (c) (2), sec. 62, order Aug. 16, 1940, as follows (packing blasting caps and electric blasting caps) (Add):

NOTE: Because of the present emergency and until further order of the Commission, fiberboard boxes, spec. 23F, may be used in lieu of prescribed wooden boxes, spec. 14, 15A, or 16A.

Superseding and amending par. (j) (2) sec. 65, order Aug. 16, 1940, to read as follows (packing smokeless powder):

(2) In tightly closed metal cans, or fiber containers, not exceeding one-pound each, packed in outside wooden boxes, spec. 15C. Not more than 10 one-pound cans or 10 one-pound fiber containers may be shipped in one outside box. Each outside package must be plainly marked "Smokeless Powder for Small Arms" or "Smokeless Powder for Cannon," as the case may be.

Amending sec. 68, order Aug. 16, 1940, as follows (packing cordeau detonant): Delete par. (c) reading as follows: "Weight—Gross weight of one outside box must not exceed 150 pounds."

Superseding and amending par. (e), sec. 101, order Aug. 16, 1940 to read as follows (packing inflammable liquids—outage):

(e) Inflammable liquids must not be loaded into domes of tank cars, except as follows:

Because of the present emergency and until further order of the Commission, and only for shipments made during the months of October to April, inclusive, crude petroleum oil and gasoline having a vapor pressure not exceeding 16 pounds per square inch, absolute, at 100° F. may be loaded not to exceed 98 percent of the combined shell and dome capacity of the tank car.

NOTE: The foregoing permission is granted for inflammable liquids having low coefficients of expansion, provided adequate control is exercised so that sufficient outage, and not less than 2 percent outage, are obtained.

Superseding and amending sec. 103, order Nov. 8, 1941, to read as follows (packing inflammable liquids-exemptions):

(a) *Inflammable liquids,* except *carbon bisulfide (disulfide), ethyl chloride, ethylene oxide, nickel carbonyl, spirits of nitroglycerin in excess of one percent by weight,* and *zinc ethyl,* in inside glass or earthenware containers not over 1 pint or 16 ounces by weight each, or inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

(b) *Inflammable liquids,* except *carbon bisulfide (disulfide), ethyl chloride, ethylene oxide, nickel carbonyl, spirits of nitroglycerin in excess of one percent by weight,* and *zinc ethyl,* in inside containers not over 1 pint or 16 ounces by weight each, packed in strong outside containers, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Superseding and amending sec. 105, order Nov. 8, 1941, to read as follows (packing self-propelled vehicles-exemptions):

105. *Automobiles, motor cycles, tractors, or other self-propelled vehicles,* equipped with acetylene gas cylinders or gasoline or other fuel tanks are exempt from specification packaging, marking, and labeling requirements, provided such cylinders and tanks are securely closed, for transportation by rail freight, rail express or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements. When

offered for transportation by carriers by rail freight or highway, drainage of fuel tanks is not required. When offered for transportation by rail express, fuel tanks must have been drained and securely closed.

Amending sec. 110, order Aug. 16, 1940, as follows (packing inflammable liquids): Delete par. (b) (3) reading as follows: "Spec. 5B.—Metal barrels or drums."

Amending par. (f), sec. 113, order July 14, 1942, as follows (packing paints, etc.—exemptions) (Add):

(f) (1) Because of the present emergency and until further order of the Commission, paint and varnish may be shipped under the conditions prescribed in sec. 113 (f) in containers not exceeding 1 gallon capacity with fiberboard bodies and metal tops and bottoms made leakproof in lieu of glass, earthenware, or metal containers as specified.

Superseding and amending par. (d), sec. 114, order Nov. 8, 1941, to read as follows (packing polishes, etc.—exemptions):

(d) *Polishes, metal, stove, furniture and wood, liquid,* in glass or earthenware containers of not over 1 quart capacity each, or metal containers not over 5 gallons capacity each, packed in strong outside containers are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements. (See sec. 103 (b) for rail express exemptions.)

Superseding and amending sec. 115, order Nov. 8, 1941, to read as follows (packing refrigerating machines—exemptions):

115. *Refrigerating machines* assembled for shipment and containing not over 15 pounds of an inflammable liquid for their operation are exempt from specification packaging, marking and labeling requirements for transportation by rail freight, rail express, or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Superseding and amending par. (c), sec. 117, order Aug. 16, 1940, to read as follows (packing rubber cement):

(c) Spec. 17E. Metal barrels or drums irrespective of flash point.

Superseding and amending sec 153, order Nov. 8, 1941, to read as follows (packing inflammable solids and oxidizing materials—exemptions):

153. *Inflammable solids, and oxidizing materials* in inside containers not over 1 pound net weight each in outside containers not exceeding 25 pounds net weight each, are exempt from specification packaging, marking, and labeling requirements, unless otherwise provided, for transportation by rail freight, rail express, or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements. (See section 154 for articles not exempted and section 183 for exemptions for nitrates.)

Superseding and amending par. (a) (1), sec. 162, order Nov. 8, 1941, to read as follows (packing charcoal-exemptions):

162. (a) (1) *Charcoal* as described in this paragraph is exempt from specification packaging, marking, and labeling requirements for transportation by rail freight or highway but when for transportation by carrier by water it is exempt from specification packaging, marking other than name of contents, and labeling requirements. When offered for transportation by rail express, charcoal, except charcoal briquettes, must be packed in barrels, bags, and boxes and must bear the yellow label.

Amending sec. 173, order Aug. 16, 1940, as follows (packing potassium perchlorate) (Add):

(m) *Potassium perchlorate* must be packed in specification containers prescribed in section 173 (b) to (1), or in tight bags which will not permit sifting in transit.

Superseding and amending par. (k) (1), sec. 176, order Nov. 8, 1941, to read as follows (packing matches-exemptions):

(k) (1) *Matches, strike-on-box, book and card,* in outside fiberboard or wooden boxes, or matches, strike-on-box, book and card when packed with noninflammable articles provided they are included in a tightly closed cardboard or fiberboard container, or are securely wrapped and packed so as to prevent accidental ignition, before being packed in the outside containers, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Superseding and amending par. (a), sec. 181, order Nov. 8, 1941, to read as follows (packing motion-picture film—exemptions):

181. (a) *Motion-picture film* as follows is exempt from specification packaging, marking, and labeling requirements for rail freight, rail express, or highway transportation, but when for transportation by carrier by water is exempt from specification packaging, marking other than name of contents, and labeling requirements:

Superseding and amending sec. 183, order Nov. 8, 1941, to read as follows (packing nitrates-exemptions):

183. *Nitrate of aluminum, nitrate of ammonia, nitrate of barium, nitrate of lead, nitrate of potash, nitrate of sodium (nitrate of soda), nitrate of strontia, nitro carbo nitrate, calcium nitrate, or other inorganic nitrates and guanidine nitrate,* are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, and highway when packed as follows: in metal cans in outside fiberboard boxes; in wooden boxes, kegs, or barrels, metal cans, metal drums or fiber drums; in glass bottles in outside fiber boxes not exceeding 25 pounds net weight; *calcium nitrate* in bags; *ammonium nitrate, or guanidine nitrate,* in bags containing not over 200 pounds, net weight, made moisture proof, tight against sifting, and of strength not less than bags made of 8-ounce burlap. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements. (See column 5 of Commodity List, Part 2, for maximum quantity that may be shipped in one outside package by express).

Amending par. (e), sec. 204, order Aug. 16, 1940, as follows (packing sodium hydrosulfite) (Add):

Note: Because of the present emergency and until further order of the Commission, the use of inside metal drums will not be required but in lieu thereof the drum must be supplied with a moisture proof liner, or it must be shipped in spec. 21A fiber drums with one added ply of asphalt laminated Kraft, 30/60/30 basis weight in side walls and heading (metal heading excluded): drums to withstand two drops from height of 4 feet in same spot or one 6-foot drop, in place of drop test as provided in specification 21A; maximum loaded capacity 250 pounds net.

Superseding and amending sec. 244, order Nov. 8, 1941, to read as follows (packing corrosive liquids-exemptions):

244. (a) *Acids and other corrosive liquids* in quantity not exceeding 1 pound bottles each inclosed in a metal can in the outside package are exempt from specification packaging, marking, and labeling requirements unless otherwise provided, for transportation by rail freight or highway. When for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements, unless otherwise provided.

(b) Other exemptions from specification packaging, marking, and labeling requirements for rail freight, rail express and highway transportation and exemptions from specification packaging, marking other than name of contents, and labeling requirements for transportation by carrier by water, are shown with the packing requirements for the article.

Superseding and amending par. (a) (1), sec. 250, order Nov. 8, 1941, to read as follows (packing self-propelled vehicles-exemptions):

250 (a) (1) *Automobiles or other self-propelled vehicles* equipped with charged electric storage batteries, or with charged electric storage batteries removed from vehicles; and charged electric storage batteries when included in carload or truckload shipments of automobile parts or assembled material are exempt from specification packaging, marking, and labeling requirements as follows:

Amending sec. 253, order Aug. 16, 1940, as follows (packing chloracetyl chloride) (Add):

(e) Spec. 1A or 1C. Carboys in boxes or kegs. Use of these containers will be permitted because of the present emergency and until further order of the Commission.

Superseding and amending pars. (c) and (d), sec. 260, order Nov. 8, 1941, to read as follows (packing electric storage batteries—exemptions):

(c) *Electric storage batteries, containing electrolyte or corrosive battery fluid,* of the nonspillable type, protected against short circuits and completely and securely boxed are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements.

(d) Carload or truckload shipments of electric storage batteries containing electrolyte or battery fluid, loaded or braced to prevent damage in transit and short circuits, are exempt from specification packaging, marking, and labeling requirements.

Superseding and amending par. (b) (1), sec. 261, order Nov. 8, 1941, to read as follows (packing fire-extinguisher charges-exemptions):

(b) (1) *Fire-extinguisher charges* as described in the following paragraphs are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements:

Amending par. (h) (3), sec. 264, order Nov. 8, 1941, as follows (packing hydrofluoric acid) (Add):

Note: Because of the present emergency and until further order of the Commission, containers of not over 55-gallon capacity each, of 14-gage metal, are authorized, provided test requirements of this paragraph are maintained and provided containers are retired from service after showing a 15 percent loss of tare weight.

Superseding and amending par. (a) (5), sec. 266, order Aug. 16, 1940, to read as follows (packing hydrogen peroxide):

(a) (5) Spec. 42D. Aluminum drums with vented closure in top head; not over 30 gallons capacity. Closure must be sealed to prevent removal in transit and top head plainly marked "KEEP THIS END UP" or "KEEP PLUG UP TO PREVENT SPILLAGE". Aluminum drums already in service for the transportation of this material, manufactured prior to April 24, 1934, and of at least equal strength and efficiency thereto, may be continued in use until further order of the Commission.

Superseding and amending pars. (f) and (m), sec. 272, orders Aug. 16, 1940, and Nov. 8, 1941, to read as follows (packing sulfuric acid):

(f) Spec. 103A.—Tank cars. For acid of 1.5591 specific gravity (52°Be.) or greater strength.

(m) Spec. MC310.—Tank motor vehicles. For acid of 1.5591 specific gravity (52°Be.) or greater strength.

Superseding and amending par. (a), sec. 302, order Nov. 8, 1941, to read as follows (packing compressed gasses-exemptions):

302. (a) *Compressed gases,* except poisonous gases as defined by sec. 326(a), are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements, as follows:

Amending table, par. (q) (1), sec. 303, order Aug. 16, 1940, as follows (compressed gases in tank cars):

Name of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
(Add) Liquefied hydrocarbon gas (butadiene) (pressure not exceeding 75 pounds per square inch at 105° Fahr.	Note 3...	Note 9: ICC-104A.

Superseding and amending title for table, Note 3 of par. (q) (1), sec. 303, order Aug. 16, 1940, to read as follows (liquefied petroleum gas or butadiene in tank cars):

Maximum Permitted Filling Density in Tank Cars Transporting Liquefied Petroleum Gas or Butadiene of Specific Gravity Shown, Taken at 60 Degrees Fahrenheit

Amending par. (q) (2), sec. 303, order Aug. 16, 1940, as follows (compressed gases in tank cars) (Add):

Note: Because of the present emergency and until further order of the Commission, ICC-107A tanks may be charged with helium to a pressure 10 percent in excess of the marked maximum gas pressure at 130° F. of each tank.

Superseding and amending subpar. 2 of Note added to par. (q) (7), sec. 303, order Dec. 18, 1941, to read as follows (compressed gases in tank cars):

2. Discharge areas of safety valves to be increased so as to be suitable for protection against damage to the larger-capacity tanks herein authorized.

Superseding and amending par. (a), sec. 338, order Nov. 8, 1941, to read as follows (packing class B poisons, liquid-exemptions):

338. (a) *Poisonous liquids, class B,* as defined in sec. 336, except hydrocyanic acid solutions, methyl bromide, motor fuel anti-knock compound, phenyldichlorarsine and tetraethyl lead, in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water are exempt from specification packaging, marking other than name of contents, and labeling requirements:

Superseding and amending pars. (h) and (i), sec. 349, order Aug. 16, 1940, to read as follows (packing poisonous liquids, class B):

(h) Spec. 12B. Fiberboard boxes with glass or earthenware inside containers not over 1 quart capacity each, or with metal inside containers not over 1 gallon capacity each. Packages containing glass or earthenware containers must not weigh over 65 pounds gross.

Superseding and amending par. (a), sec. 352, order Nov. 8, 1941, to read as follows (packing poisonous solids, class B-exemptions):

352 (a) *Poisonous solids, class B,* except cyanides, other than as specified in sec. 357 (b), in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water they are exempt from specification packaging, marking other than name of contents, and labeling requirements:

Amending par. (b), sec. 354, order Aug. 16, 1940, as follows (packing arsenical compounds, n. o. s., etc.) (Add):

Note: Because of the present emergency and until further order of the Commission, wooden hoops as specified in par. 6 of specification 11A may be used in lieu of steel hoops required by specification 10B.

Superseding and amending par. (k), sec. 361, orders Aug. 16, 1940, and July 14, 1942, to read as follows (packing poisonous solids):

(k) Spec. 21A. *Fiber drums.* Net weight not over 115 pounds each. Or, because of the present emergency and until further order of the Commission, use of the following container will be permitted:

Spec. 21A. *Fiber drums.* Drums to withstand two drops from height of 4 feet in same spot or one 6-foot drop, in place of drop test as provided in specification 21A; maximum loaded capacity 225 pounds net.

Superseding and amending sec. 422, order Aug. 16, 1940, to read as follows (switching ticket):

422. When the initial movement is a switching operation, the switching order, switching receipt or switching ticket, and copies thereof, prepared by the shipper, must bear the placard indorsement and shipper's certificate prescribed by sec. 584 (a) and sec. 421.

Amending order Aug. 16, 1940, as follows (marking on motor vehicles):

Delete sec. 424 reading as follows: "Marking on motor vehicles. See regulations for marking on motor vehicles contained in Motor Carrier Safety Regulations, Revised, Part 7."

Appendix—Shipping Container Specifications

Amending par. 7, specification 1A, order Aug. 16, 1940, as follows (boxed carboys) (Add):

(f) *Special box*—Must comply with this specification except as follows: Bottom of box must be nailed to 4 nailing cleats which form part of the sides and ends of box.

Top of box must be reinforced by 2 cleats of ½ inch lumber 4 inches wide, extending the entire width of the top at right angles to the sides of the boards forming the top; a vacant space of 1 inch between outside edge of top and cleat should be allowed for nailing top to box; parts and dimensions must be as follows:

Carboy capacity, not over (gallons)	Minimum dimensions					Nails—sides and bottom	
	Thickness—sides, top and ends	Thickness of bottom	Thickness and width of bottom nailing cleats	Carrying cleats and shoes	Triangular vertical corner posts	Size, not less than[1]—	Spacing, average not over[2]—

1 to 13	½	25/32	25/32 by 2½.	25/32 by 2½.	2½ by 2½ by 3¾.	8 10	2⅛ 2¾

[1] Screws of equal efficiency authorized.

[2] Spacing 6 inches acceptable along edge grain of bottoms.

Superseding and amending par. 9 (a), specification 4B, order Aug. 16, 1940, to read as follows (welded and brazed steel cylinders):

9. (a) *Wall thickness.* The wall stress shall not exceed 18,000 pounds per square inch for cylinders with longitudinal side seam nor 24,000 pounds per square inch for cylinders without such seam: *Provided*, That a wall stress of not over 22,800 pounds per square inch is authorized for cylinders with copper brazed seam having strength at least 3/2 times the strength of the steel wall. Minimum wall 0.090 inch for any cylinder over 5-inch outside diameter.

Superseding and amending 2d and 4th items of table, par. 7, specification 6B, order Aug. 16, 1940, to read as follows (steel barrels or drums):

7. *Parts and dimensions.* As follows:

Marked capacity (gallons)	Authorized gross weight (pounds)	Type of container	Minimum thickness in the black (gage, U. S. standard)		Rolling hoops		
						Minimum	
			Body sheet	Head sheet	Type	Size (gage or inch)	Weight (pounds per foot)

5 to 30	480	do	16	16	I-bar[1]	¾ by 1¼	1.25

[1] Rolled or swedged-in hoops permitted.

Amending specification 12B, order Aug. 16, 1940, as follows (fiberboard boxes) (Add):

31. *Special box.* Authorized only for poisonous solids, class B, in 1-gallon metal cans. Must comply with this specification except as follows: Must be 1-piece type, of double-wall corrugated fiberboard at least 400-pound test with all three facings at least 135-pound test; authorized gross weight 84 pounds.

Amending order Aug. 16, 1940, as follows (Add):

SPECIFICATION 13A—FIBER KEGS

General

1. *Compliance.* Required in all details.

Construction

2. *Side walls.* To be four or more plies of fiber, spirally wound, with a minimum total thickness of 0.100 inch, the plies being secured together by adhesive.

3. *Ends.* To be four or more plies of fiber with a minimum total thickness of 0.120 inch, the plies being secured together by adhesive.

4. *Collars.* To be four or more plies of fiber, spirally wound, with a minimum total thickness of 0.100 inch, the plies being secured together by adhesive; said collars to have a minimum overlap of 1.0 inch on the side walls and to be secured thereto by adhesive.

5. *Reinforcing rings.* To be six or more plies of fiber, spirally wound, with a minimum total thickness of 0.200 inch, and a minimum width of 0.500 inch, the plies being secured together by adhesive; said rings to be secured in place by adhesive or by adhesive and stitching.

Closures

6. *Slide type.* Metal holder, for slide, securely fastened to head; washer of suitable material 0.025 inch thick; metal drop with depression to fit into bung hole and hold washer in place; metal slide to cover the foregoing. Positive fastening required between slide and slide holder to prevent leakage in transit; friction fastening not authorized.

(a) *Cap or plug type.* Metal holder, for cap or plug, securely fastened to head; metal cap or plug, with gasket when necessary to prevent sifting. Positive fastening required between cap, or plug, and holder to prevent leakage in transit; friction fastening not authorized.

Tests

7. *Type tests.* Sample kegs taken at random, filled with fine dry sand, in weight equal to authorized net weight of shipment, closed as for use, must withstand tests without leakage or serious rupture, as follows:

(a) Keg must be able to withstand four successive drops of 4 feet onto solid concrete so as to strike squarely on the head.

(b) Keg must be able to withstand one drop from a height of 4 feet onto solid concrete so as to strike diagonally on its top chime.

NOTE: No single keg shall be expected to withstand both tests (a) and (b).

Superseding and amending headings, table in par. 2, and footnote, specification 21A, order Aug. 16, 1940, to read as follows (fiber drums):

Wooden heads[1][2] Fiber heads[1][2]

PART 4—REGULATIONS APPLYING PARTICULARLY TO CARRIERS BY RAIL FREIGHT

Superseding and amending par. (f), sec 526, order Aug. 16, 1940, to read as follows (loading in car):

(f) Wooden or fiber kegs, barrels, or drums, may be loaded on their sides or ends, as will best suit the conditions.

Superseding and amending Note, par. (g), sec. 526, order Feb. 26, 1942, to read as follows (loading in car):

NOTE: For recommended methods of blocking and bracing, see Bureau of Explosives' Pamphlets 6 and 6A.

Superseding and amending par. 4 of placard, sec. 549, order Aug. 16, 1940, to read as follows (placard for dangerous explosives, class A):

4. This car must not be placed next to placarded tank cars, wooden-frame flat or gondola cars, carloads of pipe, lumber, poles, iron, steel or similar articles liable to break through end of this car from rough handling; nor next to refrigerator cars equipped with gas burning automatic refrigeration; nor next to cars containing lighted heaters, stoves or lanterns; nor next to cars with live stock or poultry occupied by an attendant.

---

[1] Joints in head must be Linderman joints, glued. A butt-jointed, glued wooden head is also authorized because of the present emergency and until further order of the Commission.

[2] Approved metal heads permitted when authorized (see paragraph 5).

Superseding and amending par. (d), sec. 561, order Aug. 16, 1940, to read as follows (tank car unloading):

(d) Caution signs must be so placed on the track or car as to give necessary warning to persons approaching car from open end or ends of siding and must be left up until after car is unloaded and disconnected from discharge connection. Signs must be of metal or other suitable material, at least 12 by 15 inches in size and bear the words, "STOP—Tank Car Connected," or "STOP—Men at Work," the word "STOP" being in letters at least 4 inches high and the other words in letters at least 2 inches high. The letters must be white on a blue background.

Superseding and amending sec. 568, order Aug. 16, 1940, to read as follows (inflammable vapors):

568. A boxcar or container car placarded "Dangerous", or known to contain inflammable liquids, gases, or vapors must not be entered with a lighted open-flame lantern, torch, or other fire, until both car doors have been opened and sufficient time allowed for ventilation and escape of any vapors. The presence of these vapors will generally be indicated by characteristic odors. When leakage is continuous, ventilation will not remove the danger. The leaking package should be located and removed, using electric lights or waiting for daylight.

Superseding and amending sec. 578, order Aug. 16, 1940, to read as follows (inflammable vapors):

578. A box car or container car placarded "Dangerous," or known to contain inflammable liquids, must not be entered with a lighted open-flame lantern, torch, or other fire, until both car doors have been opened and sufficient time allowed for ventilation and escape of any vapors. The presence of these vapors will generally be indicated by characteristic odors. When leakage is continuous, ventilation will not remove the danger. The leaking package should be located and removed, using electric lights or waiting for daylight.

Superseding and amending par. (g), Sec. 584, order Aug. 16, 1940, to read as follows (waybills, switching orders, or other billing):

(g) At stations where explosives are loaded into a properly certified and placarded car received with other shipments of explosives, or when shipments of explosives are transferred or reloaded, or carload shipments are reconsigned, a record must be kept of the car, originating point, carrier's name and date of car certificate.

Superseding and amending pars. (a), (b) and (c), sec. 588, order Aug. 16, 1940, to read as follows (disposition of damaged or astray shipments):

588. (a) Packages of explosives found injured or broken in transit may be recoopered when this is evidently practicable and not dangerous. A broken box of high explosives that can not be recoopered should be reinforced by stout wrapping paper and twine, placed in another strong box and surrounded by dry, fine sawdust or dry and clean cotton waste or elastic wads made from dry newspapers. A ruptured can or keg should be sealed with tape and should be inclosed in a grain bag of good quality and boxed. Injured packages thus protected and properly marked may be forwarded. The box and waybill should be marked to indicate that it has been repacked.

(b) Particles of explosive compositions from damaged containers possibly may be strewn on car floors or freight, and due care should be exercised in repacking such containers that no sparks may be produced by contact of metal or other hard surfaces, or otherwise. Water will prevent the explosion of practically all explosive substances except dynamite, and in such cases car floors should be thoroughly swept, and washed with a plentiful supply of water. Use of iron-wheel trucks, metal hammers or other metal tools that may produce sparks, should be avoided. This restriction does not apply to metal tools made of brass, bronze or copper.

(c) Unless they are leaking, or in a manifestly insecure condition, packages of dangerous articles other than explosives in transit must be forwarded to destination and report made of any violation observed. Leaking packages must not be forwarded until repaired or reconditioned.

Superseding and amending pars. (c), (i), and (j), sec. 589, order Aug. 16, 1940, to read as follows (handling cars):

(c) Whenever placards or car certificates become detached or lost in transit the carrier must see that they are replaced. If both car certificates are missing, proper inspection, in so far as possible, must be made and new car certificates applied.

(i) Cars placarded "Explosives" must not be placed in through or local trains next to dead engines, placarded tank cars, wooden-frame flat or gondola cars; or carloads of pipe, lumber, poles, iron, steel, or similar lading in open-top cars which may shift and break through end of car placarded "Explosives" due to rough handling; refrigerator cars equipped with automatic refrigeration of the gas-burning type; nor next to cars containing lighted heaters, stoves, or lanterns, or cars with live stock or poultry occupied by an attendant.

(j) Cars placarded "Explosives" must not be placed in through or local trains next to cars which bear "Dangerous" placards, unless the remainder of the train consists only of such cars.

PART 5—REGULATIONS APPLYING TO CARRIERS BY RAIL EXPRESS

Superseding and amending par. (h), sec. 655, order Nov. 8, 1941, to read as follows (handling packages):

(h) It is important to prevent contact of contents of packages bearing either yellow or white corrosive liquid labels with combustible substances, such as sawdust, shavings, or sweepings, that may be present in express cars. The space should be swept or cleaned.

It is further ordered, That the aforesaid regulations as further amended herein shall remain in full force and effect on and after February 1, 1943, and shall be observed until the further order of the Commission;

It is further ordered, That compliance with the aforesaid regulations, as amended, made effective by this order, is hereby authorized on and after the date of service hereof;

And it is further ordered, That copies of this order be served upon all the parties of record herein and that notice be given to the public by posting in the Office of the Secretary of the Commission at Washington, D. C.

By the Commission, division 3.

PART 97—ROUTING OF TRAFFIC

ROUTING BETWEEN MONROE AND ALEXANDRIA, LA.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of November, A. D. 1942.

Upon consideration of a petition filed by Guy A. Thompson, Trustee, Missouri Pacific Railroad Company, requesting an order authorizing it to operate trains, locomotives and cars, southbound, over a portion of the tracks of the Louisiana & Arkansas Railway Company, the Commission is of the opinion that, due to the existing state of war, an emergency requiring immediate action exists on the line of the Missouri Pacific Railroad between Monroe and Alexandria, La

It appearing, That an agreement has been entered into between Guy A. Thompson, Trustee, Missouri Pacific Railroad Company, and the Louisiana & Arkansas Railway Company whereby such last named railway company has consented to the use of its tracks by the Missouri Pacific Railroad Company between Georgetown and Tioga, via Packton, all in the State of Louisiana, a distance of approximately 42.5 miles; and that the compensation to be paid by the Missouri Pacific Railroad Company to the Louisiana & Arkansas Railway Company for the use of the track of the latter has been agreed upon; therefore, in order to best promote the service in the interest of the public and the commerce of the people:

It is ordered, That:

§ 97.1 *Routing between Monroe and Alexandria, La.* Guy A. Thompson, Trustee, Missouri Pacific Railroad Company, is hereby authorized and directed after 12:01 a. m. November 24, 1942, and continuing until further order of the Commission, to operate trains, locomotives, and cars, southbound, over the tracks of the Louisiana & Arkansas Railway Company between Georgetown and Tioga, via Packton, all in the State of

Louisiana, an approximate distance of 42.5 miles, only at times when, in the opinion of Guy A. Thompson, Trustee, Missouri Pacific Railroad Company, such operation is necessary to prevent delay in the movement of railroad equipment, troops, and war materials and congestion of traffic on the main line of the Missouri Pacific Railroad Company between Monroe and Alexandria, La., and only during th period of the war emergency; compensation to be paid by Guy A. Thompson, Trustee, Missouri Pacific Railroad Company, to the Louisiana & Arkansas Railway Company for the use of such track as agreed upon between the parties.

It is further ordered, That copies of this order and direction be served upon Guy A. Thompson, Trustee, Missouri Pacific Railroad Company and the Louisiana & Arkansas Railway Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and that notice of this order be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register, The National Archives. (40 Stat. 101, sec. 402, 41 Stat. 476–477; 49 U.S.C. 1 (15)–(17))

By the Commission, division 3.

PART 123—FREIGHT COMMODITY STATISTICS

MONTHLY REPORTS OF FREIGHT COMMODITY STATISTICS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 13th day of November, A. D. 1942.

It is ordered, That the order of this Commission dated November 22, 1927, as amended by the orders of December 14, 1938, and April 27, 1942, and the order of November 16, 1939, as amended by the orders of December 14, 1939, and April 27, 1942, in the matter of Freight Commodity Statistics of carriers by steam railway, and corresponding sections of the Code of Federal Regulations, are hereby modified as follows:

§ 123.1a *Monthly reports of freight commodity statistics.* Beginning with the month of October 194, and thereafter until further order, data relating to freight commodity statistics heretofore reported quarterly (§ 123.1) (on Form QCS) by Class I steam railways other than switching and terminal companies, shall be reported monthly and annually instead of quarterly as heretofore (§ 123.1), by such carriers on Form MCS, which is attached hereto and made a part of this order.

§ 123.6 *Date of filing.* The reports required to be filed under § 123.1a shall be forwarded in duplicate to the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington, D. C., on or before the last day of the second month succeeding the close of the period for which they are compiled.

§ 123.10 * * *

(f) *Monthly reports of freight commodity statistics by geographic areas.* Beginning with the month of October 1942, and thereafter until further order, data relating to freight commodity statistics by geographic areas heretofore reported quarterly by Class I carriers (§ 123.10 (c)) shall be reported monthly and annually instead of quarterly as heretofore (§ 123.10 (c)) by such carriers including those operating in a single geographic area (§§ 123.10 (d) and 123.13 (c)) on Form SCS, which is attached hereto and made a part of this order.[1]

§ 123.13 (h) *Date of filing.* The reports required to be filed under § 123.10 (f) shall be forwarded in duplicate to the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington, D. C., on or before the seventy-fifth day succeeding the close of the period for which they are compiled. (Sec. 20, 24 Stat. 386, sec. 7, 34 Stat. 593, 36 Stat. 649, sec. 14, 36 Stat. 556, secs. 434–436, 41 Stat. 493, 494, sec. 13, 54 Stat. 916; 49 USC. 20 (1)–(10)

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. A-1362]

DELTA COAL MINING CO.

MEMORANDUM OPINION AND NOTICE OF AND ORDER FOR REOPENING THE HEARING

In the matter of the petition of Delta Coal Mining Company, a code member in District No. 10, for minimum f. o. b. mine prices for f. a. s. delivery from mines in District No. 10 to Minneapolis Street Railway Company, at Minneapolis, Minnesota, pursuant to section 3 (A), special river price instructions and exceptions, schedule of effective minimum prices for District No. 10 for all shipments except truck, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on March 18, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by Delta Coal Mining Company, a code member in District No. 10, requesting an order permitting Minneapolis Street Railway Company of Minneapolis, Minnesota, to purchase coals shipped via river by producers in District No. 10 at f. o. b. mine prices for free alongside delivery.

Petitions of intervention were filed by District Boards 2, 6, 7, 8, 10, and 11. The Bituminous Coal Consumers' Counsel filed a notice of appearance.

Pursuant to appropriate notice, a hearing was held before Charles O. Fowler, a duly designated Examiner of the Division, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard, and at which petitioner, Consumers' Counsel, and all interveners except District Board 10 appeared.

On September 4, 1942, the Examiner filed herein his report, proposed findings of fact, proposed conclusions of law and recommendations that the relief prayed for be granted.

On October 6, 1942, a final order was entered by the undersigned approving and adopting the Examiner's proposed findings of fact and proposed conclusions of law and granting the relief prayed for.

On October 12, 1942, interveners, District Boards Nos. 2 and 7, filed a petition for reconsideration and modification of the order granting permanent relief and for rehearing.

In comparing the respective costs of coals produced in District No. 7 when

shipped via the Great Lakes with those produced in District No. 10 when shipped by river to the Minneapolis Street Railway Company plant in Minneapolis, Minnesota, the Examiner found that the rail transportation costs for shipment of District No. 7 coals, to the lower Lake Erie ports, was $2.17 and that the dumping charge was $0.095 per net ton, aggregating $2.265 per net ton, which, together with the minimum f. o. b. mine price, vessel rate, dock handling charge and ex-dock freight rate made a delivered charge of $6.34 per net ton. The Examiner found that the delivered costs of Delta Coal Mining Company coals delivered by river was $4.7852 free alongside. It was found that there was a difference between the two coals of approximately 5,000,000 b. t. u. per net ton. In determining the relative value of the two coals, this difference was taken into account. Also, certain findings were made with respect to the costs of storing District No. 10 coal at both the power company's plant and the municipal dock.

In the petition for reconsideration and rehearing, it is alleged that the evidence on which such findings were based was inaccurate. The petition for rehearing alleges that the transportation cost of shipping District No. 7 coal via the Great Lakes aggregated $2.125 per net ton, from the mine to lower Lake Erie ports (including the dumping charge), instead of the $2.265 shown by the evidence and found by the Examiner, thus resulting in a delivered cost of only $6.20 per net ton. The petition further alleges that the determinations as to storage costs of the District No. 10 coal are erroneous. The interveners offer to make proof with respect to these allegations if given an opportunity to do so.

While no excuse is given for the failure to make such proof at the original hearing, it is important that the record in this matter be accurate. Accordingly, the intervener should be given an opportunity to make the proof it offers.

I find, therefore, that the hearing in this proceeding should be reopened for the purpose of receiving evidence with respect to the freight rates applicable to coals produced in District No. 7 moving via the Great Lakes to the power company plant at Minneapolis and with respect to the storage and storage charges for District No. 10 coals moving by river to that plant.

Since, however, there is no showing that the proof here offered could not have been offered at the prior hearing, and since there is no showing that continuance of the relief granted will injure any person, the relief should be continued.

Now, therefore, it is ordered, That the hearing in this proceeding be and the same hereby is reopened for the purpose of taking additional evidence, not cumulative of evidence already adduced, relating to the transportation costs for shipment of District No. 7 coal via the Great Lakes to the Minneapolis Street Railway Company plant at Minneapolis, Minnesota, and to the storage of and storage charges for District No. 10 coal when shipped via river to that plant of the Minneapolis Docks.

It is further ordered, That such reopened hearing be held on January 5, 1943, at 10 o'clock in the forenoon of that date before Examiner Charles O. Fowler, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section of the Division will advise as to the room where such hearing will be held.

It is further ordered, That the relief granted by the Order in this proceeding dated October 6, 1942, 7 F. R. 7960, continue until otherwise ordered.

It is further ordered, That the petition of interveners, District Boards Nos. 2 and 7, be, and the same hereby is, granted to the extent set forth herein and in all other respects denied.

The matter concerned herewith is in regard to the petition of Delta Coal Mining Company, a code member in District No. 10, for minimum f. o. b. mine prices for free alongside delivery from mines in District No. 10 to Minneapolis Street Railway Company, at Minneapolis, Minnesota, pursuant to section 3 (A), Special River Price Instructions and Exceptions, Schedule of Effective Minimum Prices for District No. 10, for all shipments except truck, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: November 20, 1942.

Director.

[Docket Nos. A-1718 and A-1718, Part II]

DISTRICT BOARD 8

NOTICE OF AND ORDER FOR HEARING, ETC.

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of the No. 2 Mine, Mine Index No. 5746, of T. V. McMahan and the Poplar Lick Mine, Mine Index No. 5643, of the Garmeada Coal Company.

Memorandum opinion and order severing Docket No. A-1718 Part II from Docket No. A-1718, and granting temporary relief in Docket No. A-1718 Part II, and notice of and order for hearing.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that no final determination should be made at this time with respect to the establishment of permanent price classifications and minimum prices for the coals of the Poplar Lick Mine, Mine Index No. 5643, of the Garmeada Coal Company, and of the No. 2 Mine, Mine Index No. 5746, of T. V. McMahan as requested in the original petition heretofore filed in this matter; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That the portion of Docket No. A-1718 relating to the coals of the Poplar Lick Mine, Mine Index No. 5643, of the Garmeada Coal Company, and of the No. 2 Mine, Mine Index No. 5746, of T. V. McMahan, be, and the same hereby is, severed from said docket and designated as Docket No. A-1718, Part II.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on December 16, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That Charles S. Mitchell or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before December 10, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 8 for the establishment of permanent price classifications and minimum prices for the coals of the Poplar Lick Mine, Mine Index No. 5643, of the Garmeada Coal Company, and the No. 2 Mine, Mine Index No. 5746, of T. V. McMahan.

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments is supplemented to include the price classifications and minimum prices appearing in "Supplement T" annexed hereto and made a part hereof.

DISTRICT BOARD 17

NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 17 to amend the specifications for size groups Nos. 1 and 2.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on November 24, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, at the Plains Hotel, Cheyenne, Wyoming.

It is further ordered, That Edward J. Hayes, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice or such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division at or before the time of said hearing.

All persons are hereby notified that the hearing in the above entitled matter and any orders entered therein, may concern, in addition to the matter specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 17 to amend the specifications for Size Groups Nos. 1 and 2 on page 2 of the Schedule of Effective Minimum Prices for District No. 17 for All Shipments to read as follows:

SHEBAN MINING COMPANY

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A complaint dated June 6, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act") having been duly filed on June 11, 1941, by the Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division") alleging that Sheban Mining Company (Karam Sheban), wilfully violated the Bituminous Coal Code (the "Code") or rules and regulations thereunder; and

An order having been issued herein on July 17, 1942, revoking and canceling the Code membership of the Applicant, effective fifteen (15) days from the date of said order, and ordering that prior to any reinstatement thereof, there shall be paid to the United States a tax of Three Thousand Five Hundred and Fifteen Dollars and Eight Cents ($3,515.08) as provided by section 5 (c) of the Act, and said order having been served on the Applicant on July 23, 1942; and

An application, dated November 6, 1942, for restoration of membership in the Code having been filed by said Applicant with the Division on November 9, 1942; and

It appearing from said application that on August 17, 1942, Applicant paid said tax of Three Thousand Five Hundred and Fifteen Dollars and Eight Cents ($3,515.08), to the Collector of Internal Revenue at Cleveland, Ohio, pursuant to said Order issued July 17, 1942, and section 5 (c) of the Act, as a condition precedent to the restoration of membership in the Code;

Now, therefore, it is ordered, That said application be, and the same hereby is, granted; and

It is further ordered, That the Code membership of Sheban Mining Company (Karam Sheban) be and the same hereby is restored as of the effective date of said revocation of Code membership.

[Docket No. A-1620]

SUPERIOR COAL CO.

NOTICE OF AND ORDER FOR HEARING, ETC.

In the matter of the new Superior Coal Co. for the establishment of price classifications and minimum prices in District No. 10.

Notice of and order for hearing and order granting temporary relief and order terminating temporary relief heretofore granted.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with the Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of its New Superior Coal Co. Mine, Mine Index No. 1202, in District No. 10 for shipment by rail from Harrisburg, Illinois.

By Order issued September 10, 1942, 7 F. R. 7382, in the above-entitled matter, temporary relief was granted and provision was made that such relief would become conditionally final in 60 days from date of the Order, unless it should be otherwise ordered. This Order established for the coals produced by the New Superior Coal Co. Mine, Mine Index No. 1202, in District No. 10, the same price classifications and minimum prices as those in effect for the coals produced at mines located in Price Group No. 5 in District No. 10 and established Harrisburg, Illinois, on the New York Central Railroad as the rail shipping point for that mine instead of the McLaren Fuel Company's preparation plant located on the Illinois Central and the Missouri Pacific Railroads at Marion, Illinois. By a "Note" contained in the schedule marked "Supplement R," which was annexed to the Order and made a part thereof, the relief granted by the Order of February 17, 1942, 7 F. R. 1538, in Docket No. A-1079 was terminated. The Order also revoked the relief previously granted the coals of Mine Index No. 1202 of the New Superior Coal Co. by the Order of February 17, 1942, in Docket No. A-1079.

Subsequent to the date of the Order granting temporary relief in the above-entitled matter, District Board No. 10 filed a motion to terminate the temporary relief granted in Docket No. A-1620 and requested a hearing in the matter. The district board alleged in its petition that the establishment of separate prices for shipment by rail from the mine of

the New Superior Coal Co. would prejudice the rights and interests of the other mines which had been granted the right to ship from the transportation facilities of the McLaren Fuel Company's preparation plant at Marion, Illinois, by Order in Docket No. A-1079. McLaren Fuel Company also filed a petition of intervention and requested that the temporary relief theretofore granted in Docket No. A-1620 be suspended pending a hearing.

Thereafter, on October 10, 1942, petitioner filed its motion for leave to file an amended petition and simultaneously filed its amended petition, requesting that the New Superior Mine be classified and priced in Price Group 2, District No. 10, rather than in Price Group 5, District No. 10 and that its shipping point be continued at Harrisburg, Illinois, and praying that temporary relief be granted pending the final disposition of the matter. In support of the relief requested in the amended petition, petitioner stated that its original petition was in error inasmuch as its coals are shipped from Harrisburg, Illinois, on the New York Central Railroad and accordingly the mine should be included in Price Group 2 in District No. 10 rather than in Price Group 5 in District No. 10. Both District Board No. 10 and the McLaren Fuel Company have filed petitions of intervention in support of the temporary relief requested in the amended petition filed by code member C. C. Stump, operator of the New Superior Coal Company Mine. Accordingly, in view of the foregoing, it appears that a reasonable showing of necessity has been made for the granting of the temporary relief requested in the amended petition filed herein pending final disposition of the above-entitled matter.

Now, therefore, it is ordered, That the relief heretofore granted in Docket No. A-1620 by Order of the Acting Director dated September 10, 1942, 7 F.R. 7382, be and it hereby is vacated and set aside.

It is further ordered, That pending final disposition of the above-entitled matter, temporary relief be and the same hereby is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 10 For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Temporary Supplement R" annexed hereto and made a part hereof.

It is further ordered, That the price classifications and minimum prices established for the coal of mines other than Mine Index No. 1202 of the New Superior Coal Co. Mine by Order Granting Temporary Relief and Conditionally Providing for Final Relief in Docket No. A-1079 on February 17, 1942, 7 F.R. 1538, shall remain in full force and effect.

It is further ordered, That at the hearing herein provided for the petitioner shall show the extent, if any, to which the minimum prices applicable to its truck shipments should be revised and related to any change in price classifications and minimum prices for all shipments except truck as herein requested.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on January 7, 1943, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day, the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer or officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriation order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before January 2, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the original petition of the New Superior Coal Co. for the establishment in District No. 10 of the same price classifications and minimum prices as those in effect for the coals produced from other mines located in Price Group 5 and for the establishment of Harrisburg, Illinois, on the New York Central Railroad as the rail shipping point for all shipments except truck for the coals produced by the New Superior Coal Co. Mine, Mine Index No. 1202; and in regard to petitioner's amended petition for the establishment of price classifications and minimum prices in Price Group 2 rather than in Price Group 5 for the coals of its Mine Index No. 1202 in District No. 10. In addition the question of correct price classifications and minimum prices applicable to petitioner's truck shipments in relation to any change in price classifications and minimum prices for all shipments except truck as herein requested, shall be considered.

Dated: November 19, 1942.

FEDERAL COMMUNICATIONS COMMISSION.

[Dockets Nos. 6459-67]

R. C. A. COMMUNICATIONS, INC.

NOTICE OF HEARING

In re applications of R. C. A. Communications, Inc., dated October 1, 1942, for renewal of licenses; class of service, fixed public; class of stations, point-to-point telegraph and telephone; locations, Kahuku, T. H. (telegraph and telephone); Rocky Point, N. Y.; New York, N. Y.; New Brunswick, N. J.; Tuckerton, N. J.; Marion, Mass.; Bolinas, Calif.; and San Juan, P R.

You are hereby notified that the Commission, having examined the above-described applications, and being unable to determine upon examination of such applications that public interest, convenience or necessity would be served by the granting thereof, has designated the matters for hearing for the following reasons:

1. To determine if applicant has entered into, maintained, or operated under any contracts, agreements, understandings, or arrangements, written or oral, express or implied, which have the effect of preventing the establishment by other American carriers of communication circuits, contrary to the public interest, convenience, or necessity.

2. To determine if applicant has entered into, maintained, or operated under any contracts, agreements, understandings, or arrangements, written or oral, express or implied, which have the effect of preventing the practical operation by other American carriers of additional communication circuits, contrary to the public interest, convenience, or necessity.

3. To determine if the applicant has entered into, maintained, or operated under any contracts, agreements, understandings, or arrangements, written or oral, express or implied, which result in an undue preference to applicant or an undue prejudice to other American carriers in the rendition of any communication service, contrary to the public interest, convenience or necessity.

4. To determine if the applicant has entered into, maintained, or operated under any contracts, agreements, understandings, or arrangements, written or oral, express or implied, which tend to create a monopoly of communication service, contrary to the public interest, convenience or necessity.

5. To determine if the applicant has taken any action designed to prevent, restrain, burden, or impede the establishment or successful operation by other American carriers of additional circuits or channels of communication, contrary to the public interest, convenience, or necessity.

6. To determine if the applicant has entered into, maintained, or operated under any contracts, agreements, understandings, or arrangements, written or oral, express or implied, which have the effect of hampering, delaying, obstructing, or in any manner prejudicing, contrary to the public interest, convenience or necessity, the institution of additional channels of communication desirable for purposes of national security and the successful conduct of the war.

7. To determine whether in the light of the evidence adduced on the foregoing issues, public interest, convenience or necessity would be served by a grant of the applications herein designated for hearing.

The applications involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant upon the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules and Regulations. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules and Regulations.

The applicant's address is as follows: R. C. A. Communications, Inc., 66 Broad Street, New York, N. Y.

Dated at Washington, D. C., November 20, 1942.

MONMOUTH BROADCASTING COMPANY (WBRB)

NOTICE OF HEARING

In re application of Monmouth Broadcasting Company (WBRB), dated, September 18, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Red Bank, New Jersey; operating assignment specified: frequency, 1,240 kc.; power, 100 w. night, 100 w. day; hours of operation, shares with WGBB and WFAS.

You are hereby notified that the Commission on October 6, 1942 denied the petition of the applicant filed pursuant to the Memorandum Opinion of the Commission of April 27, 1942, and designated the above-entitled matter for hearing upon the following issues:

1. To determine the qualifications of the applicant, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine whether the equipment proposed to be employed in the construction and operation of the station and the manner of installation thereof, will meet the requirements of the Rules and Regulations of the Commission and the Standards of Good Engineering Practice.

3. To determine whether the site at which applicant proposes to construct and operate the station, will comply with the Rules and Regulations of the Commission, particularly § 3.24 (e) and the Standards of Good Engineering Practice; and whether such site is available to the applicant.

4. To determine the areas and populations which would receive primary service, if applicant should operate as proposed, and what other broadcast service is available to those areas and populations.

5. To determine the type and character of program service which applicant may be expected to render and the extent to which such service is now being rendered by any other station or stations serving the proposed service area, in whole or in part.

6. To determine whether the granting of the application would be in conformity with the policy announced by the Commission in its Memorandum Opinion of April 27, 1942.

7. To determine whether, in view of the facts adduced under the foregoing issues, the granting of the application would serve public interest, convenience or necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. [Docket No. G-427]

CONSOLIDATED GAS UTILITIES CORPORATION

ORDER FIXING DATE FOR HEARING

NOVEMBER 18, 1942.

Consolidated Gas Utilities Corporation (hereinafter referred to as "Applicant"), by application filed October 29, 1942, requested that it be authorized, pursuant to section 7 (b) of the Natural Gas Act, to discontinue and abandon the sale of gas to W. S. Fees for resale to Cities Service Gas Company;

It appearing to the Commission that:

(a) Applicant is now engaged in the sale of natural gas to W. S. Fees, pursuant to Consolidated Gas Utilities Corporation Rate Schedule FPC No. 16 and Supplements Nos. 1 and 2 thereto;

(b) The natural gas purchased by W. S. Fees from Applicant is sold to Cities Service Gas Company for resale pursuant to W. S. Fees' Rate Schedule FPC No. 1;

(c) On October 29, 1942, Applicant filed an application with the Commission requesting that it be authorized to discontinue and abandon the sale of natural gas to W. S. Fees;

(d) Cities Service Gas Company advised the Commission on November 14, 1942, that it protests the termination of Applicant's service to W. S. Fees, for it would be unable to replace the gas which is now obtained from Applicant, through W. S. Fees, except at greatly increased cost; Cities Service also stated that it desired to continue to receive this gas either from W. S. Fees or directly from Applicant under the terms and conditions of the agreement between Cities Service and Fees;

The Commission orders that:

(A) A public hearing be held in the Federal Building, Kansas City, Missouri, on December 10, 1942, at 10:00 a. m., for the purpose of determining whether the present or future public convenience or necessity permits the requested abandonment of service;

(B) Interested State Commissions may participate in the hearing as provided in § 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas Act.

16% OF THE CAPITAL STOCK OF NICHIBEI SECURITIES CORP. OF LOS ANGELES

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned after investigation, finding:

(a) That the property described as follows:

> 200 shares (which represent 16% of all outstanding shares) of $10 par value capital stock of Nichibei Securities Corp. of Los Angeles, a California corporation, Los Angeles, California, which is a business enterprise within the United States, the names and last known addresses of the registered owners of which, and the number of shares owned by them respectively, are as follows:

Names and last known addresses	*Number of shares*
H. T. Komai (alien detention camp)	100
Yoshimori Nozawa (alien detention camp)	100
Total	200

is property of nationals, and represents an interest in said business enterprise which is a national (by reason of the fact that a substantial part of all outstanding shares are owned by nationals), of a designated enemy country (Japan); and

(b) That the property described as follows:

> All right, title, interest and claim of any name or nature whatsoever of Tokyo Nichibei Shoken, a Japanese corporation, Tokyo, Japan, in and to all indebtedness, contingent or otherwise and whether or not matured, owing to it by said Nichibei Securities Corp. of Los Angeles, including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness,

is an interest in the aforesaid business enterprise held by, and is property within the United States owned or controlled by, a national of a designated enemy country (Japan);

and determining that to the extent that any or all of such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country, (Japan), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

[Vesting Order 245]

ASSETS OF ASAHI SHINBUN

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

> All property of any nature whatsoever situated in the United States and owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, Asahi Shinbun, a Japanese corporation, Tokyo and Osaka, Japan, including, but not limited to, all of the assets of its United States branch known as The Asahi Shinbun, New York, New York, which corporation is a business enterprise within the United States, and an account in the National City Bank, New York, New York, in the name of Kyozo Mori, Japan (by repatriation), which account is held for the benefit of and owned by The Asahi Shinbun,

is property of said business enterprise which is a national of a designated enemy country (Japan), and determining that to the extent that such national is a person not within a designated enemy country the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on October 19, 1942.

[Vesting Order 246]

ASSETS OF SHOCHIKU COMPANY, LTD.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

(a) Finding that Shochiku Company, Ltd., a Japanese corporation, Tokio, Japan, is a national of a designated enemy country (Japan);

(b) Finding that Shochiku Company, Ltd., Hollywood Branch, a partnership, Los Angeles, California, which is a business enterprise within the United States, is a branch or agency of the aforesaid Japanese corporation and is controlled by or acting for the benefit or on behalf of the aforesaid Japanese corporation and is therefore a national of a designated enemy country (Japan);

(c) Finding that the property described as follows:

> All property of any nature whatsoever situated in the United States and owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, the aforesaid Schochiku Company, Ltd., Tokio, Japan, or Schochiku Company, Ltd., Hollywood Branch, Los Angeles, California.

is property of a national of a designated enemy country (Japan);

(d) Finding that the property described as follows:

> All right, title, interest, and claim of any name or nature whatsoever in and to all accounts payable and other indebtedness, contingent or otherwise, and whether or not matured, owing to the aforesaid Japanese corporation by said Shochiku Company, Ltd., Hollywood Branch, including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness,

is an interest in the aforesaid business enterprise held by a national of a designated enemy country (Japan), and also is property within the United States owned and controlled by a national of a designated enemy country (Japan);

(e) Determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Japan);

(f) Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

(g) Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraphs (c) and (d), to be held, used, administered, liquidated, sold, or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu therof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

CERTAIN INDEBTEDNESS OWING BY YOKOHAMA SPECIE BANK, LTD., ETC.

Re: Certain indebtedness owing by Yokohama Specie Bank, Ltd. (San Francisco), and/or the Superintendent of Banks of the State of California.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Yokohama Specie Bank, Ltd., a Japanese corporation, Tokyo, Japan, and Nippon Yusen Kaisha, a Japanese corporation, Tokyo, Japan, and each of them, are nationals of a designated enemy country (Japan);

2. Finding that said Yokohama Specie Bank, Ltd., and said Nippon Yusen Kaisha, and each of them, have established branch offices at San Francisco, California, engaged in the conduct of business within the United States, and are business enterprises within the United States;

3. Finding that liquidation of said San Francisco branch of the aforesaid Yokohama Specie Bank, Ltd., is in the process of administration by a person (namely, the Superintendent of Banks of the State of California) acting under judicial supervision (namely, that of the Superior Court of the State of California, in and for the City and County of San Francisco) within the meaning of Section 2 (f) of the aforesaid Executive Order;

4. Finding that liquidation of said Nippon Yusen Kaisha, or of its assets in the United States, or of its San Francisco branch, is in the process of administration by a person (namely, a trustee in bankruptcy) acting under judicial supervision (namely, that of the United States District Court at San Francisco) within the meaning of Section 2 (f) of the aforesaid Executive Order;

5. Finding that Yoshio Muto, who was formerly Consul General of Japan in San Francisco, is a national of a designated enemy country (Japan);

6. Finding that the property described as follows:

> All right, title, interest and claim of any name or nature whatsoever of the aforesaid Yoshio Muto, Nippon Yusen Kaisha, and the latter's San Francisco branch, and each of them, in and to all indebtedness, contingent or otherwise and whether or not matured, owing to them or any of them by the aforesaid Yokohama Specie Bank, Ltd., or by its said San Francisco branch or by the aforesaid Superintendent of Banks, including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness,

is (a) an interest in a business enterprise within the United States (namely, the aforesaid Yokohama Specie Bank, Ltd., and/or its San Francisco branch) held by a national or nationals of an enemy country (Japan), and also is (b) property within the United States owned or controlled by a national or nationals of a designated enemy country (Japan), and also is (c) property which is payable or deliverable to, or claimed by, a national or nationals of a designated enemy country (Japan) and which (as hereinbefore stated in subparagraph 3) is in the process of administration by a person acting under judicial supervision;

7. Determining that to the extent that such nationals, or any of them, are persons not within a designated enemy country, the national interest of the United States requires that such persons and each of them be treated as nationals of the aforesaid designated enemy country (Japan);

8. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

9. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 6, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

CERTAIN INDEBTEDNESS OWING TO YAMANAKA AND COMPANY, LTD.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

> All right, title, interest and claim of any name or nature whatsoever of Yamanaka and Company, Ltd., Osaka, Japan, in and to all indebtedness, contingent or otherwise and whether or not matured, owing to it by Yamanaka and Company, Inc., Boston, Massachusetts, including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness,

is property within the United States owned or controlled by a national of a designated enemy country (Japan), and determining that such property is necessary for the maintenance or safeguarding of other property (namely, that certain real property in Bar Harbor Maine which was found in Vesting Order Number 140, issued under date of September 2, 1942, to be property within the United

States owned by said national) belonging to the same national of the same designated enemy country and subject to vesting, and in fact vested by said vesting order, pursuant to Section 2 of said Executive Order, and determining that to the extent that such national is a person not within a designated enemy country the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Japan), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

MORTGAGE OWNED BY MRS. JOSEPHINE M. LORSCH COVERING REAL PROPERTY IN NEW YORK CITY

Whereas, pursuant to Vesting Order Number 154 of September 17, 1942, the undersigned intended to vest a certain obligation secured by a mortgage, together with such mortgage; and

Whereas, in describing the property intended to be vested no reference was made to such obligation or mortgage;

Now, therefore, in order to cure any defect in said order arising by virtue of the failure to make reference to such obligation or mortgage, the following order is hereby issued:

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

> All right, title, interest and claim of any name or nature whatsoever of Mrs. Josephine M. Lorsch, whose last known address was represented to the undersigned as being in Eure-et-Loire, France, in and to any and all obligations (contingent or otherwise and whether or not matured) which are secured by that certain mortgage from Amanda B. Schwab to Lawyers Trust Company dated December 27, 1928 and thereafter duly assigned by mesne assignments to Mrs. Josephine M. Lorsch, which mortgage covers certain real property together with all fixtures, improvements and appurtenances thereto located at 112 East 78th Street, New York, New York, including but not limited to all security rights in and to any and all collateral (including said mortgage) for any or all of such obligations and the right to enforce and collect such obligations,

is property within the United States owned by a national of a designated enemy country (Germany), and determining that to the extent that such national is a person not within a designated enemy country, such person is controlled by a designated enemy country (Germany), or a person within such country, and the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Germany), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on November 18, 1942.

AUTHORITY: §§706.401 to 706.409 issued under the authority contained in sections 7 to 17, as amended, 49 Stat. 1148, 1915; 50 Stat. 329; 52 Stat. 31, 204, 205, 746; 53 Stat. 550, 573; 16 U. S. C. 590g–490q.

§ 706.401 *Authority and availability of funds.* Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, and in connection with the effectuation of the purposes of section 7 (a) of said Act in 1943, payments will be made for participation in the 1943 Naval Stores Conservation Program in accordance with the provisions of this bulletin and such modifications thereof or other provisions as may hereafter be made.

The provisions of the 1943 Naval Stores Conservation Program are necessarily subject to such legislation affecting said program as the Congress of the United States may hereafter enact; the making of the payments herein provided for is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will be finally determined by such appropriation and by the extent of participation in the program. Any increase or decrease in the rates of payments and deduction set forth herein because of the extent of participation in the program will not be in excess of 10 percent.

706.402 *Definition of terms*—(a) *Turpentine farm.* The land and turpentine timber owned or leased, or operated on a sharecrop basis, and under one management and in one general locality, which is being operated for the production of gum naval stores.

(b) *Gum naval stores.* Crude gum (oleoresin), gum turpentine, and gum rosin produced from living trees. Gum naval stores does not include naval stores produced from dead timber, stumps, knots, etc.

(c) *Producer.* Any person or persons, firm, partnership, corporation, or other business enterprise, doing business as a single legal entity and producing gum naval stores from timber controlled for turpentine purposes through fee ownership, cash lease, percentage lease, share lease, or other form of control.

(d) *Face.* The whole wound or aggregate of streaks made by chipping, streaking, or pulling the live tree to stimulate the flow of crude gum (oleoresin), hereinafter referred to as gum.

(e) *Cup.* A container made of metal, clay, or other material hung on or below the face to accumulate the flow of gum.

(f) *Tins.* The gutters or aprons, made of sheet metal or other material, used to aid in conducting the gum from a face into a cup.

(g) *Crop.* 10,000 faces.

(h) *Drift or tract.* A portion or subdivision of a crop set apart for convenience of operation.

(i) *D. b. h.* Diameter breast height; i. e., diameter of tree measured at 4½ feet from the ground.

(j) *Turpentine season.* The entire calendar year or, if a turpentine farm is operated less than the full calendar year, that period within the calendar year during which a producer is operating his farm for the production of gum naval stores.

(k) *Application.* The prescribed form of application for payment for cooperating in the 1943 Naval Stores Conservation Program (hereinafter referred to as this program).

§ 706.403 *Duration of program.* The period during which this program is to be in effect is the period January 1 to December 31, 1943, inclusive.

§ 706.404 *Kind of payments.* Payment will be made, at the rates and subject to the conditions set forth in § 706.407, to producers who in 1943 carry out the approved practices set forth in § 706.405 with respect to turpentine farms currently being worked in 1943, beginning such cooperation within time limits to be established by the Forest Service of the United States Department of Agriculture (hereinafter referred to as the Forest Service) as appropriate and practicable time limits necessary to afford full opportunity to producers to cooperate in this program and to obtain a full measure of compliance with the objectives of this program.

§ 706.405 *Conditions of payment; performance required.* In order to qualify for payment, producers shall meet the following requirements:

(a) *Working small trees prohibited.* No face (either old or new) shall be worked during the 1943 turpentine season on any tree less than 9 inches d.b.h. on any turpentine farm or farms owned, leased, or worked by the applicant producer.

(b) *Only one face permitted on trees under 14 inches diameter.* No trees that is less than 14 inches d.b.h. shall have more than one face worked during the 1943 turpentine season on any turpentine farm or farms owned, leased, or worked by the applicant producer.

(c) *Virgin faces on trees 9 inches or larger eligible for payment.* Payment will be made on all virgin faces worked, either owned or leased, by the applicant producer if all such virgin faces are on trees 9 inches d. b. h. or larger.

(d) *Working quotas.* For this program there will be no recognition of "base" as it was used in any previous program; and therefore no limitation resulting from "base" provisions as to the number of faces a producer may work. A producer may work any number of faces under this program, provided that all faces so worked conform to the performance requirements outlined in the other paragraphs of this section.

(e) *Written evidence of leases required.* Any producer who acquires faces through a new lease or the renewal of an expiring lease must present to the Forest Service satisfactory proof in writing of such a transaction.

(f) *Restrictions concerning non-participating operations.* Any producer otherwise participating in this program who permits his labor to operate timber which he owns or controls and cannot operate and remain eligible for participation under the terms of this program, or who assists in any manner in the operation of such timber or the sale or processing of the gum therefrom, either directly or through a relative or employee or through any member, officer, or employee of any partnership, corporation, or other business enterprise in which he has any interest or with which he has any connection, or in any other manner whatsoever, shall not be eligible to receive any benefit payment under this program.

(g) *Faces installed on small trees in 1941 and 1942 not eligible for payment.* As in previous programs, participants in this program will be paid for the removal of faces on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h. as required by paragraphs (a) and (b) of this section, if the cups on such trees were installed during the 1939 or 1940 turpentine season. As announced in the 1941 and 1942 bulletins, no payment will be made for the removal of faces that were installed during the 1941 and 1942 seasons on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h.; and in the event of a Naval Stores Conservation Program for 1944 no payment will be made on such faces installed in 1943.

(h) *Payment on discontinued faces limited to small trees.* Payment on discontinued faces shall be limited to those removed from small trees as required by paragraphs (a) and (b) of this section, provided such removed faces are located in drifts that contain working faces which are continued in operation.

(i) *Cups and tins must be detached from small trees.* Cups and tins must be detached from those faces removed from operation on trees under 9 inches d. b. h. or between 9 and 14 inches d. b. h., but need not be removed from the area.

(j) *Limitation of working area on faces.* Total streaks per face made during the period of this program, averaged by drifts or tracts, shall not exceed 24 inches in vertical measurement between shoulders of first streak and shoulders of last streak.

(k) *Minimum number of streaks required.* Payment shall not be made on faces in production which do not average, by drifts or tracts, at least 12 streaks for the 1943 turpentine season, which streaks shall have been made at no greater frequency than two streaks per week.

(l) *Over 90-inch faces not eligible for payment.* Payment shall not be made on working faces or on faces required to be removed by paragraphs (a) and (b) of this section in any drift or tract where the average height of faces exceeds 90 inches at the beginning of the 1943 turpentine season, in vertical measurement between shoulders of first streak and may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

ESTATE OF MATHILDE LANKENAU, DECEASED

File D-28-1669; E. T. sec. 534.

Under the authority of the Trading with the Enemy Act as amended, Executive Order 9095 as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Charles R. Wallendorf, Executor, acting under the judicial supervision of the Surrogate's Court of the State of New York, in and for Bronx County;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National	*Last known address*
Matta Hanken	Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States, requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Matta Hanken in and to the Estate of Mathilde Lankenau, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of November, A. D. 1942.

In the matter of Southern Union Gas Company, Arkansas Western Gas Company, New Mexico Gas Company, New Mexico Eastern Gas Company, Texas Southwestern Gas Company, Quanah Water Company and Southern Union Production Company, File No. 54-45; in the matter of Southern Union Gas Company, Arkansas Western Gas Company, New Mexico Gas Company, New Mexico Eastern Gas Company, Texas Southwestern Gas Company, Quanah Water Company, Southern Union Production Company, Angels Peak Oil Company, Congress Oil Company and Summit Oil Company, File No. 59-48.

Southern Union Gas Company, a registered holding company, and its principal subsidiary companies, Arkansas Western Gas Company, New Mexico Gas Company, New Mexico Eastern Gas Company, Texas Southwestern Gas Company, Quanah Water Company and Southern Union Production Company, having filed applications and declarations and amendments thereto, pursuant to section 11 (e) and other sections of the Public Utility Holding Company Act of 1935, and the Rules and Regulations of this Commission promulgated thereunder, whereby said applicants request approval of a plan submitted pursuant to said section 11 (e) and authorization for certain particular transactions, constituting component parts of such plan, and actions incidental thereto, including among other things a merger of said Southern Union Gas Company, New Mexico Gas Company, New Mexico Eastern Gas Company and Texas Southwestern Gas Company and in connection with such proposed merger intra-system sales and acquisitions of certain properties and securities, the liquidation of certain subsidiary companies, and the refinancing of the principal surviving operating company, Texas Southwestern Gas Company; and

The Commission having, on June 4, 1942, by notice and order for hearing issued in combination with its notice and order for hearing on the plan filed pursuant to section 11 (e) of the Act, instituted proceedings under sections 11 (b) (1) and 11 (b) (2) of the Act against Southern Union Gas Company and its subsidiaries to determine what action shall be required to be taken under said Sections; and

The Commission having granted the applications, as amended, and having permitted the declarations, as amended, to become effective subject, however, to certain conditions including the terms and conditions prescribed in Rule U-24 and approval by the Commission of the definitive indentures securing Twenty-Year Sinking Fund First Mortgage 3¾% Bonds and Twenty-five Year Sinking Fund 6% Debentures to be issued and sold by Texas Southwestern Gas Company; and

The said applications having been amended subsequent to the Commission's order hereinabove referred to by the filing of definitive indentures for the above-mentioned bonds and debentures; and

It appearing to the Commission that provisions of said definitive indentures are in accord with the provisions described in the Commission's findings and opinion in connection with its order hereinabove referred to and that the indentures are not of such a nature as to make it appropriate to impose any terms or conditions other than as specified in Rule U-24; and

The applicants having requested that the said conditions be modified to the extent necessary to extend the time within which the transactions as set forth in the applications and declarations as amended may be performed to December 31, 1942;

It is ordered, That said applications, as amended, with respect to the issuance and sale by Texas Southwestern Gas Company of Twenty-Year Sinking Fund First Mortgage 3¾% Bonds and Twenty-five Year 6% Sinking Fund Debentures, be and hereby are approved subject to the terms and conditions prescribed by Rule U-24 and subject to the conditions and reservations set forth in the previous order referred to hereinabove except as to that condition relative to approval of the definitive indentures, which condition has now been satisfied;

It is further ordered, That notwithstanding the provisions of Rule U-24 (c) (1) the time within which the transactions approved and permitted by the order of September 19, 1942, may be performed is hereby extended to December 31, 1942.

By the Commission.

UNITED PUBLIC SERVICE CORPORATION

ORDER PERMITTING WITHDRAWAL OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of November, A. D. 1942.

United Public Service Corporation, a registered holding company under the Public Utility Holding Company Act of 1935, having on July 17, 1940, filed an application pursuant to said Act and Rules and Regulations thereunder regarding its acquisition of not to exceed $100,000 principal amount of First Mortgage 5½% Gold Bonds of Maysville Public Service Corporation (Kentucky Power & Light Company by change of name), then a subsidiary company of United Public Service Corporation; and

All of the outstanding bonds of such subsidiary company having been retired subsequent to the filing of such application; and

United Public Service Corporation having now requested that the Commission permit the withdrawal of such application; and

The Commission finding that such withdrawal will not be detrimental to the public interest or the interest of investors or consumers:

It is ordered, That such application be withdrawn.

By the Commission.

POTOMAC ELECTRIC POWER COMPANY

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 19th day of November, A. D. 1942.

The Commission having heretofore on August 26, 1942 issued an order granting the application as amended of Potomac Electric Power Company, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of section 6 (a) of said Act of the issuance and sale of $5,000,000 principal amount of First Mortgage Bonds 3¼% Series due 1977; and

It appearing that at the hearing on said application applicant made the following representation:

> That it will on or before December 31, 1942 execute an indenture supplemental to its Mortgage and Deed of Trust dated July 1, 1936, between the company and the Riggs National Bank of Washington, D. C. as trustee, pursuant to which the company will agree not to apply at any time thereafter for the authentication of additional bonds under such indenture, upon the basis of net bondable value of property additions in an aggregate principal amount in excess of 60 per cent of the net bondable value of property additions available thereafter at such time;

and

The Commission having reserved jurisdiction pursuant to the provisions of Rule U-24 (c) (3) (A) to pass upon the terms of the said supplemental indenture; and

It appearing that the applicant on November 14, 1942 amended the application after its effective date by filing as an exhibit thereto a Supplemental Indenture to be dated October 15, 1942 and that such proposed Supplemental Indenture is in accordance with the representation of the applicant previously made;

It is ordered, That jurisdiction heretofore reserved by the aforesaid order of August 26, 1942 in accordance with the provisions of Rule U-24 be and the same hereby is released.

GEORGIAN INCORPORATED

WITHDRAWAL OF SECURITIES FROM REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 20th day of November, A. D. 1942.

In the matter of the Georgian Incorporated eight percent cumulative Class A Preference Stock, $20 par value.

This proceeding having been instituted by the Commission pursuant to section 19 (a) (2) of the Securities Exchange Act of 1934 as amended, to determine whether the registration under the said Act of the eight percent cumulative Class A preference stock, $20 par value, of The Georgian Incorporated listed on the Boston Stock Exchange should be suspended for a period not exceeding 12 months or withdrawn,

A hearing having been held before a trial examiner after appropriate notice to the registrant and the Boston Stock Exchange by registered mail, and after publication of notice in the FEDERAL REGISTER, and the trial examiner having filed an advisory report, finding that the registrant has failed to comply with the provisions of section 13 of the Act and Rules X-13A-1 and X-13A-2 promulgated pursuant thereto in that it has failed to file its annual report on Form 10-K for the fiscal year ending December 31, 1941, no exceptions to the trial examiner's report having been filed by The Georgian Corporation, the Boston Stock Exchange or any holder of the stock, and upon an independent reading of the record the Commission having adopted the trial examiner's findings as being in accord with the evidence, and finding that it is necessary and appropriate for the protection of investors to withdraw the said eight percent cumulative Class A preference stock, $20 par value, from registration,

It is ordered, That the registration of the said eight percent cumulative Class A preference stock, $20 par value, of The Georgian Incorporated be, and the same hereby is, withdrawn effective ten days after the date of this order.

HOLBROOK LIGHT AND POWER CO. AND SOUTHWESTERN ICE CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of November, A. D. 1942.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission by The Holbrook Light and Power Company and Southwestern Ice Company, both being direct subsidiaries of Southwestern Public Service Company, which is a registered holding company; and

Notice is further given that any interested person may, not later than December 5, 1942 at 5:30 p. m., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declarations or applications, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declarations or applications which are on file in the office of said Commission for a statement of the transactions therein proposed, which are summarized as follows:

The Holbrook Light and Power Company and the Southwestern Ice Company having sold their property and assets (except cash, accounts receivable, merchandise inventory and prepaid items) to the Town of Holbrook, Arizona, a municipal corporation, for the following amounts of cash respectively, $86,938.59 in the case of The Holbrook Light and Power Company, and $3,700.00 in the case of the Southwestern Ice Company, subject to certain adjustments, each proposes as rapidly as possible to pay to Southwestern Public Service Company as its sole stockholder (there being no securities of either company outstanding except Common Stock) a dividend or dividends in complete liquidation and to dissolve.

The Companies propose to convert into cash their assets (other than cash) not sold and out of such funds and the proceeds of such sales to pay all known liabilities other than accrued Federal taxes. Southwestern Public Service Company will assume all liabilities of the two companies after payment by them of all known liabilities as aforesaid, the liabilities so assumed consisting of accrued Federal taxes and consumers deposits then unclaimed.

The Southwestern Public Service Company proposes in accordance with provisions of section 7 of Article Second of its Indenture to Boatmen's National Bank of Saint Louis securing its Serial Notes, to apply the amounts received from The Holbrook Light and Power Company and the Southwestern Ice Company from time to time as such liquidating dividends, to retire its outstanding Serial Notes by purchase or redemption, such purchases being alleged to be exempt under Rules U-42 (b) (4) and (5), and such redemption (if any) being alleged to be exempt under Rule U-42 (b) (2).

By the Commission.

NORTH AMERICAN COMPANY

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of November, A. D. 1942.

Notice is hereby given that an application or declaration (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The North American Company.

Notice is hereby given that any interested party may, not later than November 28, 1942, at one o'clock p. m., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa.

All interested parties are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transaction therein proposed, which is summarized below:

The declarant, The North American Company, a registered holding company, proposes to pay on December 30, 1942, a dividend to its holders of common stock

of record on December 5, 1942. Such dividend will be payable in the capital stock of The Detroit Edison Company, owned by declarant at the rate of one share of capital stock of The Detroit Edison Company on each fifty shares of common stock of the declarant outstanding. No certificates will be issued for fractions of shares of stock of The Detroit Edison Company, but, in lieu thereof, cash will be paid at the rate of 35 cents for each $\frac{1}{50}$th of a share of stock of The Detroit Edison Company. The declarant estimates that to pay the above mentioned dividend, it will have to distribute not more than 156,000 shares of the 297,894 shares of the capital stock of The Detroit Edison Company owned by it; that the amount of cash to be distributed in lieu of fractional shares of such capital stock will not exceed $325,000; and the payment of this dividend will result in a charge to earned surplus of approximately $4,100,000.

WAR PRODUCTION BOARD.

TENNESSEE VALLEY AUTHORITY

REVOCATION OF PREFERENCE RATING

Preference Rating Order P-19a, Serial No. 16-A. Builder: Tennessee Valley Authority, Knoxville, Tennessee.

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of metals, lumber and other materials used in construction, for defense, for private account and for export, and of construction machinery and other facilities used in construction; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

It is therefore ordered: 1. *Revocation of project ratings.* Preference Rating Order P-19a, Serial No. 16-A, heretofore issued and assigned under date of July 24, 1941, to deliveries to the above-named builder and to deliveries to his suppliers, is hereby revoked, insofar as it applies to the following described part of the Defense Project described and defined in said serially numbered order (which part is hereinafter referred to as "the project"):

In Item 2 of Serial 16-A, #4 Steam Turbine Generator Unit of Watts Bar Steam Plant rated 60,000 kw. together with boilers, auxiliaries, connections, equipment and structures not necessary to deliver the power of Unit No. 3 (which is to be completed) to the main transmission system.

In Item 6 of Serial 16-A, all additional hydrogenerating units after the first and second units as provided for and as amended and issued July 29, 1942, relating to Item 6, Ft. Laudoun development and any connections, auxiliaries, equipment or structures not necessary to deliver the power of units #1 and #2 to the main transmission system.

In Item 7 of Serial 16-A, all transmission facilities except those necessary to connect the hydrogenerating equipment provided for in items 1, 3, 4, and 5 of Serial 16-A to the main transmission system.

2. *Revocation of other ratings.* All preference rating certificates of any character heretofore issued to the builder or to any of his suppliers are hereby revoked, insofar as they apply to purchase orders or contracts for materials to be incorporated in or used upon the project.

3. *Effect of revocation.* This revocation shall apply to ratings heretofore applied and extended as well as to ratings which have not yet been applied or extended, except with respect to rated orders and contracts which have been filled completely. For the purpose of extension by suppliers, as well as for the purpose of original application by the builder of any such rating, all purchase orders and contracts so rated, except orders or contracts which have been completely filled, shall have the status of unrated orders or contracts.

4. *Prohibition of construction.* The builder shall neither perform nor permit the performance of any further construction or installation on the project, except that for a period of thirty days after the issuance of this revocation, and thereafter if expressly permitted by the Director General for Operations, construction may be continued solely for purposes of safety or health or to avoid undue damage to or deterioration of materials.

5. *Prohibition of deliveries of material.* Effective immediately the builder and all suppliers shall cease delivering or accepting delivery of any materials to be used in connection with the construction of or any installation on the project. This paragraph shall not, however, prohibit the delivery to their immediate destination of any materials which are now in transit, or the acceptance of any such delivery.

6. *Notice to suppliers.* The builder shall promptly advise its suppliers of the terms of this order, and each supplier shall in turn notify his suppliers.

7. *Application for exception.* The builder or any supplier who considers that compliance with this order would work an exceptional and unreasonable hardship upon him may apply to the Director General for Operations for an exception, setting forth the pertinent facts and the reasons why he considers he is entiled to the relief requested. The Director General for Operations may thereupon take such action as he deems appropriate, including the restoration or temporary restoration of any rating herein revoked.

8. *Effect on prior orders.* This order supersedes all previous orders and directives of the War Production Board relative to the project.

9. *Communications.* All communications concerning this revocation, including applications for exception under paragraph 7, shall be addressed to the War Production Board, Ref: P-19, Washington, D. C.

Issued this 21st day of November 1942.

EXECUTIVE ORDER 9275

Prescribing Additional Regulations Governing Persons and Vessels in Defensive Sea Areas

By virtue of the authority vested in me by section 44 of the United States Criminal Code, as amended (U.S.C., title 18, sec. 96), the following additional regulations are hereby prescribed to govern persons and vessels within the limits of defensive sea areas heretofore or hereafter established.

1. No person shall have in his possession within the limits of any defensive sea area, any camera or other device for taking pictures, or any film, plate or other device upon or out of which a photographic imprint, negative or positive, can be made, except in the performance of official duty or employment in connection with the national defense, or when authorized pursuant to the provisions of the act approved June 25, 1942 (Public Law 627—77th Congress), and the regulations promulgated thereunder (7 Federal Register 7307).

2. It shall be the duty of the master or officer in charge of any vessel to take custody of and safeguard all cameras or other devices for taking pictures, or film, plate or other device upon or out of which a photographic imprint, positive or negative, can be made, the possession of which is prohibited by this order, from any person, prior to the time any vessel enters any defensive sea area or upon the boarding by any person of any vessel while within a defensive sea area, and to retain custody thereof until such vessel is outside the defensive sea area or the person is about to disembark.

3. There shall be prominently displayed on board all vessels, except public war vesesls of the United States manned by personnel in the naval service, a printed notice containing the regulations herein prescribed.

4. Any person violating section 1 hereof shall be liable to prosecution as provided in section 44 of the Criminal Code, as amended.

In the Matter of Nathaniel Friedman, an Individual Trading and Doing Business Under the Names Consumer's Research Service and Consumer's Report Service

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 17th day of November, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence, and brief in support of the complaint (no brief having been filed by respondent and oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Nathaniel Friedman, individually and trading as Consumer's Research Service and as Consumer's Report Service, or trading under any other name, and his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's publications designated "Consumer's Research Reporter" and "Consumer's Automobile Reporter," or any other publication of substantially similar character, do forthwith cease and desist from:

1. Using the word "Consumer" or "Consumers" as a part of respondent's trade name or as a part of the name or title of respondent's publications, or otherwise representing, directly or by implication, that respondent has any connection with the corporation known as Consumers' Research, Inc., of Washington, New Jersey, or that respondent's publications are the publications of said corporation.

2. Representing, directly or by implication, (a) that respondent is an automotive expert or engineer, or that he is qualified to render authoritative opinions on the merits of automobiles;

(b) that respondent maintains any staff of experts or engineers in connection with his business;

(c) that the information given in respondent's publications is impartial;

(d) that said information is based in whole or in part upon results obtained from polls of automobile owners or users;

(e) that said publications are copyrighted; or

(f) that said publications are "dedicated to the service of the public," or that respondent's business is anything other than a commercial enterprise.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1682]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8, and for changes in shipping points; and

Petitioner having moved to amend its original petition; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

Now therefore it is ordered, That the motion for leave to amend the original petition be and it hereby is granted and the original petition is deemed amended in accordance with motion filed on October 27, 1942.

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate, or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

No relief is granted for the Frank Coker Mine (Mine Index No. 510) of Frank Coker as requested by petitioner for the reason set forth in an order severing that portion of Docket No. A-1682 which relates to this mine and designating such portion as Docket No. A-1682, Part II.

The correct name and index number for the mine of W. T. Harvey is the Draper Mining Co., Mine Index No. 5210.

Since the filing of the petition herein, R. D. Wagers has succeeded Floyd Wagers as operator of Mine Index No. 5690 and is accordingly listed as operator of this mine.

The Hastell Dobbs mine of Hastell Dobbs is the correct name for Mine Index No. 5725 rather than Hastle Dobbs as proposed by petitioner.

No relief is granted Mine Index No. 5709 as price classifications have been established for this mine in General Docket No. 15 under Mine Index No. 545.

The correct freight origin group number for Mine Index No. 5515 is 130; for Mine Index No. 5720 is 210; and for Mine Index No. 2645 is 140, rather than the freight origin groups proposed by petitioner for these mines.

The price classifications and minimum prices set forth in the schedules attached are based upon price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and already reflect the changes, if any, made in minimum prices by the Acting Director's order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached schedules do not differ, except in this regard, from the minimum prices proposed by petition.

Dated: November 11, 1942.

[SEAL] DAN H. WHEELER,
Director.

PART 340—MINIMUM PRICE SCHEDULE, DISTRICT NO. 20

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 20 for the establishment of price classifications and minimum prices for the coals of the No. 1 mine of the Southern Utah Fuel Co.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the No. 1 Mine (Mine Index No. 200) of the Southern Utah Fuel Co., for truck shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 340.4 (*Code member price index*) is amended by adding thereto Supplement T-I, and § 340.21 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the attached schedule marked Supplement T-I and T-II are based upon the price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and reflect the changes, if any, made in minimum prices by the Acting Director's order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21.

Dated: November 10, 1942.

[SEAL] DAN H. WHEELER,
Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE PRICES FOR DISTRICT NO. 20

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 340, Minimum Price Schedule for District 20, and supplements thereto.

Subchapter B—Bureau of the Public Debt

[1942, 1st Am. to Dept. Circ. 530]

PART 315—REGULATIONS GOVERNING UNITED STATES SAVINGS BONDS

NOVEMBER 23, 1942.

Sections 315.10, 315.29, and 315.35 of Department Circular No. 530, Fifth Revision, dated June 1, 1942 (7 F.R. 5158), are hereby revised to read as follows:[1]

§ 315.10 *Calculation of amount.* In computing the amount of savings bonds of any one series issued during any one calendar year held by any one person at any one time for the purpose of determining whether the amount is in excess of the authorized limit as set forth in the next preceding section, the following rules shall govern:

(a) The holdings of each person, as defined in the next preceding section, individually and in a fiduciary capacity, shall be computed separately.

(b) In the case of bonds of Series A, B, C, D and E, the computation shall be based upon maturity values. In the case of bonds of Series F and G, the computation shall be based upon issue prices.

(c) There must be taken into account (1) all bonds originally issued to and registered in the name of that person alone; (2) all bonds originally issued to and registered in the name of that person as a coowner or reissued to add his name as coowner under the provisions of § 315.29 (a), or to designate him as coowner instead of as a beneficiary under the provisions of § 315.35 hereof: *Provided, however*, That with respect to bonds of Series E held in coownership form, the amount thereof may be applied to the holdings of either of the coowners, but will not be applied to both, or the amount may be apportioned between them; and (3) all bonds acquired by him before March 1, 1941, upon the death of another or the happening of any other event.

(d) There need not be taken into account (1) bonds of which that person is merely the designated beneficiary; (2) those in which his interest is only that of a beneficiary under a trust; or (3) those to which he is entitled as an heir or legatee of the deceased registered owner, or by virtue of the termination of a trust or the happening of any other event unless he became entitled to any such bonds in his own right before March 1, 1941.

(e) Nothing herein contained shall be construed to invalidate any holdings within, or, except as provided in paragraph (c) above, to validate any holdings in excess of, the authorized limits, as computed under the regulations in force at the time such holdings were acquired.

§ 315.29 *Reissue for certain purposes.* A savings bond of any series registered in the name of one person in his own right, or to which one person is shown to be entitled in his own right under these regulations, may be reissued upon appropriate request for the following purposes:

(a) *Addition of coowner.* Reissue in the name of the owner with that of another natural person as coowner, provided that bonds reissued in accordance with this subsection will be considered for the purposes of computation of holdings under Subpart D of these regulations as originally issued in both names and no reissue will be effective which results in any one person holding bonds in excess of the established limitation for the series to which the bonds belong. Requests for reissue under this subsection should be made on Form PD 1762.

(b) *Addition of a beneficiary.* Reissue in the name of the owner with the name of another natural person as designated beneficiary. Applications for reissue under the provisions of this subsection should be made on Form PD 1077.

(c) *Reissue in living trust.* Reissue in the name of a trustee of a living trust created by the registered owner, after the original issue date of the bond, for his benefit in whole or in part, during his lifetime whether or not containing an absolute power of revocation in the grantor; but such reissue will be allowed only in the case of bonds of those series which may be originally issued in the name of a trustee.

§ 315.35 *Reissue during the lifetime of registered owner.* A bond registered in the name of one person payable on death to another may be reissued, on the duly certified request of the registered owner, to name a beneficiary designated on the bond as coowner subject to the same restrictions and conditions contained in § 315.29 (a). A bond may also be reissued upon the duly certified request of the registered owner, together with the duly certified consent of the designated beneficiary, to eliminate such beneficiary or to substitute another person as beneficiary, or to name another person as coowner. Requests should preferably be made upon the forms provided for such purpose.

HENRY W. MORGENTHAU,
Secretary of the Treasury.

Chapter VI—Selective Service System

PART 623—CLASSIFICATION PROCEDURE

[Amendment 102, 2d Ed.]

FAILURE TO HAVE NOTICE OF CLASSIFICATION IN PERSONAL POSSESSION

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. No. 8545, 5 F.R. 3779, Selective Service Regulations, second edition, are hereby amended in the following respect:

1. Amend the regulations by adding a new section to be known as § 623.61-1 to read as follows:

§ 623.61-1 *Effect of failure to have Notice of Classification (Form 57) in personal possession.* Every person required to present himself for and submit to registration and who is within any age group of persons who have been liable for training and service for six months under selective service law must have in his personal possession at all times, in addition to his Registration Certificate (Form 2), a valid Notice of Classification (Form 57) issued to him showing his current classification. Upon request, such person must exhibit such Notice of Classification (Form 57) to any law-enforcement officer, any representative of the Secretary of State, any representative of the Secretary of Treasury, any representative of the Attorney General, any official of National Headquarters for Selective Service, any official of a State Headquarters for Selective Service, any member of a local board or board of appeal, any government appeal agent, and any other official designated by the Director of Selective Service, and, upon entering active service in the armed forces, such person must surrender such Notice of Classification (Form 57) to his commanding officer who will dispose of it in accordance with the current orders of his service.

2. Amend the regulations by adding a new section to be known as § 623.61-2 to read as follows:

§ 623.61-2 *Wrongful possession of, or making, altering, forging, or counterfeiting Notice of Classification prohibited.* It shall be a violation of these regulations for any person to have in his possession a Notice of Classification (Form 57) issued to some other person, or to permit a Notice of Classification (Form 57) issued to him to be in the possession of any other person, except as provided in the instructions upon such forms; or to falsely make, alter, forge, or counterfeit, or cause or procure to be falsely made, altered, forged, or counterfeited, or to willingly aid or assist another to falsely make, alter, forge, or counterfeit, any Notice of Classification (Form 57); or to utter or publish as true, or cause to be uttered or published as true, or have in his possession with the intent to utter or publish as true, any such false, altered, forged, or counterfeited Notice of Classification (Form 57); or to exhibit or present to any person any such false, altered, forged, or counterfeited Notice of Classification (Form 57) knowing the same to be false, forged, altered, or counterfeited.

3. Amend the regulations by adding a new section to be known as § 623.61-3 to read as follows:

§ 623.61-3 *Issuing a duplicate of a lost, mislaid, stolen, or destroyed Notice of Classification.* A duplicate Notice of Classification (Form 57) may be issued to a registrant only by the local board which mailed the original Notice of Classification (Form 57) to the registrant upon written application made on Duplicate Classification Request (Form 61) and the presentation of proof satisfactory to the local board that the Notice of Classification (Form 57) of the registrant has been lost, mislaid, stolen, or destroyed and that the registrant has made a diligent search for the Notice of Classification (Form 57), and has been unable to find it. If the local board issues a duplicate Notice of Classification (Form 57), it shall mark it "Duplicate" and note the issuance of such Notice of Classification (Form 57) upon the application, which shall be filed in the registrant's Cover Sheet (Form 53).

4. The foregoing amendments to the Selective Service Regulations shall be effective January 1, 1943.

LEWIS B. HERSHEY,
Director.

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Amendment 1 to Suspension Order S-121]

COFFEE CORPORATION OF AMERICA

Section 1010.121 Suspension Order S-121, issued October 22, 1942, is hereby amended to read as follows:

(a) During each of the calendar months of December 1942, January 1943, and February 1943, deliveries of coffee by Coffee Corporation of America, its successors and assigns, shall not exceed 151,833 pounds, except as specifically authorized by the Director General for Operations.

(b) The restrictions contained in paragraph (a) hereof shall not apply to deliveries by Coffee Corporation of America, its successors and assigns, to any hospital, asylum, orphanage, prison, or other similar institution which is operated by any United States federal, state, or local governmental agency, and which received coffee during 1941 under contracts awarded upon the basis of competitive bids.

(c) Nothing contained in this order shall be deemed to relieve Coffee Corporation of America from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This amendment shall become effective December 1, 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-151]

CHARLES MANOOG, INC.

Charles Manoog, Inc., is a Massachusetts corporation, with its principal place of business at 53 Chandler Street, Worcester, Massachusetts. It is a wholesale dealer in plumbing supplies, and is a warehouse as defined in General Preference Order M–9–a.

During the period from February 24, 1942 to July 16, 1942, the company made deliveries of approximately 10,000 feet of copper tubing and of other products to fill sixty-four wholesale orders which carried no preference ratings, notwithstanding the fact that the company had actual knowledge of the prohibition placed upon such deliveries by General Preference Order M–9–a. These deliveries constituted a wilful violation of General Preference Order M–9–a.

During the course of the investigation of this corporation, it was discovered that the company had arranged to liquidate its entire stock of merchandise to a New York interest. Delivery under this arrangement was prevented by a temporary Suspension Order issued by the War Production Board.

These violations of General Preference Order M–9–a have impeded and hampered the war effort of the United States by diverting scarce materials for uses not authorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.151 *Suspension Order No. S–151.* (a) Charles Manoog, Inc., its successors and assigns, shall not accept delivery of copper, copper base alloys, copper products, or copper base alloy products.

(b) Charles Manoog, Inc., its successors and assigns, shall not sell, transfer, or otherwise dispose of any material specified in the Metals List attached to Priorities Regulation No. 11, except in accordance with all of the applicable orders and regulations of the War Production Board and except upon the written authorization of the Compliance Chief of the Boston Regional Office, War Production Board.

(c) On or before December 5, 1942, Charles Manoog, Inc., shall file with the Boston Regional Office, War Production Board, a full and complete list of its entire inventory, specifying in reasonable detail the various items constituting such inventory and the quantities and amounts thereof.

(d) Nothing contained in this order shall be deemed to relieve Charles Manoog, Inc., of any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on November 26, 1942, and shall expire on December 1, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 23rd day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-155]

FARGO FOUNDRY COMPANY

Fargo Foundry Company of Fargo, North Dakota, is a general machine works dealing in structural steel. Between March 23, 1942, and May 19, 1942, Fargo Foundry Company sold and delivered steel storage tanks with capacities in excess of 65 gallons, without priority ratings, knowing that said tanks were intended for uses not permitted by the terms of Conservation Order M–68–c. These acts constituted wilful violations of Conservation Order M–68–c.

These acts have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered:*

§ 1010.155 *Suspension Order S–155.* (a) Deliveries of material to Fargo Foundry Co., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to the Fargo Foundry Company, its successors and assigns, of any material the supply or distribution of which is covered by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve the Fargo Foundry Company, its successors and assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 25, 1942, and shall terminate on February 25, 1943, after which later date it shall have no further force and effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 23d day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-156]

HOMES OIL COMPANY

The Homes Oil Company of Washington, D. C., a single proprietorship owned and operated by Jacob and Minerva Homes, is engaged in the marketing of motor fuel. During the months of April, May and June 1942 the Homes Oil Company made deliveries of motor fuel to seven service stations owned or leased and operated by it in excess of the amounts permitted to be so delivered in accordance with the provisions of Limitation Order L–70. The total over-deliveries of motor fuel to these seven stations during the month of April 1942 was 25,990 gallons, during the month of May 1942 was 68,862 gallons and during the month of June 1942 was 124,182 gallons. The total over-deliveries of motor fuel during these three months was 219,034 gallons. Computed by percentages, the Homes Oil Company delivered to the seven service stations during the month of April 1942 thirty-eight per cent in excess of the L–70 quota, and during the month of June 1942 two hundred and twenty per cent in excess of the quota. The average of the deliveries during these three months was one hundred and nineteen per cent in excess of the L–70 quota.

While the over-deliveries of motor fuel were being made during those three months and during the month of July 1942, the Homes Oil Company was fully aware of the provisions of Limitation Order L–70 governing the amount of motor fuel which could be delivered to each of its service stations, but, nevertheless, it made no attempt to establish quotas or to correct the excess of deliveries. Furthermore, the Homes Oil Company was aware of the fact that its deliveries of motor fuel to the seven stations were increasing during those months, rather than decreasing as the deliveries should have under the terms of Limitation Order L–70. These over-deliveries of motor fuel, therefore, were made in wilful violation of the provisions of Limitation Order L–70.

These violations of Limitation Order L–70 have impeded and hampered the war effort of the United States by diverting motor fuel to uses unauthorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered*, That:

§ 1010.156 *Suspension Order S–156.* (a) Jacob and Minerva Homes, doing business as the Homes Oil Company, or under any other name, jointly or separately, their lessees, successors and assigns, shall not accept delivery at the service stations listed below or at any other service station now or hereafter owned, operated, or leased by them of any motor fuel as the same is defined in Limitation Order L–70:

Station #1, 488 Maryland Ave. S.W., Washington, D. C.

Station #2, 1100 Maryland Ave. S.W., Washington, D. C.

Station #3, 1700 Benning Rd. N.E., Washington, D. C.

Station #4, 940 G Street S.W., Washington, D. C.

Station # 5, 1400 Florida Ave. N.E., Washington, D. C.

Station #6, 1161 20th Street N.W., Washington, D. C.

Station #9, 6223 Blair Rd. N.W., Washington, D. C.

(b) No person shall deliver any motor fuel as the same is defined in Limitation Order L–70 to the service stations listed in paragraph (a), or to any other service station now or hereafter owned, leased or operated by Jacob and Minerva Homes, doing business as the Homes Oil Company or under any other name, jointly or separately, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve Jacob and Minerva Homes, doing business as the Homes Oil Company, or under any other name, jointly or separately, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 25, 1942 and shall expire on March 25, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 23d day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-157]

ESTATES, INC., AND J. F. WADKINS CORPORATION

Estates, Inc., and J. F. Wadkins Corporation are California corporations engaged in the business of building and selling houses in the vicinity of the City of Los Angeles, State of California.

After April 9, 1942, Estates, Inc., and J. F. Wadkins Corporation began construction of thirty-six houses located in Tract No. 12582 in Gardena, California, and planned to erect an additional 44 houses. The estimated cost of construction of each of these houses was far in excess of $500.00. Such construction was begun in disregard of the provisions of Conservation Order L–41, and constituted wilful violations of that order.

These violations of Conservation Order L–41 have hampered and impeded the war effort of the United States by diverting scarce materials to uses prohibited by the War Production Board. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.157 *Suspension Order S–157.* (a) The application heretofore filed by Estates, Inc., and J. F. Wadkins Corporation for authorization to begin construction of 80 residential buildings in Tract No. 12582 in Gardena, California, shall not be granted by the War Production Board in the case of any of said buildings other than those located on the following lots of said Tract: Lots Nos. 74, 173 to 197, inclusive, and 212 to 221, inclusive.

(b) For a period of six months from the effective date of this order, no application for authorization to begin construction of any house, building, structure or project filed by Estates, Inc., or J. F. Wadkins Corporation shall be granted by the War Production Board, except in connection with the residential buildings on the lots specified in paragraph (a) hereof.

(c) This order shall take effect on November 28, 1942, and shall continue in effect until revoked.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024; 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 23d day of November 1942.

Director General for Operations.

PART 1001—TIN

[Conservation Order M-43-a as Amended Nov. 24, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1001.2 *Conservation Order M–43–a*—(a) *Prohibitions on use of tin in items appearing on List A.* No tin shall be used in the manufacture of any item appearing on List A.

(b) *Limitations on other uses of tin*—(1) *General restrictions.* From April 1 to June 30, 1942, inclusive, no person shall use in the manufacture of any article not on List A more than 40% of the amount of tin used by him in the manufacture of such article during the corresponding calendar quarter of 1940, and beginning July 1, 1942, no person shall in any calendar quarter use in the manufacture of any article not on List A more than 30% of the amount of tin used by him in the manufacture of such article during the corresponding calendar quarter of 1940. Each person shall fill orders for repair and replacement parts for articles not on List A in preference to orders for complete articles whenever the provisions of this paragraph (b) (1) prevent him from doing both.

(2) *Special restrictions.* In addition to the limitation contained in paragraph (b) (1), hereafter no person shall, unless specifically authorized by the Director General for Operations:

(i) Use tin in the manufacture of any article where or beyond the extent to which the use of any substitute material is practicable, or use virgin tin in the manufacture of any article where or beyond the extent to which the use of secondary tin metal is practicable;

(ii) Manufacture or use any tin alloy (other than solder) having a tin content of more than 12% by weight;

(iii) Manufacture or use any solder having a tin content of more than 30% of weight provided that:

(*a*) Solder having a tin content of not more than 40% of weight may be manufactured or used for the repair of gas meters;

(*b*) Until September 1, 1942, wiping solder having a tin content of not more than 38% by weight may be manufactured or used;

(*c*) From September 1, 1942, until January 1, 1943, wiping solder having a tin content of not more than 38% by weight may be manufactured or used for the installation or repair of lead water service pipes operated by a public utility.

(iv) Manufacture any material having a tin content of more than 7½% by weight for use in collapsible tubes;

(v) Use any virgin tin in the manufacture or treating of type metal;

(vi) Manufacture any terne metal except for use as permitted by the provisions of Supplementary Order M–21–e.

(vii) Manufacture or use any tin oxide notwithstanding any provision in General Preference Order M–43, as amended.

(viii) On and after December 1, 1942, manufacture or use for coating foundry chaplets any tin alloy having a tin content of more than 5% by weight.

(3) *Restrictions on manufacturing jewelers.* No manufacturing jeweler shall for the purpose of manufacturing jewelry, emblems, insignia, personal ornaments, ornamental fittings, jewelry findings or jewelry chains, or any component parts thereof, fabricate, assemble, melt, cast, extrude, roll, turn, spin, coat or process in any other way, or in any way change the form of or add or solder any metal to, any tin metal or tin bearing material to which no other metal had been added or soldered by February 14, 1942.

(c) *Exceptions*—(1) *Exceptions to paragraph* (b) (1) *only.* Where and to the extent the use of any substitute material is impracticable, the provisions, limitations, and restrictions contained in paragraph (b) (1) shall not apply:

(i) To the manufacture of any product which is being produced with the assistance of a preference rating order or certificate issued or extended to the manufacturer, which assigns a rating of A–1–k or higher; or

(ii) To bearing metal which is being produced with the assistance of a preference rating order or certificate issued or extended to the manufacturer, which assigns a rating of A-3 or higher;

(iii) To the production of tin plate and terne plate as permitted under the provisions of Supplementary Order M-21-e.

(iv) To the use of solder (as limited in tin content by paragraph (b) (2) (iii)) for cans and containers within the provisions and limitations of Conservation Orders M-81 and M-86.

(2) *Exceptions to paragraphs* (b) (1) *and* (b) (2). The prohibitions, limitations, and restrictions contained in paragraphs (b) (1) and (b) (2) shall not apply:

(i) To the manufacture of "implements of war", as hereinafter defined, which are being produced for purchase by or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the Coast Guard, where the use of tin to the extent employed is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the Coast Guard applicable to the contract, sub-contract or purchase order.

"Implements of war" means:

(*a*) Combat end products, complete for tactical operations, including but not limited to, aircraft, ammunition, armament and weapons, ships, tanks, vehicles;

(*b*) Individual and organizational equipment prescribed for field or combat use by the Army or Navy of the United States, the Coast Guard, or the United States Maritime Commission;

(*c*) Parts, assemblies and materials to be physically incorporated in any of the foregoing items.

(ii) To the manufacture or use of tinned wire for the packaging of food for human consumption, where such wire will be in direct contact with the food packaged, but only to the extent that any substitute for tin is impracticable;

(iii) To the manufacture of health supplies as defined in Preference Rating Order P-29, as the same may be amended, to the extent a preference rating of A-10 or higher is assigned under said order to deliveries of tin (excluding tin collapsible tubes except as permitted by Conservation Order M-115) for the manufacture of any such supplies;

(iv) To the manufacture or use of collapsible tubes as permitted by the provisions of Conservation Order M-115.

(v) To the use of secondary tin metal in plates and type metal for the printing, publishing and related service industries: *Provided*, That beginning July 1, 1942, the amount of secondary metal so used by any person during any calendar quarter shall be limited to 75% of the amount used by him for such purposes during the corresponding calendar quarter of 1940;

(vi) To the use of solder or solder foil in the preparation and manufacture of printing plates: *Provided*, That the tin content of such solder and solder foil, respectively, shall be limited to 30% by weight: *And provided further*, That beginning July 1, 1942, no person shall use more solder or solder foil for such purposes during any calendar quarter than 75% of the quantities, respectively, so used by him during the corresponding calendar quarter of 1940;

(vii) To the use of soft babbitt foil for the preparation of industrial metallic packings: *Provided*, That the tin content of such foil shall not exceed 1.5% by weight: *And provided further*, That no person shall use more soft babbitt foil for such purposes during any calendar quarter than the quantity so used by him during the corresponding calendar quarter of 1941;

(viii) To the manufacture of measuring, recording and control instruments, systems or equipment for use in industrial processes, such as pyrometers, flow meters, pressure gauges, gas analyzers and their associated control valves, but only to the extent that the use of any substitute material is impracticable;

(ix) To the reuse of remelt bearing metal originating in the user's own plant: *Provided*, That no virgin tin or secondary tin shall be added thereto;

(x) To the manufacture of detonators and blasting caps (including electric blasting caps) and necessary parts and accessories therefor, to be used in mining, quarrying and oil drilling operations;

(xi) To the manufacture or use of babbitt for repair, maintenance or replacement purposes in existing diesel engines: *Provided*, That the design of any such engine makes the substitution of lead base babbitt impossible;

(xii) To the retinning of any of the dairy implements specified on Exhibit No. 1 annexed to this order, to the extent indicated thereon: *Provided, however*, That the quantity of tin used for such purposes by any person shall not exceed during any calendar quarter the quantity so used by him in the corresponding calendar quarter of 1940;

(xiii) To the manufacture or use of babbitt for the repair or maintenance of vessels with the assistance of a preference rating duly assigned or extended on Form PD-300.

(d) *Prohibitions against sales or deliveries.* No person shall sell or deliver any tin or tin bearing material or products thereof in the form of raw materials, semi-processed materials, finished parts or sub-assemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order.

(e) *Limitation on inventories.* No manufacturer shall receive delivery of tin, (including scrap), or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tin products by this order.

(f) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Appeal.* Any person whose business is affected by this order, and who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tin conserved, or that compliance with this order would disrupt or impair a program of defense work, may appeal to the War Production Board on Form PD-229, or such other form as may be from time to time prescribed by the War Production Board, Reference M-43-a, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles manufactured after June 5, 1942, irrespective of whether such items or articles are manufactured pursuant to a contract made prior or subsequent to June 5, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order may have the effect of limiting or curtailing to a greater extent than herein provided, the use of tin in the production of any item or article, the limitations of such order shall be observed.

(4) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Definitions.* For the purposes of this order:

(i) "Tin" means tin metal or the tin content of any tin bearing material whether or not such material is first converted into tin metal, either imported from foreign sources, or produced domestically from foreign or domestic ores, scrap or residues.

(ii) "Tin alloy" means any alloy containing 1.5% or more of tin metal by weight.

(iii) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, produce, coat, or process in any other way, but does not include installation of a finished product for the ultimate consumer on the consumer's premises, or the processing of tin ore or scrap into pig or ingot metal.

(iv) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(v) An "item on List A" means as to a particular manufacturer, all products made by him and described by the same detailed classification contained on List A; and, where the manufacturer sells parts, it means all component parts of products described by the same detailed classification.

(vi) An "article" means as to a particular manufacturer, all finished products made by him which are not on List A, used by the ultimate consumer for the same purpose; and where the manufacturer sells parts, it means all component parts of products used by the ultimate consumer for the same purpose.

(vii) "Manufacturing jeweler" means any manufacturer of jewelry, emblems, insignia, personal ornaments, ornamental fittings, jewelry findings or jewelry chains or any component parts thereof.

(viii) "Use" means both (*a*) the act of putting tin into process in the manufacture of any item or article and (*b*) the act of completing the manufacture of any such item or article. (Where a person is limited to a percentage of the material used in a base period, this limitation applies respectively to (*c*) the amount of material put into process during the base period and (*d*) the total amount of material contained in a completed item or article, multiplied by the number of such items or articles, completed during the base period. Each restriction must be applied separately.)

(ix) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

Director General for Operations.

LIST A FOR ORDER M-43-A

The use of tin in items listed below and in all component parts thereof is prohibited except to the extent permitted by the foregoing conservation order.

Advertising specialties.
Art objects.
Automobile body solder, or any material used as a filler or smoother for automobile or truck bodies or fenders.
Band and other musical instruments (except for maintenance and repair of pipe organs for religious and educational institutions).
Beverage dispensing units & parts thereof including pipe (except for maintenance and repair of existing units, and only where and to the extent that used tin pipe in an amount equal in tin content to the tin required, is returned by the customer to the supplier).
Britannia metal.
Broom wire.
Buckles.
Buttons.
Chimes and bells.
Emblems and insignia.
Fasteners: eyelets, spiral binders, office & industrial staples, book match clips, paper clips, zippers, dress hooks.
Foil—except for: (1) Electrotyping and moulding lead in printing trade, (2) X-ray supplies and (3) dental use, provided the tin content shall be limited to 30% by weight.
Galvanizing.
Household furnishings and equipment.
Jewelry.
Kitchen equipment (including cutlery and tableware), except articles for food preparation.
Novelties, souvenirs and trophies.
Ornaments and ornamental fittings.
Pewter and pewter hollow ware.
Plating or coating for decorative purposes.
Powder (decorative).
Refrigerator trays and shelves.
Seals and labels (except meat seals).
Slot, game and vending machines.
Coated paper.
Oxide in enamelware as an opacifier.
Toys and games.

EXHIBIT NO. 1—TO CONSERVATION ORDER NO. M-43-a

Pursuant to paragraph (c) (3) (xii) of the foregoing Conservation Order, tin may be used to the extent indicated below for the retinning of the following implements:

*5, 8 and 10 gallon shipping cans.
Milk can stirring rods.
Weigh cans, inside only.
Receiving tanks, inside only.
Coil vats, inside only.
Batch pasteurizers, inside only.
Surface coolers, covers and troughs (electroplating if possible and not over $1/1000$ inch coating).
Sanitary fittings and sanitary tubing.
Milk filters.
Separator discs.
*Separator bowls.
Cheese vats.
Cheese vat stirrers.
*2½ and 5 gallon ice cream cans.
Filler bowl covers.
Starter cans, inside only.
Small milk storage vats, inside only.
Milk pumps of centrifugal type.

NOTE: With the exception of those items marked with an asterisk (*), only those parts of equipment in contact with the milk or milk vapors may be retinned.

INTERPRETATION 1

The phrase "Individual and organizational equipment" appearing in the definition of implements of war, as contained in paragraph (c) (2) (i) of Conservation Order M-43-a as amended June 5, 1942, is construed to include radio and radar equipment prescribed for field or combat use by the Army or Navy of the United States, the Coast Guard, or the United States Maritime Commission. Consequently, when such radio and radar equipment (including parts, assemblies and materials to be physically incorporated therein) is being produced for purchase by or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the Coast Guard, it is, by the terms of paragraph (c) (2) (i) of Conservation Order M-43-a as amended June 5, 1942, exempt from the restrictions on the use of tin contained in paragraphs (b) (1) and (b) (2) of said order, where the use of tin to the extent employed is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission or the Coast Guard applicable to the contract, subcontract or purchase order. (Issued November 7, 1942.)

PART 1147—COLLAPSIBLE TUBES

[Conservation Order M-115, as Amended Nov. 24, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1147.1 *Conservation Order M-115*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Tube" means any collapsible container in the shape of a tube, including but not limited to any such container made in whole or in part of tin, lead, or any combination thereof and includes closures, crowns and caps for such tubes.

(3) "Class I tube" means a tube used or intended to be used to pack any product listed on Table I annexed hereto within such limitations, including but not limited to tube size and end use, as may be specified with respect to any such product in said table.

(4) "Class II tube" means a tube used or intended to be used to pack any product listed on Table II, annexed hereto.

(5) "Class III tube" means a tube used or intended to be used to pack any product listed on Table III annexed hereto.

(6) "Class IV tube" means a tube used or intended to be used to pack any product listed on Table IV, annexed hereto.

(7) "Non-essential tube" means any tube other than a tube described in subparagraphs 3, 4, 5 and 6 above.

(8) "Tube user" means any person, whether or not he is also a tube manufacturer, engaged in the business of packing or filling tubes with any product of any kind for sale to others.

(9) "Retailer" means a person other than a distributor who sells or distributes tubes to the ultimate purchaser.

(10) "Distributor" means a person who sells or distributes tubes to retailers, including, but not limited to, wholesalers, jobbers, tube users, and tube manufacturers when they are engaged in such sale or distribution.

(11) "Ultimate purchaser" means a person who acquires filled tubes for the satisfaction of personal needs (with or without paying any consideration therefor), as distinguished from one acquiring tubes for industrial or other business purposes or for further distribution.

(c) *Restrictions upon the manufacture, sale and delivery of blanks and* *tubes and upon the use of tubes for packing*—(1) *Non-essential tubes.* No person shall manufacture or sell, for non-essential tubes, blanks containing any tin (but not including tin present as an impurity amounting to 0.5% or less); no tube manufacturer shall manufacture or sell non-essential tubes containing any tin (but not including tin present as an impurity amounting to 0.5% or less); and no tube user shall use any tubes containing any tin (but not including tin present as an impurity amounting to 0.5% or less) to pack any product not listed on Tables I, II, III, or IV.

(2) *Class I tubes.* Notwithstanding the provisions of Conservation Order M–43–a, as amended, and until further order by the Director General for Operations there shall be no restriction upon the percentage of tin which may be used in the manufacture of Class I tubes, nor on the number of such tubes manufactured or used for packing products listed on Table I.

(3) *Class II tubes.* No person shall manufacture or sell for Class II tubes blanks containing more than 7½% of tin by weight; no tube manufacturer shall manufacture or sell Class II tubes containing more than 7½% of tin by weight; and no tube user shall use any tube containing more than 7½% of tin by weight to pack any product listed on Table II.

(4) *Class III tubes.* No person shall manufacture or sell for Class III tubes blanks containing more than 5% of tin by weight; and no tube manufacturer shall manufacture or sell Class III tubes containing more than 5% of tin by weight; and no tube user shall use any tube containing more than 5% of tin by weight to pack any product listed on Table III.

(5) *Class IV tubes.* No person shall manufacture or sell for Class IV tubes blanks containing more than 1½% of tin by weight; no tube manufacturer shall manufacture or sell Class IV tubes containing more than 1½% of tin by weight; and no tube user shall use any tube containing more than 1½% of tin by weight to pack any product listed on Table IV.

(6) *Quota for Table III and Table IV products.* No tube user shall pack in tubes, during each of the three-month periods beginning April 1, 1942, July 1, 1942, and October 1, 1942, respectively, more than 100% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the corresponding three-month period of 1940, or at his option no more than 25% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the whole of 1940: *Provided*, That no tube user shall pack in tubes during the period between April 1, 1942, and December 31, 1942, inclusive, more than 100% of the aggregate of the products listed on Table III and Table IV which he packed in tubes during the last nine months of 1940. All percentages above mentioned shall be based upon volumetric weight. Said percentages shall be in addition to the products listed on Table III and Table IV which are packed in tubes and sold and delivered to the Army or Navy of the United States or the United States Coast Guard (including but not limited to post exchanges, ships' stores, ships' service stores, and marine exchanges), and in addition to products listed on Table III and Table IV which are packed in tubes having no greater tin content than that prescribed in paragraph (c) (1) of this order for non-essential tubes.

(d) *Further conservation of tin.* (1) All manufacturers and users of all the kinds of tubes covered by this order shall cooperate in effectuating as rapidly and as completely as possible a program of reducing the thickness of the tin coating on such tubes to the minimum thickness which will be sufficient for satisfactory packing of the particular product packed

(2) All manufacturers of all kinds of tubes permitted to be manufactured or filled by this order and all tube users packing products in such tubes are ordered to concentrate to the greatest extent practicable upon the larger-size tubes and to manufacture and to use for tube filling respectively as high a proportion of larger-size tubes (as compared with smaller-size tubes) as may be feasible and practicable. All such manufacturers and tube users are further ordered to substitute, for all tubes made in whole in part of tin, containers made of other materials to the extent that such substitution may be feasible and practicable.

(3) No retailer shall sell or deliver any filled Class III or Class IV metal tube to any ultimate purchaser (except as bona fide samples, manufactured prior to the 15th day of June, 1942, which are distributed indiscriminately and without any conditions) unless such purchaser delivers to such retailer concurrently with his purchase one used metal tube of any kind for each metal tube delivered to such purchaser. All such used tubes, together with any other used tubes held by retailers, shall be held by such retailers and shall not be disposed of by them except as follows:

(i) To the Tin Salvage Institute, 411 Wilson Avenue, Newark, New Jersey, as agent for Metals Reserve Company;

(ii) To any wholesaler of products packed in tubes, who is a duly authorized representative of the Tin Salvage Institute as agent for the Metals Reserve Company; or

(iii) To any other person who is such a representative.

Such deliveries may be made by such retailers at any time and in any manner consented to by the person to whom delivery is to be made, and shall be made, upon demand of such person and at the expense of such person, in such manner and at such time as such person may request. In no case shall any consideration be paid or received for any used tubes so delivered and no person (including, but not limited to, wholesalers of products packed in tubes and dealers in scrap metal and junk) shall, except as otherwise expressly permitted by this paragraph (d) (3), deliver any used tube of any kind to any person except those designated above. Damaged or unused tubes shall, at the option of the holder, be returned for credit to the party from whom they were purchased or delivered to the Tin Salvage Institute as agent for Metals Reserve Company.

(4) Nothing in this order shall prevent the manufacture of nonessential or other tubes from blanks already manufactured on the 1st day of April, 1942, or the sale and delivery of tubes so manufactured or the use of same for packing any products, whether or not listed on Tables I, II, III and IV of this order: *Provided, however,* That the volumetric weight of any products listed in Tables III and IV which are packed in accordance with the provisions of this subparagraph shall be subtracted from the quotas allowed to the tube user pursuant to paragraph (c) (6) of this order.

(5) Nothing in this order shall prevent the sale, delivery, purchase, acceptance of delivery and use of tubes containing no more than 7½% of tin by weight for packing products listed in Tables III and IV of this order, provided said tubes were made from blanks which had already been manufactured on the 5th day of October 1942; and provided further that the volumetric weight of any products listed in Tables III and IV which are packed in accordance with the provisions of this subparagraph shall be subtracted from the quotas allowed to the tube user pursuant to paragraph (c) (6) of this order.

(6) Notwithstanding any other provisions of this order, gift kits or combination set boxes holding multiple units, including filled Class III or Class IV tubes, the value of which comprises not over 25 percent of the total value of the package, may be disposed of without complying with the used tube exchange provision set forth in paragraph (d) (3) hereof; provided that any such boxes are delivered or sent direct by the seller to a member of the Army or Navy of the United States or of the United States Coast Guard.

(7) Compliance with the used tube exchange provision set forth in paragraph (d) (3) hereof shall not be required in connection with the sale or distribution of Class III or Class IV tubes when made by the following agencies or instrumentalities of the United States Government; namely, army exchanges, ships stores, ships service stores, and marine exchanges; if made under any of the following circumstances:

(i) Distributions or sales, made aboard ship, in the Territory of Alaska, or outside the continental limits of the United States.

(ii) Distributions or sales made at ports of embarkation, induction centers, receiving stations, receiving ships, to newly inducted selectees or enlistees or other persons designated by the commanding officer.

(iii) Sales or distributions made in hospitals under the jurisdiction of the armed forces of the United States to casualties of war.

Provided, however, That no tubes containing more than 7½% tin shall be sold or delivered pursuant to this subparagraph: *And further provided*, That the exemption provided by this subparagraph shall be subject to such conditions

as shall be prescribed by the appropriate authorities of that branch of the Government under whose jurisdiction the above named agencies or instrumentalities respectively operate.

(e) *Certificates and reports relating to all the kinds of tubes covered by this order*—(1) *Certificates of tube users.* Each tube user who purchases any tubes shall furnish to the tube manufacturer from whom he buys, a certificate, in substantially the form attached hereto as Exhibit A, that such tube user is familiar with the terms of this order (in its present form or as it may be amended from time to time) and that, during the life of this order, he will not use any tubes purchased from such tube manufacturer in violation of its terms. Only one such certificate covering all present and future purchases from a given tube manufacturer need be furnished by a tube user to that tube manufacturer (who shall retain such certificate), but no tube manufacturer shall be entitled to rely on any such certificate if he knows, or has reason to believe it to be false.

(2) *Certificates of retailers.* Each retailer who purchases any filled Class III or Class IV tubes shall furnish to the manufacturer or distributor from whom he buys a certificate, in substantially the form attached hereto as Exhibit B, that such retailer is familiar with the terms of this order (in its present form or as it may be amended from time to time) and that, during the life of this order, he will not use any tubes purchased from such manufacturer or distributor in violation of its terms. Only one such certificate covering all present and future purchases from a given manufacturer or distributor need be furnished by a re-retailer, but no manufacturer or distributor shall be entitled to rely on any such certificate if he knows, or has reason to believe, it to be false: *Provided, however,* That such certificates shall not be required in connection with the export of filled Class III or Class IV tubes from the forty-eight states of the United States of America and the District of Columbia.

(3) *Reports.* Each tube manufacturer and each tube user shall file such reports as the War Production Board may prescribe for the purpose of effective administration of the order, and no tube manufacturer or distributor shall sell any tubes except under contracts or orders validated by the certification required by this paragraph (e).

(f) *Miscellaneous provisions*—(1) Appeal. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tin conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, on such form as may be prescribed, Ref.: M–115, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Sales of tin.* No person shall hereafter sell or deliver tin to any tube manufacturer or tube user if he knows, or has reason to believe, that such tin is to be used in violation of the terms of this order.

(4) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C., Ref.: M–115.

(5) *Effect of other orders.* Except as provided in paragraph (c) (2) above, insofar as any other order of the Director of Priorities, the Director of Industry Operations or the Director General for Operations heretofore or hereafter issued limits or curtails to a greater extent than herein provided the use of any material used in the production of tubes, the limitations of such order shall control.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L-123 as Amended Nov. 24, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the manufacture of general industrial equipment for defense, for private account and export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.1 *General Limitation Order L-123*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "General industrial equipment" means new equipment of the kinds listed, from time to time, in list A. General industrial equipment shall be deemed to be new when it has not been delivered to any person acquiring it for use.

(3) "Manufacturer" means any person producing general industrial equipment.

(4) "Distributor" means any person in the business of distributing general industrial equipment.

(5) "Order" means any commitment or other arrangement for the delivery of general industrial equipment, whether by purchase, lease, rental, or otherwise.

(6) "Approved order" means:

(i) Any order for general industrial equipment bearing a preference rating of A-1-c or higher.

(ii) Any order for general industrial equipment for the Army, the Navy, the Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, and the Office of Scientific Research and Development.

(iii) Any order for general industrial equipment which the Director General for Operations authorizes for delivery pursuant to paragraph (b) (2) hereof.

(b) *Restrictions on acceptance of orders for, and production and distribution of general industrial equipment*—(1) *General restrictions.* (i) No person shall accept any order for general industrial equipment or commence production of any general industrial equipment in fulfillment of any order, whether accepted or not; unless such order is an approved order.

(ii) No person shall deliver, and no person shall accept delivery of, any general industrial equipment, except pursuant to an approved order: *Provided, however,* That the provisions of this paragraph (b) (1) shall not prohibit the production and delivery, prior to October 1, 1942, of general industrial equipment in fulfillment of an order accepted prior to August 27, 1942 and bearing a preference rating of A-9 or higher; and *Provided further,* That nothing in this order shall prevent shipment of general industrial equipment from any manufacturer to any distributor to fill approved orders actually received by such distributor or to replace general industrial equipment delivered by such distributor to fill an approved order nor shall this order limit the right of a manufacturer legally to extend any preference rating certificate to secure material for the production of approved orders for general industrial equipment.

(2) *Authorization for orders on books.* Manufacturers or distributors may apply for authorization to commence production of, or to deliver, orders now on their books which are not approved orders, by filing with the War Production Board, a list in triplicate, plainly marked Ref: L-123, of all such orders, together with the name of the purchaser or lessee, the date of the order, the number of pieces of equipment or machinery, the rating assigned, the preference rating certificate number, if any (or blanket preference rating order and serial number), a description of the machinery, the value of the machinery, the specified delivery date, the extent of completion of the order, and the expected use to which the machinery will be put. The Director General for Operations may thereupon authorize the production or delivery of any such orders, or the assignment of preference ratings thereto.

(c) *Non-applicability to repair or maintenance.* (1) The provisions of paragraph (b) shall not apply to any order for, or delivery of, maintenance or repair parts, (i) in an amount not exceeding $1,000 for any single piece of general industrial equipment to be repaired or maintained; or (ii) in any amount for the repair of general industrial equipment when there is an actual breakdown or suspension of operations of such piece of equipment because of damage, wear and tear, destruction or failure of parts, or the like, and the essential repair or maintenance parts are not otherwise available.

(2) Any purchaser who shall place an order for repair or maintenance parts exempted from the provisions of paragraph (b) as above provided, shall furnish his supplier with the following certification, on the order or in a separate document:

> I hereby certify that the above (or attached) order is in compliance with paragraph (c) of General Limitation Order L-123. The order is for maintenance and repair parts as follows:
>
> --
> (state here whether order is for parts not exceeding $1,000 for each piece of equipment covered thereby, or for parts for equipment which has broken down)
>
> -------------------------------- Company
>
> By ----------------------------
> (Authorized official)

Such certification shall be signed by a duly authorized official or employee of the purchaser. No person shall make delivery of repair or maintenance parts covered by such certificate if he has reason to believe that the certificate is false; and no person shall falsely furnish the certification specified above. The above mentioned certificate shall constitute a representation to the War Production Board, as well as to the supplier, of the facts certified therein.

(d) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(e) *Applicability of other orders.* Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, acquire, fabricate or process in any manner, any raw materials, semi-fabricated parts, or finished parts in contravention of terms of any regulation of the War Production Board, effective at the date of any of the transactions specified in this paragraph.

(f) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after May 26, 1942. No person shall be held liable for damages or penalties for default under any contract or order which shall result directly or indirectly from his compliance with the terms of this order.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-123.

(i) *Records and reports.* All manufacturers and distributors affected by this order shall keep and preserve for not less than two years accurate and complete records concerning production, deliveries, and orders for general industrial equipment. All persons affected by this order shall execute and file with the Director General for Operations, War Production Board, such reports and questionnaires as said Director shall from time to time request.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

The amendatory provisions of this order, as indicated above by underscoring, and including List A in its entirety, shall become effective December 1, 1942.

Issued November 24, 1942.

ERNEST KANZLER,
Director General for Operations.

LIST A

1. Conveying machinery (and any important component part thereof) used for the mechanical handling of materials; except (i) farm elevators included within the provisions of Order L-26, as amended, (ii) machinery or parts used on board ship in the operation of any vessel, or used in the operation of aircraft, tanks, ordnance, or similar combat equipment, (iii) power and hand lift trucks, (iv) cranes, hoists and platform elevators, (v) construction mixers, pavers, graders, drag lines and power shovels, and similar construction machinery, (vi) cars and car dumpers, (vii) steel mill tables, (viii), sintering conveyors, (ix) metal pig conveyors, (x) underground mining machinery (other than slope conveyors); and (xi) conveying machinery covered by any order authorized by the Director General for Operations under Order L-193.

2. Mechanical power transmission equipment (and any important component part thereof) of the following kinds (except (i) equipment or parts used in the operation of any vessel, or in the operation of aircraft, tanks, ordnance or similar combat equipment or (ii) equipment covered by any order authorized by the Director General for Operations under Order L-193):

(a) Open and enclosed gearing for transmitting more than ¼ horse power; except marine propulsion gears, gears used as an integral part of a machine, gears built into a turbine, and gears used on household manually powered, automotive, or farm machinery;

(b) Mechanical drives and parts thereof for transmitting more than ¼ horse power; except belting, drives used as an integral part of a machine and drives used on household, manually powered, automotive, or farm machinery.

3. Industrial fans and blowers, including attic-type ventilating fans regardless of blade diameter or motor size, centrifugal or squirrel-cage type fans, and propeller or axial flow type fans; except ceiling, desk, window, air circulator, and pedestal type fans of a portable nature.

4 Turbo blowers, except turbo blowers covered by the provisions of Limitation Order L-163.

5. Industrial compressors and vacuum pumps, mechanically operated, all types; except "Critical Compressors" as defined in General Limitation Order L-100, and units having a displacement of less than one cubic foot per minute.

6. Industrial pumps, mechanically operated, including centrifugal, power, reciprocating, turbine, deep well turbine, rotary, cam, screw, gear, vane and jet types; but not including (i) pumps for farm use as defined in General Limitation Order L-26, (ii) measuring and dispensing pumps, (iii) vertical submerged reciprocating or turbine type pumps used in oil wells for petroleum production, (iv) non-reciprocating vacuum pumps, condensate return pumps, and hot water circulating pumps, designed and used solely for comfort heating of building space, (v) sanitary pumps used in milk processing and egg processing plants, or (vi) portable engine driven or electric motor driven pumping units, mounted on skids, with or without handles, or trailer mounted, incorporating self-priming centrifugal pumps, horizontal or vertical piston or plunger pumps or diaphragm pumps, ordinarily used for contractors purposes or by contractors for dewatering and supply, as defined in "Contractors Pump Standards" adopted by the Associated General Contractors of America, Inc., (A. G. C.) February 21, 1941. Notwithstanding any other provision of this order, a pump shall be deemed to be "new", and therefore included within the provisions of the order, until such pump has been sold by a manufacturer or distributor to a person acquiring it for use, regardless of whether such pump may have theretofore been leased to any person or persons temporarily by such manufacturer or distributor.

7. Industrial hand trucks, including any truck or trailer, not self-power propelled, with free running wheels or casters, designed for the handling of material of any kind; except any hospital cart, or any trailer designed for use on the highway or in earth moving, mining, logging, or petroleum development.

8. Stationary steam engines, except marine engines and steam engine generator sets.

9. Air washers.

10. Heat exchangers; except (i) heat exchangers for domestic use, (ii) heat exchangers covered by the provisions of Limitation Order L-172 (iii) surface condensers, (iv) unit heaters, (v) unit ventilators, (vi) blast heating surfaces not enclosed in a pressure vessel, and (vii) convectors designed and used solely for comfort heating of building spaces or for processes requiring heat. "Surface Condenser" means any device consisting of a shell and bare tubes, including auxiliary air removal equipment when such auxiliary equipment is purchased with and used on said device, which condenses exhaust steam from a steam driven prime mover for the purpose of maintaining a minimum absolute exhaust pressure.

11. Industrial dust collectors.

12. Passenger or freight elevators (including residence elevators, home lifts, elevetees, and similar equipment), inclinators, electrically operated passenger elevating devices appurtenant to stationary stairways, and power operated dumbwaiters.

13. Portable (platform type) elevators and steel platforms. "Portable (platform type) elevator" means any device mounted on wheels or casters with either power operated or hand operated lift, used primarily to elevate and lower material for the purpose of tiering or stacking; and "steel platform" means any steel platform or skid, with or without box tops or enclosures, standing on legs or legs and wheels, designed for use in handling material in conjunction with hand or power operated lift trucks, portable (platform type) elevators, lift jacks or other similar devices.

14. Electric motors, one horse power and over; except motors for farm use covered by General Limitation Order L-26.

15. Motor-generator sets, ¾ K. W., or one horse power, and above.

16. Electric controllers, rated one horse power and over; including manual and magnetic starters, controllers and speed regulators, drum switches, thrustor and solenoid brakes, push-button stations, limit switches, master switches and pressure and float switches but not including controllers for farm use covered by Limitation Order L-26.

17. Safety switches and knife switches, single and double throw, two, three and four pole, rated 60 amperes and higher, 600 volts and below.

18. Circuit breakers, thermal and magnetic trip, manually and electrically operated, rated 50 to 575 amperes, inclusive, 600 volts and below.

19. Lifting magnets, circular type, 18 inches in diameter and larger; and lifting magnet controllers.

20. Dynamometers, electric type; and rotary converters.

INTERPRETATION 1

General industrial equipment shall be considered to be delivered, within the meaning of this order, prior to the effective date of this order, when the machinery or equipment has been placed in the hands of a common or contract carrier for shipment to the purchaser prior to May 26, 1942. PART 1056—NATURAL GAS

[Supplementary Limitation Order L-31-a]

In accordance with the provisions of § 1056.1 *Limitation Order L-31* which the following order supplements:

§ 1056.2 *Supplementary Limitation Order L-31-a.* (a) *Definitions.* (1) The definitions contained in paragraph (a) of Limitation Order L-31 shall apply to this order.

(2) Area VII means:

(i) Those areas in Wyoming and Utah served by the Mountain Fuel Supply Company.

(ii) Those areas in Kansas served by the Panhandle Eastern Pipeline Company or by any utility receiving all or any part of its gas supply from said company, except areas in Kansas included in Area II (as defined in Exhibit B of Limitation Order L-31).

(b) *Restrictions on deliveries of natural gas.* On and after December 2, 1942, no utility shall deliver to any residential consumer in Area VII and no such consumer shall accept delivery of natural gas for the operation of any space-heating equipment unless:

(1) Such equipment was installed (or if converted from some other fuel to natural gas such conversion was completed) at the same premises prior to December 2, 1942, or

(2) In the case of new construction, such equipment was specified in the construction contract and was installed prior to March 1, 1943, and the foundation under the main part of the structure in which the equipment is to be installed was completed prior to December 16, 1942, or

(3) Such equipment replaces gas-fired equipment of equal or greater capacity previously installed or operated at the same premises whether by the same or by another consumer: *Provided,* That

nothing contained in this subparagraph shall authorize the delivery of gas for the operation of central space-heating equipment which replaces non-central space-heating equipment or central space-heating equipment of a different type, or

(4) Such deliveries have been specifically approved by the Director General for Operations.

PART 1188—RAILROAD EQUIPMENT

[Supplementary Limitation Order L-97-a-1 as Amended Nov. 24, 1942]

Section 1188.3 *Supplementary General Limitation Order L-97-a-1, as amended* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other materials for defense, for private account and for export; the railroad car building industry has on hand diversified inventories of materials not in balance among individual producers; it is desirable that such inventories be utilized to the best possible advantage; and the following order, supplementing General Limitation Order L-97-a, is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1188.3 *Supplementary General Limitation Order L-97-a-1*—(a) *Effect of General Limitation Order L-97-a.* This order supplements General Limitation Order L-97-a and is subject to the provisions of that order as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Car parts" means any commodity, equipment, accessory, part, assembly or product manufactured for use in the construction of cars.

(2) "Cars" means all cars for use on railroads, including freight cars and passenger cars.

(3) "Supplier" means any person with whom a contract or order has been placed for delivery of car parts to a producer or another supplier.

(c) *General restrictions.* Preference ratings of A-2 or lower assigned prior to April 29, 1942, to the delivery of car parts or other material for the manufacture of cars under Preference Order P-8 (in accordance with paragraph (f) thereof), Preference Rating Order P-90 (Form PD-25A) or any certificate or order issued pursuant to PD-1 or PD-1A applications, are hereby canceled as of April 29, 1942. A purchase order to the delivery of which had been assigned a preference rating canceled by operation of this paragraph (c) shall be treated as an unrated order.

(d) Notwithstanding the provisions of § 944.11 (Use of Material Obtained Under Allocation or Preference Rating) of Priorities Regulation No. 1 as amended, or of General Preference Order M-21 as amended, any producer of cars or supplier may sell and deliver to any other such producer (including a producer of locomotives) or supplier, or to a railroad, any car parts the material in which was obtained under a preference rating for the construction of cars: *Provided,* That such material is to be used for the construction or repair of cars or locomotives, and that the purchaser endorses on the purchase order for such material the following statement signed by a duly authorized official:

> The undersigned represents to the seller and to the War Production Board that the material ordered herein will be used for the construction or repair of railroad cars or locomotives.
>
> -------------
> Date
>
> ---------------------------
> Name of purchaser
>
> ---------------------------
> Signature of authorized official
>

> Title

Such sales shall be expressly permitted within the terms of paragraph (c) (3) of Priorities Regulation No. 13, as amended. Nothing in this paragraph (d) shall impair the force and effect of § 944.2 (Compulsory Acceptance of Defense and Other Rated Orders) of said Regulation No. 1.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 24th day of November 1942.

PART 3139—ASPHALT AND TARRED ROOFING PRODUCTS AND ASPHALT SHINGLES

[General Limitation Order L-228]

The fulfillment of requirements for the defense of the United States has created a situation which will result in a shortage in the supply of materials and facilities used in the manufacture of asphalt and tarred roofing products and asphalt shingles for defense, for private account and for export, unless raw material, transportation facilities and manpower are conserved through the simplification and reductions of types of these products and shingles; and for those purposes the following order is deemed necessary and appropriate in the public interest and to promote the national war effort.

§ 3139.1 *General Limitation Order L-228*—(a) *Definitions.* For the purposes of this order:

(1) "Asphalt and tarred roofing products" means dry felt made of organic fiber impregnated with bitumen, designated and constructed to be applied to the exterior surface of a building or structure for the purpose of weatherproofing such surface. Asphalt and tarred roofing products may be coated with a more viscous bitumen than that used in impregnating the dry felt and may be surfaced with granular material such as, but not limited to, crushed rock, slate or quartz.

(2) "Asphalt shingles" means dry felt manufactured from organic fiber, impregnated with asphalt, coated with a more viscous asphalt than that used in the impregnation of such felt, and may be surfaced with granular material such as, but not limited to, crushed rock, slate, or quartz, which dry felt so treated is designed and shaped for application in the form of shingles to the exterior surface of a building or structure for the purpose of weatherproofing such surface.

(b) *General restrictions.* On and after the first day of January, 1943, no person shall manufacture, fabricate, or process any asphalt and tarred roofing products or asphalt shingles except such as conform to the schedule of types, sizes and forms listed on Exhibit "A" hereto attached or as are specifically permitted by the terms of said Exhibit "A".

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection, by duly authorized representatives of the War Production Board.

(e) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the War Production Board, as amended from time to time.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(h) *Communications.* Reports to be filed and all other communications concerning this order shall be addressed to War Production Board, Building Materials Division, Washington, D. C., Ref. L-228.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 24th day of November 1942.

PART 1499—COMMODITIES AND SERVICES

[MPR 165, as Amended, Amendment 9]

SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

A new § 1499.115a is added as set forth below:

§ 1499.115a *Adjustable pricing.* Any person may offer or agree to adjust prices for services subject to this regulation to prices not in excess of the maximum prices in effect at the time the services are supplied. In an appropriate situation, where a petition for amendment or an application for adjustment has been filed and requires extended consideration, the Administrator (or his authorized representative) may, upon request, grant permission to agree to adjust prices for services supplied while the petition or application is pending, in accordance with its disposition. The Administrator (or his authorized representative) may also direct that the charges for services supplied while the petition or application is pending, be paid to the supplier or to a third party, and that they be earmarked and held until the petition or application is finally disposed of by the Administrator and the maximum price for the service is determined.

Part 1499—Commodities and Services

[Supp. Reg. 14[1] to GMPR,[2] Amendment 64]

STORAGE, ETC., OF CERTAIN FRUITS IN OREGON AND WASHINGTON

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Subparagraph (27) of paragraph (a) of § 1499.73 is amended to read as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter provided:

* * * * *

(27) *Storage and warehousing of apples, pears, peaches, apricots, plums, and prunes in the States of Oregon and Washington*—(i) *Maximum prices*—(*a*) *Sellers supplying same service during 1941–42 season.* Maximum prices for the cold storage of apples, pears, peaches, apricots, plums and prunes, including handling in and out of warehouse, in the States of Oregon and Washington shall be determined, as to each seller supplying the same service during the 1941–42 season, by adding the amounts listed below to the highest prices of such seller for supplying such services to purchasers of the same class during the 1941–42 season.

Service	*Amount of increase*
Cold storage of apples and pears other than cannery pears	3¢ per box.
Cold storage of cannery pears, cannery peaches, cannery apricots, cannery plums and cannery prunes	$1.00 per ton.

Where the price of a seller during the 1941–42 season was on the basis of a single charge for the entire season or period of storage, the increase permitted above may be added to the seasonal charge of such seller. Where the price of a seller during the 1941–42 season was on the basis of a charge per month or other period shorter than the entire period of storage, the increase permitted above may be added by such seller to the charge for any particular period or may be divided among two or more periods, but the total increase for the entire period of storage may not exceed the amount specified above.

(*b*) *Sellers not supplying same service during 1941–42 season.* Maximum prices for the cold storage of apples, pears, peaches, apricots, plums, and prunes, including handling in and out of warehouse, in the States of Oregon and Washington shall be, as to each seller not supplying the same service during the 1941–42 season, the maximum prices established under inferior subdivision (i) (*a*) hereof for the most closely competitive seller of the same class who supplied such services during the 1941–42 season.

(*c*) *Effective date of increased maximum prices.* The maximum prices authorized by this subdivision (i) shall be effective as of the beginning of the 1942–43 season.

(ii) *Refund of additional amounts previously collected on a conditional basis.* Any person storing apples or pears in the State of Oregon or the State of Washington who, pursuant to Amendment No. 29 to Supplementary Regulation No. 14 to the General Maximum Price Regulation, made a conditional charge of an amount in excess of the increases authorized in subdivision (i) hereof shall immediately refund or remit such excess amount to the person to whom such charge was made.

(iii) *Definitions.* As used in this subparagraph (27), the term "season" refers to the period during which fruit maturing in a particular year remains in cold storage, the term "1941–42 season" refers to the period of storage of fruit maturing during 1941, and the term "1942–43 season" refers to the period of storage of fruit maturing during 1942.

(b) *Effective dates.* * * *

(65) Amendment No. 64 (§ 1499.73 (a) (27)) to Supplementary Regulation No. 14 shall become effective November 28, 1942.

[Order 116 Under § 1499.18 (b) of GMPR]

TIDEWATER VIRGINIA AREA

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1117 *Adjustment of maximum prices for spinach baskets manufactured and delivered within the Tidewater Virginia area.* (a) Any container manufacturer located in the Tidewater Virginia area may sell and deliver to persons located in that area, and any person located in the Tidewater Virginia area may buy and receive, spinach baskets (specifications: continuous stave "improved bushel tubs", with handles and octagon covers, but without loop fasteners) in carload or truck load quantities at a delivered price not higher than the price figured as follows: Deduct 30 cents per dozen baskets from the maximum delivered price which governs local sales of carload and truck load quantities of continuous stave "improved bushel tubs" with crown covers, loop fasteners, and handles, manufactured and sold by the company which prices its spinach baskets under this paragraph. The maximum price for the bushel basket with crown cover and loop fasterens is established either by the General Maximum Price Regulation or by Maximum Price Regulation No. 160 (Seasonal Wooden Agricultural Containers).

(b) When used in this order the term "Tidewater Virginia area" shall be construed to mean the following counties in the State of Virginia: Norfolk, Princess Anne, Nansemond, Northampton, Southampton; and Hertford County, North Carolina.

(c) This Order No. 116 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 116 (§ 1499.1117) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(e) This Order No. 116 (§ 1499.1117) shall become effective November 24, 1942.

Basic Rations

§ 1394.7653 *Application for and issuance of basic rations.* (a) Application for a basic ration book shall be made on Form OPA R–534. During the period from November 9, 1942 to November 20, 1942, inclusive, application shall be made at any application site designated by the Office of Price Administration. After November 20, application shall be made to a Board: *Provided,* That a Board may refuse to accept applications for basic rations prior to December 3, 1942 except for good cause shown for failure to apply at an application site. A separate application shall be made for each passenger automobile or motorcycle for which a basic ration is sought.

* * * * *

(d) Pursuant to such application, a basic ration shall be issued during the period from November 9, 1942, to November 20, 1942, inclusive, by any registrar appointed under paragraph (a) or (b) of § 1394.7601. After November 20, 1942, a basic ration shall be issued by a Board. The Board shall remove from any Class A book issued subsequent to December 1, 1942, all expired coupons and one currently valid coupon for each full eight days which have elapsed in the valid period during which such book is issued. In the case of a Basic D book issued after December 1, 1942, one coupon shall be removed for each full eight days which have elapsed since December 1, 1942.

Transport Rations

§ 1394.7805 *Issuance of transport ration.* (a) Except as provided in paragraph (c) of this section, no transport ration shall be issued unless the applicant has presented to the Board, at the time of application, a currently valid single unit certificate or, in the case of a fleet, a fleet certificate issued for the fleet for which a ration is sought. Except as provided in § 1394.7806, no transport ration may be issued which will allow the applicant to acquire gasoline in excess of the maximum allowed by such certificate for the quarterly period for which the ration is sought and no transport ration shall be issued more than thirty (30) days prior to the beginning of the quarterly period during which it is to be used: *Provided,* That transport rations issued for use prior to January 1, 1943, shall not allow an amount of gasoline (other than gasoline allowed pursuant to

§ 1394.7806) in excess of the maximum number of gallons of gasoline allowed by the certificate for the first quarter of 1943 plus eighty (80) per cent of the maximum number of gallons of gasoline allowed by the certificate for the remaining portion of the year 1942: *Provided, further,* That in the issuance of any transport ration for use prior to January 1, 1943, the Board shall deduct the number of gallons which have been allowed in the issuance of any temporary transport ration for the vehicle covered by the application.

(b) The Board shall examine the single unit certificate or the fleet certificate submitted and shall insert at the appropriate place provided in the application the maximum number of gallons of gasoline allowed by such certificate for the period for which the ration is sought. The Board shall allow the maximum number of gallons of gasoline permitted under paragraph (a) of this section, or the quantity of gasoline required by the applicant during the period or periods for which the ration is sought as stated in the application, whichever is less. The Board shall issue Class T–1 or T–2 books or bulk coupons in sufficient number to provide the number of gallons of gasoline allowed by it.

§ 1394.7808 *Temporary transport rations.* (a) Any person requiring gasoline for the operation of a commercial motor vehicle who has made application for a certificate of war necessity but who has received no notice of any action thereon may apply between November 23, 1942, and December 31, 1942, inclusive, for a temporary transport ration pursuant to the provisions of paragraph (b) of this section, and no certificate of war necessity shall be required to be presented in connection therewith.

(b) An application for a temporary transport ration may be made, in duplicate, to any Board during the period from November 23, 1942, to December 31, 1942, inclusive. Such application shall be made on Form OPA R–536, and may be made by an agent. The applicant shall state the mileage and gallonage required for the operation of such motor vehicle from the date the ration is required to December 31, 1942, inclusive, and shall specify the address of the District Office of the Office of Defense Transportation with which the application for a certificate of war necessity has been filed, the date on which such application was filed, and the address of the Board with which his application pursuant to § 1394.7804 is to be filed. The applicant shall also state that no ration pursuant to § 1394.7805 has been issued, and that he has received no notice of any action on his application for a certificate of war necessity for the vehicle or vehicles for which a ration is sought. The word "temporary" shall be clearly noted on the application.

(c) The Board shall determine the number of gallons of gasoline required during such period for the operation of such motor vehicle. The Board shall then issue "T–1" or "T–2" books containing coupons in sufficient number to provide the gallonage needed to December 31, 1942, inclusive. Such books shall expire at 12:01 A. M. on April 1, 1943.

General Provisions With Respect to Transfers and Use

§ 1394.8156 *Emergency transfers.* * * *

(d) Any Regional Administrator of the Office of Price Administration who finds that there has been such delay in the issuance of rations as of December 1, 1942, as to jeopardize the movement of trucks, busses, or other essential vehicles for which no basic ration is issuable, may by declaration designate the states within his region in which such delay has occurred and specify the types of vehicles affected thereby. Such declaration shall continue in effect until December 13, 1942, or such earlier date as he may determine. During the effective period of such declaration, the operator of a vehicle of a type specified therein, licensed or operated in a state designated therein, may acquire gasoline for use in such vehicle by signing an Emergency Receipt on Form OPA R–555, in duplicate: *Provided,* That gasoline may be so acquired for a vehicle only during the interval between the date of application for a ration for such vehicle and the date of receipt or denial of such ration. Any dealer who has made a transfer of gasoline in exchange for an emergency receipt pursuant to this paragraph shall transmit such receipt, in duplicate, to the Board having jurisdiction over the area in which his place of business is located and such Board shall issue inventory coupons to him, in exchange for such receipt, in accordance with the procedure specified in paragraph (c) of this section.

* * * * *

Replenishment and Audit

§ 1394.8201 *Registration of inventory and capacity.* (a) Every dealer and intermediate distributor shall take a physical inventory of his total gasoline supplies on hand as of 12:01 a. m., December 1, 1942, and shall, on December 1 or 2, 1942, register (on Form OPA R–545) with the Board having jurisdiction of the area in which such a place of business is located, at the hours provided by the Board, the following matters, together with such other information as may be required:

(1) His name, firm name, business address and type of business.

(2) His total gasoline storage capacity.

(3) His total inventory of gasoline on hand as of 12:01 a. m., December 1, 1942.

(4) A certification as to the truth of each of the foregoing items of information.

* * * * *

(c) Every licensed distributor who operates a place of business at which functions corresponding to those of a dealer or intermediate distributor are performed, and which, under the terms of § 1394.7551 (a) (17), is deemed to be a part of his facilities as a licensed distributor, and every person who receives gasoline from a licensed distributor on consignment for purposes of sale, shall register each such place of business (on Form OPA R–545) on December 1 or 2, 1942, with the Board having jurisdiction of the area in which each such place of business is located: *Provided,* That neither the inventory of gasoline on hand nor the gasoline storage capacity shall be registered, but only the name of the licensed distributor or consignee operating such place of business, a statement that the place of business is operated by a consignee, and a certification as to the truth of this information.

(d) Notwithstanding the provisions of paragraphs (a, (b) and (c) of this section, no dealer or distributor whose place of business has been registered with a Board pursuant to the provisions of Ration Order No. 5A shall, except as provided in §§ 1394.8220, 1394.8224, 1394.8225 and 1394.8226, again register such place of business or receive inventory coupons representing the unfilled gasoline storage capacity of such place of business: *Provided,* That any licensed distributor who registered, pursuant to the provisions of Ration Order No. 5A, facilities which, under the terms of § 1394.7551 (a) (17), are deemed for purposes of Ration Order No. 5C to be a part of his facilities as a licensed distributor, and received inventory coupons for the unfilled gasoline storage capacity of such facilities, shall re-register such facilities, on December 1 or 2, 1942, as licensed distributor facilities, and surrender to the Board for cancellation inventory coupons or other evidences equal in gallonage value to the coupons originally issued to represent his unfilled gasoline storage capacity.

* * * * *

§ 1394.8215 *Transfer and surrender of expired coupons.* * * *

(c) On and after December 11, 1942, but not later than December 15, 1942, in the case of Class S ration coupons, and on and after ten (10) days but not later than fifteen (15) days after the expiration dates of Class A ration coupons, each dealer or distributor who has in his possession or control Class S or expired Class A ration coupons shall surrender such coupons, summarized on Form OPA R–541, to the Board having jurisdiction over the area in which his place of business is located. The Board shall issue to a distributor in exchange for such coupons one or more exchange certificates, in accordance with the provisions of § 1394.8214. The Board shall issue to a dealer in exchange for such coupons inventory coupons equal in gallonage value to the coupons so surrendered. After December 15, 1942, in the case of Class S ration coupons, and after fifteen (15) days from the expiration date of any Class A ration coupons, such coupons are void, and no gasoline may be transferred in exchange therefor, and no exchange certificate, inventory coupons, or other evidence may be issued to a dealer or distributor in exchange for Class S or expired Class A ration coupons.

Effective Dates

§ 1394.8351 *Effective dates.* (a) Ration Order No. 5C shall become effective on November 9, 1942, except that the provisions of §§ 1394.8151 to 1394.8180, inclusive, and §§ 1394.8201 to 1394.8227, inclusive, shall become effective December 1, 1942.

(b) On and after December 1, 1942, Ration Order No. 5C, §§ 1394.7501 to 1394.8351, inclusive, supersedes Ration Order No. 5A, §§ 1394.161 to 1394.2001, inclusive: *Provided, however,* That Ration Order No. 5A and all amendments thereto shall continue to remain in full force and effect for the purpose of allowing or sustaining any suit, action, prosecution or administrative or other proceeding heretofore or hereafter commenced with respect to any violation committed or right or liability incurred under or pursuant to the terms thereof prior to December 1, 1942.

§ 1394.8352 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1394.7602 (a) (1), 1394.7653 (a) and (d), 1394.7805 (a) and (b), 1394.7808 (a), (b) and (c), 1394.8156 (d), 1394.8201 (a), (c), and (d), 1394.8215 (c), 1394.8218 (d), 1394.8351, and 1394.8352) to Ration Order No. 5C shall become effective November 21, 1942.

TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

PART 301—GENERAL REGULATIONS

[General Order No. 27]

SALE OR CHARTER OF CERTAIN VESSELS

Whereas under Executive Order No. 9054, dated February 7, 1942, and Executive Order No. 9244, dated September 16, 1942, the President of the United States has directed the Administrator, War Shipping Administration, to perform certain functions and duties and has granted the Administrator certain powers in connection therewith to assure the most effective utilization of the shipping of the United States for the successful prosecution of the war; and

Whereas it is essential in order to achieve the objectives of said Executive Orders that the sale and charter of certain vessels be subject to the approval of the Administrator, War Shipping Administration.

Now therefore, by virtue of the power vested in me by the aforesaid Executive Orders, *It is hereby ordered,* That:

§ 301.4 *Conditions governing sale or charter of certain vessels.* (a) The sale or charter to citizens of the United States of the following vessels is hereby prohibited unless approved by the Administrator, War Shipping Administration:

(1) All self-propelled vessels, including sailing vessels, of 200 gross tons or over documented under the laws of the United States or owned or controlled by citizens of the United States;

(2) All vessels not self-propelled of 1,000 gross tons or over including barges documented under the laws of the United States or owned or controlled by citizens of the United States.

(b) The responsibility of submitting to the Administrator for his approval the proposed sale or charter of vessels as above recited shall rest equally upon the owner and proposed purchaser or charterer. Applications for the Administrator's approval shall follow substantially the form annexed hereto.

(c) Nothing in this order shall be construed or deemed to modify, or rescind or otherwise change existing orders and regulations of the United States Maritime Commission with respect to the sale, or charter, or transfer of vessels to aliens or foreign registry.

Part 321—Directives

[Directive 6]

FORWARDING AND TRANSPORTATION OF WATERBORNE FOREIGN COMMERCE

Directive with respect to forwarding and transportation of waterborne foreign commerce of the United States issued by the Administrator, War Shipping Administration.

To all persons (including departments, agencies and officers of the United States) engaged in the procurement, transportation or forwarding of Lend-Lease cargo, or cargo procured, transported or forwarded for the government of any country whose defense has been deemed by the President to be vital to the defense of the United States pursuant to the Act of March 11, 1941 (which government is hereinafter referred to as a Lend-Lease government):

By virtue of the authority vested in the Administrator, War Shipping Administration, by the Act of March 14, 1942 (Public Law 498, 77th Congress), by Executive Order 9054, dated February 7, 1942, as amended; and pursuant to Directive No. 4 of November 3, 1942, of the Administrator, War Shipping Administration (7 F.R. 8967), it is hereby directed:

§ 321.6 *Directive No. 6.* (a) Upon the delivery of any of the cargo included within the scope of the aforesaid Directive No. 4 into the custody of the ocean carrier by or on behalf of the War Shipping Administration, the said carrier shall issue to, or cause to be issued to, the War Shipping Administration, or its designees, a dock receipt acknowledging that the carrier has received the merchandise for ocean carriage.

(b) The dock receipt will be a "short" form incorporating, by reference, the ocean carrier's usual form of dock receipt, in the following language:

"Received the above described merchandise for shipment as indicated hereon, subject to all conditions of the undersigned's usual form of dock receipt and bill of lading. Copies of the undersigned's usual form of dock receipt and bill of lading may be obtained from the Master of the vessel, the vessel's agent, or from the War Shipping Administration, Washington, D. C."

(c) All dock receipts shall be in nonnegotiable form, and marked: "receipt for cargo delivered to dock—not negotiable."

(d) Any form of dock receipt issued pursuant to this Directive may have imprinted upon it such marks and other data as may be prescribed for or convenient for identification of the cargo, and shall be designated as "Warshipshortdock Receipt".

(e) The dock receipt shall provide for such descriptive and identifying matter as may be required by and shall be in the form prescribed by the agencies of the War Shipping Administration engaged in the forwarding of Lend-Lease materials as defined herein.

(f) This Directive shall become effective December 1, 1942.

[Docket No. B-344]

CARL HAFNER AND SONS

NOTICE OF AND ORDER FOR HEARING

In the matter of Carl Hafner, John Hafner and Herbert Hafner, individually and as co-partners, trading under the name and style of Carl Hafner and Sons, Code Member.

A complaint dated October 29, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on November 2, 1942, by Bituminous Coal Producers Board for District No. 2, a district board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Carl Hafner, John Hafner and Herbert Hafner, individually and as co-partners, trading under the name and style of Carl Hafner and Sons, RFD No. 2, Lake Lynn, Pennsylvania (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on January 12, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at White Swan Hotel, Uniontown, Pennsylvania.

It is further ordered, That W. A. Cuff, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that said Carl Hafner, John Hafner and Herbert Hafner, individually and as copartners, trading under the name and style of Carl Hafner and Sons, a code member, R. F. D. No. 2, Lake Lynn, Pennsylvania, whose code membership became effective November 22, 1940, and who operate the Hafner Mine, Mine Index No. 1879, located in Fayette County, Pennsylvania, in Subdistrict 3 of District No. 2, wilfully violated the Act, the Code, and rules and regulations thereunder as follows:

1. By selling for truck shipment subsequent to December 11, 1940, at prices below the effective minimum price established therefor, coal for conversion into coke at beehive coke ovens in Market Area 7, including the sale for truck shipment, during the period June 4, 1941 to September 24, 1941, both dates inclusive, of approximately 1096.025 net tons of run of mine (Size Group 8) coal, produced by said code member at the said Hafner Mine, to C. Ray Wolfe, Walter Wolfe, and Ray Wolfe, individually and as copartners trading under the name and style of Ray Wolfe & Company, R. F. D. No. 1, Smithfield, Pennsylvania, a code member who operates the Williams No. 2 Mine, Mine Index No. 1806 in Fayette County, Pennsylvania, in District 2, for conversion into coke at beehive coke ovens in Market Area 7, at $1.25 per net ton, f. o. b. said Hafner Mine, whereas said coal for said conversion was priced at $2.00 per net ton, f. o. b. said Hafner Mine in the Schedule of Effective Minimum Prices for District 2 for Truck Shipments, as supplemented and amended by Order issued in Docket No. A-406, on December 30, 1940, thereby resulting in wilful violation of section 4 Part II (e) of the Act and Part II (e) of the Code:

2. By failing to file with the Statistical Bureau for District No. 2 not later than five days after the first day and the 15th day of each month, duplicate copies of each sales slip or invoice covering the sales of coal produced at said mine by said code member for shipment by truck during the period November 22, 1940 to December 30, 1940, both dates inclusive, as required by order of the Division No. 296, dated September 23, 1940;

3. By failing to maintain and keep on file for each sale, resale, consignment, shipment, or other disposal or movement of coal by truck or wagon from said mine during the period January 1, 1941 to March 31, 1941, both dates inclusive, a copy of each truck ticket, sales slip, invoice, other memoranda, or record covering such transaction, as required by order of the Division No. 307, dated December 11, 1940;

4. By failing to maintain and keep on file for each sale, resale, consignment, shipment, or other disposal or movement of coal by truck or wagon from said mine during the period April 1, 1941 to the date hereof, both dates inclusive, a copy of each truck ticket, sales slip, invoice, other memoranda, or record covering such transaction, as required by order of the Division No. 312, dated February 24, 1941.

Dated: November 20, 1942.

[Docket No. B-345]

BURKHARDT CONSOLIDATED CO.

NOTICE OF AND ORDER FOR HEARING

In the matter of the Burkhardt Consolidated Company, registered distributor, Registration No. 1265.

The Bituminous Coal Division (the "Division"), finds it necessary in a proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine:

A. Whether the Burkhardt Consolidated Company, Registered Distributor, Registration No. 1265 (hereinafter sometimes referred to as the "Distributor") whose address is 918 Brown Street, Akron, Ohio, has violated any provision of the Act, the Code and Orders of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and its Distributors' Agreement (the "Agreement"), dated July 18, 1940, and filed with the Division on July 20, 1940, by said distributor pursuant to an Order of the Division, dated June 19, 1940, and more particularly whether subsequent to September 30, 1940, said distributor:

(1) Acting as a distributor, purchased from Clyde A. Wallick, code member, operator of the Wallick Mine, Mine Index No. 1841, located in Franklin Township, Tuscarawas County, Ohio, District No. 4, for resale and resold to Summit County Children's Home, Akron, Ohio, approximately 446.5 tons of 1¼'' nut, pea, and slack coal and approximately 21.875 tons of 2'' crushed mine run coal, during the period November 8, 1940 to and including June 27, 1941, at truck delivered prices of $2.65 and $2.70 per ton, respectively, and accepted and retained a discount of 17¢ per ton from the effective minimum prices thereof, which discounts were in excess of the maximum allowable discounts of 12¢ per ton, prescribed by the Division by Order of the Director issued in General Docket No. 12, on June 19, 1940; and actually delivered said coal in less than carload lots and not in a continuous flow, as a result of which, said transactions, jointly and severally, constituted violations of paragraphs (a) and (d) of its Agreement, and § 304.10 (b) of the Rules and Regulations for the Registration of Distributors.

(2) Acting as a distributor, purchased from said Clyde A. Wallick, for resale and resold to Akron Pure Milk Company, Akron, Ohio, approximately 52.17 tons of 2'' crushed mine run coal, during the period October 14, to October 20, 1941, both dates inclusive, at a truck delivered price of $2.70 per ton, and accepted and retained a discount of 12¢ per ton from the effective minimum prices therefor, and delivered said coal in less than carload lots and not in a continuous flow, as a result of which, said transactions, jointly and severally, constituted violations of § 304.10 (b) of the Rules and Regulations for the Registration of Distributors, and paragraph (d) of the Agreement.

(3) Acting as a distributor, purchased from said Clyde A. Wallick, for resale and resold to Summit County Children's Home, Akron, Ohio, approximately 159.05 tons of 1¼'' nut, pea and slack coal, during the period December 1, 1941 to January 30, 1942, both dates inclusive, at a truck delivered price of $2.75 per ton, and accepted and retained a discount of 12¢ per ton from the effective minimum prices therefor, and delivered said coal in less than carload lots and not in a continuous flow, as a result of which, said transactions, jointly and severally, constituted violations of § 304.10 (b) of the Rules and Regulations for the Registration of Distributors, and paragraph (d) of the Agreement.

(4) Acting as a distributor, purchased from said Clyde A. Wallick, for resale and resold to Summit County, Maintenance Department, Akron, Ohio, approximately 52.225 tons of mine run coal, during the period December 3, 1941 through December 31, 1941, both dates inclusive, at a truck delivered price of $3.25 per ton, and accepted and retained a discount of 12¢ per ton from the effective minimum prices therefor, and delivered said coal in less than carload lots and not in a continuous flow, as a result of which, said transactions, jointly and severally, constituted violations of § 304.10 (b) of the Rules and Regulations for the Registration of Distributors, and paragraph (d) of the Agreement.

B. Whether the registration of said Burkhardt Consolidated Company, Registered Distributor, Registration No. 1265, should be revoked or suspended or other appropriate penalties imposed.

It is, therefore, ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether the aforementioned Burkhardt Consolidated company has committed violations in the respects heretofore described and whether the registration of said Distributor, should be revoked or suspended, or other appropriate penalties imposed be held at Akron P. O. Bldg., Civil Service Room 207, Akron, Ohio, at 10 a. m., on January 12, 1943.

It is further ordered, That W. A. Cuff, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Distributors and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the positions of said Distributor with reference to the matters hereinbefore described, shall be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on said Distributor, and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by said Distributor so failing of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

Notice is also hereby given that any application or applications pursuant to § 301.132 of the Rules of Practice and Procedure for the Division for the disposition of this proceeding without formal hearing must be filed not later than fifteen (15) days after receipt by said Distributor of this Notice of and Order for Hearing.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: November 23, 1942.

[Docket No. B-310]

SOUTHWESTERN ILLINOIS COAL CORPORATION

NOTICE OF FILING, ETC.

Notice of filing amended application pursuant to § 301.132 for disposition of proceeding without formal hearing.

Notice is hereby given that Southwestern Illinois Coal Corporation, a corporation and a code member in District No. 10, having its principal place of business at 1317 Fletcher Trust Building, Indianapolis, Indiana, filed with the Bituminous Coal Division (the "Division") on November 12, 1942, an amended application dated September 22, 1942, pursuant to § 301.132 of the Rules and Regulations of the Division for the disposition of this proceeding without formal hearing. Said amended application was clarified by a verified statement of the code member filed with the Division on October 19, 1942.

The complaint herein dated August 5, 1942, filed with the Division on August 7, 1942, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act") by the Bituminous Coal Producers Board for District No. 10, alleges that the code member wilfully violated section 4 II (e) of the Act and Part II (e) of the Bituminous Coal Code (the "Code") (1) by selling through its sales agent, Walter Bledsoe & Co., to the National Lead Co., Carondolet, Missouri, at a price of $1.00 per net ton f. o. b. code member's Streamline Mine, Mine Index No. 165, approximately 4075.2 net tons of 1¼'' washed screenings (Size Group No. 24) produced at said mine prior to October 1, 1940, and delivered to said purchaser during the months of October and December 1940, and January and February 1941, whereas the effective minimum f. o. b. mine price for said coal was $1.40 per net ton which transactions were contrary to the Director's ruling dated September 25, 1940, to the effect that where a code member after October 1, 1940, retained an interest or control over certain coal or remained under obligation to perform a further act in order to make the coal available for use by the purchaser, the effective minimum f. o. b. mine price established for such coal is applicable to such coal, or (2) by selling through said sales agent and delivering said coal during the months of October and November 1940 and January and February 1941 to the National Lead Company at $1.00 per net ton f. o. b. mine, whereas the effective minimum price for said coal was $1.40 per net ton.

In said amended application and statement of clarification, the code member:

(a) Admits the wilful violation of section 4 II (e) of the Act and Part II (e) of the Code by the sale of 4075.2 net tons of 1¼'' washed screenings (Size Group No. 24) at $1.00 per net ton to the National Lead Company, Carondolet, Missouri, on April 1, 1939, and the concurrent execution of a lease and license agreement with said purchaser for storage of said coal on the code member's real estate, from which storage pile 2556.2 net tons were loaded by the code member into railroad cars for delivery and delivered to said purchaser during the period from October 1, 1940, to and including December 31, 1940, and the balance of 1519 net tons thereof was loaded into railroad cars by the code member for delivery and delivered to said purchaser during the period from January 1, 1941, to and including February 5, 1941, which latter period was subsequent to the termination of said lease and license agreement;

(b) Consents (1) with respect to the 2556.2 net tons of coal loaded and delivered during the period from October 1, 1940, to December 31, 1940, to the entry of a general cease and desist order which shall continue in full force and effect upon any restoration of code membership, and (2) with respect to the 1519 net tons loaded and delivered to said purchaser during the period from January 1, 1941, to and including February 5, 1941, to the entry of an order of revocation of its code membership requiring the payment of a tax in the amount of $829.37 as a condition precedent to the restoration of its code membership and agrees to pay said tax within fifteen (15) days after the entry of said order of revocation;

(c) States that to the best of its belief and knowledge it has not committed any other violations of the Act, the Code, or rules and regulations thereunder, other than those referred to in (a) above.

Interested parties may file with the Division recommendations or requests for informal conferences in respect to such amended application within fifteen (15) days from the date of this notice.

Dated: November 21, 1942.

[Docket A-1665]

DISTRICT BOARD 8

MEMORANDUM OPINION, ETC.

In the matter of the petition of District Board No. 8 for a change in mine name and seam designation for the Rennebaum Mine.

Memorandum opinion and order granting motion to amend petition, amending petition, terminating temporary relief heretofore granted, granting temporary relief and conditionally providing for final relief, and cancelling hearing.

A petition dated September 28, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with the Division on September 29, 1942, by Bituminous Coal Producers Board for District No. 8, the petitioner in the above-entitled matter, requesting that coals produced by the Rennebaum Coal Company, a code member producer located in District 8, at its Rennebaum Mine, Mine Index No. 401, in the Sterling Seam, when loaded and mixed with coals mined by this producer at its Rennebaum Mine No. 2, Mine Index No. 3817, in the Buckeye Spring Seam, be classified in accordance with the effective classifications for Buckeye Spring Seam Coal produced at the said Rennebaum No. 2 Mine.

The relief prayed for was granted pending the final disposition of the matter and the matter was scheduled for hearing on November 24, 1942, before a duly designated Examiner of the Division, by an order issued herein on October 30, 1942.

A motion dated November 18, 1942, was filed by the petitioner with this Division on that date requesting leave to amend the petition by deleting the request for relief as outlined above and proposing, in lieu thereof, that the coals produced at Mine Index No. 401, when loaded over the tipple at Mine Index No. 3817, take the classification as currently effective for such coals when loaded at Mine Index No. 401.

Petitioner also requested that in the event its motion be granted, that temporary relief in accordance with the prayer therein contained be granted pending final disposition of the matter, that the temporary relief heretofore granted pursuant to the original petition by the order issued herein on October 30, 1942, be terminated, and that the hearing on the petition, scheduled to be held on November 24, 1942, be cancelled.

Expressed in terms of objects, the original petition requested that the coals of Rennebaum Mine, Mine Index No. 401, when loaded over the tipple of Mine Index No. 3817, should be classified as "D" in Size Groups 15–17, inclusive. The motion requested that these coals when loaded over the tipple at Mine Index 3817, should be classified as "C" in these size groups.

In support of its motion, the petitioner stated that the Sterling Seam coals produced and loaded at Mine Index No. 401, are currently classified as "G" in Size Groups 15–17, inclusive, but that the original petition proposed a "D" classification in these size groups for these coals when loaded over the tipple at Mine Index No. 3817; that the Sterling Seam coals, produced at Mine Index No. 401, have the same value irrespective of the tipple over which they may be loaded, and that the relief requested in the motion, by establishing uniform classifications for these coals would preserve this parity of value.

The petitioner also stated that Rennebaum Coal Company, the code member involved, agrees to the relief requested in the motion, and that it is the petitioner's belief that such relief will not be opposed either by code members in District 8 or any other district.

It appears from an affidavit attached to said motion that a copy thereof was mailed, postage prepaid, on November 18, 1942, by the petitioner to Bituminous Coal Consumers' Counsel, Statistical Bureau for District 8, all other District Boards and Rennebaum Coal Company, the code member involved. It also appears that no pleadings in opposition to the relief therein requested have been filed with this Division.

Upon the basis of the foregoing facts and statements, the Director is of the opinion that good cause for the granting of said motion has been shown and that said motion should be granted as hereinafter set forth.

Now, therefore, it is ordered, That the said motion be, and the same hereby is, granted and that the said petition heretofore filed herein be, and the same hereby is, amended in accordance with said motion;

It is further ordered, That the temporary relief heretofore granted in the order issued in the above-entitled matter on October 30, 1942, be, and the same hereby is, terminated;

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the price classifications and minimum prices effective for the coals of the Rennebaum Mine, Mine Index No. 401, of Rennebaum Coal Company, for rail shipments, shall be applicable for shipment on the Louisville & Nashville Railroad Company and Southern Railway Company from Bryson Mountain, Tennessee; all allowances or adjustments required or permitted mines in Freight Origin Group No. 113 shall be applicable to all shipments of the coals of Rennebaum Mine, Mine Index No. 401, of Rennebaum Coal Company, from Bryson Mountain, Tennessee;

It is further ordered, That pleadings in opposition to the original petition and motion in the above-entitled matter and applications to stay, terminate, or modify the relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Act.

It is further ordered, That the hearing in the above-entitled matter scheduled to be held on November 24, 1942, be, and the same hereby is, cancelled.

It is further ordered, That the relief hereinabove granted shall become permanent sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: November 23, 1942.

IRA H. BISEL

ORDER RESCHEDULING HEARING AND REDESIGNATING EXAMINER

The above-entitled matter having been heretofore scheduled for hearing at 10 a. m. on November 2, 1942, at a hearing room of the Bituminous Coal Division at Room 118, Colonial Hotel, Altoona, Pennsylvania, and said hearing having been postponed by Order dated October 29, 1942, to a time and place to be thereafter designated by appropriate order; and

The Director deeming it advisable that the place and date of such hearing should now be designated;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be held on January 14, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at Colonial Hotel, Room 118, Altoona, Pennsylvania.

It is further ordered, That Charles S. Mitchell, or any other officer of the Bituminous Coal Division that may be duly designated shall preside at said hearing vice the officer or officers heretofore designated.

It is further ordered, That the Notice of and Order for Hearing herein dated September 29, 1942, shall in all other respects remain in full force and effect.

Dated: November 21, 1942.

[Docket No. B-240]

HUDSON FUEL CO.

ORDER CANCELLING HEARING, ETC.

In the matter of Hudson Fuel Company, Registration No. 4581, Registered Distributor.

Order granting application filed pursuant to § 301.132 of the rules of practice and procedure before the division, reserving jurisdiction and cancelling hearing.

On April 27, 1942, a Notice of and Order for Hearing was issued pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors for the purposes of determining whether the Hudson Fuel Company (the "Company") had violated any provisions of the Bituminous Coal Act of 1937 (the "Act"), the Bituminous Coal Code (the "Code"), and orders, rules and regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors and its Distributors' Agreement dated October 30, 1940, filed pursuant to an Order of the Director dated June 19, 1940, in General Docket No. 12 and more particularly those violations as more fully set forth in said Notice of and Order for Hearing; and

The above-entitled matter having been scheduled for hearing on May 27, 1942, and postponed by Order dated May 12, 1942 to June 8, 1942, and further postponed by Order dated May 29, 1942, to a date and place to be thereafter designated by an appropriate order; and

An application based upon admissions for the disposition of the above-entitled matter without formal hearing (the "Application"), pursuant to § 301.132 of the Rules of Practice and Procedure Before the Division dated July 9, 1942, having been filed by the Company with the Division on July 11, 1942; and

A Notice dated August 22, 1942 of the filing of said application having been published in the FEDERAL REGISTER on August 24, 1942 pursuant to said § 301.132 and copies thereof having been duly mailed to interested parties herein; and

Said Notice of filing having provided that interested parties desiring to do so might within fifteen (15) days from the date of said Notice file recommendations or requests for an informal conference in respect to said application and it appearing that no such recommendations or requests had been filed with the Division within said fifteen (15) day period; and

It appearing from said application that the Company admits that it wilfully committed the violations as set forth in the Notice of and Order for Hearing dated April 27, 1942; and

It further appearing from said application that the Company consents to an entry revoking the rights as represented by the certificate of registration as a registered distributor.

Now, therefore, Pursuant to the authority vested in the Division by section 4 II (h) of the Act and upon said application of the Company for disposition without formal hearing of the charges as set forth in the Notice of and Order for Hearing pursuant to § 301.132 of the Rules of Practice and Procedure, and the evidence in the possession of the Division;

It is hereby found that:

(a) The Company is a corporation organized and existing by virtue of the laws of the State of Ohio with its principal place of business at Cleveland, Ohio, and engaged in the business of purchasing and reselling bituminous coal;

(b) The Company filed with the Division its application for registration as a registered distributor dated June 30, 1940 and a certificate of registration No. 4581 dated November 13, 1940 was issued pursuant to said application and since then the Company has been engaged in the purchase and resale of bituminous coal;

(c) The Company, during the period November 13, 1940, to September 27, 1941, both dates inclusive, wilfully violated the Rules and Regulations for the Registration of Distributors and the Agreement filed by said Distributor by purchasing approximately 12,078.39 tons of various sizes of bituminous coal which it physically handled and sold in less than carload lots and upon which it accepted and retained discounts of approximately $2,281.89.

The undersigned having determined upon the basis of the above findings and the said admission and consent filed by the Hudson Fuel Company pursuant to § 301.132 of the Rules of Practice and Procedure that the distributor has violated § 304.19 (a) of the Rules and Regulations for the Registration of Distributors and paragraph (d) of the Distributor's Agreement signed by Peter Mazza, President of the Hudson Fuel Company on October 30, 1940; and

It appearing, however, that the Director has heretofore on October 2, 1942, in a proceeding known as Docket No. D–15, ordered that the registration of Hudson Fuel Company, a registered distributor, Registration No. 4581 be revoked effective fifteen (15) days thereafter; and

It appearing, therefore, unnecessary at this time to take further action in this matter, but nevertheless that jurisdiction should be reserved for the purpose of taking appropriate action should the company make application for registration at any time as a distributor or for any other purpose;

Now, therefore, it is ordered, That in the event Hudson Fuel Company at any time hereafter makes application for registration as a distributor, the Division may require as a condition precedent to the granting of such application, the repayment by the company of all distributor's discounts from the effective minimum prices unlawfully accepted and retained by the Hudson Fuel Company and that jurisdiction be, and it hereby is reserved for such purpose and for the purpose of taking such other action in this proceeding as may be appropriate.

It is further ordered, That the hearing in the above-entitled matter which has been heretofore postponed by the order issued herein on May 29, 1942, to a time and place to be hereafter designated, be, and the same hereby is, cancelled.

Dated: November 21, 1942.

THOS. SNEED COAL CO.

REVOCATION OF CODE MEMBERSHIP, ETC.

In the matter of Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, individually and as co-partners, doing business under the name and style of Thos. Sneed Coal Company, code member.

Order granting application filed pursuant to § 301.132 of the rules of practice and procedure before the division, cancelling hearing and revoking code membership.

A complaint dated March 24, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act") having been duly filed on March 27, 1942, by the Bituminous Coal Producers Board for District No. 15, a district board (the "complainant") with the Bituminous Coal Division (the "Division") alleging that Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, individually and as co-partners, doing business under the name and style of Thos. Sneed Coal Company, a Code Member (the "Code Member", which operated the Sneed Mine, Mine Index No. 386, located in Macon County, Missouri, District No. 15, wilfully violated the provisions of the Act, the Bituminous Coal Code (the "Code"), the Schedule of Effective Minimum Prices for District No. 15 for Truck Shipments (the "Schedule") for coals produced at said mine and rules and regulations promulgated by the Division pursuant to the Act, as more fully set forth in the complaint; and

The complaint and Notice of and Order for Hearing, dated April 13, 1942, having been duly served on the Code Member on April 18, 1942, and the hearing herein having been postponed, by order dated May 21, 1942, to a date and place to be thereafter designated by an appropriate order; and

An application of the Code Member for the disposition of this proceeding without formal hearing, dated August 11, 1942, pursuant to § 301.132 of the Rules of Practice and Procedure Before the Division, having been duly filed with the Division on August 13, 1942; and

Notice of the filing of said application, dated September 2, 1942, having been published in the FEDERAL REGISTER on September 4, 1942, pursuant to said § 301.132 and a conformed copy thereof having been duly mailed to the complainant herein; and

Said notice of filing having provided that interested parties desiring to do so might within fifteen days from the date of said notice, file recommendations or requests for informal conferences with respect to said application; and

It appearing that no such recommendations or requests have been filed with the Division within said fifteen day period; and

It appearing from said application that the Code Member admits wilful violations of the Act, the Code and regulations thereunder as follows:

1. Wilfully violated section 4 II (e) of the Act and Part II (e) of the Code by selling to John B. Brown during the period June 15 to October 27, 1941, both dates inclusive, 106.22 net tons of 1'' screening (Size Group No. 14) produced by the Code Member at its Sneed Mine, Mine Index No. 386, located in District No. 15 at less than the minimum price therefor established by the Division;

2. Wilfully violated Orders of the Division No. 296, dated September 23, 1940, and No. 297, dated October 22, 1940, during the period October 1 to December 31, 1940, both dates inclusive, by failing to maintain proper records and file with the Division reports of all coal sold and shipped by truck or wagon within the time and in the manner prescribed by said orders;

3. Wilfully violated Orders of the Division No. 307, dated December 11, 1940, during the period January 1 to March 31, 1941, both dates inclusive, and No. 312, dated February 24, 1941, during the period April 1 to October 27, 1941, both dates inclusive, by failing to maintain proper records of all coal sold and shipped by truck or wagon within the time and in the manner prescribed by said orders; and

It further appearing in said application that the Code Member represents that it has not, to the best of its knowledge, committed any violations of the Act, the Code or regulations thereunder other than those violations admitted and more particularly described in said application; and

It further appearing in said application that the Code Member upon the basis of the aforesaid admitted violations consents to the imposition under section 5 (b) of the Act of a tax in the amount of forty-five dollars and fifty-seven cents ($45.57), and agrees to pay said tax to the United States within ten days after the Code Member has been served with a copy of an order of the Division revoking its Code Membership; and

Now, therefore, pursuant to the authority vested in the Division by section 4 II (j) of the Act, authorizing it to adjust complaints of violations and to compose the differences of the parties

thereto, and upon the application of the Code Member dated August 11, 1942, pursuant to said § 301.132 of the Rules of Practice and Procedure, for disposition without formal hearing of the charges contained in the complaint herein which was filed with the Division on March 27, 1942, and upon evidence in the possession of the Division.

It is hereby found that:

A. The Code Member is a partnership composed of Thos. Sneed, Bill White, Terrence O'Donnell, and Arkell Sneed, and operates the Sneed Mine, Mine Index No. 386, located in Macon County, Missouri, District No. 15.

B. Said partnership filed with the Division on December 21, 1939, its Code Acceptance dated December 18, 1939. Said Code Acceptance became effective as of September 1, 1939.

C. Said Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, individually and as co-partners, doing business under the name and style of Thos. Sneed Coal Company, wilfully violated the Act, the Code and rules and regulations thereunder, as follows:

1. Said Code Member wilfully violated section 4 II (e) of the Act and Part II (e) of the Code, by selling during the period June 15 to October 27, 1941, both dates inclusive, to John B. Brown 106.22 net tons of 1'' screenings coal produced at its said mine, Mine Index No. 386, at 35 cents per net ton f. o. b. the mine and that the effective minimum price for said coal was $1.10 per net ton f. o. b. the mine;

2. Said Code Member wilfully violated Orders of the Division No. 296 dated September 23, 1940, and No. 297 dated October 22, 1940, during the period October 1 to December 31, 1940, both dates inclusive, by failing to maintain proper records and file with the Division reports of all coal sold and shipped by truck or wagon within the time and in the manner prescribed by said orders;

3. Said Code Member wilfully violated Orders of the Division No. 307 dated December 11, 1940, during the period January 1 to March 31, 1941, both dates inclusive, and No. 312 dated February 24, 1941, during the period April 1 to October 27, 1941, both dates inclusive, by failing to maintain proper records of all coal sold and shipped by truck or wagon within the time and in the manner prescribed by said orders; and

D. Pursuant to the provisions of section 5 (b) of the Act, the membership of Thos. Sneed Coal Company, a partnership consisting of Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, should be revoked with respect to the violations described in paragraph C above.

E. The amount of tax imposed by section 5 (b) of the Act with respect to the coal described in paragraph C 1 hereof, amounting to 106.22 net tons, and required to be paid as a condition precedent to the restoration of membership of Thos. Sneed Coal Company in the Code is $45.57, which amount is 39 per cent of the aggregate of the effective minimum prices of such coal f. o. b. said mine of $116.84.

Now, therefore, on the basis of the above findings and the said admissions and the consent filed by the Code Member, pursuant to § 301.132 of the Rules of Practice and Procedure.

It is ordered, That the aforesaid application of Thos. Sneed Coal Company be and the same hereby is granted; and

It is further ordered, That pursuant to section 5 (b) of the Act, the membership in the Code of Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, individually and as co-partners, doing business under the name and style of Thos. Sneed Coal Company, a partnership, be and it hereby is revoked and cancelled as of ten (10) days from the date of service of a copy of this order upon the Code Member; and

It is further ordered, That the hearing herein, heretofore postponed by Order dated May 21, 1942, to a date and place to be thereafter designated by an appropriate order, be, and the same hereby is cancelled; and

It is further ordered, That prior to the restoration of Thos. Sneed, Bill White, Terrence O'Donnell and Arkell Sneed, individually or as co-partners, doing business under the name and style of Thos. Sneed Coal Company to membership in the Code, there shall be paid to the United States a tax in the amount of forty-five dollars and fifty-seven cents ($45.57), as provided in section 5 (c) of the Act.

Dated: November 21, 1942.

DISTRICT BOARD 2

ORDER GRANTING MOTION FOR CONTINUANCE, CONTINUING HEARING AND REDESIGNATING EXAMINER

In the matter of the petition of District Board No. 2 for a change in minimum prices established for truck shipments for the coals of certain mines in District No. 2.

The above-entitled matter having been heretofore scheduled for hearing on November 25, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C., by a Notice of and Order for Hearing issued herein on October 26, 1942; and

A motion dated November 17, 1942, having been filed with this Division on said date by Bituminous Coal Producers Board for District No. 2, the petitioner herein, requesting that said hearing be continued until immediately following the hearing set for December 9, 1942, in Docket No. A–1720, in which the above-named party is also the petitioner; and

The Director deeming that good cause has been shown for the granting of said motion to the extent as hereinafter set forth, and for the continuance of said hearing; and

No petitions of intervention having been filed herein;

Now, therefore, it is ordered, That said motion be, and the same hereby is, granted to the extent indicated herein; and

It is further ordered, That said hearing be, and the same hereby is, continued to 10 o'clock in the forenoon of December 9, 1942, at the place heretofore designated; and

It is further ordered, That Edward J. Hayes shall preside at said continued hearing vice D. C. McCurtain.

Dated: November 23, 1942.

RATIONING OF FARM MACHINERY AND EQUIPMENT

[Ration Order C, Supp. Order 1]

NEW FARM MACHINERY AND EQUIPMENT

Pursuant to § 2.212 of Rationing Order C,[1] *It is hereby ordered*, That:

A. (1) Any manufacturer of the Schedule I equipment listed in this paragraph A may transfer without a purchase certificate to other manufacturers, distributors, mail order houses, or dealers, provided such transfers are not for use, or may transfer for use by the transferee upon presentation of a purchase certificate all of the Schedule I equipment listed in this paragraph A which was manufactured prior to the effective date of or in compliance with the provisions of War Production Board Order L-26[2] and 60 percent of any such manufacturer's authorized quota of such equipment under War Production Board Order L-170.[3] No manufacturer shall physically move or transfer (unless for purposes of storage in the county in which such equipment is located) the remaining 40 percent of his quota of the Schedule I equipment listed in this paragraph A, authorized to be manufactured under War Production Board Order L-170, except pursuant to further orders of the Secretary of Agriculture or of the Special War Board Assistant to the Secretary of Agriculture.

(2) Mail order houses, distributors, or dealers may accept transfers of any of the Schedule I equipment listed in paragraph A and may transfer any of the Schedule I equipment listed in paragraph A to any other distributor, mail order house, or dealer. Such acceptances of transfers and such transfers may be made without a purchase certificate, provided such acceptances and such transfers are not for use. Such distributors, mail order houses, or dealers may transfer such equipment for use by the transferee if a proper purchase certificate is presented. Manufacturers may accept transfers of such Schedule I equipment without purchase certificates, provided such transfers to such manufacturers are not for use.

(3) Each manufacturer shall keep records disclosing the number of items of each type of the Schedule I equipment listed in this paragraph A which he has transferred pursuant to this Supplementary Order No. 1. Such records shall disclose the persons to whom said equipment was transferred and such persons' addresses.

MACHINES FOR PREPARING CROPS FOR MARKET OR USE

- Stationary hay balers, horse

DOMESTIC WATER SYSTEMS

- Deep well:
  - Deep well, reciprocal.
  - Deep well, jet pumps.
- Shallow well:
  - 250-499 gals. per hour.
  - 500 gals. per hour and over.
- Power pumps:
  - Horizontal type, up to and including 75 gals. per minute, 100 lb. pressure.

FARM PUMPS AND WINDMILLS

- Windmill pumps.
- Windmill heads.
- Windmill towers.
- Pump jacks.

IRRIGATION EQUIPMENT

- Irrigation pumps:
  - Hydraulic rams.
- Distribution equipment:
  - Land leveling equipment, ditchers, corrugators and scrapers (excluding power ditchers, draglines and other self-powered machines).
- Portable pipe, extensions, and sprinklers.

B. (1) Any manufacturer of new metal milk cans and covers may transfer without a purchase certificate to other manufacturers, distributors, mail order houses, or dealers, provided such transfers are not for use, or may transfer for use by the transferee upon presentation of a purchase certificate, all metal milk cans and covers manufactured prior to the effective date of, and 70 percent of such manufacturer's production of metal milk cans and covers authorized by, War Production Board Order M-200.[4] Each such manufacturer shall distribute such milk cans and covers to the same distributors, mail order houses, or dealers, to whom such manufacturers distributed metal milk cans and covers in the calendar year 1941, and shall prorate the distribution of such milk cans and covers, the distribution of which is authorized by this order, to such persons on the basis of the percentage which the number of metal milk cans and covers of all types and sizes distributed by such manufacturer to such person in the calendar year 1941 bore to the total number of metal milk cans and covers produced by such manufacturer in the calendar year 1941. If any distributor, dealer, or mail order house to which such manufacturer distributed metal milk cans and covers in the calendar year 1941 is no longer in the business of buying and selling metal milk cans and covers, or does not desire to purchase metal milk cans and covers from such manufacturer, such manufacturer shall distribute the number of metal milk cans and covers which he is authorized by this order to distribute to any such persons to any other distributors, mail order houses, or dealers who will assure distribution in the same area in which such person was distributing in the calendar year 1941. No manufacturer shall physically move or transfer (unless for purposes of storage in the county in which such equipment is located) the remaining 30 percent of his quota of metal milk cans and covers authorized to be manufactured under War Production Board Order M-200, except pursuant to further orders of the Secretary of Agriculture or of the Special War Board Assistant to the Secretary of Agriculture.

(2) Mail order houses, distributors, or dealers may accept transfers of metal milk cans and covers and may transfer metal milk cans and covers to any other distributor, mail order house, or dealer. Such acceptances of transfers and such transfers may be made without a purchase certificate provided such acceptances and such transfers are not for use. Such distributors, mail order houses, or dealers may transfer such milk cans and covers for use by the transferee if a proper purchase certificate is presented. Manufacturers may accept transfers of such milk cans and covers without purchase certificates provided such transfers to such manufacturers are not for use. No manufacturer, mail order house, distributor, or dealer may accept a transfer of any metal milk cans and covers, unless such milk cans and covers have been distributed to him in compliance with this order.

(3) Each manufacturer shall keep records disclosing the number of metal milk cans and covers which he has transferred pursuant to this Supplementary Order No. 1. Such records shall disclose the persons to whom such equipment was transferred, and such persons' addresses.

C. Any manufacturer, distributor, mail order house, or dealer may accept transfers of Schedule I equipment listed in this paragraph C and may transfer Schedule I equipment listed in this paragraph C to any other manufacturer, distributor, mail order house, or dealer. Such acceptances of transfers and such transfers may be made without a purchase certificate provided such acceptances and such transfers are not for use. Such manufacturers, distributors, mail order houses, or dealers may transfer such equipment for use by the transferee if a proper purchase certificate is presented. Each such manufacturer, distributor, mail order house, or dealer shall, in the distribution of the Schedule I equipment listed in this paragraph C, comply with War Production Board Order M-21-b[5] insofar as that order is applicable to any such person.

FARM FENCING

- Barbed wire.
- Poultry netting.
- Poultry flooring.
- Woven or welded wire fence:
  - Hog and cattle fence.
  - Poultry fence.

D. This Supplementary Order No. 1 shall be deemed to be a part of Rationing Order C, and any violation of this Supplementary Order No. 1 shall constitute a violation of Rationing Order C.

E. This Supplementary Order No. 1 to Rationing Order C shall become effective November 28, 1942.

LEARNER EMPLOYMENT CERTIFICATES

CUSTOM HOSIERY MILLS

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective November 23, 1942.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the Regulations and as indicated on the certificate. Any person aggrieved by the issuance of these certificates may seek a review or reconsideration thereof.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-39]

CANNED FRUIT COCKTAIL

PROPOSED ORDER AMENDING DEFINITION AND STANDARD OF IDENTITY

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act [secs. 401, 701 (e); 52 Stat. 1046, 1055; 21 U.S.C. 341, 371 (e), 1940 ed.]; the Reorganization Act of 1939 [53 Stat. 561 ff.; 5 U.S.C. 133-133r (Supp. V, 1939)]; and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234); and upon the basis of evidence of record in the above-entitled proceeding and the record relating to Canned Fruit Cocktail hearing, Docket No. 27, the following order be made:

Findings of Fact

1. The regulation fixing and establishing a definition and standard of identity for fruit cocktail promulgated by order dated July 17, 1942, published in the FEDERAL REGISTER of July 21, 1942, provides for the use of the following packing media for fruit cocktail:

(1) Water;
(2) Fruit juice;
(3) Heavy sirup;
(4) Extra heavy sirup;
(5) Heavy fruit juice sirup; and
(6) Extra heavy fruit juice sirup.

2. The sweetened packing media provided for in said standard of identity are heavy sirup and heavy fruit juice sirup, which have a minimum density of 18° Brix 15 days or more after canning, and extra heavy sirup and extra heavy fruit juice sirup, which have a minimum density of 22° Brix 15 days or more after canning.

3. From the beginning most of the fruit cocktail sold to consumers has been packed in heavy sirup. About 85 percent of the 1941 pack was packed in that kind of packing medium.

4. By reason of the provisions of Rationing Order No. 3 as amended, issued by the Office of Price Administration, the quantity of sugar which may be used by any manufacturer of fruit cocktail for each common case of his total output of the product is 90 percent of the amount of sugar used per common case of his total output of the product during 1941.

5. The Federal Government purchases large quantities of fruit cocktail for lend-lease purposes and for use by the armed forces. It is anticipated that from 40 percent to 60 percent of the 1942 pack will be so purchased and, by virtue of War Production Board Orders M-86, M-86 (a), and M-237, such purchases are given priority over sales for civilian use. All the fruit cocktail so purchased is required to be packed in sirup and to comply with any applicable definition and standard of identity under the Federal Food, Drug, and Cosmetic Act.

6. The effect of these Government requirements and of O.P.A. Order No. 3 as amended is that, if said standard of identity for fruit cocktail is permitted to become effective, substantial quantities of the fruit cocktail available for civilian use after Government demands are met could only be packed in fruit juice or in water.

7. Fruit cocktail packed in fruit juice or in water is a specialty product which is used principally by persons who must restrict their consumption of sugars. Consumer demand has been relatively slight for this type of product, since most consumers prefer a sweetened product. Nor is enough fruit juice available for the purpose of packing a substantially larger quantity than heretofore of fruit cocktail in fruit juice.

8. Light sirup and light fruit juice sirup are liquid packing media for canned fruits and are of a density next lower to the density of heavy sirup and heavy fruit juice sirup. The minimum densities of such sirups vary with the variety of fruit, but such minima ordinarily are from 12° to 14° Brix 15 days after canning. Definitions and standards of identity have been prescribed by regulation for canned peaches and canned pears, which are ingredients of canned fruit cocktail. The minimum density prescribed for light sirup and for light fruit juice sirup in canned peaches and canned pears is 14° Brix 15 days after canning. Canned fruit cocktail packed in a sirup of a density of 14° Brix or more but less than 18° Brix 15 days or more after canning, would be of a substantial degree of sweetness and would be usable for customary purposes. The names "light sirup" and "light fruit juice sirup" are common or usual names for fruit canning sirups in this density range, and would be accurate and understandable designations for such sirups in fruit cocktail.

9. The use of light sirup and light fruit juice sirup in fruit cocktail would permit a substantially larger quantity of fruit cocktail to be packed in sirup than would be possible under the standard already promulgated and would tend to meet consumers' desire for a sweet product as distinguished from a product packed in water or fruit juice. Such sirups have become proper and acceptable packing media for canned fruit cocktail. A label statement indicating that fruit cocktail is packed in light sirup will adequately differentiate between such a packing medium and those heretofore used.

On the basis of the foregoing findings of fact, it is concluded that said definition and standard of identity for fruit cocktail promulgated by order dated July 17,

1942, and published in the FEDERAL REGISTER for July 21, 1942, should be amended so as to include light sirup and light fruit juice sirup as additional optional packing media for fruit cocktail and to provide that such optional packing media be named on the label; and that said definition and standard of identity, as so amended, will promote honesty and fair dealing in the interest of consumers.

Wherefore, paragraphs (c), (d) (6), (d) (7), (d) (8), and (e) (1) of § 27.040 are hereby revised and amended so as to read as follows:

Proposed Order

(c) The optional packing media referred to in paragraph (a) are as follows:

(1) Water;
(2) Fruit juice;
(3) Light sirup;
(4) Heavy sirup;
(5) Extra heavy sirup;
(6) Light fruit juice sirup;
(7) Heavy fruit juice sirup; and
(8) Extra heavy fruit juice sirup.

Each of packing media (3), (4), and (5) is prepared with water as its liquid ingredient, and each of packing media (6), (7), and (8) is prepared with fruit juice as its liquid ingredient. Except as provided in paragraph (d) (6), each of packing media (3) to (8), inclusive, is prepared with any one of the following saccharine ingredients: sugar; or any combination of sugar and dextrose in which the weight of the solids of the dextrose used is not more than one-half the weight of the solids of the sugar used; or any combination of sugar and corn sirup in which the weight of the solids of the corn sirup used is not more than one-third the weight of the solids of the sugar used; or any combination of sugar, dextrose, and corn sirup in which the weight of the solids of the dextrose used multiplied by 2, added to the weight of the solids of the corn sirup used multiplied by 3, is not more than the weight of the solids of the sugar used. The respective densities of packing media (3) to (8), inclusive, as measured on the Brix hydrometer 15 days or more after the fruit cocktail is canned are within the range prescribed for each in the following list:

Number of packing medium	*Brix measurement*
(3) and (6) --	14° or more but less than 18°
(4) and (7) --	18° or more but less than 22°
(5) and (8) --	22° or more but not more than 35°

(d) For the purposes of this section:

* * * * *

(6) When the optional packing medium is prepared with fruit juice and invert sugar sirup or corn sirup other than dried corn sirup, it shall be considered to be light sirup, heavy sirup, or an extra heavy sirup, as the case may be, and not a light fruit juice sirup, heavy fruit juice sirup, or an extra heavy fruit juice sirup.

(7) The term "light sirup", "heavy sirup", or "extra heavy sirup" includes a sirup which conforms in all other respects to the provisions of this section, in the preparation of which there is used the liquid drained from any fruit ingredient previously canned in a packing medium consisting wholly of the liquid and saccharine ingredients of a light sirup, heavy sirup, or extra heavy sirup.

(8) Except as provided in subparagraph (6) of this paragraph, the term "light fruit juice sirup", "heavy fruit juice sirup", or "extra heavy fruit juice sirup" includes a sirup which conforms in all other respects to the provisions of this section, in the preparation of which there is used the liquid drained from any fruit ingredient previously canned in a packing medium consisting wholly of the liquid and saccharine ingredients of light fruit juice sirup, heavy fruit juice sirup, or extra heavy fruit juice sirup.

* * * * *

(e) (1) The optional ingredients specified in paragraphs (b) (5) (ii) and (iii) and (c) (1) to (8), inclusive, are hereby designated as optional ingredients which, when used, shall be named on the label by the name whereby each is so specified.

Said regulations fixing and establishing a definition and standard of identity for fruit cocktail as hereby amended shall become effective on the ninetieth day after the date of publication of this order in the FEDERAL REGISTER except that the provisions of paragraph (e) (1) as they apply to the optional packing media specified in paragraph (c) (3) to (8), inclusive, shall become effective on August 1, 1943.

Any interested person whose appearance was filed at the hearing may, within 5 days from the date of publication of this proposed order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the Assistant General Counsel, Room 2242, South Building, 14th Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the proposed order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof.

Dated: November 21, 1942.

INTERSTATE COMMERCE COMMISSION.

COMMON CARRIERS

FILING OF GENERAL INCREASES IN RATES

NOVEMBER 21, 1942.

To all common carriers subject to Parts I, II and III of the Interstate Commerce Act:

The act approved October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes," contains the following provision:

> That no common carrier or other public utility shall make any general increase in its rates or charges which were in effect on September 15, 1942, unless it first gives thirty days' notice to the President, or such agency as he may designate and consents to the timely intervention by such agency before the Federal, State or municipal authority having jurisdiction to consider such increase.

Order No. 1, issued by Director of Economics Stabilization James F. Byrnes on October 14, 1942,[1] designates the Price Administrator of the Office of Price Administration to receive notices of such increases in common carrier rates and charges. In turn the Office of Price Administration has provided that two copies of such notices shall be addressed to: Transportation and Public Utilities Division of the Office of Price Administration, Washington, D. C.

For the information of the Commission and for the purpose of cooperating with the Office of Price Administration common carriers and their agents are requested, when filing with the Commission tariff publications which contain general increases as provided in the Price Control Act, to either (a) send to the Commission with the letter of transmittal accompanying such publications a copy of the notice to the Office of Price Administration of such increases; or (b) show on the letter of transmittal (or on a separate sheet accompanying such letter of transmittal) a statement indicating whether such publications contain any general increases in rates or charges and whether and on what date notice in accordance with the provisions of law has been sent to the Transportation and Public Utilities Division of the O.P.A.

[1] 7 F.R. 8757.

(a) Finding that Preussische Bernstein Manufactur, whose last known address was represented to the undersigned as being Koenigsberg, Germany, is a national of a designated enemy country (Germany);

(b) Finding that the Preussische Bergwerks und Huetten, A. G., whose last known address was represented to the undersigned as being Berlin, Germany, and which therefore is a national of a designated enemy country (Germany), was (prior to the vesting of such shares by the undersigned pursuant to Vesting Order Number 43 issued under date of July 1, 1942) the owner of 1,000 shares of the capital stock of Amber Mines, Inc., a New York Corporation, New York, New York, which is a business enterprise within the United States and which 1,000 shares constitute all the outstanding capital stock of said business enterprise and represent ownership thereof, and therefore determining that such business enterprise is a national of the aforesaid designated enemy country (Germany);

(c) Finding that all right, title, interest and claim of any name or nature whatsoever of Preussische Bernstein Manufactur in and to all indebtedness, contingent or otherwise, and whether or not matured, owing to it by said Amber Mines, Inc., including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness, is an interest in the aforesaid business enterprise held by a national of an enemy country, and also is property within the United States owned or controlled by a national of a designated enemy country (Germany);

(d) Determining that to the extent that such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Germany);

(e) Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

(f) Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the indebtedness described in subparagraph (c), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1053—FATS AND OILS

[General Preference Order M-71,[3] as Amended Nov. 24, 1942]

§ 1053.1 *General Preference Order M-71*—(a) *Definitions.* (1) "Fats and oils" means all the raw, crude, refined and pressed fats and oils, whether vegetable, animal, fish or other marine animal, their by-products and derivatives, including grease (lard) oil, sulfonated and similarly processed fats and oils, fatty acids, and lard and rendered pork fat, but not including cocoa butter, butter, wool greases, essential oils, tall oil, mineral oils, and vitamin-bearing oils derived from fish or other marine animal livers or viscera

(2) "Manufacturer" means any person who uses any fats or oils in the manufacture of any finished product, and shall include all other persons directly controlling or controlled by such person, and all persons under direct or indirect common control with such person. The term shall not include any crusher, renderer, refiner or other processor except as and to the extent that his operations result in the production of a finished product, and shall also not include any person who uses fats and oils in the home in the preparation of food for household consumption.

(3) The "inventory" of a manufacturer at any time shall include all fats and oils held or controlled by him and all fats and oils purchased by him for future delivery.

(4) "Finished product" means any product of a manufacturer produced for sale as his finished product and carried on his books as his finished product. Except for the purposes of paragraph (d) hereof, "finished product" shall not include: (i) grease (lard) oil; (ii) sulphonated or similarly processed fat or oil; (iii) fatty acids; (iv) lard or rendered pork fat; (v) any fat or oil product intended for sale to another manufacturer for further processing in the manufacture of, or for inclusion in, any product (excepting a product falling within paragraph (a) (4) (vi) hereof); (vi) any edible product of which a fat or oil is not the principal ingredient; (vii) any edible product produced by any hotel or restaurant for consumption on the premises; (viii) any medicinal preparation other than medicated soap.

(5) "Crusher" means any person who presses, expels, or extracts oils from any seed, bean, nut or corn or other oil-bearing materials.

(6) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, merchant and naval ships, tanks and vehicles) and any parts, assemblies, and material to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(b) Restrictions on manufacture. (1) [Revoked Nov. 24, 1942.]

(2) No manufacturer, except as provided in paragraph (b) (6) hereof, shall in any calendar quarter beginning with the last quarter of 1942, use or consume any fat or oil in any class of use listed in Schedule A annexed hereto in a quantity in excess of the percentage specified in such Schedule A of his average quarterly use or consumption of fats and oils in such class of use during the corresponding quarters of the two years, 1940 and 1941.

(3) If any manufacturer shall not in any quarter use or consume the quantity of fat or oil permitted by paragraph (b) (2) hereof, the unused part of his quota for such quarter shall for the purposes of such paragraph (b) (2) be carried forward and added to his permitted quota for the succeeding quarters; provided, however, that any unused part of his permitted quota for any prior quarter shall not be carried forward beyond June 30, 1943 and beyond the 30th day of June of each year thereafter.

(4) For the purpose of determining the quantity of raw foots which may be used or consumed, use or consumption shall be calculated on the basis of total fatty acid content.

(5) The restrictions on fats and oils hereby imposed are imposed with respect to fats and oils in the aggregate, and such restrictions are not to be construed to limit a manufacturer to the same fat or oil used or consumed by him in the base period.

(6) Nothing in paragraph (b) (2) hereof shall restrict:

(i) The use of fats and oils in any period or quarter by any manufacturer whose aggregate use or consumption of fats and oils in such period is less than 6,000 lbs.;

(ii) The use of fats and oils in the manufacture of any edible product delivered or to be delivered to the Army or Navy of the United States, or delivered or to be delivered pursuant to the Act of March 11, 1941, entitled "An act to promote the defense of the United States" (Lend-Lease Act), or the processing of fats and oils for delivery to another manufacturer for use in the manufacture of any such edible product: *Provided, however,* That this paragraph shall not exempt the use of fats and oils by any person other than the person having the prime contract with the Army or Navy or with the administrator of such Lend-Lease Act, unless the Quartermaster General of the Army or the Chief of the Bureau of Supplies and Accounts of the Navy, or the administrator of the Agricultural Marketing Administration (as the procurement agency for the administrator of such Lend-Lease Act), or the duly authorized representative of any of them, shall have issued to the manufacturer (whether prime contractor or subcontractor) who uses the fat or oil in the manufacture of the edible product contracted for, a certificate setting forth that such product is for direct Army or Navy issue or for delivery pursuant to such Lend-Lease Act and that the manufacture of such product will require a stated quantity of fats or oils, and designating the supplier or suppliers of such fats or oils to be exempted under the terms of this paragraph of this order.

(iii) The use of fats and oils in the manufacture of soap, including soap made from foots derived from domestic vegetable oils or their fatty acids, where such soap is delivered to the Army or Navy of the United States by the manufacturer or is delivered by such manufacturer, as a prime contractor, pursuant to such Lend-Lease Act.

[2] 7 F.R. 5909.
[3] 7 F.R. 7485, 8692, 9484.

(iv) The use of fats and oils in the manufacture, preparation or finishing of implements of war.

(7) For the purposes of determining a manufacturer's permissible use or consumption under paragraph (b) (2) hereof, there shall be excluded from the period or quarter during which use or consumption is hereby limited, any fat or oil used in the manufacture of the products referred to in subdivisions (ii), (iii) and (iv) of paragraph (b) (6) hereof, and there shall be excluded from the base period any fat or oil used by such manufacturer in such base period in the manufacture of any edible product or soap delivered by him to the Army or Navy of the United States or delivered by him, as a prime contractor, pursuant to such Lend-Lease Act, and there also shall be excluded from such base period any fat or oil used in the manufacture, preparation or finishing of implements of war.

(c) *Restrictions on deliveries of linseed oil.* (1) No person engaged in the business of selling linseed oil at wholesale (whether crushed or processed by him or purchased for resale) shall deliver in the aggregate to persons other than manufacturers during any calendar quarter, beginning with the fourth quarter of 1942, more linseed oil (whether raw or processed) than 70% of the average quarterly amount of linseed oil so delivered by him during the corresponding quarters of the two years, 1940 and 1941.

(2) In reducing deliveries pursuant to paragraph (c) (1) hereof, no person shall make discriminatory cuts as between customers, whether new or old.

(3) This order shall not restrict the delivery by any person of linseed oil to the Army or Navy of the United States or pursuant to such Lend-Lease Act, and any amount so delivered by him shall be excluded both from the base period on which his quota is based and from the period or quarter during which future deliveries are hereby limited.

(d) *Restrictions on processing and inventories.* (1) No manufacturer shall hereafter change the condition of any fat or oil in his raw materials inventory, or add any additional materials thereto, except to the extent necessary to store any such fat or oil in his raw materials inventory in a form necessary to prevent deterioration thereof, or except to put such fats or oils into process for the manufacture of his finished products subject to the limitations of paragraph (d) (2). Nothing contained in this paragraph shall be construed to limit the amount of fats and oils which may be held by any manufacturer in his raw materials inventory.

(2) No manufacturer shall hereafter increase the rate at which fats and oils are put into process by him, except to the extent necessary to meet the required deliveries of his finished products within the limitations established by this order, and to maintain only a practicable minimum working inventory of such finished products. The term "practicable minimum working inventory" is to be strictly construed. The mere fact that the turn-over has increased, or that materials are difficult to obtain, does not justify maintaining inventories above the minimum at which his operations can be continued.

(e) *Reports.* Every manufacturer and every other person affected by this order shall file such reports giving such information at such times and upon such form or forms as the Director General for Operations may from time to time prescribe.

(f) *Effect of other orders.* Insofar as any other order of the Director of Priorities, the Director of Industry Operations or the Director General for Operations, heretofore or hereafter issued, limits or curtails to a greater extent than herein provided the use, acquisition or disposition of any fat or oil, the limitations of such other order shall control.

(g) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Appeals.* Any persons affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, whether because of the absence of use during the two-year base period, or otherwise, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of fats or oils conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Director General for Operations by addressing a letter to this War Production Board, Chemicals Branch, Washington, D. C., Ref: M-71, setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Violations.* Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-71.

PART 1156—TOYS AND GAMES

[Limitation Order L-81[1] as Amended Nov. 24, 1942]

Section 1156.1 *General Limitation Order L-81* is hereby amended to read as follows:

§ 1156.1 *General Limitation Order L-81*—(a) *Definitions.* For the purposes of this order:

(1) "Toy or game" means any device, plaything, article or material commonly referred to as a toy or game, or any part made specifically for incorporation into such a toy or game, including but not limited to dolls, doll accessories, stuffed animals, adults' and children's games, (including but not limited to playing cards, dice, poker chips, mahjong and ouija boards), juvenile art sets and materials, juvenile craft sets and materials, juvenile science sets and materials, masquerade costumes or accessories, tricks, puzzles, puzzle sets, magic sets, children's play vehicles, Christmas lighting decorations (including but not limited to series circuit strings, parallel circuit strings, candles, wreaths, etc., for decorative purposes), non-illuminated Christmas tree ornaments or stands, sleds, models, model building parts, model airplanes, accessories or kits, toy furniture, and juvenile playground and gymnasium equipment (other than that used by clubs, schools, and institutions), but not including sporting goods or athletic equipment.

(2) "Class A product" means any toy, game or any part made specifically for incorporation into such a toy or game, containing iron or steel equal to more than 7% by weight of the toy, game or part. (Containers, fillers, wrappers and other packaging materials are not to be considered as part of the product for the purposes of determining its weight.)

(3) "Prohibited material" means:

(i) Alloy steels (as defined in Order M-21-a).

(ii) Chromium plating. (Composite coating of chromium plus undercoating of another metal.)

(iii) Copper whether or not used for the conduction of electricity.

(iv) Cork.

(v) Silk.

(vi) Urea plastics.

(vii) Antimony.

(viii) Phenolic plastics.

(ix) Tin.

(x) Zinc.

(xi) Rubber.

(xii) Silver.

(xiii) Iron and steel.

(4) "Repair or replacement part" means any part made specifically for incorporation into a toy or game which is not produced for or used in a new toy or game.

(5) "Joining hardware" means the minimum amount of iron and steel required for nails, nuts, bolts, screws, clasps, rivets and similar joining purposes.

(6) "Manufacturer" means any person who processes, fabricates, works on or assembles any materials for use in the production of toys, games or parts made specifically for incorporation into toys or games.

(b) *General restrictions.* (1) On and after November 24, 1942, no manufacturer shall process, fabricate, work on or assemble any toys, games or repair or replacement parts containing any prohibited materials other than joining hardware.

(2) During the month of December, 1942, no manufacturer shall use more joining hardware in his aggregate production of toys, games and repair or replacement parts than 100% of the average monthly weight of joining hardware used by such manufacturer in his aggregate production of toys, games and repair or replacement parts other than Class A products during 1941.

(3) During the three months period beginning January 1, 1943 and during each three months period thereafter, no manufacturer shall use more joining hardware in his aggregate production of toys, games and repair or replacement parts than 25% of the weight of joining hardware used by such manufacturer in his aggregate production of toys, games and repair or replacement parts other than Class A products during 1941.

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Appeal.* Any appeal from the provisions of this order shall be filed on Form PD-500 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(i) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Director of Priorities, the Director of Industry Operations, or the Director General for Operations limits the use of any material in the production of toys or games to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed be addressed to the War Production Board, Consumers' Durable Goods Branch, Washington, D. C., Ref: L-81.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 24th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1072—SOLE LEATHER

[Supplementary Order M-80-e]

§ 1072.6 *Supplementary Order M-80-e.* Pursuant to paragraph (b) (1) of Order M-80 as amended to August 5, 1942, which this order supplements, each person tanning sole leather for his own account or causing sole leather to be tanned for his account by others shall set aside during the period from December 1, 1942 to December 31, 1942, inclusive, at least 20% of the quantity of manufacturers bends produced by him for his own account, or produced for his account by others, during that period. The weight and quality of said portion set aside shall be proportionately equal, as nearly as can be, to those of the manufacturers bends not so set aside.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 25th day of November 1942.

PART 1290—SHIRTS (EXCLUSIVE OF WORK SHIRTS) AND PAJAMAS

[General Limitation Order L-169]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of wool, silk, rayon, cotton and linen for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1290.1 *General Limitation Order L-169*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* (1) "Put into process" means the first cutting operation of material in the manufacture of shirts or pajamas.

(2) "Shirts" means all men's and boy's shirts except shirts customarily graded as work shirts.

(3) "Pajamas" means any garment of the type customarily used by men and boys for sleeping, including garments consisting of a coat and pants, nightgowns, sleep coats, sleep slacks, sleep shirts, and lounging pajamas and suits.

(4) Measurements set forth in this order shall refer to finished measurements after all manufacturing operations have been completed and the garment is ready for shipment.

(5) "Preshrunk fabrics" means fabrics which have a residual shrinkage of not more than 2% as determined by test methods for shrinkage given in "Woven Textile Fabrics, Testing and Reporting, Commercial Standard CS59-41" issued by the National Bureau of Standards, U. S. Department of Commerce.

(6) "Unshrunk fabrics" means fabrics which have a residual shrinkage of more than 2% as determined by test methods for shrinkage given in "Woven Textile Fabrics, Testing and Reporting, Commercial Standard CS59-41" issued by the National Bureau of Standards, U. S. Department of Commerce.

(7) Unless otherwise expressly defined, all trade terms shall have their usual and customary trade meanings.

(c) *General provision with respect to finished garments.* The prohibitions and restrictions of this order shall not apply to articles of apparel, the cloth for which was put into process prior to December 15, 1942, or to articles of apparel in existence on that date, or to sales of second-hand garments.

---

[1] 7 F.R. 2471, 2679, 3444, 6206.

(d) *General exceptions.* The prohibitions and restrictions of this order shall not apply to:

(1) Apparel for persons of heights of over 6 feet 2 inches, of abnormal size, or with physical deformities, but only to the extent that it is necessary to use in such apparel additional material for proportionate lengths or other dimensions.

(2) Historical costumes for theatrical productions, *Provided, however,* That no apparel manufactured or sold pursuant to this subparagraph shall be used for any purposes other than those for which it was so manufactured or sold unless altered to conform to the provisions of this order applicable to such other use.

(3) Apparel manufactured from knitted fabrics.

(4) Any apparel manufactured for, and to be delivered to, or for the account of the Army or Navy of the United States.

(5) Military apparel to be delivered to or for the account of any agency of the United States Government to be delivered by it to the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(6) Apparel forming part of "officers uniforms" as defined in Preference Rating Order P–131, as amended from time to time.

(7) Shirts or pajamas manufactured in the home except when made for sale or for a contractor or jobber or other person who sells shirts.

(e) *Curtailments on shirts.* No person shall, after December 15, 1942, put into process, or cause to be put into process by others for his account, any cloth for the manufacture of, and no person shall sell or deliver any:

(1) Shirts with a bi-swing or box-pleated back or a back of any design or pattern which increases the use of piece goods beyond that used by a regular standard back.

(2) Shirts exceeding in length 30 inches for shrunk fabrics and 31½ inches for unshrunk fabrics.

(3) Shirts with a demi- or pleated bosom.

(f) *Curtailments on pajamas.* No person shall, after December 15, 1942, put into process or cause to be put into process by others for his account, any cloth for the manufacture of, and no person shall sell or deliver any:

(1) Pajamas with cuffs on the trousers or sleeves.

(2) Pajamas with sashes, other than a drawstring.

(3) Pajamas with frogs, decorations or pipings.

(4) Pajamas in any styles other than: collarless coat, collarless middy, nightgowns and sleep coats, sleep slacks, sleep shorts, and half sleeve knee length versions of any of the above styles.

(5) Men's pajamas, other than nightgowns and sleep coats, with coat lengths exceeding 29 inches or trouser out seam measurements exceeding 43 inches for a size C, with other sizes in normal proportion.

(g) *Restriction on packing.* No manufacturer shall, after December 15, 1942, pack or fold any shirt:

(1) With a standing or set-up collar.

(2) Except in a flat fold.

(h) *Records and reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time.

(i) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C. Reference L–169.

(k) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(l) *Effective date.* This order shall take effect on December 15, 1942, at 12:01 a. m.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 25th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 3093—GOLD MINING

[Limitation Order L–208 as Amended Nov. 25, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export which are used in the maintenance and operation of gold mines; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3093.1 *Limitation Order L–208*—(a) *Definitions.* For the purposes of this order

(1) "Nonessential mine" means any mining enterprise in which gold is produced, whether lode or placer, located in the United States, its territories or possessions, unless the operator of such mining enterprise is the holder of a serial number for such enterprise which has been issued under Preference Rating Order P–56.

(2) With respect to any nonessential mine, "effective date" means October 8, 1942, or the date of cancellation by the Director General for Operations of the serial number for such mining enterprise, whichever is the later.

(b) *Restrictions upon production.* (1) On and after the effective date, each operator of a nonessential mine shall immediately take all such steps as may be necessary to close down, and shall close down, in the shortest possible time, the operations of such mine.

(2) In no event on or after seven days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to break any new ore or to proceed with any development work or any new operations in or about such mine.

(3) In no event on or after sixty days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to remove any ore or waste from such mine, either above or below ground, or to conduct any other operations in or about such mine, except to the minimum amount necessary to maintain its buildings, machinery, and equipment in repair and its access and development workings safe and accessible.

(4) The provisions of this order shall not apply to any lode mine which produced 1200 tons or less of commercial ore in the year 1941, provided the rate of production of such mine, after the effective date, shall not exceed 100 tons per month, nor to any placer mine which treated less than 1000 cubic yards of material in the year 1941, provided that the rate of treatment of such placer mine, after the effective date, shall not exceed 100 cubic yards per month.

(5) Nothing contained in this order shall limit or prohibit the use or operation of the mill, machine shop, or other facilities of a nonessential mine in the manufacture of articles to be delivered pursuant to orders bearing a preference rating of A–1–k or higher, or in milling ores for the holder of a serial number under Preference Rating Order P–56.

(6) Nothing contained in this order shall prohibit any owner of a mining claim from performing not more than the minimum assessment work required by the provisions of section 2324 of the Revised Statutes of the United States and by Public No. 542, 77th Congress, 2d Session.

(c) *Restrictions on application of preference ratings.* No person shall apply any preference rating, whether heretofore or hereafter assigned, to acquire any material or equipment for consumption or use in the operation, maintenance, or repair of a nonessential mine, except with the express permission of the Director General for Operations issued after application made to the Mining Branch, War Production Board.

(d) *Assignment of preference ratings.* The Director General for Operations, upon receiving an application in accordance with paragraph (c) above, may assign such preference ratings as may be required to obtain the minimum amount of material necessary to maintain such nonessential mine on the basis set forth in paragraph (b) (3) above.

(e) *Restrictions on disposition of machinery and equipment.* No person shall sell or otherwise dispose of any machinery or equipment of the types listed in Schedule A to Preference Rating Order P–56, which has been used in a nonessential mine, and no person shall accept delivery thereof, except with specific permission of the Director General for Operations. On or before January 18, 1943, or within sixty days after the effective date, whichever is later, each operator of a nonessential mine shall file with the War Production Board, Washington, D. C., Reference: L–208, an itemized list of such machinery and equipment, signed by such operator or an authorized official, indicating each item available for sale or rental. Upon receipt of such itemized list, the War Production Board will furnish to the operator appropriate forms to be filled out for each item which the operator desires to dispose of.

(f) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventory, acquisition, consumption, and use of materials, and production of ore, and shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications.* All reports to be filed, appeals, and other communications concerning this order should be addressed to: War Production Board, Mining Branch, Washington, D. C., Ref.: L–208.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by a fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, by letter, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 25th day of November 1942.

PART 3134—DAIRY PRODUCTS

[Conservation Order M–259]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of milk and milk products for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3134.1 *Conservation Order M–259*—(a) *Definitions.* For the purposes of this order:

(1) "Producer" shall mean any person who is engaged in the business of:

(i) Pasteurizing milk or cream,

(ii) Producing dairy products, for sale, by processing milk or cream in a plant not located on a farm where the milk was produced,

(iii) Bottling raw or pasteurized cream in glass or paper containers, or

(iv) Selling cream in bulk containers to hotels, institutions, or restaurants;

Provided, however, That a farmer or ranch or herd owner who delivered an average of less than one gallon of cream per day in the three calendar months next preceding November 25, 1942, shall not be deemed a producer within the meaning of this order, until his deliveries of cream exceed one gallon per day in any calendar month.

(2) "Milk" means the liquid milk of cows.

(3) "Cream" is the class of foods defined by Federal Security Agency in Title 21, Code of Federal Regulations, §§ 18.500–18.515; 5 F.R. 2443. The term "cream" includes cream by whatever name known, including light cream, coffee cream, table cream, whipping cream, and heavy cream.

(4) "Milk fat content" shall be determined as prescribed by the Federal Security Agency in Title 21, Code of Federal Regulations, § 18.500; 5 F.R. 2443.

(b) *Restrictions on producers.* No producer may deliver cream having a milk fat content in excess of 19% except to another producer.

(c) *Exceptions.* Notwithstanding paragraph (b) hereof, in any state where by law or administrative regulation in force on November 25, 1942, the milk fat content of cream of minimum milk fat content is required to exceed 18%, a producer may deliver to any person cream having a milk fat content not exceeding by more than 1% the minimum so required by such state law or administrative regulation on November 25, 1942.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal.

(e) *Reports.* Any person affected by this order shall file such reports and questionnaires as the War Production Board may request from time to time.

(f) *Records.* Every person to whom this order applies shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: "War Production Board, Food Branch, Washington, D. C. Ref: M–259."

Chapter XI—Office of Price Administration

PART 1314—RAW MATERIALS FOR SHOES AND LEATHER PRODUCTS

[MPR 141,[1] Amendment 1]

RAW SHEARLINGS AND TANNED SHEARLINGS FOR THE ARMED FORCES

A statement of the considerations involved in the issuance of this amendment is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The title of this regulation is amended by the deletion therefrom the word "domestic." Section 1314.101 is amended, in § 1314.109 (a) new subparagraph (4) is added, and new §§ 1314.113 and 1314.110a are added as set forth below:

§ 1314.101 (a) *Maximum prices for domestic raw shearlings.* On and after May 13, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver domestic raw shearlings, and no person shall buy or receive domestic raw shearlings in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1314.111; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of domestic raw shearlings to a purchaser if prior to May 13, 1942 such domestic raw shearlings had been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) *Maximum prices of raw shearlings for import.* On and after November 25, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall buy or receive raw shearlings for import into the United States at prices higher than the maximum prices set forth in Appendix C hereof, incorporated herein as § 1314.113; and no person shall agree, offer, solicit or attempt to do any of the foregoing. This paragraph (b) shall not apply to sales of raw shearlings after their arrival in the United States.

§ 1314.109 *Definitions* (a) * * *

(4) "Raw shearling for import" means the untanned skin of a sheep or lamb, with a wool length of two inches or less, slaughtered outside the continental United States, the importation of which is sought as a shearling under General Import Order M-63[2] issued by the War Production Board.

§ 1314.113 *Appendix C: Maximum prices of raw shearlings for import*—(a) *Method of determining maximum prices.* The maximum price of raw shearlings for import into the United States shall be the applicable base price set forth in paragraph (b) below increased or decreased by an amount not in excess of 10% of such base price. The amount of such increase or decrease in each case shall be determined by the Office of Price Administration in accordance with the standards of adjustment set forth in paragraph (c) of this section. Such determination shall be made upon consideration of the facts set forth in the importer's application to the War Production Board for an import license pursuant to the provisions of General Import Order M-63 issued by the War Production Board.

The maximum prices are f. o. b. port of shipment before deduction of any discount. These prices include any commission paid to the seller or his agent or to a foreign agent of the importer or his agent, except that in the case of shearlings imported from Australia, a commission of not more than 3% may be paid to the seller or his agent or to the foreign agent of the importer in addition to the applicable maximum price.

[Order 146 Under § 1499.3 (b) of GMPR]

PLASTIC SCREENING

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and § 1499.3 (b) of the General Maximum Price Regulation, *It is hereby ordered:*

§ 1499.1162 *Authorization to manufacturers of plastic screening.* (a) Specific authorization is hereby given to any manufacturer of plastic screening to determine the maximum price for any such screening sold by him and for which the maximum price cannot be established under § 1499.2 of the General Maximum Price Regulation, by the following formula:

(1) The price-determining method which was in use on March 31, 1942, for the product sold or offered for sale by the manufacturer on March 31, 1942,

---

*Copies may be obtained from the Office of Price Administration.

most comparable to plastic screening, applying the overhead rate, machine hour rates, if any, or other bases of computation which were in use on that date.

(2) To the extent that the price-determining method includes or is based on direct labor costs, the manufacturer shall use labor rates in effect on March 31, 1942.

(3) To the extent that the price-determining method includes or is based on prices paid for materials, the manufacturer shall use material prices determined in accordance with subdivisions (i) and (ii) below. The term "material prices" includes the prices for raw materials and for materials or products which have been processed or fabricated to any degree, including parts and subassemblies.

(i) Except as provided in subdivision (ii) below, the manufacturer shall use the lower of the following two prices: the price for the material which was or would have been paid by him on March 31, 1942 or the actual price for such material paid or to be paid, not in excess of the applicable maximum price.

(ii) For any processed or fabricated part or subassembly purchased, the manufacturer shall use the actual price of such part or subassembly paid or to be paid, not in excess of the applicable maximum price as established by this order or by any other order or Maximum Price Regulation issued by the Office of Price Administration.

(4) To the extent that the price-determining method includes freight rates paid, the manufacturer shall use freight rates in effect on March 31, 1942, for out-bound shipments for the mode of transportation actually used and for in-bound shipments for the mode of transportation actually used and from the actual point of origin.

(5) All applicable extra charges, discounts, or other allowances in use on March 31, 1942.

(b) Within ten days after the maximum price has been determined in accordance with this order, each manufacturer shall report its price to the Office of Price Administration, stating that the price was determined in accordance with the formula set forth in paragraph (a) and setting forth in detail the calculations made in determining that price.

(c) The maximum prices determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(d) This Order No. 146 may be revoked or amended by the Office of Price Administration at any time.

(e) This Order No. 146 (§ 1499.1162) shall become effective November 25, 1942.

Part 1305—Administration

[Supp. Order 29]

RETAIL ECONOMY

The retail sale of consumer goods is an essential function which must be maintained during the war emergency. Some of the special services customarily offered by retailers in connection with the sale of articles are essential in wartime. Others can be dispensed with.

The Office of Price Administration is recommending that retailers adhere to certain "Standards of Retail Practice." The observance of these standards will enable retailers to achieve substantial economies, conserve material and existing facilities, and free labor for more direct participation in the war effort.

Questions have arisen and will arise as to whether the curtailment or discontinuance of certain services customarily offered by retailers in connection with the sale of articles is in violation of the Office of Price Administration's price regulations. Certain changes in services connected with the offer of articles for sale at retail cannot be made without a compensating reduction in the ceiling price. It is the purpose of this Supplementary Order No. 29 to state clearly and authoritatively what retail economies are permissible without any reduction in ceiling prices. As to any service or practice connected with the retail sale of articles which is not specifically dealt with herein, an interpretation may be secured from the Office of Price Administration pursuant to § 1300.52 of Revised Procedural Regulation No. 1.[1]

A statement of the reasons for issuing this Supplementary Order No. 29 has been issued simultaneously herewith and filed with the Division of the Federal Register.* Pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250: *It is hereby ordered:*

§ 1305.34 *Permitted and prohibited curtailment, change or discontinuance of certain retail services without a compensating reduction in ceiling price*—(a) *Application of order.* This order shall apply to (and only to) all sales of articles at retail regardless of any applicable "price regulation", except to the extent that any such regulation expressly requires a different result.

(b) *Effect of order.* Any retailer may, without reducing his ceiling price, curtail, change or discontinue services as described in paragraph (c). He may not, however, begin to charge for those services which he "customarily" supplied without extra charge, nor may he increase any service charges which he is permitted to make under any applicable price regulation.

(c) *Services which can be curtailed, changed or discontinued*—(1) *Deliveries.* (i) Deliveries which must be curtailed, changed or discontinued so that the retailer can comply with any order of the Office of Defense Transportation;

(ii) Deliveries of purchases made at any one time by a customer if those purchases are of a total size and weight which it is reasonable for an average person to carry away. But this does not permit the discontinuance of deliveries which the retailer has customarily made in cases of emergency, regardless of size and weight (for example, emergency purchases of prescriptions or doctors' supplies);

(iii) Deliveries of purchases which cannot be discontinued under subdivision (ii) may be reasonably curtailed as to frequency or otherwise reasonably changed. A retailer who customarily charged extra for deliveries may discontinue them entirely if he discontinues the extra charge. A retailer who customarily delivered without extra charge may discontinue deliveries which do not fall under subdivisions (i) and (ii) only if he reduces his ceiling prices by the amount which it costs the customer to have the articles delivered by the most usual and reasonable method.

(iv) In cases of doubt the Office of Price Administration will, upon request, inform retailers whether the standards or practices adopted by them under this subparagraph (1) are reasonable.

(2) Sales on approval.

(3) Acceptance of articles returned by customers. But this Supplementary Order does not affect a retailer's obligations under an applicable law to accept the return of articles which were not as represented or ordered or are returnable for other reasons.

(4) Gift wrapping; gift packaging.

(5) Lay-away or will call privileges.

(6) Free telephone calls.

(7) Services and conveniences supplied without relation to any specific sale or transaction; for example, free parking, instruction classes, style shows, store decorations, free concerts, free refreshments, air-conditioning, etc.

(d) *Services which cannot be curtailed or discontinued without a reduction of price.* No retailer who has customarily offered the following services without extra charge shall curtail, change or discontinue such services without reducing his ceiling price by an amount which will compensate the customer for such curtailment, change or discontinuance;

(1) Alteration or remodelling services; but where shortages resulting from the war make it impossible to continue such services, other services substantially filling the same need may be substituted.

(2) Repair, maintenance or installation services customarily sold with an article by way of guarantee, warranty or other agreement; but this order does not affect a retailer's obligations under a contract or an applicable law to continue to perform such services with relation to an article already sold.

(e) *Definitions.* (1) "Custom," "customary" and "customarily" refer to any practice of offering a service in connection with sales of articles at retail which a retailer had in effect (i) at the time a commodity became subject to a price regulation, or (ii) in the case of a commodity subject to a price regulation having a base period, during the base period of such regulation. Where such services were only offered during a particular selling season which next preceded the base period or the time of price control, that offer shall be deemed, in the absence of specific action to the contrary between such last selling season and the end of the base period or the time of price control, to have been in effect during the base period or at the time of price control.

(2) "Price regulation" means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, as amended, a maximum price regulation, temporary maximum price regulation or order issued by the Office of Price Administration.

(3) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and § 1499.20 of the General Maximum Price Regulation[2] shall apply to the terms used herein.

(f) *Effective date.* This supplementary Order No. 29 (§ 1305.34) shall become effective November 24, 1942.

§ 1394.2400 *Revocation of S1 and S2 Ration Books issued prior to November 9, 1942*. (a) All S1 and S2 rations books issued prior to November 9, 1942 are hereby revoked, and all coupons contained therein are hereby declared invalid as of November 15, 1942 for transfers of gasoline.

(b) Each holder of an invalidated S1 or S2 ration book shall attach such book together with all unused coupons therein to his application for the appropriate class of service ration book to be issued beginning November 9, 1942.

(c) In the event that a government agency returns an S1 ration book, invalidated as provided in this section, which had been issued for a valid period beyond November 15, 1942, and containing fewer coupons than such book should contain when prorated over the intended valid period, the Board, upon issuing the new appropriate service ration book, shall remove coupons therefrom based upon a valuation of one gallon for each invalidated coupon used in excess of the number which should have been used on such prorated basis.

(d) In the event that the holder of an S2 ration book, invalidated as provided in this section, which had been issued for a valid period beyond November 15, 1942 and containing fewer coupons than such book should contain when prorated over the intended valid period, the Board, upon issuing the new appropriate service ration book, shall remove coupons therefrom based upon a valuation of one gallon for each invalidated coupon used in excess of the number which should have been used on such prorated basis.

(e) Each Board, in removing coupons from the new service ration books pursuant to paragraphs (c) and (d) of this section, should, as far as possible, consult the convenience of the applicant as to the valid periods during which such coupons shall be removed.

(f) Each applicant shall have the right to prove that the excessive use of coupons of S1 and S2 ration books, now invalidated, was because of having rendered essential service connected with the war effort. Such proof shall be specific. Upon proof satisfactory to the Board, it shall restore coupons removed from the new book to the extent that such excessive use shall have been proved to have been essential to the war effort.

§ 1394.2401 *Service rations*. (a) Service rations shall be issued by the Boards to provide the total mileage allowed in accordance with § 1394.2403, providing the necessary gallonage of the classes of S ration books for the purposes specified for each class.

(1) *S1 Ration Books* for public cars or públicos, which on February 1, 1942, were licensed by the Department of the Interior of the Insular Government of Puerto Rico to carry passengers for hire and which are actually used for such purpose, and for which such Department shall have issued either a Special Permit or a Special Certificate.

(i) The Board may issue S1 ration coupons for such vehicle, although so licensed after February 1, 1942, if it is satisfied that such license was obtained in good faith and that the vehicle has been or will actually be used for the purpose for which it is licensed.

(ii) Any person obtaining an S1 ration book for the purpose of obtaining gasoline for use in such vehicle not intending to use such vehicle exclusively for the purpose for which such ration book shall have been obtained, or having obtained such ration book and not using the gasoline obtained thereby for the purpose or purposes for which such ration book was issued, shall be deemed guilty of a misdemeanor and, upon conviction, shall be fined not more than $10,000, or imprisoned for not more than one year, or both, and shall be subject to such other penalties as may be prescribed by law.

(2) *S2 Ration Books* for heavy trucks.

(3) *S3 Ration Books* for busses. S3 ration books shall be issued for the operation of a bus for which the Public Service Commission of the Insular Government of Puerto Rico has issued a Certificate of Necessity and Convenience, or for the continued operation of a bus as one of a fleet of busses which has been in continuous operation since November 1, 1941, over regular routes and for which no Certificate of Necessity and Convenience has been obtained.

(4) *S4 Ration Books* for light trucks, including ambulances and hearses.

(5) *S5 Ration Books* for motor vehicles, other than motorcycles, owned, leased, or operated by a Federal, Insular, municipal, or foreign government or government agency and used exclusively for the official business of such government or government agency. S5 ration books containing green (verde) coupons shall be issued for government passenger automobiles; S5 ration books containing gold (oro) coupons shall be issued for government light trucks; S5 ration books containing white (blanco) coupons shall be issued for government heavy trucks.

(6) *D Ration Books* marked "Service" for the operation of motorcycles.

§ 1394.2403 *Service Ration Books*. (a) The ration period for service rations and the number of coupons in each book shall be as follows:

(1) D ration books marked "Service" shall be six (6) months in length, shall commence on August 1, 1942, and shall end on January 31, 1943. Each book shall contain forty-eight (48) coupons, valid for transfer of gasoline during the valid period.

(2) Each S1 and S2 ration book shall contain eight (8) pages, each S3 and S4 ration book shall contain ten (10) pages, and each S5 ration book with green coupons shall contain fourteen (14) pages. Each page shall consist of eight (8) coupons. Each coupon shall have imprinted on its face the number of the S class of ration for which it is issued. All coupons on each page shall bear the consecutive number of the page in the ration book. Each S5 ration book with gold coupons shall contain twenty-eight (28) pages of coupons, coupons of the first two pages being numbered S5-1, the coupons on the next two pages being numbered S5-2, etc., so that there will be twice the number of S5 gold coupons valid for the same periods as contained in the S5 ration book with green coupons. Each S5 ration book with white coupons shall contain forty-two (42) pages of coupons, the coupons of the first three pages being numbered S5-1, coupons of the next three pages being numbered S5-2, etc., so that there will be three times the number of S5 white coupons valid for the same periods as contained in the S5 ration book with green coupons.

(3) Each coupon in each S class of ration book shall have imprinted on its face the serial number which appears on the cover of the book, and all coupons without such number printed thereon, and all S1 and S2 ration books issued prior to November 9, 1942, shall be invalid after November 14, 1942.

(4) The valid period of each coupon of each type of service ration shall be as follows:

Types of service ration	Coupons bearing number—	Valid periods
All	1	Nov. 15 to Nov. 21, 1942.

§ 1394.2405 *Issuance of service rations*. (a) The various classes of S ration books as defined in § 1394.2401, and, in the case of motorcycles, Class D ration books marked "Service", shall be issued on November 8, 1942 as service rations as follows:

(1) Service rations shall be issued by each Board for the unexpired pro rata weekly portions of the periods for which the respective service ration books shall be valid.

(2) Each person shall state his weekly requirements of gasoline computed on the following basis:

(i) Passenger automobiles, twelve (12) miles per gallon.

(ii) Light trucks, ten (10) miles per gallon.

(iii) Heavy trucks, eight (8) miles per gallon.

(iv) Busses, eight (8) miles per gallon.

(v) Motorcycles, thirty-five (35) miles per gallon.

(3) The Board shall compute the gallonage necessary for the mileage allowed by dividing the mileage allowed by the number of miles obtained per gallon, as set forth in subparagraph (2) hereof, except that the Boards shall, in the cases of busses and heavy trucks, give the gallonage, if so requested, on the basis of the average actual number of miles obtained per gallon, if it is satisfied beyond all reasonable doubt that such figure represents the average actual minimum mileage obtained per gallon by the most efficient possible operation of the bus or heavy truck.

(4) Each Board, in computing the requirements of an applicant for service rations, shall use the following gallonage values for each class, regardless of the values which the respective classes of coupons may have for the acquisition of gas at any time:

	Gallons
S1 coupon	3
S2 coupon	4
S3 coupon	8
S4 coupon	2
S5 coupon (any color)	2

(5) Each Board, in computing the requirements of an applicant for service rations, shall use the maximum number of books for each class of service rations, as set forth in paragraph (b) of this section.

(b) The maximum number of service ration books which may be issued by a Board on behalf of each vehicle during the valid period of each class of service ration book is as follows:

(1) *S1 Ration Book*. Not more than one (1) book, to provide the gallonage necessary for the minimum mileage required for the valid period, unless the Board is satisfied beyond a reasonable doubt that public necessity requires the issuance of an additional book, but in no event more than two (2) books.

(2) *S2 Ration Book*. Not more than one (1) book, to provide the gallonage necessary for the minimum mileage required for the valid period, unless for essential service rations, as provided for in § 1394.2406.

(3) *S3 Ration Book*. Sufficient S3 ration books to provide the gallonage necessary for the minimum mileage required for the valid period for the operation of each bus on the route, or according to the schedules prescribed for it by the Public Service Commission of the Insular Government, or for the continued operation of a bus as one of a fleet of busses which has been in continuous operation since November 1, 1941, over regular routes, and for which no Certificate of Necessity and Convenience has been obtained.

(4) *S4 Ration Book*. Not more than one (1) book, to provide the gallonage necessary for the minimum mileage required for the valid period, unless for essential service rations, as provided for in § 1394.2406.

(5) *S5 Ration Book*. Not more than one (1) S5 ration book, to provide the gallonage necessary for the minimum mileage required for the valid period. Each Board may receive applications for more than one S5 book. If the Board recommends that such application be granted, it may issue such additional book only after it shall have obtained the written authority in advance in each instance from the Director of the Office of Price Administration for Puerto Rico.

§ 1394.2451 *Application for special rations*. (a) * * * A special ration may be issued for any period not exceeding the current valid period of the appropriate class of ration book.

* * * * *

§ 1394.2601 *Value of coupons*. (a) Each gasoline ration coupon of the class hereinafter designated shall have the following value in gallons of gasoline:

Class:	Gallons
A	½
B	½
C	1½
D	½
E	1½
R	5
S1	3
S2	4
S3	8
S4	2
S5 (any color)	2
Gallon bulk	⅓
100-gallon bulk	33⅓

§ 1394.2907 *Restriction on transfers*. (a) Except as provided for in § 1394.2908 and in § 1394.2913, no dealer, intermediate distributor, or oil company shall transfer or offer to transfer to or shall receive a transfer of gasoline from any other dealer, intermediate distributor or oil company, except in exchange for a quantity of valid Exchange Certificates on Form OPA R-548, issued by Local Boards, at or before the time of actual delivery of the gasoline, equal in gallonage value to the amount of gasoline so transferred.

§ 1394.2908 *Night deliveries: third party deliveries*. (a) Where an oil company or intermediate distributor elects to make delivery of gasoline to a dealer when the dealer is not open for business, the dealer shall, when the exact amount of the delivery is known in advance, or immediately upon determining the exact amount of the delivery, mail or deliver to the transferor Exchange Certificates on Form OPA R-548, in an equal gallonage value.

§ 1394.2909 *Upstream transfers*. Any oil company or intermediate distributor who receives a transfer or return of gasoline from a dealer or intermediate distributor in Puerto Rico other than in connection with a transfer of the place of business of such dealer or intermediate distributor, shall deliver to such dealer or intermediate distributor a quantity of accumulated Exchange Certificates on Form OPA R-548 equal in gallonage value to the amount of gasoline so transferred or returned.

§ 1394.2910 *Preservation of coupons; coupon sheets*. (a) Each dealer shall affix the coupons received by him directly from consumers to a Coupon Sheet (Form OPA R-542) in the manner indicated thereon. Only coupons of one class shall be attached to any one sheet.

§ 1394.2912 *Summary of coupons*. (a) Each dealer shall, prior to every delivery by him of coupons and all other evidences to the Boards, in accordance with § 1394.2913, prepare, in duplicate on Form OPA R-541, a Summary of Coupons and the Acknowledgments, in the manner directed thereon, certifying the number of each type of coupon and the number of evidences to be delivered. The original of this summary shall be delivered to the Local Board by him, attached to the coupons and other evidences. The copy shall be retained by him at his place of business for a period of not less than one year.

§ 1394.2913 *Exchange of coupons for exchange certificates*. (a) Each dealer shall, from time to time, deliver to any Board all coupons or other evidences in his possession, together with a summary thereof on Form OPA R-541, as set forth in § 1394.2912, and shall receive in place thereof an Exchange Certificate (Form OPA R-548), of which a duplicate shall be retained by the Board for its files, which shall specify the total gallonage value of the coupons or other evidences and the total number of each class of coupons or other evidences.

(b) Each dealer shall, in accordance with paragraph (a) hereof, turn in all coupons or other evidences of any class or type, by not later than noon of the first Monday following the expiration of the valid period of any class of coupons or other evidences.

(c) No dealer shall deliver coupons or other evidences to any person other than to a Local Board.

(d) No Exchange Certificate shall be transferred at any time without an endorsement on the back thereof showing the date of the transfer, the names of the transferor and transferee, and the reason for the transfer.

§ 1394.3052 *Effective dates of amendments*. * * *

(j) Amendment No. 10 (§§ 1394.2400, 1394.2101 (a) (26), 1394.2401, 1394.2403, 1394.2405, 1394.2406 (a), 1394.2451 (a), 1394.2601 (a), 1394.2907 (a), 1394.2908, 1394.2909, 1394.2910, 1394.2912, 1394.2913) to Ration Order No. 5B shall become effective at 6:00 P. M. on November 9, 1942.

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulations, Supp. Amendment 6A]

HOTELS AND ROOMING HOUSES

Sections 1388.1503, 1388.1553, 1388.1603, 1388.1853, 1388.1903, 1388.1953, 1388.2003, 1388.3003, 1388.4003, 1388.5003, 1388.6003, 1388.7003, 1388.8003, 1388.9003, 1388.83, 1388.183, 1388.333, and 1388.433 of Maximum Rent Regulations Nos. 21A, 22A, 23A, 29A, 30A, 31A, 32A, 34A, 36A, 38A, 40A, 42A, 44A, 46A, 48A, 50A, 54A, and 56A, respectively, are amended to read as follows:

Minimum services, furniture, furnishings and equipment. Except as set forth in section —,[2] every landlord shall, as a minimum, provide with a room the same essential services, furniture, furnishings and equipment as those provided on the date or during the thirty-day period determining the maximum rent, and as to other services, furniture, furnishings and equipment not substantially less than those provided on such date or during such period: *Provided, however,* That where fuel oil is used to supply heat or hot water for a room, and the landlord provided heat or hot water on the date or during the thirty-day period determining the maximum rent, the heat and hot water which the landlord is required to supply shall not be in excess of the amount which he can supply under any statute, regulation or order of the United States or any agency thereof which rations or limits the use of fuel oil.

Paragraph (b) and subparagraph (3) of paragraph (c) of §§ 1388.1505, 1388.1555, 1388.1605, 1388.1855, 1388.1905, 1388.1955, 1388.2005, 1388.3005, 1388.4005, 1388.5005, 1388.6005, 1388.7005, 1388.8005, 1388.9005, 1388.85, 1388.185, 1388.335, and 1388.435 of Maximum Rent Regulations Nos. 21A, 22A, 23A, 29A, 30A, 31A, 32A, 34A, 36A, 38A, 40A, 42A, 44A, 46A, 48A, 50A, 54A, and 56A, respectively, are amended to read as follows:

* * * * *

(b) (1) If, on the effective date of this Maximum Rent Regulation, the services provided for a room are less than the minimum services required by section —[8], the landlord shall either restore and maintain such minimum services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. If, on December 1, 1942, the furniture, furnishings or equipment provided with a room are less than the minimum required by section —[3], the landlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment: *Provided,* That this requirement shall not apply where a proceeding to decrease the rent on account of such decrease in furniture, furnishings or equipment is pending before the Administrator on that date or has been theretofore disposed of.

(2) Except as above provided, the landlord shall, until the room becomes vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the room becomes vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph may be decreased in accordance with the provisions of section —.[4] If the landlord fails to file the petition or report required by this paragraph within the time specified, or decreases the services, furniture, furnishings or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or December 1, 1942, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings or equipment. In such case, any order decreasing the maximum rent shall be effective to decrease such rent from the beginning of the first rental period after the decrease in services, furniture, furnishings or equipment or after December 1, 1942, whichever is the later. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the act for failure to comply with any requirement of this paragraph.

* * * * *

(c) * * *

(3) There has been a decrease in the minimum services, furniture, furnishings or equipment required by section —[5] since the date or order determining the maximum rent.

1388.235, 1388.285, and 1388.385 of Maximum Rent Regulations Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 24, 25, 26, 27, 28, 33, 35, 37, 39, 41, 43, 45, 47, 49, 51, 53, and 55, respectively, are amended to read as follows:

(a) * * *

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent. No increase in the maximum rent shall be ordered on the ground set forth in this paragraph (a) (3) unless the increase in services, furniture, furnishings or equipment occurred with the consent of the tenant or while the accommodations were vacant: *Provided*, That an adjustment may be ordered, although the tenant refuses to consent to the increase in services, furniture, furnishings or equipment, if the Administrator finds that such increase (i) is reasonably required for the operation of a multiple dwelling structure or other structure of which the accommodations are a part or (ii) is necessary for the preservation or maintenance of the accommodations.

* * * * *

(b) (1) If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than the minimum services required by section —[2], the landlord shall either restore and maintain such minimum services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. If, on December 1, 1942, the furniture, furnishings or equipment provided with housing accommodations are less than the minimum required by section —[2], the landlord shall, within 30 days after such date, file a written report showing the decrease in furniture, furnishings or equipment: *Provided*, That this requirement shall not apply where a proceeding to decrease the rent on account of such decrease in furniture, furnishings or equipment is pending before the Administrator on that date or has been theretofore disposed of.

(2) Except as above provided, the landlord shall, until the accommodations become vacant, maintain the minimum services, furniture, furnishings and equipment unless and until he has filed a petition to decrease the services, furniture, furnishings or equipment and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, furniture, furnishings or equipment he shall file a petition within 10 days after the change occurs. When the accommodations become vacant the landlord may, on renting to a new tenant, decrease the services, furniture, furnishings or equipment below the minimum; within 10 days after so renting the landlord shall file a written report showing such decrease.

(3) The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by this paragraph may be decreased in accordance with the provisions of section —.[3] If the landlord fails to file the petition or report required by this paragraph within the time specified, or decreases the services, furniture, furnishings or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or December 1, 1942, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by any order decreasing the maximum rent on account of such decrease in services, furniture, furnishings or equipment. In such case, any order decreasing the maximum rent shall be effective to decrease such rent from the beginning of the first rental period after the decrease in services, furniture, furnishings or equipment or after December 1, 1942, whichever is the later. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the Act for failure to comply with any requirement of this paragraph.

(c) * * *

(3) There has been a decrease in the minimum services, furniture, furnishings or equipment required by section —[4] since the date or order determining the maximum rent.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[MPR 136,[1] as Amended, Amendment 56]

MACHINES AND PARTS AND MACHINERY SERVICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1390.5, paragraph (b) is amended to read as set forth below:

§ 1390.5 *Maximum prices: published or confidential price lists.* * * *

(b) *Reports.* On or before August 1, 1942, every manufacturer, seller, and lessor subject to this Maximum Price Regulation No. 136, as amended, shall file with the Office of Price Administration, Washington, D. C., if he has not already done so, all his published and confidential price, rental, and discount sheets in effect on October 1, 1941, for machines and parts. However, the manufacturer of any machine or other mechanical device shall not be required under this Maximum Price Regulation No. 136, as amended, to file list prices in effect on October 1, 1941, for repair parts for such machines or mechanical devices or for tools used in the maintenance and repair of such machines or mechanical devices, unless such filing is specifically required by the Office of Price Administration. Any person who on October 1, 1941, sold, leased, or delivered machines or parts at prices based upon price sheets published by any other person subject hereto need not file such other person's published price sheets but shall file instead a statement identifying the particular price sheets he used on that date, together with his own discount sheets, if any, and a statement of any prices which constitute exceptions to such practice.

§ 1390.31a *Effective dates of amendments.* * * *

(eee) Amendment No. 56 (§ 1390.5 (b)) to Maximum Price Regulation No. 136, as amended, shall become effective July 22, 1942.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1400.78 subparagraph (42) of paragraph (c) is amended, and a new subparagraph (45) is added; in § 1400.81 subparagraph (14) of paragraph (a) is amended and a new subpagraph (21) is added; in paragraph (g) of § 1400.82 a new subdivision (v) is added to subparagraph (1), a new subdivision (ii) is added to subparagraph (2) and a new Table Ia is added, subdivision (vi) of subparagraph (2) of paragraph (i) is amended, paragraph (r) is amended, and a new paragraph (s) is added, as set forth below:

§ 1400.78 *Exempt sales.* The provisions of this Maximum Price Regulation No. 127 shall not apply to:

* * * * *

(c) Sales or purchases of:

* * * * *

(42) Woven or printed decorative pattern fabrics composed in an amount of 75% or more by weight of synthetic yarn, and sold exclusively for use by necktie manufacturers: *Provided*, That any person selling such fabrics shall, on or before August 31, 1942, file his name and address with the Office of Price Administration, Washington, D. C., certifying that only such fabrics as are sold exclusively for use by necktie manufacturers will be sold hereunder: and *Provided further*, That any such person shall also file with the Office of Price Administration, before the 10th day of each month, a report showing the total yards per pattern of finished piece goods delivered under such exemption during the preceding month.

* * * * *

(45) Fabrics coated or impregnated with paraffin wax or similar substance and used as a substitute for glass, when sold by wholesalers or jobbers.

§ 1400.81 *Definitions.* (a) When used in this Maximum Price Regulation No. 127, the term:

* * * * *

(14) "Loom-finished fabrics" means yarn-dyed or warp-printed piece goods which (i) are woven on a non-automatic loom; (ii) are made from warps of 800 yards or less; (iii) are woven on the basis of 6 looms or less per weaver; (iv) are produced in quantities of 5000 yards or less per warp design per month; (v) require no finishing other than calendering or framing after leaving the loom; and (vi) constitute a type not commercially traded in as grey goods.

* * * * *

(21) "Producer" means the person in whose mill grey or colored-yarn goods are woven, and includes any agent of the producer and any person controlling, controlled by, or under common control with the producer.

§ 1400.82 *Appendix A: Maximum prices for finished piece goods.* * * *

(g) *Tables of division factors*—(1) *In general.* * * *

(v) A converter whose production of finished piece goods during the years 1939, 1940 and 1941 consisted predominantly of better cotton wash fabrics which (*a*) are composed 100% of cotton, (*b*) are sold to manufacturers of women's and children's dresses, suits and sportswear and to retail outlets, and (*c*) are of a type that, during the period from August 1, 1941, to September 30, 1941, inclusive, were sold at a price of 27½ cents or more per yard, net after discount, may use Table Ia set forth below with respect to such fabrics: *Provided*, That no converter shall use Table Ia unless, on or before December 15, 1942, he shall have filed his name and address with the Office of Price Administration, Washington, D. C., certifying that he meets the above qualifications, and shall have received written acknowledgment of that fact.

The maximum prices so set forth are based on the widths therein indicated, and shall be reduced or increased in proportion to any reduction or increase in such widths which may be authorized or required by such specifications.

(s) *Restrictions on sales of finished piece goods by producers.* (1) After November 30, 1942, the percentage of the total business of any producer which is represented by sales of finished piece goods to persons other than cutters, manufacturers or retailers shall be no greater than the average percentage of such sales by the producer during the years 1939, 1940 and 1941, or during such part thereof as such sales were regularly made.

(2) The restrictions contained in subparagraph (1) of this paragraph shall not apply to sales of finished piece goods by a producer which are made in fulfilment of

(i) Firm commitments for the sale of such goods entered into prior to December 1, 1942; or

(ii) The requirements of a war procurement agency for such goods, or of a person under contract to supply such goods to a war procurement agency.

(3) Every producer selling finished piece goods shall, on or before December 31, 1942, file his name and address with the Office of Price Administration, Washington, D. C., together with a statement showing the total yardage of goods produced, and the total yardage of finished piece goods sold by him to persons other than cutters, manufacturers and retailers, during each of the years 1939, 1940 and 1941.

*The maximum prices and width bases for goods so marked shall be those established by the most recent of (1) the last contract therefor awarded to the particular seller prior to August 26, 1942, by a war procurement agency, as defined in § 1400.81 (a) (16) of this Maximum Price Regulation No. 127, or (2) the last subcontract therefor awarded to the particular seller prior to August 26, 1942, by a person other than a war procurement agency for use in connection with the performance of a prime contract with such an agency. If the particular seller was not awarded any such contract or subcontract prior to August 26, 1942, then his maximum prices and width bases shall be those established by the earlier of (1) the first contract therefor awarded to the particular seller on or subsequent to August 26, 1942, by a war procurement agency, or (2) the first subcontract therefor awarded to the particular seller on or subsequent to August 26, 1942, by a person other than a war procurement agency for use in connection with the performance of a prime contract with such an agency.

PART 1426—WOOD PRESERVATION AND PRIMARY FOREST PRODUCTS

[Rev. MPR 218[1]]

CENTRAL APPALACHIAN WOODEN MINE MATERIALS AND INDUSTRIAL BLOCKING

The title and preamble are amended and §§ 1426.51 to 1426.62 inclusive, are renumbered and amended to read as set forth herein:

In the judgment of the Price Administrator all mine timber and industrial blocking produced in the Central Appalachian region should be placed under one specific dollars and cents maximum price regulation. In issuing this Revised Maximum Price Regulation No. 218 the Price Administrator has ascertained and given due consideration to the prices of Central Appalachian wooden mine materials and industrial blocking prevailing between October 1 and October 15, 1941 and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability.

---

[1] 7 F.R. 7149, 7367, 8948.

So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, and Executive Order No. 9250, Revised Maximum Price Regulation No. 218—Central Appalachian Wooden Mine Materials and Industrial Blocking, is hereby issued.

Sec.

AUTHORITY: §§ 1426.51 to 1426.62, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1426.51 *Sales of Central Appalachian wooden mine materials and industrial blocking at higher than maximum prices prohibited.* (a) On and after December 1, 1942, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any Central Appalachian wooden mine materials or industrial blocking at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

§ 1426.52 *To what transactions, products, and persons this regulation applies*—(a) *What transactions are covered.* This regulation covers all sales and deliveries of Central Appalachian wooden mine materials and industrial blocking whether made by mills or producers, by wholesalers or commission men, or by any other persons.

(b) *What products are covered.*—This regulation covers all wooden mine materials and industrial blocking produced in the states of Ohio, West Virginia, Virginia, Maryland, Pennsylvania and New York, whether treated or untreated.

"Wooden mine materials" means any ties, switch ties, cross bars, cribbing blocks, post caps, wedges, car lumber, or pit posts used in mines.

"Industrial blocking" means mixed hardwoods that are sawn to specified sizes, and that are of a grade meeting the requirements of steel mills and other users, for blocking and bracing their products in shipment.

(c) *What persons are covered.* Any person selling Central Appalachian wooden mine materials or industrial blocking as defined above is subject to the regulation The term "person" includes any individual, corporation, partnership, association, or any other organized group; their legal successors or representatives; the United States, any government, or any of its political subdivisions; or any agency of the foregoing.

§ 1426.53 *Maximum prices.* The maximum prices for untreated material, except for pit posts, are f. o. b. the railroad loading-out point nearest to the mill in the direction of the normal route of shipment to destination. The maximum prices for pit posts are delivered to the buyer's mine.

The maximum prices for treated mine material are f. o. b. the treating plant, unless the material is brought in and shipped out on a treating-in-transit rate, in which case the prices are f. o. b. the loading-out point for the untreated ties which were brought in.

The maximum prices are as follows:

(a) *Mine ties and mine switch ties* (mixed oak and hardwoods).

	Per M'BM
All sizes up to and including 6″ x 7″	$29.00
All sizes 6″ x 8″ and larger	31.00

(b) *Cross bars* (mixed oak and hardwoods).

	Per M'BM
All sizes up to and including 6″ x 7″	$29.00
All sizes 6″ x 8″ and larger	31.00

(c) *Short mine material* (mixed oak and hardwoods).

	Per M'BM
Cribbing blocks, all sizes up to and including 6″ x 7″	$32.00
Post caps, all sizes up to and including 6″ x 7″	32.00
Wedges, to specifications	40.00

(d) *Mine car lumber* (white oak and/or red oak).

	Per M'BM
All sizes	$35.00
For surfacing and working to pattern add	6.00

(e) *Industrial blocking* (mixed oak and hardwoods).

	Per M'BM
All sizes up to and including 6″ x 7″	$29.00
All sizes 6″ x 8″ and larger	31.00
When buyer specifies shorter than 3′ add	3.00

(g) *Treated mine material.* The maximum price for treated mine material is the maximum price for the untreated material as set forth above, plus a charge for treating calculated in accordance with the pricing formula in use by the treating plant in March, 1942. The use of this addition is conditional on the filing of the pricing formula with the Office of Price Administration, Washington, D. C., within fifteen days after the first use of a price based on the formula.

§ 1426.54 *How to figure delivered prices*—(a) *General.* The transportation additions set forth below may be added to the maximum f. o. b. rail loading-out point prices in the preceding section. Of course, no addition for transportation may be made to the prices on pit posts, since they are already on a delivered basis.

(b) *Transportation addition.* (1) No matter how delivery is made, whether by rail, private trucking, contract or common carrier trucking, or any combination of these, the only permissible addition for delivery is the weight of the material times the applicable carload freight rate from the nearest rail loading-out point in the direction of shipment to destination.

(2) The final delivered price may be evened out to the nearest quarter of a dollar per M'BM.

(3) The following estimated weights may be used; higher estimated weights may not be used:

	Green	Dry
	Lbs. per M'BM.	*Lbs. per M'BM.*
Mixed hardwoods mine material	5,400	3,900
White oak and/or red oak mine car lumber	5,500	4,000
Mixed hardwoods industrial blocking	5,400	3,900

§ 1426.55 *What the invoice must contain*—(a) *Basic price.* All invoices must show a complete description of the material sold, the quantity and the price.

---

*Copies may be obtained from the Office of Price Administration.

subsequent to August 26, 1942, by a person other than a war procurement agency for use in connection with the performance of a prime contract with such an agency.

[7] 7 F.R. 7149, 7367, 8948.

(b) *Delivered price.* In the case of sales on a delivered basis, the invoice must show the name of the nearest railroad loading-out point in the direction of the normal route of shipment, the destination, the weight of the material, and the applicable carload freight rate. The amount added for delivery must be shown separately.

(c) *Treated material.* When treated material is sold, the invoice must show separately the charge added for treating.

§ 1426.56 *Prohibited practices* — (a) *General.* Any practice which is a device to obtain the effect of a higher-than-ceiling price without actually raising the price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, and the like.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Obtaining the effect of a higher price by changing credit practices or cash discounts from what they were in October 1941. This includes reducing the cash discount period, decreasing credit periods, or making greater charges for extension of credit.

(2) Grading as a special grade material which is normally graded by the seller as a standard grade; or wrongly grading or invoicing in any other way.

(3) Refusing to sell on an f. o. b. loading-out point basis, and insisting on selling on a delivered basis.

(4) Quoting a gross price above the maximum price even if accompanied by a discount the effect of which is to bring the net price below the maximum price.

(c) *Purchasing commissions.* No purchasing commission based on the quantity or value of material purchased may be charged or paid, if the commission plus the purchase price is an amount over the maximum price.

(d) *Adjustable pricing.* A price may not be made adjustable to the maximum price which will be in effect after delivery has been completed. But the price may be adjustable to the maximum price in effect at the time of delivery.

§ 1426.57 *Grades, specifications, and extras not specifically priced.* All grades and specifications of ties, switch ties, cross bars, cribbing blocks, post caps, wedges, car lumber, or pit posts, used in mines, or of industrial blocking are subject to this regulation, whether they are specifically priced or not.

The maximum price for grades, specifications, and extras not specifically priced is a price which bears the October 1941 relation to the price of the appropriate "yardstick" grade. The yardstick for mine materials is 3'' x 5'' mine ties, and for industrial blocking is 4'' x 4'' industrial blocking. The seller should find the difference between the price received for the grade being priced and the yardstick grade in October 1941, or the first month before that in which he had sales of both grades. This difference is then added to or subtracted from the maximum price for the yardstick grade. The result is the seller's maximum price. This price, with a complete description of the grade and the way the price was computed must be reported to the Office of Price Administration, Washington, D. C. The price may be ordered reduced, if it is found excessive. But if the price is not disapproved within 30 days of the receipt of the report, it is approved. If the seller cannot figure a maximum price under this paragraph, or if he wants to make an addition for a working, specification, service, or other extra which is not specifically provided for, he should write to the Lumber Branch of the Office of Price Administration, Washington, D. C., giving a complete description of the thing to be priced, and his requested price, and any facts supporting the request. The Office of Price Administration will then by letter give him either a specific maximum price or instructions on how to compute it.

A seller using this pricing paragraph can go ahead with delivery of the material and collection of the price he has computed or requested. But he must tell the buyer that the price is subject to revision within the thirty-day period, and, if the price is ordered reduced, must refund any excess over the final approved price.

§ 1426.58 *Petitions for adjustment or amendment*—(a) *Government contracts.* (1) The term "government contract" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 1, 1941, entitled "An Act to promote the defense of the United States". It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price in this regulation is impeding or threatens to impede production of material which is essential to the war program and which is or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6, issued by the Office of Price Administration.

(3) As soon as the application is filed, contracts, deliveries, and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must tell the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

§ 1426.59 *Records and reports*—(a) *Records.* All sellers of Central Appalachian wooden mine materials or industrial blocking must keep records which will show a complete description of the item sold, the name and address of the buyer, the date of the sale, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought one thousand dollars worth, or more, of Central Appalachian wooden mine materials or industrial blocking. They must be kept for two years, for inspection by the Office of Price Administration. Any records which the Office of Price Administration later requires must also be kept.

(b) *Reports.* Any reports that the Office of Price Administration requires must be submitted.

§ 1426.60 *Enforcement and Licensing.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. "War procurement agencies" include the War Department, the Department of the Navy, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) All sellers of Central Appalachian wooden mine materials and industrial blocking covered by this regulation, except mills, have been licensed by Supplementary Order No. 18 A "mill" means a person the major part of whose business consists of producing lumber or lumber products, including wooden mine materials or industrial blocking. This order, in brief, provides that a license is necessary, except for mills, to make sales under this regulation. A license is automatically granted to all sellers required to be licensed. It is not necessary to apply specially for the license, but a registration may later be required. The Emergency Price Control Act of 1942 and Supplementary Order 18 explain the circumstances under which licenses may be suspended. A license cannot be transferred.

§ 1426.61 *Relation to other regulations*—(a) *General Maximum Price Regulation.*[3] Any sale or delivery covered by this Revised Maximum Price Regulation 218 is not subject to the General Maximum Price Regulation.

(b) *Specific hardwood lumber maximum price regulations.* The provisions of this Revised Maximum Price Regulation 218 supersede the provisions of Maximum Price Regulation 155[4] Central Hardwood Lumber, Maximum Price Regulation 146[5]—Appalachian Hardwood Lumber and Maximum Price Regulation 97[6]—Southern Hardwood Lumber as to sales of Central Appalachian wooden mine materials and industrial blocking produced in regions covered by those regulations. All specific prices for Central Appalachian wooden mine materials and industrial blocking authorized for particular mills under the special grade provisions of Maximum Price Regulation 155, Maximum Price Regulation 146, or Maximum Price Regulation 97, are hereby revoked, and are superseded by the maximum price established by this Revised Maximum Price Regulation 218.

(c) *Maximum Export Price Regulation.*[7] The maximum prices for export sales of Central Appalachian wooden mine materials and industrial blocking are governed by the Maximum Export Price Regulation.

§ 1426.62 *Effective date.* (a) Revised Maximum Price Regulation No. 218 (§§ 1426.51 to 1426.62 inclusive) shall become effective December 1, 1942.

(b) If Central Appalachian wooden mine materials or industrial blocking has been received before December 1, 1942, by a carrier, other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this Revised Maximum Price Regulation No. 218. It remains subject to the terms of any regulation (whether the General Maximum Price Regulation, a specific hardwood regulation, or the earlier version of this regulation) which covered it at the time the material was turned over to the carrier.

Issued this 25th day of November 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 2 Under Supp. Reg. 15 of GMPR]

UNITED PARCEL SERVICE OF NEW YORK, ET AL.

Order No. 2 under § 1499.75 (a) (3) of Supplementary Regulation No. 15, of the General Maximum Price Regulation—Docket No. GF1-346-P.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1302 *Adjustment of maximum prices for contract carrier services sold by United Parcel Service of New York, Inc., United Parcel Service of Pennsylvania, Inc., United Parcel Service of Illinois, Inc., United Parcel Service of Milwaukee, United Parcel Service of Cincinnati, Inc., United Parcel Service of Los Angeles, Inc., United Parcel Service of San Francisco, United Parcel Service Bay District, United Parcel Service of Portland, United Parcel Service of Seattle.* (a) United Parcel Service of New York, Inc., United Parcel Service of Pennsylvania, Inc., United Parcel Service of Illinois, Inc., United Parcel Service, of Milwaukee, United Parcel Service of Cincinnati, Inc., United Parcel Service of Los Angeles, Inc., United Parcel Service of San Francisco, United Parcel Service Bay District, United Parcel Service of Portland, United Parcel Service of Seattle, hereinafter called petitioners, may sell and deliver, and any department store or specialty shop may buy and receive from any of said petitioners, contract carrier services at prices not higher than those resulting from the application of the appropriate pricing method set forth below:

(1) *Where charges are determined by formula* — (i) *Department stores* — (*a*) *Furniture delivery service.* The charges by any petitioner for furniture delivery service to any department store for any contract year shall not exceed the highest charges which would be produced by application, on a quarterly basis, of any formula in effect during March, 1942, for furniture delivery service for a department store served by the particular petitioner.

(*b*) *Package delivery and other contract carrier services.* The charges by any petitioner for package delivery and other contract carrier service to any department store for any contract year shall not exceed the highest charges which would be produced by application, on a quarterly basis, of a formula in effect during March, 1942, for package delivery and other contract carrier service for a department store served by the particular petitioner.

(ii) *Specialty shops.* The charges by any petitioner for contract carrier service to any specialty shop for any contract year shall not exceed the highest charges which would be produced by application, on a quarterly basis, of any formula in effect during March, 1942, for a specialty shop served by the particular petitioner.

(2) *Where charges are determined by fixed price per unit.* The price per unit charged to any department store or specialty shop for contract carrier service for any contract year shall not exceed the price per unit for such service for such department store or specialty shop during March, 1942, as increased by a percentage computed as follows: the price per unit resulting from application of the ceiling formula provided in (1) (i) (*b*) above to the deliveries of such department store or specialty shop during the quarter immediately preceding the beginning of the contract year in question shall be compared with the price per unit resulting from application of such formula to the deliveries of such department store or specialty shop during the quarter immediately preceding the effective date of the contract in effect during March, 1942, and the percentage of increase, if any, shall be determined. However, in no event shall the price per unit charged to such department store or specialty shop exceed the highest price per unit in effect during March, 1942, for any department store or specialty shop served by the particular petitioner.
